

COURT GIVES FINAL BLOW TO BOARD OF TRADE "CORNERS"

Appellate Division Sustains Injunction Granted By Chytraus.

Chicago Board of Trade Restrained From Paying Margins.

Settling Price of July Oat Corner Was Fictitious.

Chicago, Jan. 8.—The appellate court today, in a sweeping decision, sustained the injunction issued by Judge Chytraus against eight board of trade members, charged with operating a "corner," and sustaining the contention against the "cornering" of the market.

The court holds that under the laws of the state, dealers cannot be forced to settle trades upon the basis of an artificial value created by the cornering of the market, and that margins deposited in banks or elsewhere by the board of trade, in order to secure the right of delivery, are not enforceable.

The decision makes a distinction between questions touching the disciplinary rights of the board, in which the latter has repeatedly been held to be sovereign, and questions of property rights, and holds that disputes between members involving finances can, if secured by other party, be submitted to the courts for decision.

The case of Walter, Thorburn & Co. against the board of trade was the principal suit, upon which the others were based, and which resulted in the securing of an injunction against the board. This firm had sold oats for July delivery. The price advanced and the market was cornered and that the settling price insisted upon was fictitious. An injunction was granted against the board of trade, and the payment of margins deposited in the bank. The decision created a future on the board at the time. It is said there are forty cases depending upon this decision of the appellate court.

INDEPENDENT

Steel Interests to Form Combine For Mutual Protection.

Pittsburg, Jan. 8.—The Chronicle-Telegraph will say: The result of the secret meeting of independent sheet and tin plate interests held here last week, has just leaked out. At the time it was announced that the meeting was to consider plans for protection of manufacturing concerns outside the United States steel companies.

Mr. A. P. Baumgartner, secretary of the association, suggested a plan which included would make the members entirely independent as to raw material.

It is proposed to acquire all the independent interests, secure ore lands, coke and steam coal properties, build furnaces and a large Bessemer steel plant, to furnish steel to the finishing mills of the association. The project was looked upon with favor and a committee was appointed to prepare plans for the cost of erecting the necessary blast furnaces and to report another meeting of the independent plate and sheet plants of the country to be called to consider plans for the enterprise.

IN MISSOURI.

Assembly Organizes and Hears Message of Gov. Dockery.

Jefferson City, Mo., Jan. 8.—The forty-second general assembly today organized with Thomas T. Rutley as president pro tem of the senate and J. H. Whitecotton speaker of the house.

The message of Governor Alexander M. Dockery to the forty-second general assembly was presented and read in the house today, after organization had been effected. It related almost wholly to matters of state interest.

The condition of the state treasury was declared to be most satisfactory. For the two years ending Jan. 2, 1902, the total income of the treasury from all sources was \$10,000,000, with disbursements of \$8,000,000. The balance at this time is \$2,000,000. The state has been reduced \$3,000,000 during the present administration, the outstanding debt being only \$28,000 at this time. In addition to the reduction of the principal of the debt, \$200,000 has been applied to meet interest on the bonded debt and school certificates.

The people of the state are to be congratulated, says the governor, "that the last of the outstanding bonds will soon be paid. Thirty years ago the bonded indebtedness was \$21,000,000."

In addition to the payment of the outstanding bonds, Missouri has set apart \$100,000 from the sinking fund to meet the requirements of the World's fair appropriation.

In view of the coming Louisiana purchase exposition, that the appropriation for the support of the national guard be largely increased.

TO BUY TWO STEAMERS.

Laredo, Tex., Jan. 8.—The Kansas City, Mexico & Orient railroad company has completed a contract for the purchase of two steamers to ply between ports on the Pacific coast and Mexico. The steamers will fly the Mexican flag.

BANK OF LOUISVILLE ROBBED.

Louisville, Neb., Jan. 8.—The Bank of Louisville was broken into and robbed of \$120,000 early today. The robbers drilled into the safe from the rear, avoiding the burglar alarm. There is no clue.

FIGHTING THE PLAGUE

Every Precaution Is Being Taken In Mexican Cities to Prevent the Spread of the Dread Disease.

Tucson, Ariz., Jan. 8.—Information to the Star from the office of the secretary of state of Sonora, concerning the plague situation, is as follows: The strictest quarantine is maintained at Guaymas against Mazatlan. A cordon of soldiers has been established from tide-water on the boundary line between the states of Sonora and Sinaloa, the soldiers being stationed within sight of each other along the entire distance, with instructions to shoot anyone endeavoring to pass the line. The strictest kind of patrol is kept along the coast. No passports are issued to ships to clear from Guaymas and no ships are allowed to enter from any port. Guaymas is depending entirely on her own resources for subsistence.

The most thorough system of fumigation and sanitary regulations has been adopted. Litter and refuse are swept daily to the poor people and the streets and yards are cleaned daily. Governor Izabel has been placed in

complete charge by the federal government. Governor Izabel brands the reports of the last few days to the effect that the plague has secured a foothold in Guaymas or any of the border towns between Guaymas and Sinaloa as false.

Washington, Jan. 8.—A dispatch has been received from the public health and marine hospital service from the board of health at Mazatlan, Ariz., calling attention to the existence of bubonic plague in Mexico and to the necessity of steps being taken to prevent its spread into Arizona. The president of the board of health of Mexico has officially announced to the authorities in Mazatlan that the plague exists at Ensenada and Matanzas, Mex., and has requested the service to notify the bureau of health service to notify the bureau of American republics that the Southern American countries through them may be informed.

Dr. Grubb, a medical representative of the public health and marine hospital service, now at Los Angeles, who has been investigating the situation at Mazatlan, and Dr. Alexander, the representative at Ensenada, have been directed by the surgeon general to take any necessary action in the matter.

CASTRO IS MORE DOCILE

Minister Bowen Forwards Another Reply In Which President Expresses Willingness That Dispute Shall Be Arbitrated at The Hague.

Washington, Jan. 8.—Minister Bowen transmitted to the state department today another reply from President Castro touching the arbitration proposals. As heretofore President Castro expresses willingness to submit the matter to arbitration, and in addition to his former communication he is now willing to recognize the propriety of submitting the claims referred to in the

British and German note to The Hague, something that he had not up to this point been willing to do. Some details remain to be arranged before the dispute, which is the appointment of commissioners, can be taken up, and it is not yet known how Castro will receive demands still insisted upon by the allies for a money payment, and how he will view the rejection of his own proposal for the immediate withdrawal of the blockade as conditions precedent.

BLIZZARD IN KENTUCKY

Worst of Its Kind Raged Over an Extended Section, Suspending Traffic and Doing Considerable Damage.

Maysville, Ky., Jan. 8.—A blizzard exceeding anything of the kind for years raged here last night. Snow fell to such a depth as to temporarily suspend street car traffic, while in many places the wind blew the snow into drifts of several feet deep.

Louisville, Jan. 8.—The blizzard conditions which prevailed yesterday and last night in Kentucky and Tennessee are in evidence today, although with diminished force in East Tennessee, North Carolina and along the Atlantic coast. The snow is covered the Mississippi river, and freezing temperatures tend to the southern half of the cotton belt. Snow fell all night in the mountains of East Tennessee and Western North Carolina, and train service through the mountains is hampered.

All trains from the North were late arriving in Louisville this morning, both the Monon and the Four Chicago trains being reported four hours behind time. South of Louisville the railroads experienced no delay, as the snowfall was light. The temperatures in Louisville at noon was 20 degrees, with the forecast for continued snow.

Telegraphic communication was much impeded all through the South.

FAVOR MORRIS FOR JUDGE

Washington, Jan. 8.—(Special to The Herald.)—Representative McCleary said this morning that he is receiving numerous letters from constituents and that in his district complimentary to Judge Morris in his ambitions to become United States district judge. Mr. McCleary said that other members of the delegation were also receiving letters of a similar character, and that when time arrives he will lay these he has received before the president.

APPOINTMENTS BY GOV. BLISS

Lansing, Mich., Jan. 8.—Governor Bliss will send the following nominations to the senate this afternoon: Railroad commissioner, Theron E. Atwood, of Tuscola; banking commissioner, George W. Moore, St. Clair; insurance commissioner, James V. Barry, Ingham; labor commissioner, Scott Griswold, Kent; dairy and food commissioner, Alfred W. Smith, Lenawee; salt inspector, John Porter, Saginaw; tax commissioner, A. P. Freeman, Washtenaw (all term); tax commissioner, to fill vacancy, James J. Mackay, Washtenaw. The remainder of the governor's appointments will be withheld until next week.

MONEY WAS READY FOR ALL

Schenectady, N. Y., Jan. 8.—Because of a misapprehension regarding the recently issued report of the state superintendent of banks, Kilburn, there was a run today on the Schenectady Savings bank, one of the most and most conservative banking institutions in the state. Scores of foreigners with

drawn their money from the bank today when the door of the bank was opened. There was a large crowd of excited foreigners, who demanded their deposits. The bank was prepared and they were promptly paid. At noon every one had received what was demanded. The true situation was explained and gradually the run decreased.

women took up a quarrel in which their children became involved. The quarrel was broken up by a policeman who was called. The women were taken to the police station. The children were taken to the orphanage.

MCCORMICK IS INSANE.

Sacramento, Cal., Jan. 8.—William F. McCormick, one of the best known horsemen in the United States, has been brought from Escondido prison enroute to the state hospital for the insane at Napa. McCormick was sent to Escondido on May 16 for a term of five years for the murder of Thomas Cullen, a stable boy, employed on the Rancho Del Paso, where McCormick was a trainer.

MRS. BROWN ACQUITTED.

Terre Haute, Ind., Jan. 8.—Mrs. Mary Kane Brown, who had been charged with murdering Mrs. W. F. McDonald, was acquitted this morning. The jury found her not guilty.

WANT NEW DIRECTOR

Movement to Have J. L. Washburn on Normal Board.

Would See That Interests of Duluth Were Protected.

Governor to Be Asked to Make the Appointment.

(From a Staff Correspondent.)

St. Paul, Jan. 8.—(Special to The Herald.)—A strong effort is to be made to have J. L. Washburn, of Duluth, appointed to a place on the state normal board, in order that the Duluth school may be properly represented there by a man who will see that it gets justice. The Duluth delegation in the legislature, at the urgent request of a number of Duluth citizens, has taken the matter up, and the committee, headed by Senator Fugh, will wait on Governor Van Sant this afternoon or tomorrow morning in the interests of this movement. An attempt will be made to have Mr. Washburn appointed to fill the place left vacant by the recent death of J. C. North, of Ada, a member of the normal board. This vacancy has not yet been filled.

The movement to have Mr. Washburn put on the board antedates the creation of this vacancy, however. It has been a matter of common knowledge in Duluth for some time that W. F. Phelps, who has been the so-called resident director of the board for some time, has not been entirely satisfactory. He has been at odds with the other members of the board, and in the faculty of the Duluth school, and this condition, as well as other matters, have combined to give him a bad name in Duluth. He has lately left Minneapolis. His recommendations as to appropriations for the Duluth school are said by those in a position to know to be utterly inadequate, and in order to get what is needed for the school at this session it will be necessary to go over his head and oppose him, as he still urges for a small appropriation.

For some time there has been a quiet movement among the citizens of Duluth to procure the retirement of Professor Phelps from the board, and the end of this movement has been to get Mr. Washburn appointed in his place. Mr. Washburn, it is understood, has had no idea of this, and by a curious coincidence a letter arrived this morning, addressed to a vacancy in the board and suggesting another person to fill it. While the Duluth members have no objection whatever to the man mentioned by Mr. Washburn, they are working for the latter, and they are backed up by strong representations from Duluth, as well as the common feeling that no more competent man could be found for the place than Mr. Washburn.

STILLMAN H. BINGHAM.

NOT SO.

Standard Oil Company Does Not Own Beaumont Fields.

New York, Jan. 8.—The Standard Oil company authorizes the statement that it does not own or control any part of the Beaumont oil field in Texas, or the Jennings field in Louisiana, and has never sought to do so.

BURGHERS

Draft an Address on Needs of the Transvaal.

Pretoria, Transvaal, Jan. 8.—An influential meeting of burghers yesterday drafted an address for the Transvaal Legislative assembly, embodying the views of the burghers on the needs of the Transvaal. The address, which was adopted by a large majority, is a strong plea for the improvement of the Transvaal, and the abolition of the importation of cattle by the natives, and the sale of the burghers to the Transvaal government. The address also urges the necessity for a moderate attitude on the part of the Transvaal government towards the Boers.

EMPLOYEES TAKE STOCK.

New York, Jan. 8.—Sixty thousand of the twenty-five thousand shares allotted by the United States Steel company to its employees in its profit-sharing plan, have already been subscribed for. J. Pierpont Morgan says he expects the remainder of the shares to be subscribed within a few weeks.

FIRE AT CLEVELAND.

Cleveland, Jan. 8.—A fire early this morning partially destroyed the Central building of the Young Men's Christian Association, at the corner of Prospect and Erie streets. The losses to the association are estimated at \$100,000. The building was insured by the Commercial Union Assurance Co. of New York. The fire originated in the kitchen.

SCHWAB HAS RECEIVED.

New York, Jan. 8.—Joseph E. Schwab, who returned recently from a visit abroad, has been received by the United States early in March and resume his duties as head of the big steel combination.

FLOOD OF BILLS STARTS HOUSE FIGHT ON RULES

STORM WAS TERRIFIC

Gales at Colon Caused Great Damage to the City and to the Shipping Lying In the Harbor.

New York, Jan. 8.—According to the Herald's Colon correspondent the storm which struck that city Tuesday night was terrific and when it had passed the streets were strewn with wreckage. The Christopher Columbus and other steamers that had been snugly berthed in their docks were tossed about in the high sea that was soon lashed up in the bay. All steamers and craft of large proportions immediately weighed anchor and left their wharves and put to sea to escape the fury of the gale. Sailing craft scudded across the harbor under bare poles, seeking safety inside the canal. It was an exceedingly difficult and perilous trip, the skippers of these craft experienced, as in the rush for refuge in the canal several collisions were narrowly averted.

All along the water front the streets were inundated. The wind forced the water over the wharves and embankments, and the few night pedestrians hurriedly sought safety further in the city. The heavy downpour of rain which accompanied the gale choked the gutters which were unable to empty into the sea because of the water driven up by the wind.

RID OF PARALLEL LINE

Harriman Makes an Alliance With Senator Clark and Proposed Road From Los Angeles to San Francisco Goes Glimmering.

San Francisco, Jan. 8.—The Examiner says: By making an alliance with Senator Clark of Montana, E. H. Harriman leaves Prince Pointowski's projected railroad from Los Angeles to San Francisco in the air, and neutralizes the danger of a possible combination between Pointowski, Clark and the Gould railroad systems. The Clark corporation has agreed to buy from Harriman 200 miles of road, part of the Oregon Short Line running southward from Salt Lake to a point in northeastern Nevada. This deal is to be closed in New York within a few days.

Clark gets rid of a parallel line which Harriman was arranging to build. On the other hand, Harriman has an understanding with Mr. Clark, so it is said, by which Gould is shut out from part ownership in the road projected by Prince Pointowski from San Francisco to Los Angeles, to connect with the Clark system.

Owning the three hundred miles of the Oregon Short Line, Clark still will have about four hundred miles to build in the surveys are made and construction is in progress. As the story runs, Clark is to pay Prince Pointowski \$100,000 for the 200 miles. Harriman and his friends are to accept bonds of the Clark company.

WHEN GIRLS ARE FRAUDS

Chicago Divine Talks Plainly Concerning Young Womanhood at a Meeting of the National Housewives.

Chicago, Jan. 8.—"A girl who cannot make and bake bread, compound a pudding and wash and iron her own shirtwaist, is a fraud upon young American womanhood," declared the Rev. Jenkin Lloyd Jones before the National Housewives' association at their meeting yesterday. And, you mothers and housewives, are to blame for the common feeling that no more competent man could be found for the place than Mr. Washburn.

WILL SOON BE RELIEVED

Passengers Who Are Still Tied Up In the Mountains on the Northern Pacific Will Soon Get Through.

Tacoma, Jan. 8.—The flood situation so far as the Northern Pacific is concerned, is practically the same as reported Tuesday. A large force of men are at work with pile drivers on the main line between Palmer Junction and Lester. Another gang is at work on the big bridge at Martin, and still other gangs are at work at various places along the line.

Until its line is cleared the Northern Pacific will run all trains via Portland and the O. R. & N.

PEARY WILLING TO TRY AGAIN

New York, Jan. 8.—Despite the fact that he recently announced his intention of never again attempting to find the North Pole, Lieut. Robert E. Peary, the Arctic explorer, according to a Philadelphia dispatch to the North, declared at the conclusion of a lecture upon his last journey to the far North, delivered before the Philadelphia Geographical society, that, provided any one would place \$100,000 at his disposal, he would be willing to undertake another expedition next summer in a final endeavor to reach the pole. He said that he believed the discovery of the pole was practicable, although it was his opinion that there was no land, and that the pole could be reached by the man who could secure a footing on the northern shore of Grinnell Land, with proper supplies to enable him to make "a dash across the ice pack." He expressed his belief that he would reach the pole during his last expedition.

COAL IS HIGHER IN NEW YORK

New York, Jan. 8.—The price of coal has been advanced to \$9.50 as a minimum and some anthracite has been sold as high as \$12.50. A number of large dealers have consulted over the situation and it is probable that a meeting will be held today to promulgate a schedule of retail prices. The independent operators met in this city and agreed not to sell coal at less than \$10 a ton to the dealers. The coal roads, it was said by some of their officials will continue to sell coal at \$5 a ton.

SIX LIENS ON GOULD'S HOUSE

New York, Jan. 8.—Six liens aggregating nearly \$50,000 have been filed at Hempstead, L. I., against Castle Gould, the country seat that Howard Gould is building at Sands Point, Port Washington, near Long Island sound. The contractors who filed the liens refuse to explain their reasons until the case is brought in the Nassau county court. Mr. Gould has trouble with workmen last autumn and had deputy sheriffs to keep walking delegates off his property.

Report Increased House Appointive Positions By Three.

State Administration Is Still Sore Over Its Defeat.

Rumor That It Will Get Even Through Vetoes.

(From a Staff Correspondent.)

St. Paul, Jan. 8.—(Special to The Herald.)—The senate was in session thirteen minutes this morning, and the house took an hour and a half to do about the same amount of work, after which both houses adjourned to Monday evening at 8 o'clock. The reason the house took longer was that there was a little fight over amendments to the rules. The rules committee reported the rules of the last house with one or two minor changes. One applied to the number of appointive offices in the house and it increased the positions by about three. There was a fight on this led by Mr. Haugland, of Montevideo, who regarded this as something of an extravagance. It was explained, however, that it had been customary in the past to add a number of employees in addition to those provided for by the rule, and that the amendment would simply get the whole matter out of the way on the start.

The amendment carried. Four bills were introduced in the house. The two most important ones, by Gaudrud and Haugland, provide that the amendments to the state constitution, when presented to voters, shall be printed on separate ballots and printed in full. Gaudrud also presented a bill restoring the amendment permitting the investment of state school funds in local bonds. The amendments to the state constitution, when presented to voters, shall be printed on separate ballots and printed in full. Gaudrud also presented a bill restoring the amendment permitting the investment of state school funds in local bonds. The amendments to the state constitution, when presented to voters, shall be printed on separate ballots and printed in full. Gaudrud also presented a bill restoring the amendment permitting the investment of state school funds in local bonds.

Senator Wilson introduced in the senate a bill restoring the amendments to the constitution. The bill reads exactly as the one that was turned down at the late election. Gen. Wilson explained that he introduced it in that form simply to get the matter before the legislature. Senator Dunn introduced a bill providing for a bounty for tree planting, giving \$3 per acre, per year, to anybody who plants and maintains from one to ten acres of forest trees. The bill carries an appropriation of \$50,000.

Senator Dunn introduced a bill providing that in cities of 50,000 or more, the park boards may use the money received in the operation of parks in the improvement and maintenance of the same. Senator Gjertsen introduced a bill amending the soldiers' home act. Speaker Babcock announced the following appointments: Reading clerk, John T. Jones; speaker's clerk, W. V. Verry; file clerk, F. M. Vrabec; stenographer, Ethel Thaxter.

There were numerous corrections when the house committee on mileage submitted its report today of the allowance to each member, but most of them were quite small. O'Leighlin had an unprecedented thing by saying that his mileage was reported to be high. It should have been 120, and was reported 230 miles. Representative Norman's mileage was also reduced from 120 to 100 miles.

STILLMAN H. BINGHAM.

THREATS OF VENGEANCE.

Administration Very Sore Over Its Defeat.

St. Paul, Jan. 8.—(Special to The Herald.)—Is the state administration so sore over its bitter defeat in the matter of the election of a speaker of the house of representatives that it is threatening to get even with those who assisted in its defeat by administering vengeance through the veto power?

This is a question some members of the legislature are asking, and their inquisitive state of mind is due to a most peculiar editorial that appeared in the Minneapolis Times yesterday morning.

This resolves the matter into a question of whether or not the Times speaks by card. The editorial referred to continues the discussion of the speakership contest, and after holding up its hands in horror at the suggestion that it claims is attached to Dr. Babcock, proceeds to felicitate the state on the fact that the veto power was not bought up by the merger roads. Then it continues in this significant vein:

Governor Van Sant, with the convictions that he so solidly buttressed by ballots, will scrutinize with care all measures presented to him for enactment. This scrutiny, we are disposed to believe, will be especially microscopical when directed upon measures which, in defiance of the plainly expressed will of the people of the state, herded themselves into the railway corral. Many a legislator prefers the steaks and fishes of a session, and those who have made this choice need have no complaint at a slim diet henceforth.

This remark very much like a thinly veiled threat that legislators who supported Babcock for speaker will go up against the veto when their bills get to the governor.

In other words, if the Times speaks adversely, the governor is going to turn down the bills of those who failed to recognize his right to organize the legislature according to his wishes, and allow those who conceded him that

TRAIN ROBBERIES FINALLY RUN DOWN BY DETECTIVES

**Held Up a Train at Marcus, Ill., Six Months Ago.
Long and Patient Search
Rewarded at Last.**

La Crosse, Wis., Jan. 9.—Passengers and prisoners on the train they are alleged to have held up six months ago at Marcus, Ill., four men who are believed to be four of the six who robbed the Burlington train at that place, were left at Savanna, Ill., by the train last night and were taken to Mount Carroll, the county seat, where they will be arraigned on the charge of holding up the train. The story of the finding of clues and their subsequent capture is interesting. A Pinkerton detective, Charles White, visited every nook and corner of the Mississippi river between here and the place where the robbery occurred, to find the person of whom the robbers bought the boat, which was found sunken with sand in the river near where they had temporarily buried their booty.

It took him three months, and he was not successful until he reached La Crosse, when, in company with Detective William Lynam of the local force, after two weeks of unremitting work, they located the man from whom the skiff had been purchased. He and his wife went to Chicago on Wednesday night to identify the four alleged robbers. The robbers, so the detective found,

went down river in the skiff, taking four days to make the trip and were joined at Dubuque by two others, who made the party six in number. One of these robbers was a pair of shoes just purchased in Dubuque, and he was the one who was killed and served to identify the gang, and which subsequently led to their capture and arrest in Louisiana a few days ago on another charge.

It develops from the story of one of the robbers, who told the story to a pal, that the dead robber had been killed by their own party. It appears that they had a secret code of signals which they wore to use. The dead robber, in coming around the train, did not give the signal, and was shot by one of the robbers. He was not killed, however, for after the safe had been blown open, and the robbers unmasked the engine, they put the wounded man on board. One of the party said to him: "Can you talk yet?"

He replied, "Yes," whereupon one of the party shot him through the head, killing him instantly. They then had a discussion as to whether to burn the body in the furnace, but decided to throw it out of the engine cab, which they did. They then abandoned the engine and got into the skiff. The skiff was found in the river, and the money and gold were found in the skiff. Several half dollars which fell from the pile of \$20,000 they secured, were found in the skiff.

A JUDGE IS ASSURED

Washington, Jan. 9.—(Special to The Herald).—The house committee on judiciary this morning favorably reported the senate bill providing for an additional United States judge for Minnesota. The committee also agreed to favorably report the bill introduced by Representative Littlefield to expedite suits pending or hereafter to be

brought under the anti-trust law. A favorable report was authorized on the senate bill increasing the salaries of justices of the supreme court and other judges of the United States, with certain amendments which reduce salaries proposed for circuit judges to \$7,000 and district judges to \$6,000. Resolutions of regret were adopted on the retirement of Representative Latham from the committee.

VIRTUALLY RECALLED

Berlin, Jan. 9.—Ambassador Von Holleben's leave of absence from Washington is pretty generally received here as being his virtual recall, due it is said, to the dissatisfaction of the emperor with his arrangement of the ment. The emperor's attitude toward the ambassador is said to be without reserve in important newspapers, and no official denials have yet been forthcoming. It seems that the government feels it was misled, or at least not fully informed by the Washington embassy requesting President Roosevelt's attitude when he was requested to arbitrate the Venezuelan dispute. The opinion is also that Dr. Von Holleben's dispatches regarding the policy of the United States in the Venezuelan business and its attitude toward foreign policy, have been neither adequate nor precise.

A variety of other reasons may have contributed to the lack of confidence in the ambassador. The Vossische Zeitung, for instance, attributed importance to the telegram sent by Emperor William to Mrs. Kipling on March 5, 1899, when Kipling was ill in New York. The

newspaper assumes that Von Holleben counseled the sending of the telegram, and that the emperor, especially since the publication of Kipling's recent poem, "The Powers," feels he was ill advised. Emperor William, when Kipling was ill, wired as follows:

"To Mrs. Kipling: As an enthusiastic admirer of the incomparable works of your husband, I await with anxiety news of his condition. God grant that he may be restored to you and to all who are thankful to him for the heart-moving manner in which he has sung the deeds of our great common ruler."

"WILLIAM, I. R." Dr. Von Holleben's critics also say that he showed an unskillful hand in the great champagne war and in the Witt incident, and also in permitting himself to become the subject of press attacks, even though unjustly. The matter of the statue of Frederick the Great is also mentioned. It is alleged that Dr. Von Holleben ought to have foreseen, and he should have dissuaded the emperor from offering the statue to the United States.

DINNER PARTY SPOILED

Quincy, Ill., Jan. 9.—After stopping since last Saturday at a hotel, posing as a wealthy stockman and lavishly spending money, W. L. Lane, alias Doc Butler, alleged member of the Abington bank robbery gang, was captured at 1 o'clock this morning in an all-night restaurant. At the time of his arrest Lane was giving an after-dinner speech to a small party with whom he had become acquainted through some of the well known people of the city, all believing him to be a rich Texan. The man excited the suspicion of Officer Leahy, while telephoning the Western Union relative to a telegram sent to a Chicago address, and which concerned a shipment made

by Lane of \$20,000. Leahy searched the rogue's gallery after his suspicions were aroused, and found Lane's picture and lengthy record.

Detectives and officers were at once detailed to go in search of the suspect. He was found attending the play, "Tracy the Outlaw," with a party of four, and was kept under close watch until the arrest was made at the restaurant.

Six revolvers held by as many men were thrust into his face and the diners were overwhelmed with consternation. Lane was unarmed. A revolver exactly like the one carried by the other men in the Abington affair, already under arrest, was found in his valise at the Tremont hotel.

Lane will be taken to Galesburg for preliminary trial this evening.

A MONEY LENDER MURDERED

Pittsburg, Jan. 9.—Andrew Overick, proprietor of a Polish boarding house, a broker and a money lender, was found unconscious in Mulberry alley last night with his skull fractured. He never regained consciousness and died today at West Penn hospital. Overick

always carried large sums of money with him, and as his pockets were rifled, watch gone and jewelry missing, the police are inclined to think his murder was made on Mulberry alley. A money lender is suspected and the police are looking for him. Overick was 32 years of age and was regarded as a man of considerable wealth.

LARGEST GAS PLANT IN WORLD

New York, Jan. 9.—Active operations will, it is announced, shortly begin toward the construction of the largest gas plant in the world in the Astoria section of Long Island City. The plant will cover 300 acres, and it will probably take five years to complete its erection, although it is expected that

within two years' time the work will have advanced so far that the first toward the construction of gas in the gigantic plant will be started. More than 500 mechanics and laborers will shortly be put to work. The plans for the plant have been entirely completed. The plant in full operation will employ several thousand men.

GEN. MATOS WILL PROBABLY SUCCEED PRESIDENT CASTRO

The Situation at Venezuela Is Rapidly Growing Worse.

Castro Conceals and Censor Stops All Unfavorable News.

The Resignation of the President Is Publicly Demanded.

New York, Jan. 9.—France probably will join the European powers in the blockade of the Venezuelan coast, says the World's Port of Spain correspondent, for the reason that Venezuela has failed to make the first payment of \$200,000 due on the French claim on Dec. 31. Venezuela also owes the French cable company \$20,000, and the company refuses to extend credit to the government.

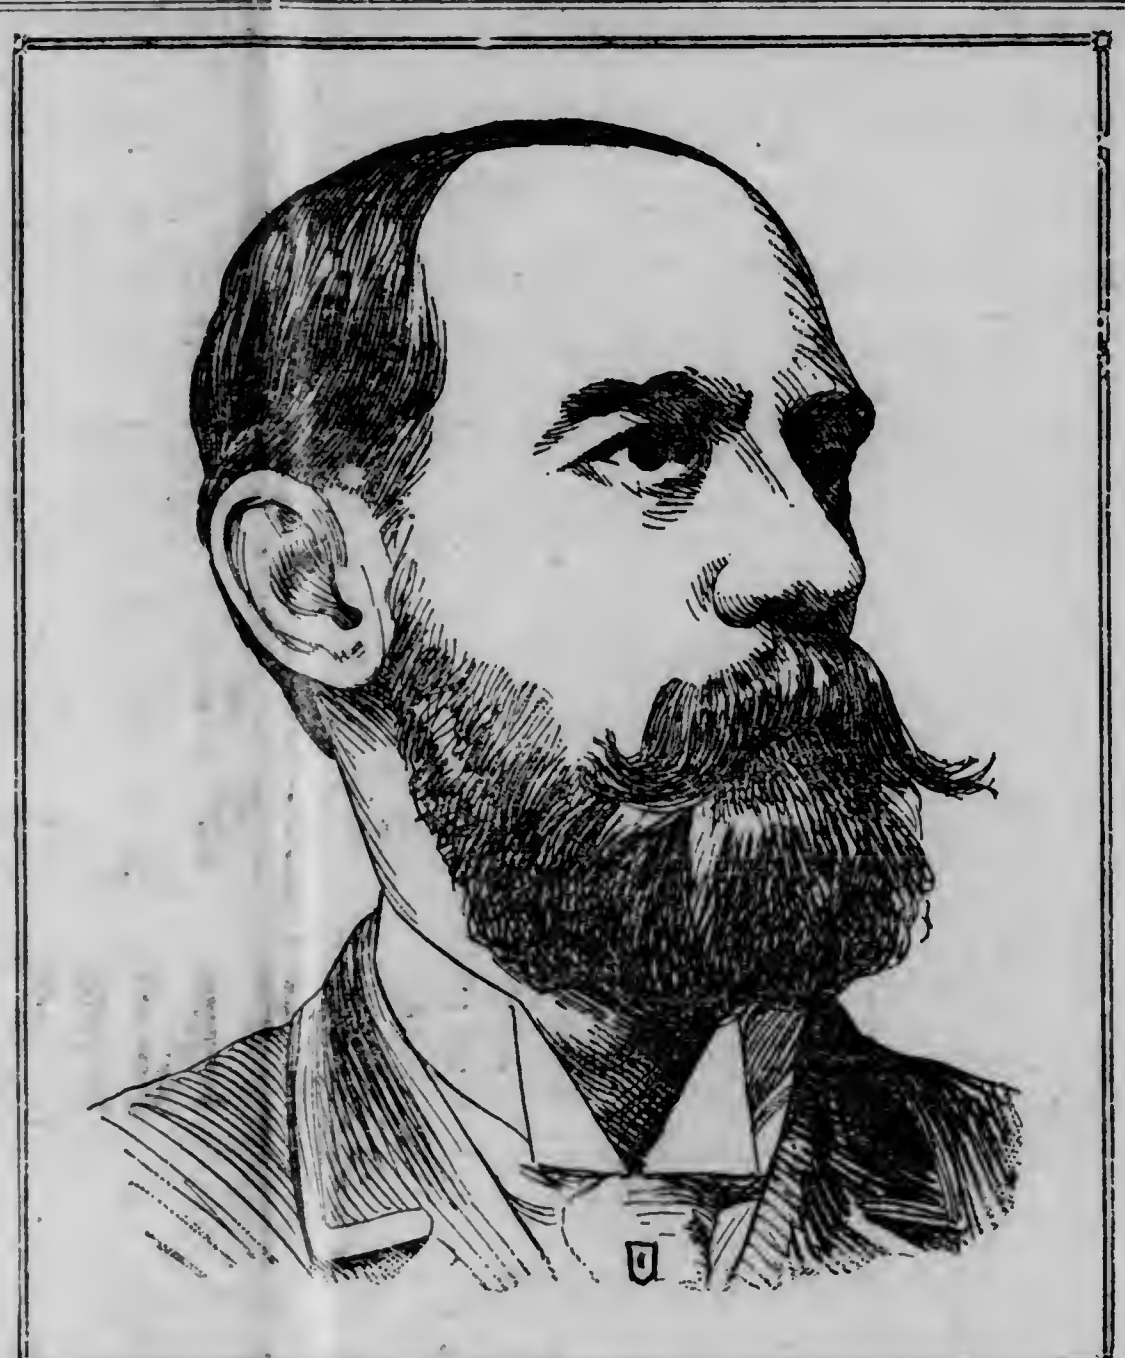

President Castro is deeply incensed. His attempts to borrow money from the Bank of Venezuela have failed. The government already owes that bank \$2,500,000.

President Castro's next step will be to force a loan from the merchants.

The better element in Venezuela is urging him to give up his office. His resignation has been publicly demanded in a speech delivered in the plaza. It is impossible for him to hold power beyond February.

Troops are sleeping in the plazas of the capital in expectation of an attack. The foreign bankers are waiting for a change in the government before negotiating any loan.

Gen. Matos, the leader of the revolution, in a public letter, guarantees a satisfactory settlement with the allies within twenty-four hours after he is inaugurated president of Venezuela. He asserts that Castro delays the settle-

GENERAL MANUEL A. MATOS, LEADER OF THE VENEZUELAN REVOLUTIONISTS.

Matos, who has been keeping President Castro's soldiers busy for many months, is a typical Venezuelan soldier and statesman. He was minister of the treasury under President Andrade when that worthy was routed by Castro and was imprisoned by Castro. It is alleged, because he would not loot the national treasury for him. Matos regained his liberty and started the present revolution.

ment in the hope of uniting the people. There is hunger now and there will be starvation later. Seven hundred idlers at La Guaira have gone to join the revolutionists.

The situation is deplorable. President Castro conceals, and the censor stops, all unfavorable news. There is a rumor that on Friday the allies will cut the cable and then land and seize the custom houses.

THE MAIN OBSTACLE To Getting Mr. Washburn on the Normal Board Is Professor Phelps.

(From a Staff Correspondent.)

St. Paul, Jan. 9.—(Special to The Herald).—The matter of the appointment of J. L. Washburn, of Duluth, as a member of the normal board, is being delayed by the action of the board. A. C. Phelps, who is nominally the resident member, though he has taken up his residence in Minneapolis and has left Duluth, presumably for good, should be retained and Mr. Washburn also be appointed, this would nominally give Duluth two members of the board. The probability seems to be that it will be necessary to retain Professor Phelps, or secure his removal on account of his change of residence, though it is possible that enough pressure may be brought to bear upon the governor to induce him to give Duluth the appointment; to fill the vacancy caused by Mr. Phelps' death. The matter will be pushed, not only by the Duluth delegation in the legislature, but by the citizens of Duluth, who have taken an interest in the new Duluth normal school, and who want to see it properly represented on the board.

The obvious stumbling block in the way of this arrangement is that Duluth is now credited with one member of the board, W. E. Phelps, who is nominally the resident member, though he has taken up his residence in Minneapolis and has left Duluth, presumably for good. Should he be retained and Mr. Washburn also be appointed, this would nominally give Duluth two members of the board. The probability seems to be that it will be necessary to retain Professor Phelps, or secure his removal on account of his change of residence, though it is possible that enough pressure may be brought to bear upon the governor to induce him to give Duluth the appointment; to fill the vacancy caused by Mr. Phelps' death. The matter will be pushed, not only by the Duluth delegation in the legislature, but by the citizens of Duluth, who have taken an interest in the new Duluth normal school, and who want to see it properly represented on the board.

The application for the commutation of the death sentence of Charles E. L. Henderson to life imprisonment will come before the pardon board Monday. If the commutation is not granted by the board, the governor will, within a few days thereafter, fix the date on which Henderson will be hanged.

The bill introduced yesterday in the senate by Senator Dunn, empowering park boards in cities of over 50,000 inhabitants to use money received from the operation of parks in improving the same, is intended solely for Ramsey county, and though in effect it includes Duluth and Minneapolis, it has no bearing in either place. Under the St. Paul charter the general fund gets a share of such money, and the intent of this bill is to correct that. Duluth's parks have not, so far, been productive of much revenue to be affected by the bill if it became a law.

W. E. Verity, who assisted Speaker Babcock throughout his campaign, is rewarded by the position of speaker's clerk. The Eighth district has three candidates for minor appointments yet to be announced by the speaker, and the chances are that one or more of them will land jobs. Howard Folsom, of Sandstone, who was a candidate for engineering clerk, was presented for one of these places by the Eighth district delegation, and Anthony Johnson, of West Duluth, and F. W. Fenwarden, of Duluth, were also presented. Mr. Fenwarden was a candidate for assistant sergeant-at-arms, but R. S. Levich was endorsed by the Duluth delegation and secured the place.

Senator E. B. Hawkins will be chairman of the railroad committee in the senate. The Herald stated some time ago that he was in line for good places in the senate committees, and this is one of them. He was a member of the railroad committee at the last two sessions, and the place was generally conceded to him by right of service and ability. He will also be on the tax committee. Senators Laybourn and Pugh will also get good places, though neither of them will get chairmanships, being new senators.

STILLMAN H. BINGHAM.

BLEW TARGET OUT OF WATER

San Francisco, Jan. 9.—Extraordinary accuracy in marksmanship cut short the heavy gun practice at the Presidio. The 12-inch guns were to be brought into play and there was a wooden structure, pyramidal in shape, about twelve feet high at each base line and about eight feet high. It was towed seaward by a tug with a long tow-line, and while moving at seven miles an hour was to be fired on. When the

target was about three miles from shore and under tow it appeared to be about the size of a man's hand. It was then that Corporal Regan fired a 12-inch gun. The shot struck about eight yards astern of the moving mark. Carefully Regan aimed the second missile, and scarcely had the roar of the discharge ceased when the target disappeared. The shot had hit "the enemy" amidships and shattered it into splinters.

Emil Johnson Shot Beena Bensen at Virginia. She Had Refused to Give Promise to Marry Him.

Virginia, Minn., Jan. 9.—(Special to The Herald).—Love-crazed and desperate, Emil Johnson this morning murdered the pretty girl that refused to marry him.

He then shot himself in the head three times, and though alive at noon, he cannot live the day out.

This tragedy, which gives St. Louis county its second shocking murder within forty-eight hours, occurred at 10 o'clock, in the Tower hotel here.

After four months of persistent wooing, Johnson proposed marriage to Miss Beena Bensen last night.

She told him she did not care sufficiently for him or any man to marry. This answer made Johnson frantic, and he told the girl if she did not marry him he would kill himself.

The threat was made in such earnestness that Miss Bensen became alarmed and partly agreed to reconsider her answer, advising Johnson to wait until she had time to think it over.

He agreed not to harm himself for a time, but this morning decided he could not wait longer for an answer.

He found Miss Bensen making a bed in room No. 32 of the Tower house, and asked her if she was ready to marry him.

She replied that her time for consideration was not up, but that she would give him a final answer in a few days.

He demanded an immediate and favorable answer, and accompanied the demand with the flourish of a revolver. The girl, thinking that he was about to carry out his threat of self-destruction, turned from him with a shriek of terror.

Instead of pointing the gun at himself he turned it on her, holding the muzzle within a few feet of her head.

He fired and Miss Bensen fell to the floor dead, the bullet having passed upward through the base of her brain and out the top of the skull.

Johnson, it is said, knelt beside the girl's body for some time, and then, apparently realizing his crime for the

first time, he sprang through a light shaft, dropping to the first floor twenty feet below and close to the window of the room he had been occupying.

He picked himself up and jumped through the window of this room. Then turning his revolver on himself he tried to send two bullets into his head below the left ear. He was so nervous that the bullets simply plowed up ragged wounds across the skull.

Johnson placed the revolver under his chin and fired upward, the ball passing up into the brain and out the top of the head.

Hotel employees, hearing the shooting and crashing glass, found Johnson raving about the floor of his room. They carried him into an adjoining room and it required the efforts of two men to hold him in bed while the doctors dressed his wounds.

The murdered girl was 22 years of age, very pretty, and, according to reports, has had many offers of marriage from men much more desirable than Johnson, who is a team driver. She gave each suitor the same answer that she gave Johnson—that she did not care to marry until she could marry for love. It is also said that she had been afraid of Johnson from the first, and that he proposed marriage the first time he saw her.

The girl has a married sister living at Nashvauk, but no other relatives living in this county.

Johnson has lived at Virginia for some time past. He is a man 32 years of age.

The revolver with which he killed Miss Bensen was purchased a year ago, when he had trouble with another man, and at that time he announced that he would kill any person that sought to interfere with his plans of avenging himself for a small injury.

The body of Miss Bensen was removed from the hotel to the morgue shortly after the tragedy. Those last reached her first say that life was extinct, and the physicians are of the opinion that her death was instantaneous.

TRAGEDY AT KEYSTONE

General Sentiment Is With the Mine Superintendent Who Killed Three Men and Wounded Three Others Who Attacked Him.

Wells, Nev., Jan. 9.—Additional details have been received here regarding the tragedy enacted at the Keystone mine, where the twelve union miners attacked Superintendent Traylor for the alleged purpose of running him out of the town, and which resulted in the death or wounding of several of the miners participating.

Since a branch of the Western Federation of Miners was formed a few weeks ago at Ely, the miners are said to have taken a decisive stand in labor matters, the particular object of their attack being the New York & Nevada company. Superintendent John A. Traylor, who was formerly connected with the Fernan Mining company, of Durango, Mex., and also with the Union Copper and Gold Hill mines of North Nevada, had been notified on several occasions that he had better leave the camp, presumably because he had recently ordered a reduction in his employees' wages. Telegrams were sent to New York, it is said, threaten-

ing to flood the mines and take other stern measures unless the superintendent was removed.

Yesterday morning a delegation presented Traylor with an ultimatum, to be signed and agreed to within twelve hours.

Later, it is charged, President Lloyd, of the Miners' union, and a committee of the union went to Traylor's house and asked him to go along quietly, as they would be compelled to take him, dead or alive. Traylor tried to argue with the men, but Lloyd ordered his companions to seize the superintendent and bring him along. The men started for the mine, where they grabbed a gun and commenced shooting.

At the first shot the miners made a dash for the door. The men that were shot are: James Slaggs, Sam Johnson and J. Smith. The names of three wounded men are not given.

After the shooting Traylor surrendered to the sheriff. The general sentiment among the conservative element of Ely is that Traylor was entirely justified in doing what he did.

COAL BARONS' SCHEMES

Independent Operators Fix Price at Tidewater at \$10 Per Ton, While the Coal Carrying Roads Make the Price \$5.

New York, Jan. 9.—Domestic sizes of anthracite coal were quoted at \$10 a ton at tidewater yesterday by the independent operators. By the coal carrying roads the same grades of coal were quoted at \$5. Representatives of the big companies said there was no decrease in the amount of their coal coming to this city, and that none of it was being sold as independent output. The market is expected to fluctuate with the weather and the amount of anthracite on hand. If dealers are to buy their coal at two prices the cost to the consumer will be governed to a large extent by the proportion the high-priced coal of the operators bears to that of the coal roads. Throughout the

coal trade the opinion prevails that the minimum price of \$10 a ton, said to have been set by the independent operators, must break before the end of the month, when the increased production begins to tell. The open weather of the winter has helped to keep the situation in hand.

It was said by a representative of the Delaware, Lackawanna & Western that the greater part of anthracite in the city is independent coal. Since the contract by which the companies bought more than half of the independent coal at 65 per cent of tidewater price, and sold it as company coal has been abrogated, he said, the independent operators had been bringing all of their coal to this city and Boston, where they could get good prices, and ignoring the intermediate towns and cities.

TWO GRANDSONS FOR BAER

New York, Jan. 9.—George F. Baer, president of the Reading railroad, says a Herald dispatch from Philadelphia, became the grandfather of two boys within the short space of two hours

yesterday. Mrs. William N. Appel, a daughter at Lancaster, Pa., gave birth to one boy, and this announcement was shortly followed by the news that Mrs. Frank L. Connard had also given birth to a son.

TWENTIETH YEAR.

LAST EDITION.

FRIDAY, JANUARY 9, 1903.

TWO CENTS.

TRAIN ROBBERS FINALLY RUN DOWN BY DETECTIVES

Held Up a Train at Marcus, Ill., Six Months Ago.

Long and Patient Search Rewarded at Last.

La Crosse, Wis., Jan. 9.—Passengers and prisoners on the train they alleged to have held up six months ago at Marcus, Ill., four men who are believed to be four of the six who robbed the Burlington train at that place, were left at Savanna, Ill., by the train last night and were taken to Mount Carroll, the county seat, where they will be arraigned on the charge of holding up the train. The story of the finding of clues and their subsequent capture is interesting. A Pinkerton detective, Charles White, visited every nook and corner of the Mississippi river between here and the place where the robbery occurred, to find the person of whom the robbers bought the boat, which was found sunken with sand in the river near where they had temporarily buried their booty.

It took him three months, and he was not successful until he reached La Crosse, when, in company with Detective William Lyman of the local force, after two weeks of unremitting work, they located the man from whom the boat had been purchased. He and his wife went to Chicago on Wednesday night to identify the four alleged robbers.

The robbers, so the detective found,

went down river in the skiff, taking four days to make the trip and were joined at Dubuque by two others, who made the party six in number. One of these robbers wore a pair of shoes just purchased in Dubuque, and he was the one who was killed and served to identify the gang, and which subsequently led to their capture and arrest in Louisiana a few days ago on another charge.

It develops from the story of one of the robbers, who told the story to a pal, that the dead robber had been killed by their own party. It appears that they had a secret code of signals which they were to use. The dead robber, in coming around the train, did not give the signal, and was shot by one of the robbers. He was not killed, however, for after the safe had been blown open, and the robbers unthatched the engine, they put the wounded man across the river, buried the money and sank the boat. Several half dollars which fell from the pile of \$2500 they secured, were found in the sand.

A JUDGE IS ASSURED

Washington, Jan. 9.—(Special to The Herald).—The house committee on judiciary this morning favorably reported the senate bill providing for an additional United States judge for Minnesota. The committee also agreed to favorably report the bill introduced by Representative Littlefield to expedite suits pending or hereafter to be

brought under the anti-trust law. A favorable report was authorized on the senate bill increasing the salaries of justices of the supreme court and other judges of the United States, with certain amendments which reduce salaries proposed for circuit judges to \$5000 and district judges to \$3000. Resolutions of regret were adopted on the retirement of Representative Latham from the committee.

VIRTUALLY RECALLED

Hertin, Jan. 9.—Ambassador Von Holleben's leave of absence from Washington is pretty generally received here as being his virtual recall, due, it is said, to the dissatisfaction of the government with his conduct in the matter of the Venezuelan affair. This is asserted without reserve in important newspapers, and no official denials have yet been forthcoming. It seems that the government feels it was misled, or at least not fully informed by the Washington embassy respecting President Roosevelt's attitude when he was requested to arbitrate the Venezuelan dispute. The opinion is also held that Von Holleben's dispatches regarding the policy of the United States in the Venezuelan business and other foreign policy, have been neither adequate nor precise.

A variety of other reasons may have contributed to the lack of confidence in the ambassador. The Vossische Zeitung, for instance, attributed importance to the telegram sent by Emperor William to Mrs. Kipling on March 5, 1899, when Kipling was ill in New York. The

newspaper assumes that Von Holleben counseled the sending of the telegram, and that the emperor, especially since the publication of Kipling's recent poem, "The Powers," feels he was ill advised. Emperor William, when Kipling was ill, wired as follows:

"To Mrs. Kipling: As an enthusiastic admirer of the incomparable works of your husband, I await with anxiety news of his condition. God grant that he may be spared to you and to all who are thankful to him for the heart-moving manner in which he has sung the deeds of our great common race."

"WILLIAM, I. R."

Dr. Von Holleben's critics also aver that he showed an unskillful hand in the great champagne war and in the Witte incident, and also in permitting himself to become the object of press attacks, even though unjustly. The matter of the statue of Frederick the Great is also mentioned with its attendant reception by part of the American people. This, it is alleged, Dr. Von Holleben could have foreseen, and he should have dissuaded the emperor from offering the statue to the United States.

DINNER PARTY SPOILED

Quincy, Ill., Jan. 8.—After stopping since last Saturday at one of the local hotels, posing as a wealthy stockman and lavishly spending money, W. L. Lane, alias Doc Butler, alleged member of the Albigdon bank robbery gang, was captured at 1 o'clock this morning in an all-night restaurant. At the time of his arrest Lane was giving an after-theater lunch to a small party with whom he had become acquainted through some of the well known people of the city, all believing him to be a rich Texan. The man excited the suspicion of Officer Leahy, while telephoning the Western Union relative to a telegram sent to a Chicago address, and which concerned a shipment made

by Lane of \$2000. Leahy searched the man's pockets and found Lane's picture and lengthy record.

Detectives and officers were at once detailed to go in search of the suspect. He was found attending the play, "The Outlaw," with a party of four, and was kept under close watch until the arrest was made at the restaurant.

Six revolvers held by as many men were thrust into his face and the diners were overwhelmed with consternation. Lane was unarmed. A revolver exactly like the one carried by the other men in the Albigdon affair, already under arrest, was found in his valise at the Tremont hotel.

Lane will be taken to Galesburg for preliminary trial this evening.

A MONEY LENDER MURDERED

Pittsburg, Jan. 8.—Andrew Overick, proprietor of a Polish boarding house, a broker and a money lender, was found unconscious in Mulberry alley last night with his skull fractured. He never regained consciousness and died today at West Penn hospital. Overick

always carried large sums of money with him, and as his pockets were rifled, watch gone and jewelry missing, the police are inclined to think his murder was motivated by a rich haul. A former boarder is suspected and the police are looking for him. Overick was 32 years old and married. He was regarded as a man of considerable wealth.

LARGEST GAS PLANT IN WORLD

New York, Jan. 8.—Active operations will, it is announced, shortly begin toward the erection of the largest gas plant in the world in the Astoria section of Long Island City. The plant will cover 300 acres, and it will probably take five years to complete its erection, although it is expected that

within two years' time the work will have advanced so far that the first manufacture of gas in the gigantic plant will be started. More than 200 mechanics and laborers will shortly be put to work. The plans for the plant have been entirely completed. The plant in full operation will employ several thousand men.

GEN. MATOS WILL PROBABLY SUCCEED PRESIDENT CASTRO

The Situation at Venezuela Is Rapidly Growing Worse.

Castro Conceals and Cen- sor Stops All Unfavor- able News.

The Resignation of the President Is Publicly Demanded.

New York, Jan. 9.—France probably will join the European powers in the blockade of the Venezuelan coast, says the World's Port of Spain correspondent, for the reason that Venezuela has failed to make the first payment of \$200,000 due on the French claim on Dec. 31. Venezuela also owes the French cable company \$200,000, and the company refuses to extend credit to the government.

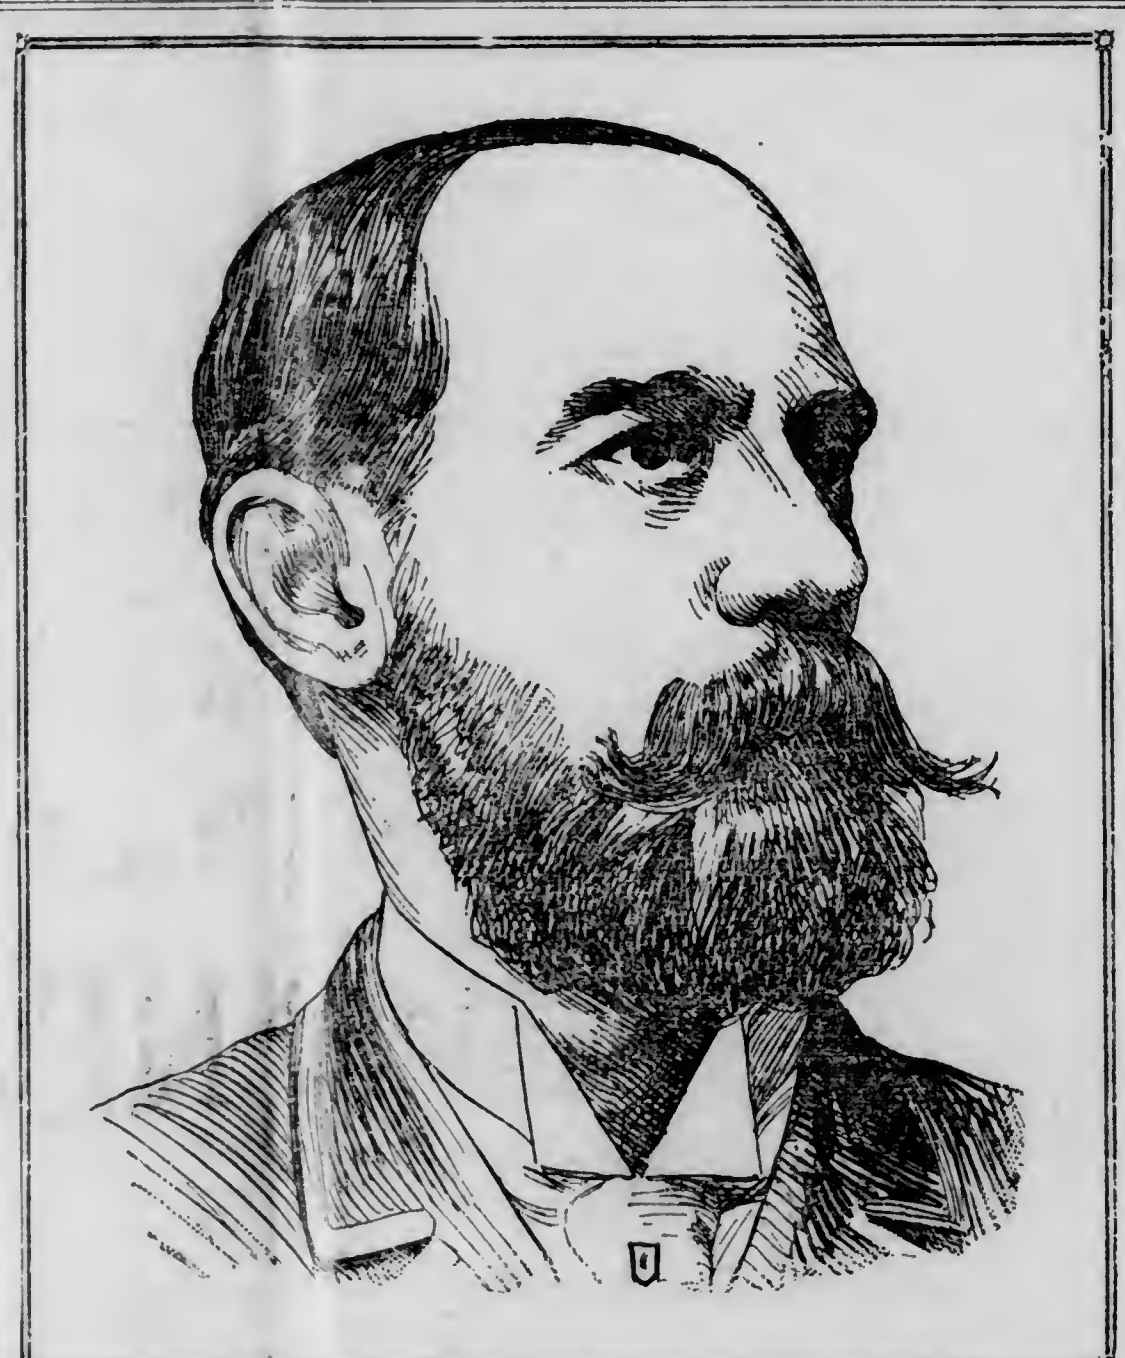

President Castro is deeply incensed. His attempts to borrow money from the Bank of Venezuela have failed. The government already owes that bank \$2,000,000.

President Castro's next step will be to force a loan from the merchants.

The better element in Venezuela is urging him to give up his office. His resignation has been publicly demanded in a speech delivered in the plaza. It is impossible for him to hold power beyond February.

Troops are sleeping in the plazas of the capital in expectation of an attack. The foreign bankers are waiting for a change in the government before negotiating any loan.

Gen. Matos, the leader of the revolution, in a public letter, guarantees a satisfactory settlement with the allies within twenty-four hours after he is inaugurated president of Venezuela. He asserts that Castro delays the settle-

GENERAL MANUEL A. MATOS, LEADER OF THE VENEZUELAN REVOLUTIONISTS.

Matos, who has been keeping President Castro's soldiers busy for many months, is a typical Venezuelan soldier and statesman. He was minister of the treasury under President Andrade when that worthy was routed by Castro and was imprisoned by Castro. It is alleged, because he would not loot the national treasury for him. Matos regained his liberty and started the present revolution.

The situation is deplorable. President Castro conceals, and the censor stops, all unfavorable news. There is a rumor that on Friday the allies will cut the cable and then land and seize the custom houses.

THE MAIN OBSTACLE To Getting Mr. Washburn on the Nor- mal Board Is Professor Phelps.

(From a Staff Correspondent.)

St. Paul, Jan. 9.—(Special to The Herald).—The matter of the appointment of J. L. Washburn, of Duluth, as a member of the normal board, has been presented to Governor Van Sant yesterday afternoon, and it will be followed up by energetic action on the part of the Duluth delegation.

The obvious stumbling block in the way of this arrangement is that Duluth is now credited with one member of the board, W. E. Phelps, who is nominally the resident member, though he has taken up his residence in Minneapolis and has left Duluth, presumably for good. Should he be retained and Mr. Washburn also be appointed, this would nominally give Duluth two members of the board. The probability seems to be that it will be necessary to retain Professor Phelps, or secure his removal on account of his change of residence, though it is possible that enough pressure may be brought to bear upon the governor to induce him to give Duluth the appointment, to fill the vacancy caused by Mr. Phelps' death. The matter will be pushed, not only by the Duluth delegation in the legislature, but by the citizens of Duluth, who have taken an interest in the new Duluth normal school, and who want to see it properly represented on the board.

Early next week, probably about Tuesday or Wednesday, the governor's decision will be known.

VRELAND TO MANAGE "TUBE." New York, Jan. 9.—According to an unofficial report, H. H. Vreeland, president of the Metropolitan street railway system of this city, will go to London to manage the Yerkes "tube" of underground railroad. When questioned regarding the rumor, Mr. Vreeland declined to confirm or deny it, saying simply that he could not discuss the matter just now.

FIRE IN BOSTON.

Boston, Jan. 9.—A fire in the four-story brick annex to the Equitable building on Federal street today caused a loss of \$50,000. There were many employees in the building, but it is thought that all escaped in safety.

BLEW TARGET OUT OF WATER

San Francisco, Jan. 9.—Extraordinary accuracy in marksmanship cut short the heavy gun practice at the Presidio. The 12-inch guns were to be brought into play and there was a wooden structure, pyramidal in shape, about twelve feet long at each base line and about eight feet high. It was towed seaward by a tug with a long tow-line, and while moving at seven miles an hour was to be fired on. When the

target was about three miles from shore and under tow it appeared to be about the size of a man's hand. It was then that Corporal Regan fired a 12-inch gun. The shot struck about eight yards astern of the moving mark. Carefully Regan aimed the second missile, and scarcely had the roar of the discharge ceased when the target disappeared. The shot had hit "the enemy" amidships and shattered it into splinters.

Emil Johnson Shot Beena Bensen at Virginia.

She Had Refused to Give Promise to Marry Him.

Virginia, Minn., Jan. 9.—(Special to The Herald).—Love-crazed and desperate, Emil Johnson this morning murdered the pretty girl that refused to marry him.

He then shot himself in the head three times, and though alive at noon, he cannot live the day out.

This tragedy, which gives St. Louis county its second shocking murder within forty-eight hours, occurred at 10 o'clock, in the Tower hotel here.

After four months of persistent wooing, Johnson proposed marriage to Miss Beena Bensen last night.

She told him she did not care sufficiently for him or any man to marry. This answer made Johnson frantic, and he told the girl if she did not marry him he would kill himself.

The threat was made in such earnestness that Miss Bensen became alarmed and partly agreed to reconsider her answer, advising Johnson to wait until she had time to think it over.

He agreed not to harm himself for a time, but this morning decided he could not wait longer for an answer.

He found Miss Bensen making a bed in room No. 32 of the Tower house, and asked her if she was ready to marry him.

She replied that her time for consideration was not up, but that she would give him a final answer in a few days.

He demanded an immediate and favorable answer, and accompanied the demand with the flourish of a revolver. The girl, thinking that he was about to carry out his threat of self-destruction, turned from him with a shriek of terror.

Instead of pointing the gun at himself he turned it on her, holding the muzzle within a few feet of her head.

He fired and Miss Bensen fell to the floor dead, the bullet having passed upward through the base of her brain and out the top of the skull.

Johnson, it is said, knelt beside the girl's body, apparently realizing his crime for the first time, he sprang through a light-shaft, dropping to the first floor twenty feet below and close to the window of the room he had been occupying.

He picked himself up and jumped through the window of this room. Then turning his revolver on himself he tried to send two bullets into his head below the left ear. He was so nervous that the bullets simply ploved up ragged wounds across the skull.

Johnson placed the revolver under his chin and fired upward, the ball passing up into the brain and out the top of the head.

Hotel employees, hearing the shooting and crashing glass, found Johnson raving about the floor of his room. They carried him into an adjoining room and it required the efforts of two men to hold him in bed while the doctors dressed his wounds.

The murdered girl was 22 years of age, very pretty, and, according to reports, has had many offers of marriage from men much more desirable than Johnson, who is a team driver. She gave each suitor the same answer that she gave Johnson—that she did not care to marry until she had married for love. It is also said that she had been afraid of Johnson from the first, and that he proposed marriage the first time he saw her.

The girl has a married sister living at Nashua, but no other relatives living in this county.

Johnson has lived at Virginia for some time past. He is a man 32 years of age.

The revolver with which he killed Miss Bensen was purchased a year ago, when he had trouble with another girl. It is also said that she had been reached her first say that life was extinct, and the physicians are of the opinion that her death was instantaneous.

TRAGEDY AT KEYSTONE

General Sentiment Is With the Mine Superintendent Who Killed Three Men and Wounded Three Others Who Attacked Him.

Wells, Nev., Jan. 9.—Additional details have been received here regarding the tragedy enacted at the Keystone mine, where the twelve union miners attacked Superintendent Traylor for the alleged purpose of running him out of the town, and which resulted in the death or wounding of several of the miners participating.

Since a branch of the Western Federation of Minors was formed a few weeks ago at Ely, the miners are said to have taken a decisive stand in labor matters, the particular object of their attack being the New York & Nevada company. Superintendent John A. Traylor, who was formerly connected with the Esmeralda mining company, of Durango, Mex., and also with the Union Copper and Gold Hill mines of North Carolina, had been notified on several occasions that he had better leave the camp, presumably because he had recently ordered a reduction in his employees' wages. Telegrams were sent to New York, it is said, threaten-

ing to flood the mines and take other stern measures unless the superintendent was removed.

Yesterday morning a delegation presented Traylor with an ultimatum, to be signed and agreed to within twelve hours, he was given.

Later, it is charged, President Lloyd, of the Miners' union, and a committee of the town, went to Traylor's office and asked him to go along quietly, as they would be compelled to take him, dead or alive. Traylor tried to argue with the men, but Lloyd ordered his companions to seize the superintendent and bring him along. The men started for Traylor, who grabbed a gun and commenced shooting.

At the first shot the miners made a dash for the door. The men that were shot are: James Slaggs, Sam Johnson and J. Smith. The names of three wounded men are not given.

After the shooting Traylor surrendered to the sheriff. The general sentiment among the conservative element of Ely is that Traylor was entirely justified in doing what he did.

COAL BARONS' SCHEMES

Independent Operators Fix Price at Tidewater at \$10 Per Ton, While the Coal Carrying Roads Make the Price \$5.

New York, Jan. 9.—Domestic sizes of anthracite coal were quoted at \$10 a ton at tidewater yesterday by the independent operators. By the coal carrying roads the same grades of coal were quoted at \$5. Representatives of the big companies said there was no decrease in the amount of their coal coming to this city, and that none of it was being sold as independent output. The market is expected to fluctuate with the weather and the amount of anthracite on hand. If dealers are to buy their coal at two prices the cost to the consumer will be governed to a large extent by the proportion the high-priced coal of the operators bears to that of the coal roads. Throughout the

coal trade the opinion prevails that the minimum price of \$10 a ton, said to have been set by the independent operators, must break before the end of the month, when the increased production begins to tell. The open weather of the winter has helped to keep the situation in hand.

It was said by a representative of the Delaware, Lackawanna & Western that the greater part of anthracite in the city is independent coal. Since the contract by which the companies bought more than half of the independent coal at 65 per cent of tidewater price, and sold it as company coal has been abrogated, he said, the independent operators had been bringing all of their coal to this city and Boston, where they could get good prices, and ignoring the intermediate towns and cities.

TWO GRANDSONS FOR BAER

New York, Jan. 9.—George F. Baer, president of the Reading railroad, says a Herald dispatch from Philadelphia, became the grandfather of two boys within the short space of two hours

yesterday. Mrs. William N. Appel, a daughter at Lancaster, Pa., gave birth to one boy, and this announcement was shortly followed by the news that Mrs. Frank L. Conard had also given birth to a son.

POLICE RECORD

No Perceptible Increase in Crimes in Duluth Last Year.

New Record Made For Drunkenness, 1326 Arrests.

Number of Arrests and Causes During the Year.

Although Duluth's population has increased at a rapid rate during the past year there has been no perceptible increase in crime.	
There were 273 arrests made. The criminal records for two years, 1901 and 1902, show more arrests than that.	
There were 267 more arrests last year than for 1901, but this increase was in petty crime only.	
During the year there were three arrests for murder by Chief Troyer's men, the same as in 1901.	
There was one more case of grand larceny, but petty larceny showed a decrease of thirteen cases from the previous year.	
Only in one instance was a new record of arrests made and that was for drunkenness. One thousand three hundred and twenty-six arrests were made on this account. The previous record was made in 1892 when 1306 arrests were made.	
The offense of spitting in street cars caused twenty-eight arrests during the year and not one of those arrested escaped without paying a fine.	
The causes and number of arrests for each cause, during the year, were as follows:

BITTER CONTEST.

Liberals Carry Ontario By-Elections By Narrow Margin.

Toronto, Jan. 9.—After the most bitter political contest in the history of Ontario, the Liberal government carried the by-elections, upon which its fate depended. Following the general elections of June last, protests left the government with a majority of one, to which Wednesday's results add three. North Perth, North Norfolk and North Grey were the constituencies which decided the campaign in the government's favor. Messrs. Brown, Little and McKay being the respective victors. Already there is talk of protests in all the ridings.

FLED FROM HER LOVER.

Enters Convent to Escape Too Ardent Suitor.

Washington, Jan. 9.—It has developed that Miss Dorothy Smart, second daughter of Col. Charles Smart, of the medical department of the army, now on duty in the Philippines, left home last Friday and entered the convent of the Sacred Heart at Kenwood, near Albany, N. Y. The news has created a profound sensation in social circles, where Miss Smart has been a belle. It is said she will become a nun. It is said Miss Smart left Washington quietly to avoid the ardent wooing of C. Depute, son of a Venezuelan general and at present a cadet at West Point.

One hundred dollars a box is the value of H. A. Tisdale, Summerton, S. C. places Dr. DeWitt's Witch Hazel Salve. He says: "I had the piles for 20 years. I tried many doctors and medicines, but all failed except Dr. DeWitt's Witch Hazel Salve. It cured me." Max Wirth.

BOHEMIANS.

Aid For Deserving Youth to Acquire Higher Education.

Cedar Rapids, Iowa, Jan. 9.—A movement that will be of interest to Bohemians everywhere in this country, particularly to those of Ohio, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, Nebraska, South Dakota, Kansas and Texas, has been inaugurated in this city, and numbers among its sponsors many of the wealthiest and most prominent Bohemians of the middle West. The new organization is known as the Council of Higher Education, and its prime object is to educate youths of Bohemian parentage in the universities, agricultural colleges and the normal schools of the states named, and in the University of Chicago, Adelbert college, Cornell and Columbia universities.

The officers of the organization are: President, Prof. B. Shumak, Iowa university; vice president, John Yomsek, secretary, Joseph J. Hajek, financial secretary, Hon. Joseph Niekota, treasurer, Hon. W. F. Severa, manufacturing and wholesale pharmacist, Cedar Rapids. Every subscriber to the educational fund, in the sum of \$5, receives a membership for the current year. An endowment of \$250 entitles one to a life membership. The nucleus of the rapidly increasing fund was a subscription of \$250 by Mr. Severa. It is confidently expected that the organization will be able to educate scores of deserving youths.

The by laws provide that an applicant for a loan, without regard to sex, must be of the Bohemian parentage, a knowledge of the Bohemian language and to be in sympathy with the Bohemian people; he must lead an upright and moral life and must exhibit the ability necessary to the successful pursuit of a college course. Only the applications of those who lack the material means for independent study will be considered.

The applicant, whose request for a loan has been acted upon favorably, shall signify his determination to complete a full four-year collegiate course or at least the entire course where it is shorter in one of the institutions named. Requests for permission to attend any other institutions will be acted upon by the executive committee. In every case where otherwise determined by the committee, the applicant shall select a college in his own state. The committee reserves the right to receive regular reports as to the student's progress. Having agreed to comply with the foregoing requirements, the applicant will receive a loan from the organization, when it has sufficient funds on hand, on his personal note, without interest, of not to exceed \$50 for each year of the collegiate course. The loan is to be repaid either upon the completion of the student's course or whenever his financial condition will permit. Any fraction of the college rates, or of the conditions of the loan, gives the executive committee the right to terminate the contract at once.

In many cities like this, where there is a large Bohemian population, pretentious educational institutions have been established by these people, but in few, if any, cases has the work of these schools conflicted with that of the public schools. In fact, they are auxiliary, giving children of Bohemian parentage an opportunity to study in their language during the public school vacations.

Wealthy Bohemians everywhere have been asked to contribute to the fund of the Council of Higher Education, and liberal responses are being received. Applications for loans will be received from any state, but preferably from those herein named.

WHOLE WORLD

Faces Epidemic of Smallpox, Says Ohio Doctor.

Columbus, Ohio, Jan. 9.—"Unless all signs fail, I believe the world is facing a general epidemic of smallpox," said Dr. C. O. Probst, secretary of the Ohio state board of health. "I base my predictions on facts apparent to any observing physician."

"Not alone in the United States, but in Europe, are the physicians battling with the scourge. Great Britain is having a serious time with it, as are other European countries. Germany, where vaccination is general, is in the best condition of any of them."

"The disease is not epidemic, but pandemic. It is in almost every country, and the type has been increased in malignancy. In the last quarter or half century vaccination has been neglected and the country is full of people who have never felt the scratch of a vaccine point. As these precautions have been neglected, so has the disease increased, until now we are in danger of a world-wide epidemic. Only the most vigorous action will prevent the prevalence of the disease."

CONGRESSIONAL INQUIRY

Into the Coal Situation Cannot Be Stopped.

Washington, Jan. 9.—In spite of every effort to head it off, congressional investigation of the coal question, especially of the reasons for the existing high prices, is now assured.

Without any previous notice, and, in fact, before the members of the senate fully realized what they were doing, a resolution, offered by Mr. Stewart of Nevada, was passed, which provides for an immediate investigation into the entire question of coal supply and the relation between wholesale and retail prices in the District of Columbia.

Not even Mr. Stewart himself was prepared for the rapidity with which the resolution was adopted. The trust defendants in the senate for the moment were occupied with other matters and they thought the resolution was merely one of inquiry as to existing conditions. When it was too late they realized that an actual and formidable congressional investigation had at last been authorized.

CHURCHES GROW SLOWLY.

Do Not Keep Pace With Population Increase.

New York, Jan. 9.—According to H. K. Carroll, who was the government church statistician in 1890, and has annually made it his business to compile church statistics, the church membership growth in all denominations has failed to keep up with the increase in population.

Dr. Carroll says the church membership gain last year was 1.5 per cent, while the population has been increasing at the rate of 2.6 per cent a year; the total church membership in 1902 was 1,575,000 less than the figures given by the Catholic directory.

There are 194,168 churches in the whole United States, and the estimated cost to maintain them with betterments each year is \$250,000,000.

Terrific plagues, those itching, pestering diseases of the skin. Put an end to misery. Dean's Ointment cures. At any drug store.

GEN. GOBIN WAS ANGRY

Counsel For Miners Took Exceptions to His Statements.

Referred to General as Wise and Great Man.

Counsel Disclaimed Any Intention of Being Disrespectful.

Philadelphia, Jan. 9.—Chairman Gray of the strike commission, was sick, and in his absence Brig. Gen. Wilson acted as chairman. Counsel for the non-union men opened the proceedings by presenting the indictments and pleas of guilty of certain union men for acts of lawlessness, and showed that members of the Miners' unions invariably became their bondsmen.

Lawrence Jenkins, of Parsons, a deputy sheriff in Lucerne county during the strike, was recalled. He told of many instances where he and other deputy sheriffs were sent to different

parts of the county to quell disturbances. He said a state of lawlessness existed. The cross-examination developed nothing new.

Rev. Carl Hauser, a Lutheran Slovak minister, of Freeland, said when he was called upon to officiate at the funeral of a non-union man in the Panther Creek valley, he experienced the greatest difficulty in securing pall bearers. When the body was taken from the house, Rev. Hauser said the strikers yelled "Shen" and spat upon the coffin. Some of the men made such remarks as, "It's a shame to bury a seak, throw him to the dogs."

John Harvill, of Jello, employed by Cox Bros. during the strike, said he was attacked by strikers and had an eye shot out. He was unable to recognize his assailant.

Max Kieselth, another employee of Cox Bros., also told of having been assaulted.

Counsel for the non-union men then called John Mitchell to the stand and asked him if he knew William Dettrey, who was yesterday elected president of the union in the seventh district. Mitchell replied in the affirmative. He then counsel called John Sherman, of Nuremberg, Dettrey's home town, Sherman testified that he heard Dettrey say that anybody who worked during the strike ought to have their throats cut.

Frank Kehley, of Onedia, a freeman, who worked during the strike, said that he heard Dettrey say that all non-union workers should be given a "good thumping." This remark was made at a meeting of a local union, he said.

Brig. Gen. Gobin, commander of the Third brigade, N. G. P., who was in command in the anthracite region during the strike, was next called. He told of the call for troops on July 20, when a riot occurred at Shenandoah. When the troops reached the scene of the trouble it was impossible to secure vehicles to haul the supplies to the camp. He was forced to send a number of men for a conveyance. He then told in detail of the condition of affairs in the coal region during his stay there, and of the stoning of his troops, insults to his men, frequent cases of dynamiting and other acts of lawlessness. He said the sheriff of Carbon county refused to call on the governor for troops. Counsel for the miners took exception to his statement, and Mr. Darrow referred to the general as a "wise and great man."

This nettled Gen. Gobin, and he said he had been invited to testify by the strike commission, and if the gentleman from Chicago refers to me again as he has just done I will refuse to answer any of his questions on cross-examination.

Mr. Darrow disclaimed any intention of being disrespectful.

The general said he had been asked by the coal companies to protect non-union men, but he refused, because he had not sufficient troops. He said the situation was most serious. He feared the railroad men would be intimidated and he would be unable to move troops. Threatening letters were also sent to him.

A recess was taken at this point.

Trial Is Delayed.

The prosecution of A. A. Forbes, of Woodland, for violating health office regulations will not take place until Jan. 26.

Mr. Forbes desired the testimony of certain witnesses that are now under quarantine, and it was not deemed advisable to run the risk of bringing them into court.

THE SECRET OF LONG LIFE.

Consists in keeping all the main organs of the body in healthy, regular action, and in quickly destroying deadly disease germs. Electric Bitters regulate Stomach, Liver and Kidneys, purify the blood, and give a splendid appetite. They work wonders in curing Kidney Troubles, Female Complaints, Nervous Diseases, Constipation, Dyspepsia and Malaria. Vigorous health and strength always follow their use. Only 50c, guaranteed by W. A. Abbott, druggist.

SNOW AT WEST VIRGINIA.

Terra Alta, W. Va., Jan. 9.—Sixteen inches of snow has fallen here, and in this vicinity since Wednesday, and it was still falling at midnight. High winds caused it to drift and many roads are impassable. The railroads have snow plows with two and three engines attached at work to keep their lines clear. A heavy snow fall is reported from all points in the Allegheny mountains.

A NEW TOWN.

Pittsburg Name of a Townsite North of Virginia.

The Pittsburg Townsite and Development company, with a capital of \$50,000, has filed articles of incorporation with the register of deeds. The incorporators are: T. E. McElverry, E. B. Sitten, of Duluth, and P. B. Meyers, cashier of the Bank of Duluth.

The company is being organized for the purpose of owning, promoting and building new towns on the Duluth, Virginia & Rainy Lake railroad, now in course of construction, between Virginia, Minn., and the boundary line. The first town for the new road is being platted. It will be named Pittsburg, and will be located at a point where the Duluth, Virginia & Rainy Lake railroad crosses the Vermilion range, at Blue lake, about fifteen miles north of Virginia. Sixty acres is being platted, and it is predicted that the town will immediately become a flourishing one, as there will be an army of men tributary to the road for several years on heavy logging contracts. Recently lot to various parties in that vicinity. Cook & O'Brien are also engaged in the construction of the railroad. Pittsburg will be the first town platted on the new railroad that is opening up one of the best portions of Northern Minnesota, and with its location promises to be an important point on the line.

THE NEW ARCHBISHOP.

Characteristics of the Primate of England.

New York, Jan. 9.—Dr. Randall Thomas Davidson, the new archbishop of Canterbury, says the Tribune's London correspondent, is a comparatively young man, and like his predecessor, an ardent temperance reformer. Whereas, however, Dr. Temple was rugged and austere, Dr. Davidson is always been courtly and urbane, and while Dr. Temple was a schoolmaster, Dr. Davidson brings to bear upon the great work which lies before him experience gained wholly within the church. Dr. Davidson, it is understood, would have declined the archbishopric had not the king personally requested him to accept the place. His translation from Winchester to Canterbury will mean an increase of salary from £500 to £15,000. There are now two vacant bishoprics—Winchester and St. Albans.

FUNERAL OF MACLEAN.

Paris, Jan. 8.—The arrangements of the funeral of the late Edward P. MacLean, the United States vice and deputy consul general, who died Wednesday night of pneumonia, have not yet been completed, as Consul General Gowdy is awaiting advice from Judge MacLean, of New York, brother of the deceased. The only daughter of the late Mr. MacLean, who is now here, desires the interment to take place in Paris.

AUTOMOBILE SPEEDWAY.

Berlin, Jan. 9.—One feature of Emperor William's plans for transferring the Gunewardt forest into a great public park for Berlin is an automobile speedway, seven and a half miles long and twenty-one yards wide.

FEDERAL SITE SELECTED.

Washington, Jan. 9.—Assistant Secretary of the Treasury Taylor has selected as a site for the federal building at Battle Creek, Mich., the property at the corner of Main and Division streets. Price, \$16,500.

PEACE PACT

Seems Far Distant Between National and American Leagues.

Cincinnati, Jan. 9.—All members of the joint peace commission of the National and American Baseball leagues are here today for the conference that begins this afternoon. The national members are at the St. Nicholas and the American members at the Grand hotel. They met separately during the forenoon with the owners and managers in their respective leagues, many of whom are present, as well as President Harry Pulliam and Ban Johnson. From what could be learned of these preliminary meetings, there will be a light first on the scope of the conference, and if an agreement is reached as to how far the conference shall go, then there will be contention as to what question will be taken up first. The American members want the dispute over players passed on first. Chairman Herrman, after spending the night with Robison, Dreyfus and others, met James A. Hart and other National leaders this morning and afterwards called on Charles Comiskey, Henry Killian, Charles Somers and others at the headquarters of the American conferees. While the greetings were cordial between individuals, the indications do not today seem favorable for any proposed peace pact.

STORY UNFOUNDED.

London, Jan. 9.—There is absolutely no foundation for the report published

TWIN CITY TRANSIT.

Large Increase in Gross Earnings Is Announced.

New York, Jan. 9.—The directors of the Twin City Rapid Transit company held a meeting yesterday at the offices of J. Kennedy Tod & Co., 45 Wall street.

The regular quarterly dividend of 14 per cent on the common stock was declared payable Feb. 14. Transfer books close Feb. 2 and reopen Feb. 16. The preliminary figures for the year ending Dec. 31 last were gone over. The full returns are not at hand, and consequently the net earnings and surplus can only be estimated.

The gross earnings for the year, which have just been issued, were \$3,531,459, an increase over 1901 of \$441,001, or 14 per cent.

The gross earnings for December increased \$37,110, or 12.68 per cent over the same month of last year.

The company is paying 5 per cent on its common stock, and it is certain that it will have left a comfortable surplus for the year over all disbursements.

It is a good guess that the annual report, which will be issued within a few weeks, will show earnings equivalent to close to 7 per cent on the common stock.

At yesterday's meeting matters pertaining to the company's power houses were discussed, but it is said that nothing of a definite or important character was done.

President Lowry purposes making the power house one of the prominent features of the Twin City property.

UNEMPLOYED MARCH.

London, Jan. 9.—In pursuance of a general plan for attracting attention, over 1000 unemployed persons, accompanied by a few mounted and unmounted police, marched through the city and West End of London today. There was no disorder of any kind.

CHASSEAU AS COMMISSIONER.

New York, Jan. 9.—Alfred Chasseau, of New York, has been appointed United States commissioner to the international engineering, hardware, machinery and allied trades exposition, to open at the Crystal palace, London, next March. It is expected that this will afford American firms a new opportunity to introduce their specialties to consumers in England and her colonies.

VICE ADMIRAL LORD CHARLES BERESFORD OF THE BRITISH NAVY.

"Fighting Charlie" Beresford of "Well done, Condor" fame, who is making his second visit to America within a few months, says the Morgan shipping trust is a great guarantee of peace because of closer trade relations between the United States and Great Britain.

EXTENDS LIMITS

St. Louis County Medical Society Takes In Other Counties.

This Will Admit New Members to State Society.

Dr. J. M. Robinson Chosen President—Banquet Is Served.

The annual meeting and banquet of the Greater St. Louis County Medical society was held in the Spalding hotel last evening.

Dr. John M. Robinson, city health commissioner, was elected president of the organization, which now includes the practicing physicians of not only St. Louis county, but of Itasca, Carlton, Lake and Cook counties.

Dr. D. D. Murray was chosen first vice president, and Dr. J. D. Titcomb second vice president.

Dr. Frederick J. Patton was elected secretary and Dr. C. R. Lum treasurer. As a result of the expansion of the society fifteen new applications for membership were received. The doctors in adjacent counties have been deprived of the benefits of the state medical organization up to this time on account of not having enough doctors to form local county societies, but now that they are entitled to a membership in the St. Louis County society they can also join the state society.

Thirty-five doctors sat down to the banquet table. There were a few informal discussions and quite a heated argument concerning recommendations of an irregular practitioner that had been made by certain members of the society.

FOR MURDER.

Jack Gustafson's Trial Is Now On at Superior.

Jack Gustafson, who last fall shot and killed Isaac Niska in a Third street saloon in West Superior, is now on trial in superior court in that city. The defendant is represented by H. W. Dietrich, former mayor of West Superior. Fifty-three were examined yesterday before a jury was selected. The witness for the prosecution yesterday was John Pletela, in whose saloon the murder was committed. He testified that the two men came into his place of business intoxicated and commenced quarrel, each charging the other with having taken some money from the cash register. Niska's widow and little son were attendants at the trial yesterday.

ANNUAL MEETING.

First Baptist Church Congregation Elects Officers.

The annual meeting of the congregation of the First Baptist church was held last evening and, preceding that business session, a dinner was served that was partaken of by a large number.

The reports of the church officials showed a very satisfactory state of affairs. The debt is very light, and the church attendance is such that the present building is becoming too small to accommodate it.

The advisory board was directed to take steps looking toward the erection of a new church and to report at the next meeting of the congregation.

Other officers elected were: Trustees for three years—Z. D. Scott, E. C. Little, F. J. Griffith.

Desires to serve four years—Dr. J. B. Weston and R. G. Stigers.

Church clerk—Alvin Bousfield.

Head usher—John Brown.

MINERS ALL ORGANIZED. Beaver, Mo., Jan. 9.—All the central coal and coke company's mines are now members of the United Mine Workers of America. The mines here having just organized at the request of the company. The central company formerly was strongly opposed to the recognition of the union. The whole coal mining industry of Missouri is now organized and yearly agreements have been adopted.

A Perfect Polish at last!

GORHAM SILVER POLISH

The very perfection of a polish. Cleans as well as brightens. All responsible jewelers keep it. 25 cents a package.

IMMENSE CUT.

Alger, Smith & Co. Make Great Record In 1902.

Additional lumber figures are being made public frequently now as local lumber companies inventory their past year's business and stocks on hand.

Of the local lumber companies, Alger, Smith & Co. easily lead in the largest lumber production at the head of the lake for the season of 1902. Their mill runs practically the year around, except a few weeks for necessary repairs in the early winter. The lumber cut of last season was 116,812,194 feet; inch 28,807,750; shingles, 18,326,500. This production is said to be the largest ever made by any one concern at the head of the lakes. The value of the entire output is about \$2,000,000.

In 1901 the total cut of Alger, Smith & Co. here was 98,000,000. The cut last year was divided among the mills as follows:

Rice's Point mill 80,177,889

West Superior mill 26,471,252

Clark-Jackson mill 10,163,070

Total 116,812,194

The firm has shipped the past year over 120,000,000 feet of lumber, 26,025,000 shingles, 36,092,000 lath and 1,000,000 pieces of cedar. The shipments were the heaviest made by any one concern from this harbor.

The Manistique Lumber company, which is an Alger, Smith & Co. interest, manufactured 50,000,000 feet of lumber at Grand Marais, Mich., on the south shore, last year.

This makes the total lumber production of Alger, Smith & Co. on Lake Superior 166,812,194 feet.

Operations of the company will be heavier this year, as it has purchased the Mitchell & McClure mill at West Duluth, thereby increasing the daily capacity by at least 100,000 feet.

CAUSED BY INJURY.

Robert Giers Is Adjudged Insane—Terribly Hurt.

Robert Giers, an explorer, was yesterday adjudged insane at an examination held before Judge of Probate Middlecott. His unbalanced condition of mind is caused from worrying over a severe injury to his nose last May. At that time he was engaged in work at one of the mines and stood at the bottom of the shaft watching the skip as it descended. He did not get out of the way in time, and the vehicle crushed his nose. The operation that followed silver tubes had to be inserted so that Giers might breathe through his nose.

His face was greatly disfigured, and it is believed that it preyed on his mind until it gave way. He began acting strange a few days ago, and Tuesday had to be taken into custody at the city jail. Yesterday, when taken from the court house, he fought the deputy sheriff. He has been ordered committed to Fergus Falls asylum.

New Corporations.

Articles of incorporation of three new Duluth corporations were filed yesterday afternoon with the register of deeds. The Globe Investment company has incorporated to do a general business in dealing in lands. The incorporators are James A. Wharton, L. A. Larson and Ernest Grodman. The capital stock is \$50,000. The same people appear as incorporators of the Charlotte Mining company. The company is organized to do a general business dealing in lands. The capital stock is \$50,000.

Thomas F. McGilvray, F. B. Myers, Edward B. Sutton have incorporated the Pittsburgh Townsite and Development company, to do a general business dealing in lands. The capital stock is \$50,000.

Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood.

Jumped From Windows.

The home of John W. Dahl at South Superior was destroyed by fire about 12 o'clock last evening, the family narrowly escaping with their lives by jumping from the second-story windows, the father and mother each carrying a child in their arms. The family was in scant attire and would have frozen very quickly had it not been for the proximity of neighbors' houses.

25 per cent discount on all men's and boys' overcoats, ulsters and referees. The Great Eastern, West Duluth. Our 4-off on overcoats, ulsters and referees makes them cheaper than one-half price elsewhere. The Great Eastern, West Duluth.

THE STAGE

If the production of "Alphonse and Gaston," which the program said was staged by Frank Tannehill and Eugene Rogers, is a fair sample of the work of those two persons, it is not at all remarkable that few people of the Duluth can tell you where they are. The only excuse for presenting a show like that prepared by T. & R., is that a New York cartoonist made a hit with some picture series which he called "Alphonse and Gaston," and it was widely advertised. If Mr. Hearst saw a performance of the entertainment, if such it may be termed, to which it is claimed he lent the name of the picture series, he must have permitted the use of the name as a continuation of the joke. The first act was very bad, the second somewhat worse and the third carried out the positive, comparative, superlative idea, as if that was the way it was built.

Fourteen of the advertised "twenty-five-count" "ten-twenty-five" appeared on the stage, but there were enough people so that the plot or what there may have been of it, was buffeted around in the first act and finally lost just before the curtain went down. The motive of the other acts was the effort to find it again. The company did carry some scenery which was evidently purchased for this purpose, from some warehouse company. The costumes were costumes, and that's about all. It was evident that the name is the show and the performance is a secondary matter.

The first act consists of several old gags thrown together in the same old way. The "light lunch" gag, the "tough man" gag, the old time ward & Volney conversational dance number which Ward stole from Rogers Brothers and the Rogers boys took from Weber & Fields about six years ago, was a feature of the act. In fact all the standard gags which were popular with the burlesque companies a year ago last season, were employed. Alphonse and Gaston were "done" by Herbert Ashley and Bobby Mathews, the rest of the company being incidental. The ensemble numbers were frequent and diverting. The music (not the latest) was sung, and one could secure new tunes for whistling purposes by close attention. There were also some specialties introduced.

"Alphonse and Gaston" was not a bad thing, but it was not a new thing, but it drew a big house at the Lyceum last night, which was unfortunate—for the folks that went to make up the said big house.

The Ferris Comedians appeared at the Metropolitan Opera house in a change of program last evening. The company, beginning last evening with "Heart and Sword," an entertaining romantic drama, the rest of this week. The attendance last evening was large and showed the popularity of the new playhouse. The play was well received, the specialties between acts by William Lang and Harry Payne, Ferguson Bros., Dillon and Garfield, being especially pleasing. With a change of bill there has been a complete change in specialties.

The scene of the play is laid in Germany and the character of the piece is well borne out by the scenery and stage settings. "Heart and Sword" is sure to be a favorite with the Metropolitan's patrons for the rest of the week. Tomorrow there will be a matinee performance.

The programs of the concerts to be given Monday afternoon and evening at the Lyceum by Klitties band, the most famous Scottish band in the continent, have given the Scotsmen very keen anticipations and they look for something that will give them their hearts, for not only will the finest of Scottish music be presented by a band that has no peer in the interpretation of those grand melodies always so popular, but the famous dances of the Highland, the Highland reel, the sword dance, etc., will be given. The bagpipes, too, will not be missing and the action of the dance will stir the martial spirit of the Scots.

Last evening the Primrose & Dockstader Minstrels played at Superior to a large house, and the performance was a delight to all. This evening the show will be seen in Duluth at the Lyceum, and tomorrow afternoon and evening performances will also be given. This company needs no introduction to Duluth pleasure-seekers, and as this is the last season of the two leaders of minstrelsy as partners, they have put forth their very best efforts in order to leave a name behind them worthy of that left by them in the past. Many novelties are introduced this season, both in a scenic and artistic way, but that part which has been overlooked by many traveling organizations of its kind has received very careful attention—that of its vocal choir. Among the soloists will be found Stanley Ford, the great basso; Manuel Romani, the favorite minstrel tenor; George T. Mullen, the premier baritone; James B. Bradley, W. C. Wood and W. H. Hallett, making up the greatest sextet ever heard in minstrelsy.

The comedy is in the hands of George A. Primrose, Lew Dockstader, Neil O'Brien and Eddie Leonard. The first edition of end men and two end chairs are occupied by Mr. O'Brien and Eddie Leonard, who leave such an impression that it would be impossible for anyone, excepting Primrose and Dockstader to follow.

The olio is composed of Howard Bros., the great banjoists; George Primrose and his two proteges, the Paddy Twins, in their second edition of "The Sunny, Sunny South;" Lew Dockstader, in his up-to-date monologue, introducing his "auto;" Neil O'Brien, in a new sketch, and Allie Young and brother, the wizards of the hoops.

DEATH LIST.

Former Governor Hastings of Pennsylvania Dead of Pneumonia.

Bellefonte, Pa., Jan. 8--Former Governor Daniel Hardman Hastings died today of pleuro pneumonia after an illness of four days. The improvement in his condition early last night gave the family renewed hope, but the change for the

better did not continue. Toward midnight there was a fall in temperature and later the action of the heart grew weak. Oxygen was resorted to, but all efforts to improve his condition failed. No arrangements have yet been made for the funeral.

St. Louis, Jan. 8--Charles Waldo Hastings, head of the public accounting firm of Hastings & Solis, and the founder and first dean of the New York university school of commerce, died today of pneumonia, aged 50 years.

Advertising in The Herald is no experiment. Results follow every announcement.

COMING TO DULUTH.

Coe Commission Company to Locate Offices Here.

The Coe Commission company, the brokerage institution with branches all through the Northwest, will open offices in the building now occupied by The Evening Herald, on Jan. 19. The Coe company is well and favorably known through this part of the country, and is the largest independent grain, stock and bond broker company, with one exception, in the country. The service offered by the Coe com-

pany is unlimited. They execute orders of any size and maintain the quickest service possible. In the territory between Chicago and Portland, Ore., they have 150 offices, and it takes 10,000 miles of private wire to operate it.

The company is a member of the New York and Chicago boards of trade, and direct wires from those boards go into all the offices of the company. One hundred and twenty-five banks are on the reference lists of the company, which is considered as a strong and reliable institution. It is the only concern with a direct wire into the New York stock exchange.

The Duluth branch of this company will open its offices for business at 10 o'clock Monday morning, Jan. 19, in the

quarters now occupied by the business office of The Evening Herald. Figures from the Minneapolis Independent Grain and Stock Exchange are also posted at the offices of the company.

RED LAKE BILL

Has Been Prepared By Senator Clapp.

St. Paul, Jan. 9--(Special to The Herald.)--In the case of Clarence St. Taylor et al against the Security Mutual Fire Insurance company, the appeal of the company from a verdict in St. Louis county, is denied by the supreme court. It was an action to recover on an insurance policy for loss of fire. The defense

was that the risk was materially increased by the erection of an adjoining building without the consent of the insurer. The court holds that the burden of proof was on the insurer, that the matter was a question of fact for the jury and that the verdict was sustained by the evidence.

SUPREME COURT

Denies Appeal In St. Louis County Case.

Washington, Jan. 9--(Special to The Herald.)--The bill prepared by Senator Clapp, providing for opening the Red Lake Indian reservation, has been drawn and is now in the hands of the commissioner of Indian affairs and the secretary of the interior for approval. Its chief

provisions are that it shall contain a proviso, requiring ratification by the Indians to make it valid, and further, that the minimum price of lands shall be placed at \$5 per acre. Senator Clapp expects a measure as drawn will be approved, and he hopes to introduce it early next week.

If you have a bad taste in your mouth, feel bad, nervous, fretful, pain after eating, nausea, Rocky Mountain Tea will cure you in thirty days. No cure no pay. 35 cents.

BIG SUCCESS. GETS OPTION.

Clearance Sale at Great Eastern Drawing Great Crowds.

The big January clearance sale in every department of the Great Eastern Clothing store is proving a phenomenal success. Mr. Burrows has ordered deeper cuts than ever before, and the crowds of buyers that are every day visiting the establishments indicate the popularity of the sale. Besides the regular clearance sale, the surplus stock of suits and overcoats from the Detroit, Mich., store of Heavenly Body, purchased at 60 cents on the dollar, and which is now thrown into the head of the lake's market at especially low prices, is attracting attention from buyers all over the county. All the clothes in this stock are new from the factory and made for this season's wear. They are being sold at less than the cost of the manufacturers.

DUTCH CRUISER REMAINS. The Hague, Jan. 9.—In view of the events in Venezuela, the Dutch cruiser Holland has been ordered to remain in West Indian waters, and the battleship De Ruyter is proceeding to Curaçao.

FIRE AT GALACIA. Lemberg, Galicia, Jan. 9.—There was a serious fire at the oil wells at Borsiv yesterday evening. Twenty-seven springs were affected; twenty houses were burned and a girl was burned to death. It is estimated that the damage done will amount to \$100,000.

SPARKS FOR SHAMROCK. Glasgow, Jan. 9.—The American-made sparks for the Shamrock III have arrived here. The high Dutch crucible, including the topmast is 32 feet in length.

Great Slaughter Sale

LIGHTS CUT OFF

Wolvin Building In Darkness at a Busy Period.

Break In an Engine Which Operates the Dynamo.

Lamps and Candles Are Pressed Into Service.

Yesterday was a very dark day for more than 20 employees of the United States Steel corporation. It was a sad tragedy coming so soon after the announcement of the stock subscription and the silver sunshine hue that it caused. The big force of men at the new offices in the Wolvin building left their desks, in a state of depression, walked down stairs, ignoring the elevators, and out into the cold street.

The cause of all this mysterious movement was the breaking of a cross-head of one of the engines in the basement of the building, and the electric power stopped. When the fluid ceased to flow the elevators ceased to run and the incandescent lamps ceased to flood the place with their warm, homelike light.

The break came in the engine room yesterday afternoon, and the first knowledge throughout the building that something had occurred was acquired when the occupants wanted to use the elevators. Those machines stopped at all points along their routes, but luckily none were imprisoned, and the elevator men climbed out easily.

They did the best they could, and the few worked last night by the aid of lamps and candles.

For let it be known that this is the time of the year that the annual reports to the main offices in the East are being prepared, and they must be ready and sent away this morning. The reports are voluminous and full of figures. They require the closest kind of work for preparation, and the men who do the work are not to be trifled with.

Most of the men have been doing for several days past. Therefore not an hour could be spared, and the failure to light the building almost caused a panic among the officials who are responsible for the said reports.

They did the best they could, and the few worked last night by the aid of lamps and candles.

CRACKS APPEAR. Venice, Jan. 9.—Cracks have appeared in the arches of the Procuratie Vecchia on the Piazza of St. Mark. Investigation shows that a portion of the facade has become detached and that immediate and extensive repairs are necessary to preserve these historic Venetian structures.

SULTAN OF ACHIN SUBMITS. The Hague, Jan. 9.—It is officially announced that the self-styled sultan of Achin (Sumatra, Dutch East Indies) has tendered his submission.

ALFRED BEIL DYING. Cape Town, Jan. 9.—Alfred Beil, the well-known South African financier, has had an apoplectic stroke at Johannesburg and is reported to be dying. Dr. Jameson passed through Johannesburg today on a special train bound for Johannesburg.

You have looked into a beautiful face, seen the sweet smile, rosy cheeks, laughing eyes, and wished nature had made you attractive. Rocky Mountain Tea makes homely women beautiful. S. F. BOYCE.

ZWEIFEL,

The Photographer,

will leave for Chicago on Saturday evening and will be away about two weeks.

DIVORCES.

Woes of Mismatched Couples

Occupy the Court's Attention.

Actions for divorce continue to occupy the attention of the district court. Judge Dill yesterday granted a decree of divorce to Mary A. Rickard from Frederick Rickard. The charge was adultery with one Annie Painsquin, which the court held to be well sustained. The defendant is traveling salesman for a local packing house.

The actions of Minnie Baker against William Baker, and J. M. Roche against W. S. Roche, before Judge Cant, have been submitted. The case of Amelia Flick against James Flick has been partially submitted. The case of W. J. Cathcart against Ruth Cathcart has been continued over the term.

The cases of Maret Perssons, alias Maret Svedberg, against Olaf Perssons, alias Olaf Svedberg, of Magglio Roberts against Benjamin F. Roberts have been stricken from the calendar and the cases of Nettie McKusick against Frank McKusick, of Ellen Swanson against Theodore Swanson were passed to the regular court calendar.

Kansas City and Return \$19.85
Jan. 11 and 12, the Northern Pacific railway will sell tickets to Kansas City and return, account National Live Stock meeting, for \$19.85 for round trip. Tickets good returning until Jan. 31, except by depositing with joint agent and paying 50 cents limit will be extended up to and including Jan. 31. MORE ARE INDICTED

The Grand Jury Returns Another Bunch of True Bills.

Nearly All Charge the Crime of Grand Larceny.

One Is For Forgery—Two Indictments Not Public.

The grand jury this morning returned another batch of indictments against persons already in custody and two indictments against persons not in custody, but for whom bench warrants have been issued.

John Kane, who was bound over to the grand jury on the charge of robbing Tony LaVilla of \$40 and a check for \$55 at his store in Duluth, on the evening of Nov. 20, was indicted on two counts, that of grand larceny in the first degree and burglary in the first degree. He has not yet been arraigned.

Albert Massow was indicted for grand larceny in the second degree, the charge against him being the stealing of a suit of clothes worth \$10 from Marzella Dreger, of the Lovell block, Dec. 21, 1902.

James A. Jeffrey was indicted for forgery in the second degree. The information against the defendant is that he passed a forged check of \$50, drawn on a Duluth bank, to Dan Peterson, Dec. 5, 1902. The check purported to bear the signature of S. A. Grey.

Albert Anderson was indicted for grand larceny in the first degree. The indictment charges that the defendant, Nov. 12, robbed the trunk of Lena Hendrickson, a domestic employed by

Theodore Hollister, of \$130, which represented her savings.

Chris Reimer was yesterday indicted for grand larceny in the second degree. He was arraigned, waived the reading of the indictment, and pleaded not guilty. Reimer will be defended by Adams & Miller. The charge against him is that of stealing two sets of luggage.

Indictments were returned also yesterday afternoon against Thomas Kent and Charles Linnell, who are charged with grand larceny in the first degree. The information against the defendants is that on the evening of Nov. 18, 1902, they stole twelve sacks of wheat flour from a car belonging to the Omaha Railroad company, located on the dock, near Eighth avenue west. The flour was valued at \$1058. The defendants when arraigned yesterday waived the reading of the indictments and were given one day for pleading.

The hearing was fixed at 2:30 p.m. They will be defended by Baldwin & Baldwin.

Several other arraignments were made yesterday afternoon. Thomas McCarthy, against whom true bills were found for forgery in the second degree, was given until today to make until today for his pleading, also Canas, day whether he wanted an attorney or would conduct his own case.

Julius Lehtonen, indicted for grand larceny in the first degree, was given until today for his pleading, also Charles Clark, indicted for petit larceny.

Jacob Hanson and Chris Lorenson, indicted for grand larceny in the first degree, when arraigned yesterday afternoon, each pleaded guilty and will be sentenced later.

There were to be a few arraignments this afternoon, but it is not likely that any more indictments will be returned until tomorrow morning.

STREET CLEANERS

At a recent meeting of the Health Protective association, Deputy Commissioner Clark of the street cleaning department told a story to illustrate an experience that befell one of the street cleaning force when the ordinance first went into effect calling for the separation of ashes and paper by householders and the collection of the paper in bundles convenient for the rubbish men to handle, says the Brooklyn Eagle. The street cleaner was an Irishman, much very clean, but also that the bundles were kept inside the court yard railing or in the house until called for by the collector. On an uptown block the street cleaner going his rounds saw a bundle of paper on the edge of the curb and promptly threw it into the court yard. The

mistress of the house came out and entered a vigorous protest, which ended in her placing the bundle again on the curb edge. The man threw it back. This happened several times. Then, in the language of Mr. Clark, the "lady collared the man," and the upshot of the encounter and the exchange of language was that the householder made a complaint and the street cleaner was brought before the commissioner. The complainant failed to appear on the day of trial, and the man was discharged. He appeared in the trial room with his head swathed in bandages and his right arm in a sling.

"What's the matter with you?" asked the commissioner. "How did you hurt your head?"

"Oh, that's where I fell again the railing, sir," answered the man.

"The result of your efforts to have the bundle kept inside the court yard railing?" inquired the commissioner.

"Yes, sir."

"What's the matter with your arm?" was the next inquiry.

"That's where the lady hit me with a baseball bat," replied the street cleaner.

POLITIC PEDDLER AND LADY

"Lady," said he, stepping into the front hall, according to the Brooklyn Eagle, "I'd like to show you one of our little double reflecting window mirrors, which—"

"It's no use to show it to me," she interrupted, impatiently. "I shan't buy it."

"I know; but it's a pleasure to show it to people who have sense enough to appreciate a good thing, even if they don't want to buy it. You see, you just hang it up by this little ring in your front window. Then when your door bell rings you can look in the mirror and see whether you're at home or not."

knowing it. Of course, you wouldn't care to do that, but some folks like to know everything that's going on in their neighbors' houses without letting on that they care a rap."

"No, thank goodness! I'm not one of that kind. How much did you say these mirrors were?"

"The regular price is \$5, ma'am; but I'll make this one to you for \$4.98 if you'll promise not to tell anybody."

"Very well, I'll take one, and I won't even tell anybody I've got it."

DULUTH, MINN.

THE DAKOTAS.

Two Men Killed Near Arlington During the Storm.

SOUTH DAKOTA.

Arlington—A large barn belonging to William Stewart, seven miles east of here, was blown down Tuesday night, killing Ed Stewart, brother of William Stewart, and Dan Bronson, of Horton, Kan., who was visiting there. The bodies were not found until the next day. One hundred head of cattle and several hogs were also killed. Many windmills were blown down.

Armour—H. W. Johnson's handsome residence burned Tuesday. The fire originated from the furnace and the loss is \$5000. Mr. Johnson is the senator from this district and is at Pierre.

Sheriff Marvin is rounding out his term of office by going after all classes of evildoers with a shrewd stick. His last day in office was devoted to looking after D. Englund on the charge of keeping his saloon open on Sunday and having him arraigned before a justice of the peace. Then he made a raid on one or two haymow gambling parties, and also assisted some young women to seek a more congenial climate.

Hot Springs—David Kaiser, who last year wandered away from the soldier's home, is at Cheyenne, Wyo., and has written he will return to the Hills in a short time. His friends and the pension department have been making inquiries as to his whereabouts, but all efforts were unavailing. In his letter he gives no reason for his conduct.

Fort Meade—The headquarters and hospital of the Thirtieth United States cavalry are preparing to leave in the early part of February for San Francisco, where they will embark for the Philippines. The remainder of the regiment will follow as quickly as transportation facilities can be provided.

Deer Bay—The next meeting of the state board of pharmacy will be held on Jan. 14. Applications for examinations should be filed with Secretary Bent, in this city, at least five days before the date of meeting.

Deadwood—George W. Cornwall expects to go to Old Mexico to represent a syndicate of Eastern men in the construction and operation of a telephone system centralizing in the City of Mexico.

SOUTH DAKOTA.

Fargo—The members of the city council wish some additional municipal legislation this winter, and a committee will probably be appointed to go to Bismarck to look after it. One law wanted is a measure to compel county officials to collect special assessments just as regular assessments are rounded

up. The present law causes the city officials much trouble on sewer and paving taxes. Another provision will be asked to make water main assessments according to benefits rather than by foot front, as now.

Grand Forks—The session of the United States court will conclude here today. In the \$10,000 damage case of Mrs. Sarah Salisbury, of Minnewaukan, vs. Mrs. Allen J. Nichols, after the jury had been drawn the attorney for the defendant settled the case by the payment of \$5000 to the plaintiff. The suit was brought for the alleged alienation of a husband's affections.

Fargo—The jury brought in a verdict of guilty in the case of Mrs. Charles Troyer, charged with planning the robbery of Farmer Boynton Thanksgiving night. Her husband was convicted on the same charge last week, and faro men who actually committed the crime have pleaded guilty.

LOST CREW.

Names of the Men on the Bark Prince Albert.

Neah Bay, Wash., Jan. 9.—The following are the names of the crew of the bark Prince Arthur which was wrecked two miles north of Point Rock Friday, when but two of the crew were saved: Hans Marson, captain; Harmon Doll, first mate; Lars Larsen, steward; Godfrey Olson, Ensign Anderson, Gustave Molensen, Emil Hansen, Ferdinand Frederiksen, — Polden, Frank Poulsen, Philip D. Balsa, ordinary seaman; — Andersen, donkey man; Christian Christensen, Charles Christensen, Oscar Martin and — Jordale, apprentice boys, and a carpenter, whose name is unknown. The two survivors, Christopher Hansen, second mate, and Karl Larson, the sailmaker, state that they had no reckoning for three days, and at 6 o'clock of the day of the wreck soundings gave sixteen fathoms.

Curling Scores.

At the curling rink last evening two games were played in events, one in the Gulf and another in the Manley-McLennan agency contest. The scores were as follows:

Gulf—
S. M. Stocker, 8.
Ray Newall, 7.
J. T. Hickman, 6.
T. A. Currier, 5.
Morris, 4.
Skip—14.

Manley-McLennan—
R. C. Mayfield, 8.
Capt. McLennan, 7.
P. A. Day, 6.
Alex. Macrae, 5.
Skip—7.

Joe Catlin, 8.
Thomas Gibson, 7.
H. Hurdon, 6.
R. J. MacLeod, 5.
Skip—10.

Never expect much from small advertisements, unless they are reinforced by plenty of auxiliary advertising and occasional large ones.—The Advertiser.

ROMANCE

In Wedding of a Sister of Mrs. Dan Hanna.

New York, Jan. 9.—A fashionable wedding took place in St. Thomas' church, Fifth avenue, yesterday afternoon, when Miss Elsie Barlow Gordon, the 17-year-old sister of Mrs. Dan Hanna, was married to Morton Burr Stickle, a wealthy young broker of this city.

Among the distinguished guests present was Senator Mark Hanna, who proposed the toast to the bride at the large reception that followed the ceremony at the church.

The marriage ceremony was performed by the Rev. Ernest Stiles, rector of St. Thomas'. The bride was given away by her brother, Douglas Gordon, and her sister, Mrs. Daisy Gordon Hanna, acted as matron of honor. The bridesmaids were the Misses Mildred Lillian Sawyer, Beatrice Ward and Theresa Matthews.

A fair share of romance is interwoven in the love story that culminated in today's wedding. Miss Gordon met young Mr. Stickle, who is not yet 25 years old, at a tennis match at Larchmont last summer, and it was a case of love at first sight.

An engagement followed in a few days, but because the young man's family objected to the match on the ground that he was too young, the couple kept it secret from their families until a short time ago, when Mr. Stickle overcame the paternal objections.

Then the date for the wedding was set for some time next March.

A short time ago, however, Miss Gordon's mother became seriously ill, and fearing that she might not live until the date set for the ceremony, urged the young couple to hasten the marriage.

The bride is the daughter of the late William J. Gordon, of Cleveland, O., one of the millionaire horsemen of the Middle West and owner of the famous Clingstone.

ALARMED THE GUESTS.

Employee Kills Bell Boy at Chicago Hotel.

Chicago, Jan. 9.—Fred Byrd, colored, a bell boy at the Lexington hotel, was shot and killed last night by Walter Edwards, another colored employee. The shooting took place in the corridor, on the fifth floor of the hotel, and alarmed the guests, many of whom rushed from their rooms. Edwards escaped. The shooting was the outcome of a quarrel earlier in the day.

Eagles Install Officers.

The local lodge of Eagles installed officers last evening. The officiating officer being Deputy State Grand President Schadenwald of Minneapolis.

Those installed were: N. E. Brown, east president; P. A. Pierce, president; J. A. Mannheim, vice president; Stephen Parker, chaplain; J. W. Schroeder, secretary; J. J. Sullivan, treasurer; E. B. Kirkwood, conductor; W. Armstrong, inside guard; Robert Cassell, outside guard; W. E. Brown, William Abrahamson, L. Van Praag, trustees; A. E. Levinson, F. J. Patton, aerial physician.

Retiring President W. E. Brown was presented with a handsome jewel. Following the ceremonies of installation a banquet was served and a social session held.

Excited the Swag-
ger Set.

Kodak Escapade of Doc-
tor and His Beauti-
ful Wife.

Charged With Exhibiting
Disgraceful Pictures
In the Nude.

Oakland, Cal., Jan. 9.—Oakland's swag society circles are all torn up by disclosures made by the police regarding the kodak escapade of Dr. Louis Earle and his beautiful young wife, who recently came to this city with highest social recommendations from Brooklyn, N. Y.

The charge against the Earles is making and exhibiting obscene pictures in the nude. Both the physician and his wife were arrested and were released on \$200 cash bail, pending their trial. The affair is the worst of its kind that the local police have had to deal with. "I never in all my experience saw anything to equal this," said Chief Hodgkins.

The attention of the police was attracted to the couple by W. D. Dashman, who informed the authorities that his daughter had visited the Earle home and there was confronted with a display of obscene photographs of Mrs. Earle and her husband. The young girl reported the matter to her father, who learned that a number of young girls in the neighborhood had met with a similar experience in the comfortable home of the wealthy couple. He swung out a search warrant yesterday, which resulted in the arrest of the doctor and his wife.

Earle and his wife, Mrs. Jane A. Earle, have been here from Brooklyn about four months, and during that time have lived here in good style. Soon after their arrival Earle paid a deposit upon the home in which they live and intends to purchase it. The police state that his family in New York is one of the best. The police are baffled at the motive which impelled the couple to take such pictures. Some were mounted as entertainers for the new year, while others were pasted in an album.

In explanation of the affair Earle stated that after a dinner at his home, himself, his wife and a woman friend, who was a "society" girl, were sitting at the table and he did it for fun, never expecting that it would be learned. Earle is a native of New York and is not practicing and seems to have plenty of funds and does much entertaining at his home.

The iron, structural iron, plate steel, steel rods, and iron rails. From British ports, 15,000 tons of iron ore were shipped to the United States last year. The cargo was made up of iron ore, steel rods, and iron rails. From British ports, 15,000 tons of iron ore were shipped to the United States last year.

FOREIGN

Iron and Steel Coming Into United States Rapidly.

New York, Jan. 9.—Foreign iron and steel now figure conspicuously in the construction of buildings and railroads in this country, says a Philadelphia dispatch to the Times. During last December alone over 10,000 tons of iron and steel material were brought in through the port of New York. Baltimore and Philadelphia. Baltimore headed the list with an importation for 43,122 tons, while Philadelphia followed with 31,215 tons. New York received 23,446 tons. The cargoes were made up principally of iron, structural iron, plate steel, steel rods, billets and beams, scrap iron and steel, rails of construction material, wire rods, and iron rails. From British ports, 15,000 tons of iron ore were shipped to the United States last year. The cargo was made up of iron ore, steel rods, and iron rails. From British ports, 15,000 tons of iron ore were shipped to the United States last year.

ADMIRATION

For American Railroad Methods Expressed By English Manager.

London, Jan. 9.—Philip Burt, general traffic manager of the Northeastern Railroad company, speaking at the Railway Institute of York yesterday, relative to his recent investigation of American railroad methods, expressed general admiration of them and said he was of the opinion that British railroad men could learn much from America. At the same time, he added, the best American minds would find much to admire and learn in English railroad management.

Mr. Burt said that the intense keenness and enthusiasm of all Americans in their railway work was a most striking impression on him. He thought that while America held the record for speed, the English average express runs would be found higher than the American. Mr. Burt cordially admired American adaptability in the use of power and ingenious labor-saving devices. He concluded with remarks:

"The English must learn to be less insular and more cosmopolitan in their ideas, and realize that they have not been specially selected by Providence to be teachers of the world."

the garment.

BEAR ATE PRUNES.

Then His Friends Beat Him to Death.

Henry Altenbrand, of this city, saw a surprising exhibition of bear nature on a recent visit to Yellowstone National park. Bears are abundant in that great preserve, and as it is against the law to kill them, they have become impudent to a marked degree, says the New York Sun.

Late one night the guests at the hotel where Mr. Altenbrand was stopping were waked by a great hubbub on the premises, and learned that a big bear had battered in the door and was then in possession of the kitchen.

"It seems," said Mr. Altenbrand, "that the hotel cook had stewed a lot of prunes that day and had stored them away in a two-gallon jar. Bears are very fond of sweets of that kind, and this bear had probably got scent of the prunes and came to get possession of them."

"At any rate, the cook had heard a great banging at the kitchen door in the night and had hurried down, kerosene lamp in hand, just in time to see the door tumble to pieces and a big bear force his way through the breach."

"The cook put his lamp down on the kitchen table and made a great show of rushing on the bear to drive him out, but the bear made a rush himself, and one that meant business. The cook took to his heels, got out of the door into the adjoining room in time to escape the bear and slammed the door behind him."

"There were windows in the kitchen so that from a porch on the outside anyone could see what was going on inside. Those of us who hustled around to see what was up got to the kitchen

door just as the cook came tearing out, only half a jump ahead of the bear. Then we viewed the further proceedings through the window.

"The lamp lighted the room well and we saw the bear dancing about on his hind feet, with his nose in the air sniffing. When he came to the pantry he stopped, yanked the door open, went inside and soon came out with the big jar of prunes, holding it against his chest, with his fore legs clasped around it."

"He staggered with it to the table where the lamp was, sat it down on the table, and dabbing first one paw in the jar and then the other, fetching out a handful each time, dripping with juice, he fed himself prunes with a gusto and a comical-looking enjoyment on his face that beat any funny picture of a bear the funniest artist ever drew."

"The bear had been at his odd feast perhaps a minute when we saw the head of another bear poked in at the kitchen door. There was an eager, longing expression on his face, and after a moment's inspection of the interior he crept cautiously all the way in."

"The head of the third bear instantly appeared at the bettered door, and then we saw that there were two more bears pressing on behind that one, plainly eager to get inside. These bears were smaller than the one which had committed the burglary."

"They got into the kitchen before the big bear at the table paid any attention to them. Then he suddenly quit his feast, fell upon his intruders tooth and claw, and with hair-raising snapping of jaws and fierce snarls and growls, threw them out. Then he went back to his feast."

"The outside bears hung around a while, whining and growling and making one or two feints at rushing in and making it warm for the lucky one at the feast and then slouched away and

disappeared in the darkness. "The burglar bear ate every prune in the jar, sopped the juice out with his paws and licked them clean of every drop, and with a deep grunt of satisfaction waddled slowly out of the house and went his leisurely way. We were in the midst of our hilarity over this extraordinary entertainment when out of the darkness, not far away, came most unearthly sounds of savage combat."

"Jaws snapping, snarls, howlings, growls, yells and the smashing and crashing of undergrowth indicated a fierce battle among wild beasts. The range of the struggle shortly brought it near enough for us to see that the fight was among bears, and as there were four small ones and one big one, we naturally looked upon them as the burglar bear that had gone away a few minutes before full of prunes and the bears that had been shut out of the feast."

"The fight was short. The big bear sent one of the smaller ones sprawling ten feet away with one mighty cuff, and that bear never rose again. His companions forced the fighting, and when they went limping away after the fight was over the big bear lay helpless from his wounds, howling in pain. He was so badly torn up that he had to be shot."

"Of course none of us believed anything else but that four disappointed bears had lain in wait for the greedy burglar bear and attacked him. Whether that was true or not, it seems to me that after what I saw of bears that night there will be no bear story hereafter that I won't come very near believing."

AT WEST DULUTH

Many West Duluth citizens are complaining of the requirements necessary to procure extensions of the water mains. According to the present regulations it is necessary for the property holders to guarantee an annual income of 5 per cent on the money invested in laying the mains. The cost per block of laying water mains is about \$700, and it is therefore necessary that the householders guarantee a revenue of \$6 per year for each block on which they are laid.

In the outlying parts of West Duluth the houses are scattered in small settlements, there often being a block which is well filled with houses, surrounded on all sides with vacant lots for several blocks. In cases of this kind it is practically impossible for the householders in that block to secure city water, since they have to guarantee the revenue not only on the block in which they live, but for the several blocks of water main which must be

laid in order to reach the nearest pipe.

K. OF P. INSTALLATION.

The annual installation of the Kitchi Gammi lodge No. 122, K. of P., held last evening in the Wieland & Wade hall, was a most enjoyable affair. George Cruikshank acted as installing officer. The impressive ceremonies of installation were interspersed with music and addresses. Alderman L. A. Barnes presented the address of welcome, which was brief and hearty. Miss Blanche Murray gave a very pleasing piano solo and William Berglund rendered a choice selection on the mandolin.

Past Chancellor Williamson, on behalf of the lodge, presented Past Master Adolph Prelmuth with a beautiful silver chafing dish. In the short address which accompanied the presentation Mr. Williamson referred to Mr. Prelmuth as the Father of Pythianism in West Duluth. Mr. Prelmuth has been recently married, and the present was a token of the esteem in which he is held by his brother members.

After the installation exercises all sat down to a sumptuous banquet which had been prepared. When full justice had been done to the refreshments the floor was cleared and dancing was indulged in until an early hour this morning.

The following is the list of the officers installed: C. C. Emil Zauft; V. C. Charles Fancett; prelate, Martin Solberg; K. of R. and S. of M., C. M.

Phillip; M. of E., C. R. Keyes; M. of A., Floyd O'Connor; M. of W., George M. Cruikshank; I. G. L. Wedan; O. G. Myron Cooper.

WEST DULUTH BRIEFS.

S. C. Murphy left for Grand Rapids last evening to install the officers of the A. O. U. W.

Lucien Merritt has returned to the state university at Minneapolis.

Miss Mahel Robb entertained a number of her young lady friends at a card party last evening.

Dr. Graham has returned from the state legislature to spend Sunday with his family.

Dr. S. H. Olson has charge of Dr. Graham's practice during the latter's absence from the city.

Dr. Olson is a new arrival in the city from Minneapolis.

A daughter was born to Rev. and Mrs. Nygren, of Fifty-ninth avenue, last evening.

Mrs. Edward Dolron is visiting friends in Superior.

Joseph Sayan has returned from Washburn.

Santa Maria report No. 322, C. O. F., held installation exercises last evening in Gilley's hall. Refreshments and a musical program followed.

The regular monthly meeting of the Asbury auxiliary of the W. F. M. S. will be held at the home of Mrs. W. W. Walker, Main street, Friday afternoon.

West Duluth will soon be supplied with an ambulance. It will be stationed about midway between West

Duluth and Duluth and will cover all the West Duluth route.

A. Sawyer was here yesterday to Mr. and Mrs. Henry Troitz, 416 North Fifty-seventh avenue west.

Mr. S. Shore has returned from Chicago.

The West Duluth Commercial club will meet this evening.

Mrs. James Carrier is visiting Mrs. Andrew Miles for a few days.

Rev. J. J. Skully will lecture this evening in the Asbury M. E. church on the subject, "The Dignity of Man."

P. Skully, Joseph Hickson and J. Faulkner have returned from Cloquet.

IN MICHIGAN.

One Thousand Men Working For One Logging Contractor.

Iron Mountain—One of the largest logging contractors in the Northwest is Andrew Bjorkman, of Iron Mountain, who this winter is giving employment to 1,000 men in Dickinson county, Mich., and Marinette county, Wis. His largest contract is the cutting of 12,000,000 feet of pine for the Sawyer-Goodman Lumber Company, of Menominee, and he has several for smaller quantities in addition to a contract to furnish 2,000 cords of pulp wood for the Marinette & Menominee Paper Company and the same amount for the Kimberly-Clark Paper Company of Niagara, Marinette county.

St. Ignace—Eugene Boucha, a young man of St. Ignace, has arrived home after having girdled the globe at the expense of Uncle Sam. Some years ago he enlisted in the Ninth regiment of regulars and Grand Rapids and sailed from New York for Manila via the Suez canal. He saw service in the Philippines and later in China, where he participated in the taking of Tien-Tsin and in the expedition to Peking. Boucha's term of service expired later in the Philippines and he was furnished with transportation back to Grand Rapids by way of Honolulu and San Francisco, thus completing his tour of the globe.

Manistique—It is the feeling of the officials that the Chicago Lumber company is not being given justice in the matter of taxation. This year it will require a check for more than \$40,000 to settle the company's taxes in Manistique, or two-thirds of the total levy. The increase is a result of the work of the state tax commission.

Menominee—Five thousand acres of land in Cedarville and Ingalltown townships of Menominee county have been purchased by the Menominee Abstract and Land Company from W. P. Hone of Chicago and Burns & Hicks, lumbermen of Menominee. The lands are principally tracts from which the hard wood has been cut. It is the intention to colonize them with outside settlers in the spring.

Bescener—Underground work at the Mikado is still at a standstill and the single men are leaving for other mines. Unless the operators consent to an increase in pay, the mine will probably be idle all the winter. Under the old company account, miners had \$2 and \$2.25 a day, while on present contract of \$6 a car holding 1 and a half tons, they average less than \$1.50 a day.

Calumet—Fire Tuesday night destroyed Richard James' livery barn and contents. The loss is \$3,000, covered by insurance. The origin of the fire is unknown. A fierce blizzard made the work of the firemen difficult.

Ironwood—E. A. Ellard, superintendent of the Ashland mine, operated by the Cleveland Cliffs company, will go to the Mesaba as general superintendent of that company's interests there.

Advertising in The Herald is no experiment. Results follow every announcement.

VIVISECTION

Strongly Opposed By President of S. P. C. A.

New York, Jan. 9.—President John P. Haines was outspoken against the

unrestricted practice or vivisection in his address at the thirty-seventh annual meeting of the Society for the Prevention of Cruelty to Animals at the society's rooms in Madison avenue. He urged that the bill introduced in the United States senate by Senator Gallinger for the reasonable regulation of

vivisection should receive the unqualified support of the society. "I believe that a vast majority of our members hold, as I do, that vivisection is essentially immoral," said the president, "and further, that it is hideously cruel when experiments with living animals are performed without the use of effectual anesthetics."

ABDUL AZIZ, THE UP TO DATE SULTAN OF MOROCCO, AND HIS TROUBLES.

If the formidable revolution in Morocco is a success, Abdul Aziz, the present sultan, will speedily become Abdul Asv is. He is a bit too progressive for the folks at home. He rides a bicycle in a divided skirt, gets photographed, is a camera fiend himself, has Moslem fauntics who kill missionaries shot and does other up to date things that please his people.

FENCING IN ROADS

Farmers After All the Land They Can Get.

Commissioners Discuss Probable Action Against This Practice.

Cases Where Roadway Is Narrowed to Ten Feet.

St. Louis county farmers and settlers must keep their fences off the highways. This is the edict that the board of county commissioners is likely to issue at the next meeting. The practice of building fences in the county roads was one of the subjects that came in for quite a little discussion during the closing minutes of the annual meeting, but owing to the late hour no action was then taken. Commissioner Patterson, who has been looking into the subject for some time, says that there are many of the county roads that are not over ten feet wide in some places because the farmers or the settlers have carried their fences right out in the roadway as far as they have dared. He said that the practice would have to stop or it would not be long before the whole road would be appropriated for farming purposes and travelers of St. Louis county highways instead of wheeling over graded roads would be dodging between potato hills and turnip patches. Two striking instances were mentioned. One on the Swan Lake road and another on the Vermilion road. Various means were suggested of stopping the practice. Commissioner Keger thought the most effective, but probably the more expensive way would be to have a man go along the roads and tear down all the fences that infringe on the highway. Commissioner Patterson suggested the idea of putting up large placards at regular intervals on all the county roads, warning the farmers that they must keep their fences on their own premises. The last scheme discussed and which is likely to be adopted at the next meeting, is the passing of a proper resolution by the county board to be followed by the sending of notices to every town board, to be in turn made known to the inhabitants of the town.

MARSHALL HAS SCHEME
For the Consolidation of Indian Treaty Bills.

Washington, Jan. 8.—Representative Tom Marshall, of North Dakota, who re-

turned last night is trying to get up a combination with Western members of the House to introduce a bill to bring pressure on Speaker Henderson for one or two night sessions to consider them. Marshall has the Fort Totten bill on the calendar. The South Dakota members have the Roswell treaty pending, the Minnesota delegation is interested in the Red Lake bill, and the Wisconsin members have bills in the same parliamentary situation. All are anxious to go to action, but have been unable to do anything because of the opposition of Chairman Cannon of the Indian affairs committee. He has indicated he will withdraw that opposition if provision is invested in each of these bills that no money shall be paid to the settlers until it has been received from the Indian returns from Hot Springs. The senate committee on commerce today ordered a favorable report on Rep-

REACHES SEAT OF TROUBLE
Don't Try to Cure Hemorrhoids With External Application.

When it is such a well known fact that hemorrhoids or piles is a disease originating in the morbid dilatation of the veins of the lower part of the rectum, it seems incredible that people afflicted with this painful trouble should go on doctoring with external salves and washes, when the diseased parts can only be reached by an internal application. The suppositories used in Pyramid Pile Cure are composed of the most soothing and healing oils and lotions known to Materia Medica, and act on the diseased veins and surrounding tissues like magic, giving almost instant relief. The dilated blood vessels are relieved, the irritation of the mucous membrane ceases and bleeding is stopped. The predisposing causes of piles are such as produce fullness of the hemorrhoidal veins and inhibit the return of blood from them, such as constipation, sedentary habits, city life, pregnancy, corsets, etc.; in fact the causes are all fully covered in a very interesting little book published by the Pyramid Drug Co., Marshall, Mich., and the same will be sent free to any address upon application. The general principles of treatment are, according to the evident causes, active habits, attention to diet, and other hygienic rules, etc.; avoidance of constipation and each night the injection of a Pyramid suppository to heal and cure the afflicted parts. The suppository has been effective to thousands of people who have been permanently cured by the evidence of different doctors. I at last found a permanent cure by only using two fifty cent boxes of Pyramid Pile Cure. The first two or three applications gave me relief at once. I am now entirely cured and thank God for finding this medicine as the Pyramid Pile Cure.

representative Fletcher's bill to make a port of entry of Florida, N. D., for the immediate transportation of imported goods in bond.

HYDE VERSUS POWERS.
Gov. Merriam Issues Statement Regarding Dispute.

Washington, Jan. 8.—Governor Merriam, director of the census, has made public an official statement closing the dispute between his bureau and the agricultural department regarding the comparative accuracy of the statistics of area of agricultural lands of the United States. The agricultural department which gathers these statistics on its own account every year made the area considerably less than the census office. The dispute which has been on for several months has been in fact a dispute between John Hyde, statistician for the agricultural department, and L. G. Powers of Minneapolis, statistician for agriculture in the census office. Mr. Hyde emerges from the controversy under suspicion of having furnished the public with the data which caused the dispute and Secretary Wilson is understood to have given him strict orders regarding this sort of conduct. Governor Merriam fully sustains Mr. Powers' work in every essential particular. Iowa was reckoned for test purposes with a change of totals of only one-fourth of one per cent. In only one county in the entire country was the error more than one per cent. In addition, Governor Merriam has rechecked the figures and has been committed by the census office. It is found that for the purpose of the census, the figures are correct. This is a matter of great importance to the agricultural department, which figures are within one per cent of the truth. This disposes of the matter finally. It was the wish of both Secretary Wilson and Governor Merriam to bring the discussion to a prompt close. They are both anxious that Mr. Hyde be held responsible for it.

DR. BRADFORD THINKS
Church Should Organize on Model of Trusts.

Boston, Jan. 8.—Rev. A. H. Bradford, D.D., of Montclair, N. J., moderator of the Congregational National council, asks the denomination through the Congregationalist the following question: "Has the time come for a general union of our missionary and benevolent activities according to methods now prevailing in the business world?" In other words, Dr. Bradford suggests that the Congregational church should reorganize itself on the model of the trusts. He believes that thereby there will be economy of effort and of financial resources in no other way. At Congregational Home the denominational headquarters of the country, Dr. Bradford's ideas were warmly endorsed.

WOULD AMEND BILL.
Congressman-Elect Buckman and Morris Law.

Washington, Jan. 8.—Congressman-elect C. B. Buckman, of the Sixth district, is coming to Washington next week for the purpose of trying to have an amendment passed to the Morris Chippewa Indian reservation bill. The desired amendment is to make the time limit for advertising for sealed bids for the pine lands three months instead of six months, as is now the law. A three months' limit would mean that the operation would be commenced next fall while under the six months' provision as it will militate to curb the trusts are attracting national attention.

CUMMINS IS PUSHED

For Second Place on the Republican Presidential Ticket.

Battle With Senator Gear Stamped Him as a Leader.

His "Iowa Idea" Utterances Have Attracted Much Attention.

Council Bluffs, Iowa, Jan. 8.—"Roosevelt and Cummins" is to be the Republican presidential ticket, if plans which have been devised and partially executed, which are being carried to completion have definite results. Friends of Governor A. B. Cummins in western Iowa are confident that in him they have found the only man in the country who is suited in disposition, political beliefs and personal qualities to be the running mate of Theodore Roosevelt. One of the men who are "on the inside," and who is of national prominence politically, but who is discreet enough to ask that his name be withheld, presents this view of the situation. "Governor Cummins is comparatively young, yet skilled in political finesse, as the Iowa situation shows. He is a leader. His remarkable achievements in forcing Shaw, Allison, Dooliver and all the other Iowa notables to accept his views, openly at least, has no parallel in Western political history. "McKinley rose to prominence as the author of the tariff for protection" idea, and this idea has been the basis of the tariff for protection. "McKinley rose to prominence as the author of the tariff for protection" idea, and this idea has been the basis of the tariff for protection. "McKinley rose to prominence as the author of the tariff for protection" idea, and this idea has been the basis of the tariff for protection.

The fact that he is receiving and accepting invitations to speak at public gatherings in the western states is making him personally known, and he is, in effect, making it known to his friends without intent, making an effective presidential nomination. If elevated to the secondary position, it is more than likely that his friends will make of him the "special" choice for the presidential nomination in 1908. His friends assert that his nomination will have a moral influence throughout the West, as it will be a recognition of the right of the West because of its growing political importance to representation on the presidential ticket.

RUBY BRITT GETS MONEY.

Proves She Is Daughter of Wealthy Iowan.

Des Moines, Jan. 8.—Mrs. Ruby J. Britt, of Butte, by proving herself to be the natural child of the late Reuben J. Bennett, of Webster City, Iowa, a wealthy bachelor, who died three years ago, has just carried off to Montana a small fortune given by the courts of Iowa. Bennett was an eccentric and hard-fisted man, who had lived in Hamilton county many years, and had acquired a large estate by shrewd dealing and the extraction of high rents and interest. He had few close friends, and was not known to have any relatives save a number of cousins, or more distant relatives. Of his past life little was known. At his death an administrator was appointed, and the distant relatives, included among which were the most prominent men of the county, laid claim to the estate. At this juncture Ruby Britt came from Montana. She produced letters from the late Reuben Bennett, which showed that she was unquestionably his daughter, the fruit of a love affair long years ago. The letters proved that he had made provision for her in her younger days, and that he had openly acknowledged her relation to him in many ways.

A hard legal fight followed, which went through the supreme court, and resulted in complete triumph for Mrs. Britt. The court awarded her the entire estate. This week she sold a part of the land for \$25,000, and returned to Montana. This represents only a part of the estate.

FINDS WAY TO LIVE LONG.
The startling announcement of a discovery that will surely lengthen life is made by Editor G. H. Downey, of Chubbuck, Ind. "I wish to state," he writes, "that I have discovered a remedy for consumption is the most infallible remedy that I have ever known for coughs, colds and grip. It is invaluable to people with weak lungs. Having this cough medicine no one need dread pneumonia or consumption. Its relief is instant and cure certain." W. A. Abbott.

REASONS

Why Secretary Hitchcock Is Holding Up Land Entries.

Washington, Jan. 8.—Inquiries from thousands of purchasers of timber and stone lands are pouring into Washington, asking for information about the sweeping investigation that has been ordered by the general land office of all entries of timber and stone lands in the states of Oregon, Washington and California. An order was issued Nov. 13, suspending action on all this class of entries in the states of Oregon, Washington and California. Not only entries made prior to that date, but all subsequent entries, are to come under the provisions of this general order. The investigation will cover all timber and stone entries made at the La Grande, Lakeview, Oregon City, the Dalles, offices in Oregon, the Eureka, Redding and Sacramento, in California, and the Seattle and Vancouver offices in Washington.

Under the timber and stone act lands that are thus classified must be purchased at \$2.50 per acre, but, although there is no stipulated provision in the act binding the purchaser to reside on the lands, there is an implied understanding to that effect. The land department claims that a great number of these entries have been made for purposes of speculation, and that the original entries are not bona fide. It is not contended that there are many entries made in good faith, but the complaints from some portions of Idaho and Washington have been such that the department decided on the general investigation at the hands of special agents. The entries are being grouped, and each group placed in the hands of special agents. The principal trouble is not with the entries, but with the law under which the entries are made. It is said that since the price of land has appreciated so rapidly in the West, that these lands, entered under the timber and stone act, have gone up and that speculators are after them.

A bill is pending to repeal the entire timber and stone act, but it is understood that Secretary Hitchcock is not in favor of such action, but would prefer to see the law amended, raising the price per acre from \$5 to \$10 per acre. It will be a long time before the investigations are completed.

BRIEF TELEGRAMS.

The Democrats in the Missouri legislature in joint caucus Thursday night nominated former Governor William J. Stone, of St. Louis, for United States senator to succeed Senator Vest. The nomination was made by acclamation after William H. Wallace, of Kansas City, who was a candidate withdrew from the race in support of Stone.

Patrick Creghan, 19, has been arrested at Great Falls, Mont., passing counterfeit money into slot machines. He has confessed to the existence of a gang of counterfeiters, headed by a 17-year-old boy and has directed the police to a complete list of names.

Norman King, former detective and member of the Ames gang, must go to prison and serve out his sentence for complicity in a robbery. The supreme court of the state affirmed the decision of the lower court and King was taken into custody Thursday before the news of the higher court's decision was made known by a 17-year-old boy and has directed the police to a complete list of names.

W. J. Lewis, of Nebraska, whose appointment to the postal service has been deferred because of his Seventh day Ad-

ventist objections to working on Saturdays, has received a temporary appointment in the postoffice department. The issue will be adjusted in some way that will comply with the law and not enforce undue hardship to the appointee in connection with his religious principles.

The families of Henry Marquand and Frank H. Poor, members of the collapsed brokerage firm of Marquand & Co. of New York, have subscribed \$100,000 to be paid to those creditors of the firm whose stock was hypothecated. The assets of the firm would not pay more than 10 cents on the dollar. John Matthews and Charles Bradford, carpenters, were killed Thursday in an explosion at the gas plant at Mayleton, Missouri county, Iowa. The explosion wrecked the plant, broke nearly every pane of glass in town and damaged surroundings buildings. President Roosevelt held the first of his four annual evening receptions Thursday. The event was in honor of the diplomatic corps. The White House was brilliantly decorated and illuminated for the occasion, and was crowded with people of high standing in official and social life. A number of guests from out of town attended the reception. Arthur Crandall, aged 19 years, living twelve miles south of Madelia, Minn., was found frozen to death in a straw pile near the night of the blizzard, lost his way and after wandering four miles in the wrong direction, lay down in the straw and was frozen to death. Herman Baercher, 32-year-old boy, stepfather, Gerhard Baercher, and his wife, were killed by a fire at Columbus, Neb., which was caused by a jury of a neighbor's night of the blizzard, lost his way and after wandering four miles in the wrong direction, lay down in the straw and was frozen to death. Miss Perry Wilson, aged 19 years, committed suicide at Long Beach, Cal., Wednesday night by taking carbolic acid. Miss Wilson for years was secretary and treasurer of the St. Paul, Minn., Street Railway company. Her husband had been down from the strain of her duties, and about a year ago she went to Long Beach with her sister and mother to recuperate. Health did not come to her and she became despondent.

So and Return \$10.00.
Account the bonspiel at Sault Ste. Marie, Jan. 12 to 17, the Duluth, South Shore & Atlantic railway will make a rate of \$10 for the round trip. Tickets will be on sale Jan. 10 to 14 inclusive, and will be good for return until Jan. 19. Secure your sleeping car accommodation early. City ticket office, 426 Spaulding Hotel block.

TEACHER GETS HER PAY.
Decision on Validity of School District Certificates.

Fergus Falls, Minn., Jan. 9.—Judge Baxter rendered a decision yesterday in a case involving the validity of certificates issued by independent school districts under the provisions of the law which was repealed in 1899. The case came from Burnsville. Mrs. Lily C. Snell, one of the teachers of the village, asking for a writ of mandamus to compel James Glasgow, president of the board of education there, to sign the warrants for her pay. Mr. Glasgow objected to signing on the ground that the law under which the certificate was issued has been repealed, and that the only legal certificates of today were those issued under the general state law. The court holds otherwise, and issues the writ compelling him to sign.

Catarrhal Headache.—That dull, weary, aching headache just over the eyes is one of the surest signs that the system is out of order. Dr. Ager's Catarrhal Headache Powder will stop all pain in the head, and cure the cause. Sold by Wirth, 13 West Superior street.—6.

THE HERALD'S WANT PAGE IS DAILY CROWDED WITH OPPORTUNITIES OF EVERY KIND FOR PEOPLE OF ALL CONDITIONS and CIRCUMSTANCES!

Articles of Incorporation Pittsburg Townsite & Development Company.

KNOW ALL MEN BY THESE PRESENTS, that we, the undersigned, have agreed to, and do hereby associate ourselves together for the purpose of coming incorporated under and pursuant to the laws of the state of Minnesota, to the effect of the act amendatory thereof, and to that end have adopted and signed the following ARTICLES OF INCORPORATION.

ARTICLE I.
The name of this corporation shall be "PITTSBURG TOWNSITE & DEVELOPMENT COMPANY."

ARTICLE II.
The general nature of the business of this corporation shall be to buy, sell, own, mortgage, lease and otherwise deal in lands, townsites, and hereditaments, wherever located, to plat townsites and improve the same, to construct and erect buildings, hotel buildings, and business buildings, to engage in the hotel business, to construct and operate electric lighting plants and water plants, to engage in the business of mining iron ore and other minerals, and to prospect for the same, and to do and to cause to be done all such other things as the board of directors of said corporation may from time to time determine.

ARTICLE III.
The principal place of transacting the business of this corporation shall be the city of Duluth, St. Louis County, Minnesota.

ARTICLE IV.
The time of the commencement of this corporation shall be November 1st, 1902, and the period of its continuance shall be forty years.

ARTICLE V.
The capital stock of this corporation shall be fifty thousand dollars, to be divided into one thousand shares of fifty dollars each.

ARTICLE VI.
The names of the persons forming this association for incorporation and the places of their residence are as follows: Thomas F. McGilvray, Duluth, Minnesota; F. B. Myers, Duluth, Minnesota; Edward B. Sutton, Duluth, Minnesota.

ARTICLE VII.
The government of this corporation and the management of its affairs shall be vested in a board of directors, numbering not less than three nor more than seven, who shall be stockholders of this corporation. They shall be chosen and elected by the stockholders of the corporation at their annual meeting, which shall be held on the first Monday of December of each year at the office of the company, in the city of Duluth. Immediately upon their election, the board of directors shall elect from their number a president, vice president, secretary and treasurer, any two of which officers, except those of president and vice president, may be held by the same person.

ARTICLE VIII.
The board of directors who shall serve until their successors are elected, are qualified as herein provided shall be as follows: Thomas F. McGilvray, who shall be president, F. B. Myers, who shall be vice president and treasurer, and Edward B. Sutton, who shall be secretary.

ARTICLE IX.
The highest amount of indebtedness to which this corporation shall at any time be liable is the sum of fifty thousand dollars.

ARTICLE X.
In testimony whereof, the parties hereto have hereunto set their hands and seals this 24th day of October, A. D. 1902.

In the matter of the estate of Mary Flynn, deceased.
Letters of administration on the estate of Mary Flynn, deceased, late of the county of St. Louis, state of Minnesota, being granted to John P. Daly.

It is ordered, that three months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the probate court of said county, for examination and allowance, or be forever barred.

It is further ordered, that the 24th day of March, 1903, at 10 o'clock a. m., at a special term of said probate court to be held at the probate office in the court house in the city of Duluth in said county, be and the same hereby is appointed as the time and place where the said probate court will examine and adjust said claims and demands.

And it is further ordered, that notice of such hearing be given to all creditors and persons interested in said estate by publishing this order once in each week for three successive weeks in the Duluth Evening Herald, a weekly newspaper printed and published in Duluth, in said county.

Dated at Duluth, Minn., this 23rd day of December, 1902.

By the Court,
W. JUDGE OF PROBATE.
(Probate Court, St. Louis County, Minn.)

MICHIGAN BEET SUGAR MEN TO OPPOSE CUBAN TREATY

They Demand an Amendment Fixing a Specified Period.

Unless Made Will Fight the Tariff to a Finish.

No Safety in the Measure as at Present Drawn.

Washington, Jan. 10.—For three days representatives of the beet sugar industry of Michigan have been in conference in this city not only among themselves and other beet sugar producers from other states, but also with the Michigan delegation in congress.

Today Senator Burrows had a long interview with President Roosevelt, during which, it is understood, he indicated that the reciprocity treaty now pending in the senate was not satisfactory to the beet sugar interests of his state, and that it was likely to encounter serious opposition unless it could be so amended as to provide that the concessions made to Cuba as to tariff should remain in force for five years. After mature consideration of the treaty the Michigan sugar producers had concluded that the treaty was open to objection in that it did not insure equality of tariff rates for any clearly specified period. What the producers chiefly desire is stability of rates which would enable them to put additional capital in their industry and develop it further, with some assurance of success.

The strong intimation is that unless an amendment can be made to the pending treaty of fixing the rates between this country and Cuba for five years, the Michigan congressional delegation will feel constrained to oppose ratification of the treaty. In this opposition, it is said, the Michigan congressmen will be joined by others representing sugar producing states.

So far as is known, the president has not indicated what his attitude might be in regard to the proposition to amend the pending treaty.

A CHANGE

In Feeling May Result in Peace Pact Between Leagues.

Cincinnati, Jan. 10.—After being in separate conference during the night and again this morning at their respective hotels, the joint conference of the committees of the National and American Baseball leagues was resumed at 11 a. m. today. The meeting opened with all feeling hopeful.

Previous to the joint conference some of the conference with attorneys, but this was not for the purpose of drafting any document, but for information on the part of the committee of the National and American Baseball leagues was resumed at 11 a. m. today. The meeting opened with all feeling hopeful.

It is thought probable that the conference may continue over Sunday, but all now think that there will be a peace pact adopted.

EXTENSIVE POWERS

Are Asked By Marconi Wireless Telegraph Company.

Ottawa, Ont., Jan. 10.—The Marconi Wireless Telegraph company, of Canada, has given notice of an application to parliament for an act of incorporation to transmit and do business all over British North America, British Isles, Europe and on the Atlantic and Pacific oceans and on the islands and places near the same. Powers are also asked for leasing or purchasing existing telegraph, telephone or cable companies.

HURT IN COLLISION

Buffalo, N. Y., Jan. 10.—Three men were seriously injured in a collision of light engines on the New York Central road today, within the city limits. The men are: David Bell, engineer; D. Carlington, fireman; Owen Duffy.

CHARGED WITH MURDER

London, Jan. 10.—George Stone, alias Withynman, who is charged with having murdered a negro in Chicago in 1893, will sail for New York today from Liverpool on the steamer Lucania in the company of Police Sgt. McCarthy.

FIRE AT CLEVELAND

Cleveland, Ohio, Jan. 10.—At 1 o'clock this morning a fire destroyed a warehouse No. 4, a five-story building on Prospect street, of the General Storage company. The loss is placed at \$200,000, with no statement of the insurance.

BITTER COLD WEATHER

A Frigid Temperature Prevails Over a Large Section of the Country Causing Much Suffering Among the Poor.

Houghton, Mich., (Special to The Herald).—The copper country has been in the throes of a fierce cold wave for the past week. A high northwest wind has raged, blowing the fine snow before it, drifting greatly and causing great delay in the traffic on the railroads and street car lines. Trains from Chicago have been from an hour to two hours late, and the trainmen suffered particularly. For the first time in years the men employed in the copper mines have been kept out of work. The weather bureau reports a high of 12 above zero for the first time in years the men employed in the copper mines have been kept out of work. The weather bureau reports a high of 12 above zero for the first time in years the men employed in the copper mines have been kept out of work.

St. Paul, Jan. 10.—(Special to The Herald).—It was 4 below zero during the night. St. Paul was one of the coldest weather stations in the Northwest, the same figures being reported at La Crosse, Wis., and Moorhead, Minn. While at Huron, S. D., it was 12 above and other Northwestern stations indicated a gradual warming up with a possibility of snow for Sunday.

St. Louis, Jan. 10.—There was a decided fall in temperature during the night and at 7 a. m. the government thermometer registered 12 above. A rise in temperature with rain or snow tonight are the probabilities.

Omaha, Neb., Jan. 10.—The cold wave that struck the Ohio valley and lake regions did not extend into the Upper Missouri valley and the local forecaster reports a rise in temperature of from 2 degrees in Omaha to 22 at Helena, Mont., and conditions unsettled and snow flurries probable.

La Crosse, Wis., Jan. 10.—This is one of the coldest days of the winter. At

6 o'clock this morning the mercury registered 5 degrees below zero, which was the minimum temperature of the day. The weather bureau reports zero weather at Chicago, 2 below at Milwaukee and 8 below at Green Bay, this state. Warmer weather accompanied by snow is promised for tonight.

Kansas City, Jan. 10.—The temperature in this part of the Southwest fell an average of 15 degrees in the past twenty-four hours, the weather bureau reporting 11 above zero for Kansas City at 7 o'clock this morning. The weather is clear with indications of snow.

Chicago, Jan. 10.—The minimum temperature in Chicago was zero at 6 o'clock this morning, since which time it has been slowly moderating. The official forecaster says the present cold wave will give way at an early date by submitting a list of employees whose boys are working with them during the period of the parents, which average about \$40.

To the second demand for an eight-hour day for company men, the evidence which has already been outlined will, to a large extent, show that the company's employment is not extra hazardous and is not so exceptionally healthful. We shall submit statements which will show that since the last increase of wages there has been no material advance in the cost of living. We shall also show that the company's employment is not extra hazardous and is not so exceptionally healthful. We shall submit statements which will show that since the last increase of wages there has been no material advance in the cost of living. We shall also show that the company's employment is not extra hazardous and is not so exceptionally healthful.

Columbus, Ohio, Jan. 10.—Zero weather prevailed in Ohio this morning. In Cleveland it was 4 above, in Cincinnati 8 and in Columbus 12 above. The wind is light and the sky clear. The indications are for warmer weather with snow Sunday.

Cincinnati, Jan. 10.—The mercury reached a point as low as 3 above zero at some of the hilltops this morning, the coldest of the year. The government report, which always shows a slightly higher record was 7 above. The weather is clear with the wind from the southwest, indicating rising temperature.

Indianapolis, Jan. 10.—The official thermometer at 7 a. m. was 2 degrees above zero. The indications are for rising temperature and snow. The coal famine in this city is being keenly felt.

A MIRACULOUS ESCAPE

Two Trains Collide While Going at Full Speed—A Fireman Was Only One Killed and Nobody Was Hurt.

St. Louis, Jan. 10.—Assistant General Passenger Agent Hilary of the Big Four stated this morning to the Associated Press that nobody was injured and only one man was killed in the wreck on that road between Moro and Patehels, Ill., last night. The engines and the mail and baggage cars of passenger trains Nos. 36 and 11 were wrecked, but as far as known the other cars received no damage that was material.

The responsibility for the collision, which occurred head on on a curve, while the trains were going at full speed, has not yet been definitely settled, but Mr. Hilary thinks it resulted from a misunderstanding of orders or that the dispatchers forgot that No. 11 was running in two sections. Trains were sent around the wreck on the Washington track.

The name of the dead man, who was a new fireman on the west-bound train, is impossible at present to learn.

SPECK VON STERNBURG

The Newly Appointed Charge d'Affaires of Germany Will Sail For the United States on Jan. 20.

Berlin, Jan. 10.—Baron Speck von Sternburg, the newly appointed charge d'Affaires of Germany at Washington, conferred with Chancellor Von Buelow for two hours today. He was in conference with the chancellor for an hour yesterday evening. The baron will be received in audience by the emperor Tuesday or Wednesday. He has a long and rapid transportation on the Hamburg-American line steamer Auguste Victoria, which is to sail from Hamburg Jan. 20 for New York.

The Cologne Gazette today, in an apparently inspired statement, denies that Ambassador Von Holleben's retirement from Washington is connected with President Roosevelt's refusal to arbitrate the Venezuelan dispute or with the alleged ill feeling in the United States toward Germany.

"In spite of the unfriendly comments in the American press," the Cologne Gazette says, "the attitude of the United States government and President Roosevelt toward Germany has always contained very correct, in fact even friendly."

The statement also says that Dr. Von Holleben's leave of absence is "not connected with the Pauncefote affair."

Baron von Sternburg will be given ample rank. He will not be a simple charge d'Affaires, but from the beginning will have a special rank, probably that of ambassador extraordinary, so that although Herr Von Holleben

will retain for an indefinite period the title of ambassador to the United States, Baron von Sternburg will really have a permanent position. That of Dr. Von Holleben, since the emperor has been giving special personal attention to the German situation in the United States, he has said on two or three occasions, it is understood that Germany ought to be represented at Washington by a personality which would win the regard of the American people. The German government has been thinking of the American government. His majority on one occasion flouted the person of the Wu Tingfang, the former Chinese minister at Washington, as being of exceptional value to China.

One of Chancellor Von Buelow's considerations in recommending the appointment of Baron Speck von Sternburg, was that the latter was not a new man in Washington, but one who already had an assured place in the respect of the president. Secretary Hay and other members of the administration. The appointment seems to have come as a complete surprise to the correspondent of the Associated Press that he had already started for Calcutta when a telegram caught him in Paris. He added, that he was much pleased to return to the friends he left in the United States only three weeks ago. Baron Speck von Sternburg was born at Leek, England, and did not see Germany until he was 7 years. His father was a naturalized Englishman and his mother was a Miss Shaw, of Yorkshire.

DEADLY WORK OF DYNAMITE

Philadelphia, Jan. 10.—One man was killed, half a dozen injured and the women's wing of the house of correction partially wrecked by the explosion of several sticks of dynamite in No. 3 shaft, of the new filtration plant at Holmesburg, a suburb, today. The dead man, who was a laborer, was blown to pieces. The women's wing of the house of correction adjoins the shaft on the south. The women were at breakfast

when the explosion occurred, and when the building began to shake there was a wild rush to get out, resulting in a number of injuries. The women were quickly escorted to another part of the building. Eight hundred pounds of dynamite in the north wing were broken, and the force of the explosion was felt for many miles. The injured men were taken to a hospital, and their wounds dressed at the house of correction infirmary.

THE ONE ABSORBING TOPIC THAT IS AGITATING THE PEOPLE OF THE UNITED STATES FROM EAST TO WEST IS HOW TO GET COAL.

The shortage of coal is keenly felt today by thousands of poor families throughout the country, who are suffering severely on account of the cold wave that is at present prevailing.

New York, Jan. 10.—The combination of independent operators who have now control of the anthracite market in New York have advanced the tidewater price of anthracite to \$10.50 a ton. This virtually means the minimum price, as the tidewater price will advance with increasing cold weather to any figure any independent operator can command for the coal. The quantity of coal controlled by the coal carrying companies, which is now coming to tidewater here at the rate of \$5 a ton, is so small that it has little effect on prices.

CHICAGO WOULD INDICT COAL MEN OPERATORS BEFORE ARBITRATORS

Coal Companies Present Special Grand Jury Begins Their Side of Strike. Counsel Tells What They Indictments Against Dealers Expect to Make Clear. Work In Chicago.

Philadelphia, Jan. 10.—The non-union men having closed their case, the coal companies opened their side of the controversy today before the strike commission. Chairman Gray is still confined to a home and Gen. Wilson again presided. The proceedings were opened today by the Delaware & Hudson company, through its counsel, James H. Torrey, of Scranton. In presenting the case of the company he represents, Mr. Torrey first delivered an address, indicating what the company would try to prove. He spoke in part as follows:

"A general opinion of the case on behalf of the Delaware & Hudson company is, I shall at this time confine myself so far as possible to a brief statement of the facts. The company is a large one, and it is expected to prove, especially relating to the anthracite coal, that the company's employment is not extra hazardous and is not so exceptionally healthful. We shall submit statements which will show that since the last increase of wages there has been no material advance in the cost of living. We shall also show that the company's employment is not extra hazardous and is not so exceptionally healthful. We shall submit statements which will show that since the last increase of wages there has been no material advance in the cost of living. We shall also show that the company's employment is not extra hazardous and is not so exceptionally healthful."

"In this connection we shall show that the only tabulated statement offered in evidence by the mine workers purporting to give a comparison of the earnings of company men with the earnings of the anthracite field of the organization is misleading in its details and false and misleading in construction. Bearing upon the third demand of the miners for the weighing of coal and payment by the ton for mining, we shall show that for many years this company has paid at some of its mines by weight, and at others by the ton. We shall show the actual product in marketable coal, of units of weight and per car, and that a perfect uniformity of wages is secured from both systems. We shall show that so far as concerns our own employees no complaint has been made directly to the company that either system was unfair or resulted in inadequate or unequal remuneration for the labor actually performed."

We have claimed in our answer that the commission cannot, under the terms of the submission of the issues which it has to consider, the fourth demand submitted by the complainants, viz: "The execution of an agreement with the United Mine Workers of America guaranteeing the wages to be paid and the conditions of employment of all its employees. Without waiving this claim we shall offer such testimony in addition as the evidence already before the commission."

Chicago, Jan. 10.—The prompt action of State's Attorney Charles S. Deneen, upon information furnished him by the special committee appointed by the Illinois Manufacturers' association, resulted in the convening this morning of a special grand jury to inquire into the causes for the high prices demanded for coal by Chicago dealers. Twenty deputy sheriffs worked almost the entire night to secure service of summonses upon seventy-five veniremen and of subpoenas for the appearance of prominent coal dealers who are believed to be in a combine in defiance of the law. When court was called this morning a majority of the talesmen were on hand, and the work of empanelling a jury at once proceeded.

The formal order for the special grand jury was issued by Judge Willard M. McEwen late yesterday upon a petition by the state's attorney declaring his belief that there exists among certain coal operators, owners and dealers a combination "injurious to the public trade," and that in consequence "great distress and suffering prevail among the poor in the community."

The jury then retired to enter upon its investigation.

Judge McEwen suspended court proceedings while he issued the order for a special venire convening the grand jury. The order was taken at once to the jury commissioners and seventy-five names were handed Sheriff Barrett for immediate service.

Attorney General Hamilton, who was in telephone communication with Mr. Deneen several times yesterday, arrived in Chicago today and will take an active part in the proceedings. It is also expected that the Retail Dealers' association, the Building Managers' association and the railroad committee of the city council will assist in the proceedings.

Twenty-three jurors were quickly selected and the oath administered by Judge McEwen's charge was brief and confined largely to the defining of the duties of the jurors.

"It is not necessary to indulge in any language," he said, after reading to them the state's attorney's petition, "to impress upon you or upon any fair-minded man the crime and infamy of such a situation as here set forth. The duties as set forth in the oath you have taken."

The jury then retired to enter upon its investigation.

Merciless coal barons have again taken advantage of the demand for fuel and sent the price of coal at tide-water up another notch and will continue to raise rates as long as possible.

New York, Jan. 10.—The combination of independent operators who have now control of the anthracite market in New York have advanced the tidewater price of anthracite to \$10.50 a ton. This virtually means the minimum price, as the tidewater price will advance with increasing cold weather to any figure any independent operator can command for the coal. The quantity of coal controlled by the coal carrying companies, which is now coming to tidewater here at the rate of \$5 a ton, is so small that it has little effect on prices.

Chicago, Jan. 10.—The prompt action of State's Attorney Charles S. Deneen, upon information furnished him by the special committee appointed by the Illinois Manufacturers' association, resulted in the convening this morning of a special grand jury to inquire into the causes for the high prices demanded for coal by Chicago dealers. Twenty deputy sheriffs worked almost the entire night to secure service of summonses upon seventy-five veniremen and of subpoenas for the appearance of prominent coal dealers who are believed to be in a combine in defiance of the law. When court was called this morning a majority of the talesmen were on hand, and the work of empanelling a jury at once proceeded.

The formal order for the special grand jury was issued by Judge Willard M. McEwen late yesterday upon a petition by the state's attorney declaring his belief that there exists among certain coal operators, owners and dealers a combination "injurious to the public trade," and that in consequence "great distress and suffering prevail among the poor in the community."

COST!

A good grind for 25c. 222 W. Superior St.

WALLACE WELLS.

R. D. ANNIS.

HURTS THEM.

West End Business Men Deplore the Subway Delay.

While it is not said that underground methods are used to delay the building of the Jewell street subway, West End business men are of the opinion that the present delay is unnecessary, and the city officers are not doing all they might to hasten the work.

The subway is now ready for use on the Superior street side, as far as the Northern Pacific tracks. The delay is caused by the failure of the Northern Pacific Railway company to build its new bridge over the subway, according to the city officers.

This bridge is to be of heavy Pacific coast timbers and the railroad people say that the delay has been caused by their inability to get the material here from the state of Washington, but that it is on the way and should arrive within the next week or ten days.

In the meantime Contractor McDermott, who has been compelled to work very slowly for weeks on account of the delay, says that it may be necessary for him to stop all work till spring.

The West End business district feels this delay keenly. The temporary arrangement of running the West End cars around Third street has caused the Superior street merchants of that end of town many thousands of dollars in trade.

The indications now are that the subway will not be finished for a month or more after the Northern Pacific bridge material is received. The bridge will have to be built before the contractor can cross to the Ontario street side of the subway and finish the big fill there.

It is claimed by some that the subway has now cost West End merchants and taxpayers more than it will benefit the people of West Duluth in the way of rapid transit.

New Osteopathy.

The number of followers of the science of osteopathy for the cure of diseases is daily growing larger in Duluth, and as the treatment becomes better known the demand for more osteopathic physicians increases. The latest to join the ranks in this city is Dr. Anna C. Beebe, who comes with a high standing from the Minneapolis Institute of Osteopathy. Dr. Beebe has opened a suite of rooms at 15 Fifth street and will at once begin giving treatments.

Thrown From Cutter.

Mrs. Joseph B. Cotton was thrown from her cutter on Superior street at noon today but was not injured. The driver did not notice that the "runner" of the cutter was inside the

WIRELESS MESSAGE

Read announcement of National Safe Deposit Co. on another page.

Will Be Sent By President to King.

Washington, Jan. 10.—President Roosevelt today, consented to prepare and transmit over his signature the first formal message by wireless telegraphy across the Atlantic ocean. The message will be directed to King Edward VII of Great Britain and it is expected the king will respond in a suitable manner by the same method of trans-Atlantic communication.

Hon. John W. Greiger, former attorney general, presented to the president, Major Flood Page, the representative in this country of Marconi. Major Page requested the president formally to "open the public work of the Cape Cod station with a message to King Edward and he promised to do so. It is expected that the Cape Cod station will be in working order in about ten days, perhaps a little earlier. The president will deliver to Major Page the message to be transmitted and upon the arrival in this country of Marconi, who is expected shortly, the inventor personally will transmit the message.

ODELL FOR PLATT.

Will Expect His Friends to Aid Him.

New York, Jan. 10.—In reply to questions as to his attitude toward the resignation of Senator T. C. Platt, Governor Odell today made the following statement:

"I am for Senator Platt's re-election to the senate unreservedly, and I believe that the Republican party affords him this renewed honor because of his long and able service to the state. I shall not only aid in his re-election but I shall not only aid but expect my friends to aid in this direction. He did me a great service in my career and I shall do all in my power to accomplish this result."

The statement was made by the governor subsequently to a conference between himself and the senator today.

JUMPS FROM WINDOW.

New York Coffee Man Takes His Life.

New York, Jan. 10.—Crushed by the pain attending his illness of typhoid fever, Thomas A. O'Donoghue, aged 29 years, treasurer of the O'Donoghue Coffee company, sprang from the window of his room on the seventh floor of the Ormonde apartment house, landing on the sidewalk. He died a few minutes later. The sick man was a millionaire.

ANOTHER MINE SOLD

Cleveland-Cliffs Company Buys Crosby Mine In 57-22.

The Consideration Paid For the Property Is \$170,000.

Mine Will Be Made a Shipper as Soon as Possible.

The Crosby iron mine was turned over to the Cleveland-Cliffs Iron company last night, perfecting a deal which opened six months ago. The consideration paid by the Cleveland company upon the delivery and execution of proper instruments was \$170,000. It was one of the important mining deals of the winter. Mining men look forward to great results from the working of the property.

"The deal was made on a basis of a percentage on the tonnage of ore," said George H. Crosby this morning, in speaking of the transfer of the property. "The settlement between the parties was upon the basis of a percentage of the ore shown up, and the price paid over for the rights involved was \$170,000. The mine was discovered about ten months ago. It is to be worked at once by the Cleveland company. The mine is named after its discoverer."

The deal has been pending for the past six months. The Cleveland-Cliffs Iron company took an option on the 100 acres six months ago and has been making explorations ever since. The explorations have proved satisfactory, and though they are not finished as yet, the company was willing to take the property at the figures named in the agreement. It has taken six months to prove up the body of the ore under the surface, and it will take some time longer to secure the information regarding the property that is desired.

The Crosby mine was discovered ten years ago and but little has been done with it. It lies near Nashua, and is about eight miles west of Hibbing. The Crosby mine was discovered by a man named Nashua, who was working for the Cleveland company. He discovered the mine while he was working on the surface, and he was the first to bring it to the attention of the Cleveland company.

"The result at Nashua will be that the settlement will become one of the thriving towns on the surface within a short time," said Mr. Crosby. "The company expects to be taking out this spring and the work will be a great deal of business into Nashua."

The owners of the mining property were George H. Crosby, J. H. Pearce, E. H. Hawkins and O. D. Kinney, and the formal transfer of rights was made by them, as parties of the first part, to the Cleveland-Cliffs Iron company as party of the second part.

The Cleveland company will continue its explorations this spring, and new ore will be opened up as soon as it is possible to get the machinery and men on the ground. The company expects to make extensive improvements on the property, and all the necessities for mining great quantities of iron ore will be placed on the ground early in the spring. Men are already on the ground, and the moving up will be finished in a few weeks.

CHAMBERLAIN

Is Beginning to Attract More Attention in Africa.

London, Jan. 10.—Colonial Secretary Chamberlain's tour of South Africa is beginning to attract greater attention. Both at Pretoria and Johannesburg he received great ovations, an interesting feature of which was the intermingling of stars and stripes and union jacks as a compliment to Mrs. Chamberlain. The secretary's outspoken replies to the Boers' suggestions, however, are creating a certain feeling of uneasiness among the government supporters here, who published yesterday a statement that any good will come of the trip. Briefly, Chamberlain, so far, has not only cleared his character, but has also cleared his name. He has been invited to the union of any of our members if he is not a member can be a stockholder in the works of the association. The question whether he should be a member or a stockholder is a matter for the members of the association to decide. The question whether he should be a member or a stockholder is a matter for the members of the association to decide.

Steel corporation was made to the members. It is as follows: The corporation of placing \$200,000 of its capital and private funds in the purchase of a stipulated price and under prescribed conditions. The corporation is a matter for the members of the association to decide. The question whether he should be a member or a stockholder is a matter for the members of the association to decide.

BOTTLE BABIES

Bottle babies are so likely to get thin. What can be done? More milk, condensed milk, watered milk, household mixtures—try them all. Then try a little Scott's Emulsion in the bottle.

It does for babies what it does for old folks—gives new, firm flesh and strong life. You'll be pleased with the result. It takes only a little in milk to make baby fat.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

Two rinks will leave this evening or tomorrow for the annual bonspiel of the Northwestern Curling association at the Sault. It is possible that a third will be made up in time to go.

The two rinks that are going are as follows: T. F. McGilvray, lead; F. A. Brewer, second; James Cleland, third; Ron Smith, skip.

W. E. Richardson, lead; A. W. Frick, second; E. N. Bradley, third; C. A. Duncan, skip.

The J. J. MacLeod rink was expected to go, but two members are unable to get away. Harry Hudson and J. E. Catlin. Thomas Gibson and Mr. MacLeod are willing to go and if two more men can be secured they will make up a third Duluth rink.

Two games were played in the Manley-McLennan agency contest last evening at the curling rink and one in the Galt. The Manley-McLennan games, according to the schedule made out by the games committee, will continue until about Feb. 10, but it is probable that the games committee will select the four rinks that are to play Superior within ten days. The contest has narrowed down sufficiently so that it is known that only a half dozen or so of the rinks are in the running and the final decision can be made very soon.

The scores of the games played last evening were as follows: Manley-McLennan, 5; J. J. MacLeod, 3; J. E. Catlin, 2; W. E. Richardson, 1; A. W. Frick, 0; E. N. Bradley, 0; C. A. Duncan, 0.

The scores of the games played last evening were as follows: Manley-McLennan, 5; J. J. MacLeod, 3; J. E. Catlin, 2; W. E. Richardson, 1; A. W. Frick, 0; E. N. Bradley, 0; C. A. Duncan, 0.

The scores of the games played last evening were as follows: Manley-McLennan, 5; J. J. MacLeod, 3; J. E. Catlin, 2; W. E. Richardson, 1; A. W. Frick, 0; E. N. Bradley, 0; C. A. Duncan, 0.

The scores of the games played last evening were as follows: Manley-McLennan, 5; J. J. MacLeod, 3; J. E. Catlin, 2; W. E. Richardson, 1; A. W. Frick, 0; E. N. Bradley, 0; C. A. Duncan, 0.

The scores of the games played last evening were as follows: Manley-McLennan, 5; J. J. MacLeod, 3; J. E. Catlin, 2; W. E. Richardson, 1; A. W. Frick, 0; E. N. Bradley, 0; C. A. Duncan, 0.

The scores of the games played last evening were as follows: Manley-McLennan, 5; J. J. MacLeod, 3; J. E. Catlin, 2; W. E. Richardson, 1; A. W. Frick, 0; E. N. Bradley, 0; C. A. Duncan, 0.

When Others Fail

Write Me a Postal—I'll Send You a Way to Get Well.

Send no money—just a postal card, stating which book you need.

Then I will mail you an order on your druggist for six bottles Dr. Shoop's Restorative. You may take it a month to prove what it can do. If it succeeds, the cost is \$5.50. If it fails, I will pay the druggist myself. And your mere word shall decide it.

No matter how difficult your trouble, nor how many treatments have failed. My way does not fail, save when some cause like cancer makes a cure impossible. I am willing to take the risk, and trust you to be fair.

Why not stop common treatments for a little while and learn what my way can do? If I have enough faith to make such an offer, is it not pretty certain that I know how to cure? If my way often failed the losses would ruin me.

In the past twelve years I have furnished my Restorative on trial to

Duluth Dental Parlors

The most thoroughly equipped Dental Office in the state for the painless filling and treating of teeth. We have every pain saving device known to the dental profession. Our laboratory is complete in every detail. Both laboratory and operating rooms are fitted throughout with the finest electric equipment in the world. This enables us to do better work in less time and for less money than any similar institution in the state. We have been six years at our present location.

Crown and Bridge Work

by a crown and bridge specialist. We make several varieties of Crowns—all hand carved—for each individual tooth.

Combination Crowns.

Our unbreakable crown—made of gold and porcelain, perfectly duplicates nature in appearance and usefulness. We have reduced the price of this crown to

\$10

HIGH GRADE DENTAL WORK

at one half the usual prices. Our charges are the lowest in the city for first class dentistry. We perform all dental operations from the following fees up:

Sets of teeth.....	\$6	Very Special Reductions Until the	
Crowns.....	\$5	30th of this Month	
Bridge work.....	\$5	\$8 sets of teeth.....	\$5
Gold fillings.....	\$2	\$8 crowns.....	\$5
Other fillings.....	\$1	\$8 bridge work.....	\$5
Extracting.....	50c	\$5 crown and bridge work.....	\$3

Artificial Teeth.

Made by an expert plate-maker. Over twenty varieties to select from, including our porcelain, gold, metal lined, and combination plates, ranging in price from \$6 up. Our special

Unbreakable Plate,

light as a feather, strong as gold—a durable and artistic set of teeth that will last a lifetime.

Reduced to

\$20

OUR PRACTICE during the last five years has grown to be the largest in the Northwest. We have added new apparatus for the New Year, and with our increased facilities are enabled to do all the dental work in the city in a thorough manner, **AT ONE HALF THE USUAL PRICES**.....

Duluth Dental Parlors, 3 West Superior Street, Near Lake Avenue.

WORLD OF LABOR

Meeting of Trades Assembly Shortened By Cold Weather.

New Union of Pattern Makers Has Been Organized.

Assembly Delegates to the Building Trades' Council Chosen.

Meetings next week:
Building Trades' council, Monday, 31 West Superior street.
Plasterers' union meets Monday at 18 West Superior street.
Carpenters' union meets Tuesday, 18 West Superior street.
Meat cutters' union meets Tuesday, 18 West Superior street.
Cooks and waiters meet Tuesday, 18 West Superior street.
Sheet metal workers on Tuesday at 18 West Superior street.
Painters and decorators, Tuesday, 18 West Superior street.
Machinists' union meets Tuesday, 18 West Superior street.
Team drivers' union, Wednesday, 31 West Superior street.
Steam engineers' union, Thursday, 31 West Superior street.
Structural steel workers, Thursday at West Superior, Wis.
Electrical Workers' union, Thursday, 221 West Superior street.
Leather workers' union on Thursday, at 18 West Superior street.
Licensed Tugmen's association, on Thursday, Manhattan building.
Marine Engineers' association, Friday, 31 West Superior street.

Unions desiring their regular or special meetings announced in this column should mail their notices not later than Friday evening of each week. Live labor news from reliable sources will always be appreciated.

The meeting of the Federated Trades' assembly last evening was full of shivers. Despite the fact that there were three delegates from the firemen's union, several from the steamfitters' and a number of hot air promoters present, the heating system went on a strike. That accounts for the fact that the meeting was shorter than usual.

The recently elected officers were obligated and Henry Perrault, in the chair, presided like a veteran.

The following delegates, recently elected to the assembly, were obligated last evening:
Plumbers' union—Thomas E. Fish, Otto C. Strum and Ole Sund.
Painters and decorators—C. J. Ar-

thur and Alexander Peck.
Carpenters' union—Joseph Pratt and Henry Perrault.
Electrical Workers' union—C. W. Higgins, J. W. Day and George A. Lindsey.
Licensed Tugmen's Protective association—William Pringle and James Walsh.
Building Laborers' union—Gust Flinn.
Carpenters' union—Charles Thomas.
Stationary Firemen—J. H. Miller, J. A. Ledingham and Joseph Frankowski.
Retail Clerks' union—Victor Johnson and C. W. Hegg.
Tailors' union—Louis Strand.

Henry Dworschak, of the Typographical union, is still confined to his home with inflammatory rheumatism.

Robert Patterson, of this city, has a new suit of by-laws at the meeting last night.

The new union of patternmakers, organized by J. W. Richardson, received its charter from the international league last Sunday, and the officers and members were obligated at a meeting held in Marine Engineers' hall.

The members of the assembly adopted a new set of by-laws at the meeting last night.

The blacksmiths of the city are organizing. The horseshoers are organized and prosperous, and the other men in the shops are anxious to attain the same condition of prosperity.

For the next six months the Federated Trades' assembly will be represented in the Building Trades' council by C. J. Arthur and Alexander Peck, of the Painters' union, and J. W. Day, of the Electrical Workers' union.

LABOR NOTES.
Chicago's Federation of Labor has \$4,000 members.

Chicagoan bricklayers want \$5 for eight hours after May 5.

Members of the Omaha, Neb., fire department, who formed a labor union a few weeks ago, have been regularly recognized by the Central Labor union, and delegates elected.

The first step toward building the Temple of Labor at Los Angeles, Cal., has been taken, the Woman's Union Label league having raised the initial sum. A building fund of \$75,000 is to be created.

According to statistics published by the New Jersey bureau of labor, union carpenters in that state average \$2.53 a day for fifty-three hours a week, and non-union painters \$2.13 a day and fifty-eight hours.

Colored barbers of Indianapolis, Ind.

The wrong kind of a collar makes a man look cheap—Cluett-Peabody collars will obviate that and make you look well groomed. Quarter sizes if you want 'em. Cluett Brand 25c Arrow Brand 15c Cluett, Peabody & Co.

will form a union. The white barbers have been endeavoring to get the colored men unionized without success, so it was decided to form a separate union for colored men.

The Metal Polishers, Buffers, Platers, Brass Molders and Brass Workers' International union of America will shortly ask for nine hours a day. In Connecticut the movement will take on the character of a state movement.

By the unconditional surrender of the men the strike of silversmiths and finishers for a nine-hour work day came to an end throughout Greater New York city. About 600 men applied to be taken back to work at the factories.

While negotiations are going on in Denver for the amalgamation of the American Labor union and the American Federation of Labor, news comes that active work is being carried on in the South for a Southern Federation of Labor.

The New Orleans, La., Central Trades and Labor council will shortly organize the union men of the city into a political body, to be known as the Civic league.

French railroad firemen get \$25 a month, foremen in the shops \$48 a month, and ordinary workmen about \$20 per month. Shopmen agents have proportionately low wages, and the scale on the whole is far under that of this country.

The Rock Island company has voluntarily granted an increase in wages to all helpers in the recently purchased Choctaw shops at Shawnee, Okla., and South McAlester, I. T. The increase is from 15 to 20 cents on the day and affects 200 men.

The Trades' council of Plainfield, N. J., has formulated plans for the organization of the American League of Workers. Sixteen unions have joined. Members of the league are prohibited from working with unorganized labor.

Considerable interest will be manifested in the reports of the railroads for December. It will then be seen whether present conditions warrant the general increase in wages which in the majority of cases became operative the first of the month.

A. B. Wolvin, general manager of the Pittsburgh Steamship company, the lake end of the United States Steel corporation, has made the masters of the vessels of that big fleet a nice present. All the captains will get an advance of 10 per cent in their wages for the season of 1908.

Quincy, Mass., Granite Cutters' union has notified the Granite Manufacturers' association that a change, involving an increase in the present bill of prices, is desired March 1. The cutters desire that for day men the minimum price shall be \$2.50 instead of \$2.45, and that the average price shall be \$3.05, instead of \$2.80, with an advance of 10 per cent on all piecework.

Brakemen and conductors on the various railroads west of Chicago have submitted demands for an increase of wages of 20 per cent, and given the managers until Jan. 5 to give their answer. Conflicting reports from the various unions will gather here on that date to begin negotiations for making a new wage schedule. They look for no trouble in obtaining an increase.

Independent workmen are endeavoring to form a national association of independent workmen of America, to assure themselves the right to sell their labor at will. The association would demand protection from the government and would take legal measures to compel organized labor to observe the laws, bringing to the attention of the proper officials any attempt to interfere with independent labor.

Street Railway Employees of America through its official journal, urges a provision making agreements to limit on a nine-hour day. The international president, W. D. Mahon, says that an eight-hour day is practicable for street car men from the fact that most cars are operated eighteen hours a day. By working nine hours the men could have two crews for each car, which would give them more leisure.

George W. Perkins, president of the Cigarmakers' International union, reports an exceptionally prosperous year for his organization. The membership of the international union is now 41,900, an increase of about 1000 for the year. During the year there have been 120 strikes from all causes, 105 of which were successful, and ten compromises.

The strikes have all been of minor importance, not more than 5000 persons having been involved. In nearly every case where demands were made for increased wages or better conditions, the demand has been granted without trouble. The demand for the year has exceeded that of any previous year in the history of the organization.

Capitalists have a right to do as they please with their money, so long as they do not become public charges. A man without capital may labor or refuse to labor, so long as he keeps out of the poorhouse. Capitalists have the right to combine capital in productive enterprise and by lawful competition drive individual producers and small ones out of business.

Laborees and artisans have the right to form unions and fight his competition of capitalists by lawful means.

IN COPPER DISTRICT

Improved Feeling Among the Investors in Copper Shares.

Conflicting Reports on Copper Stocks in the United States.

Nearly All Old Lake Mines Reached Maximum Output.

Houghton, Mich., Jan. 10.—(Special to The Herald.)—The feeling among investors in copper shares is much better than at any time for the past fifteen months, and despite the remaining effects of tight money and the warnings of the pessimists, copper shares have scored a good advance during the past two weeks and have retained the ground won. While the movement in copper may be a little of salt, in view of the probable continuance of a close money market for a few weeks longer, it is the almost universal feeling on the part of the investment and speculative public that the trend must be upwards for some months to come, and, of course, the market is made by sentiment though in the long run sentiment must be equalized with fact.

The statements regarding stocks of copper on hand in the United States at the close of 1907 are very conflicting. The figures of the New York metal exchange show that stocks are practically the same as at the beginning of the year. These figures are generally received with suspicion, and are taken as an indication that the Amalgamated Copper company desires the price of the metal to be held down for a little longer, as the New York metal exchange is dominated by the United Metals Selling company, which, in turn, is a subsidiary, or rather affiliated company of the Amalgamated.

That the figures put forth by those interested in the Amalgamated cause must be received with a grain of salt, is pretty effectually demonstrated by the history of the past two or three years, for in 1901, when stocks of copper were piling up at an unprecedented rate, Amalgamated interests continually gave out the information that the market situation was all that could be desired. In fact there are some people that "copper" all information that such parties have profited by translating all Amalgamated statements and prophecies out of the drum book, it being a fact well known to those learned in such matters that dreams invariably go by contraries.

The new stamp mill of the Phoenix

is enclosed, and should go into commission some time next spring. The management plans to run the single head in the new mill on day shifts only, for 1908. This will be rendered necessary by the fact that not enough stopes have been opened underground to supply the head with rock for double shift, unless the stopes are gutted, which would be bad policy. The time and money required in cutting down and retimbering old shafts, and opening the incline shaft at the St. Clair, through to surface, have precluded the opening of as many stopes as desired. The Phoenix should return from thirty to forty pounds of ingot copper per ton of rock, stamped, the fissure veins being rich, though narrow. A considerable proportion of the product will be secured as mass and barrel copper.

The assessment of \$2 per share levied on Mohawk brings the actual cash investment in that mine up to \$2,100,000, or nearly double what was expected when the mine was first organized, four years ago. The property, however, is a magnificent one, and its share are now selling at double their actual cost. Two stamps are now working at the mill, and the Phoenix, when everything is running smoothly, the mine will be producing at the rate of 8,000,000 pounds yearly. Next summer a third stamp will be added, and within a year the fourth and final head should be in commission. The Mohawk stamps are running on rock taken without selection, and from twenty-five to twenty-eight pounds of copper per ton are secured therefrom. The Wolverine, now making thirty pounds per ton, started production with a record of only sixteen pounds of ingot copper per ton of rock stamped.

The December returns from the Quincy lead to the opinion that the percentage of copper secured was unusually low, probably not much more than twenty pounds per ton. It is becoming apparent that the big things of the future in the lake district must be looked for from the new mines, rather than from the old properties, all of which, except the Osceola, have reached practically their maximum output. The future prospects of the Osceola are bright, not because of the old mine, but because the Osceola Consolidated company is developing two mines on the Kearsarge ledge, one of which is absolutely new, while the other is developed far beyond its previous limited capacity.

It is evident that 1908 will be a record-breaking year in output. The Wolverine is now making copper at the rate of 30,000,000 pounds yearly. The Baltic, Trinitown and Champion are all turning out large products and it is evident that the Copper Range Consolidated company will be the second largest producer of the lake district this year, barring accidents of a most unusual nature.

The Winona mill test has resulted even better than was expected by its friends, and the management is much encouraged. It is obvious that all that is needed to make a mine of the Winona is a larger amount of openings as good as those recently secured. Whether these can be had or not can be told only by the work of the future, but it is safe to state that the prospects of the mine are now more encouraging than at any previous time in its history.

The water power of the Victoria is to be developed on a larger scale than at first planned, and it would seem as though the Victoria will have sufficient power early in 1908 to operate not only its own mine and mill, but the Michigan mine and mill also. If an arrangement can be made between the properties for such use, as it doubtless could be, as such an agreement would be to the interests of both parties.

The showing recently secured by the

Rhode Island in its lowest opening on the Pewabic ledge is more encouraging than anything found at that property for nearly two years. Word comes from the Mayflower that the copper showing at that property is growing much better, which is favorable news for the Old Colony as well.

It is now thought that the Centennial will be ready to begin production this year. It was thought in 1899 that the Centennial would start a new mill in 1900 and the expectation of a new mill has been disappointed annually for each year since, but there is tangible ground for the present expectation of the starting of actual production. The Centennial now has a mine more than three years old and a full half mile in depth on the Kearsarge ledge, and while the south drifts are nothing to boast of, the north drifts, toward the South Kearsarge line, are unquestionably rich and it is the unhesitating opinion of mining men conversant with the property that the northern end of the new mine is of considerably better than average richness.

The Franklin mine made its largest monthly product in December and its largest annual output in 1907. The share mine is producing a large tonnage, and the old mine, while making a scanty, is helping to maintain the company's production, and will continue to do so for several years to come.

All mining work was stopped at the Tamarack Junior mine of the Osceola company at the close of the year. The pumps are still working and a winze is being sunk, but no rock is going to the mill, which is a wise move, because the Tamarack Junior has been operated by the Osceola company at an actual loss on every pound of copper made for nearly two years past. The two Junior shafts would be valuable to the Calumet & Hecla, but are of no particular worth to any other company.

The poor ground found at the bottom of all four deep shafts in the Calumet district is causing lake people to awake, rather reluctantly, to the fact that copper mines grow leaner at great depth in this district, as well as in all the other copper fields of the world.

R. MITCHELL

Closes the First Week of the New Year With Marvelous Cures.

His Work Is the Marvel of the Twentieth Century.

He has been given the power to right the physical wrongs caused by interference with nature, either by birth, disease or accident which render so many of the human family suffering with pain and distress. His wonderful cures are the talk of the hour all over the country. People are traveling hundreds of miles to consult this great healer; others are returning home, the glad news of what he did for them. The proud and liberal minded person with no prejudice in his mind or superstition in his heart, standing before Dr. Mitchell, the healer, after he has performed a great cure with his naked hands, and on seeing the patient walk, or hear, who has not for years, honestly inquires how it is done. No earthly power can satisfactorily answer that question or tell just how it is done, the doctor himself is at a loss to know; all he knows is that he can do it and does so. His long practice has given him the highest touch of art in the specialty. He does no knife or medicine, then how does he do it? There can be but one answer, in addition to his knowledge of science and art, he possesses a gift, a God given power, there can be no question about it. He does the work without cutting, pain, pills, braces or bandages. If he cannot do you any good he says so at once and that ends it, no matter whether the patient be a pauper or millionaire. Dr. Mitchell is performing these marvelous cures here in Duluth, he has been stopped here nearly five years and he is as busy as he is? No, if he was a fake he would not have a radical in his office. Then again the daily papers have published many marvelous cures in the years past. The Evening Herald, The News Tribune, The Evening Telegram and the Morning Leader, which can be looked up and verified, and to tell the plain simple truth the half has never been told.

If you are sick and suffering and not getting better under your doctor's care, consult Dr. Mitchell and obtain his valuable advice free. Office at East Superior street, Office hours 9 a. m. to 5 p. m. Sundays 10 to 12. Evenings Tuesdays, Thursdays and Saturdays, 7 to 8:30. Phone 60.

A Well Stocked Cellar Is a Joy Forever.

DUN'S REVIEW

Prompt Collections Bear Testimony to Strong Financial Conditions.

New York, Jan. 10.—It. G. Dun & Co.'s Weekly Review of Trade says: Collections are notably prompt at all leading centers, bearing testimony to the strong financial position of the nation's industries at the opening of the new year. Distribution of merchandise is heavy, and manufacturers are pressed for prompt delivery. Orders for spring goods come freely and some of the best there is more than a sample business in fall weights. Tardy deliveries in the past lead, purchasers to anticipate requirements more than heretofore, and orders are being placed for the advance of actual needs. The fuel situation is still the one seriously disturbing element, rendering abnormally high the cost of manufacturing and restricting the purchasing power of almost the entire population. Fortunately this comes at a time of exceptional prosperity, or there would be a general contraction of consumption in other lines. There is little interruption to work because of labor disputes, but many operations are interrupted by the delay in transit of needed materials. Railway freight rates were advanced, and one result will be a loss of exportation from Eastern cities, the traffic being deflected to New Orleans.

"77"

A COMMON COLD

is taken by the skin becoming colder than is natural. The instant a chilly sensation is felt the mischief is done. To "break up" the cold, and to prevent Grip and Pneumonia, use Dr. Humphreys' Specific "Seventy-seven," and take some form of gentle exercise, until perspiration is induced, showing that the checked circulation has been restored, the blood starts coursing through the veins and the danger is passed. "77" breaks up Colds that "hang on."

GRIP

HOBSON SQUELCHED AGAIN.

Washington, Jan. 10.—The naval affairs committee of the house decided by a vote of 5 to 4 not to report the bill authorizing the transfer of Naval Constructor R. P. Hobson to the retired list. Representative Dayton was authorized to report favorably the bill authorizing the president to appoint Lieut. Com. Randall (retired) a commander on the retired list.

APPOINTED BY GOVERNOR.
St. Paul, Jan. 10.—Governor Van Sant has announced the following appointments: Soldiers' home board—S. W. Fowler, Minneapolis, and W. P. Dunnigan, Redwood Falls, reappointed; Capt. W. H. Hartley, Caledonia, it succeeded James R. Parshall, deceased. B. F. Carter, of St. Cloud, succeeds J. B. Atkinson, of Littlefield, on the state pharmacy board.

DULUTH SUNDAY CHURCH SERVICES

Dr. Forbes to Preach at First Methodist Church in the Evening—Prof. Innis of Hamline College at Y. M. C. A.

At the First M. E. church, the pastor, Rev. S. P. Long, will preach in the morning on "The Great Physician." In the evening, Dr. Robert Forbes, D.D., will preach. The musical program will be as follows:

MORNING.
Prelude.....Blumenthal
Solo.....Mr. Weeks.
Offertory.....Salome
Solo—"The Psalmist".....Vanderwort
Prelude—"March".....Wagner
Prelude.....Mozart
Offertory.....Flaaten
Solo—"O Firmament".....Schumacher
Postlude—"In F".....Merkel

Professor G. F. Innis, professor of history and economics in Hamline college, will address the 4 o'clock men's meeting at the Y. M. C. A. tomorrow afternoon. As a speaker, Professor Innis is said to be entertaining and forceful, presenting the theme of his discourse in a clear and concise manner. A feature of his meeting will be special singing by Paul J. Gilbert.

At the First Presbyterian church, Rev. T. H. Cleland will preach morning and evening. The morning subject will be "God's Claims on Human Thought," and the evening "Equipment for Life's Battle."

At Pilgrim Congregational church, Rev. Alexander Milne will preach morning and evening. The morning subject will be "The Law of Obedience in Family Life," and the evening "The Sure Foundation." The musical programs will be as follows:

MORNING.
Organ voluntary—"Ring Out Wild Hells," Gounod
Quartet—"King All Glorious".....Harnby
Solo and quartet—"Jerusalem" (from "Gulliver").....Gounod
EVENING.
Organ prelude—"The Watching Over Israel" (from "Eliahu").....Mendelssohn
Solo—"Hope in the Lord".....Handel
John Martin.

The choir, composed of Mrs. Homer Collins, soprano, Miss Clara Hector, contralto, John Martin, tenor, and Mrs. Hart Bass, Miss Ruth Rogers, organist.

At St. Paul's Episcopal church the services will be as follows: 8 a. m., holy communion; 10 a. m., morning prayer, choir and sermon, by Dr. Ryan; 7:30 p. m., choral evening and sermon, by Dr. Ryan. The music will be as follows:

MORNING.
Processional—"Hail, Hail, Many a Noble City".....Stuttgart
Vente.....Stuttgart
Te Deum in E flat.....King Hall

SYRUP OF FIGS

Acts Gently,
Acts Pleasantly,
Acts Beneficially,
Acts truly as a Laxative.

Syrup of Figs appeals to the cultured and the well-informed and to the healthy, because its component parts are simple and wholesome and because it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance. In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. To get its beneficial effects—buy the genuine—manufactured by the

FABLES BY GEORGE ADE

The Modern Fable of What Our Public Schools and the Primary System Did For a Poor But Ambitious Youth.

(Copyright, 1902, by R. H. Russell.)

Once there were two boys growing up in a large city. One had been born with a Silver Spoon in his Mouth. At that time Silver was regarded as a valuable Metal.

The other boy had no Assets to speak of, but he had very wisely chosen to be born under the Stars and Stripes, where the Poor Boy with a grinning Ambition gets every Show for his White Alley.

This Urchin was named Jimmy and even at the Age of 6 he was looking forward to the Time when he would be big enough to kill a Policeman.

Jimmy resided with his Parents in a bummy little one-story Shack. He went bare-foot every Year as soon as the Frost got out of the Ground and his favorite Stamping-Ground was the Railway Yards. One of the Joys of his Childhood was to get together a Gang of Hicks and throw Stones at the Broken Windows and know member of a tough Ball Team and knew

"I have neither Wealth nor Social Station," Jimmy would say to himself, "but I have Youth and Strength and a cast-iron Nerve, and if they expect to keep me down, they will have to tie me."

While F. Lawrence was away at the Varsity, learning Sanscrit and how to inhale without choking himself, Jimmy was circulating in the Ward, learning the Duties of Citizenship. He developed a Right Swing that was calculated to put somebody out of the Business. It was a common saying among his Admirers that you could not dent Jimmy with the Ticket or else there was an Ambulance Call. One Spring, while F. Lawrence was down on the Riviere, trying to conceal the fact that he had been born in America, Jimmy stacked the Cards on the Plous Element and was elected Alderman.

He was in Demand at all Primary Elections. Whenever he wanted to be a delegate to something, his Name went on the Ticket or else there was an Ambulance Call. One Spring, while F. Lawrence was down on the Riviere, trying to conceal the fact that he had been born in America, Jimmy stacked the Cards on the Plous Element and was elected Alderman.

Every one told him that he would have to see Jimmy. There would be nothing doing until Jimmy had been seen. Sen and seen Proper. And that is how it came

Silk Lining. He owned a Buffet in which he had to use four Men behind the Bar and sometimes the Slot Machines alone gave him a Take-Off of \$20 a Day.

And how about F. Lawrence, the pampered Patriarch who had been wont to jeer at the Poor Boy and treat him contempt? He had been leading a life of Idleness and Luxury, instead of getting out and hustling for the Tax-Payer and Workingman. But his Pride was due to get a hard Pull. Humble Jimmy, the Gas House Boy, had a lovely Dose of Boiled Justice all fixed up for F. Lawrence.

It appears that F. Lawrence, after the Death of his Father, succeeded to the Presidency of a Corporation, organized to trim the Public. This Corporation needed a Renewal of the Franchise. It had to get the Renewal or put up the Green Blind and that is why F. Lawrence got busy.

Every one told him that he would have to see Jimmy. There would be nothing doing until Jimmy had been seen. Sen and seen Proper. And that is how it came

HIS FAVORITE STAMPING-GROUNDS.

TOLD HIM HIS DUTY.

SEIZED HIM BY THE UNDRESSED KID.

how to play Seven-Up.

Across the Street from where Jimmy lived there was a magnificent Brick House with a Mansard Roof.

Within this Palace dwelt a Boy who had been handicapped with the Name of F. Lawrence had been warned against Jimmy. His Mama often took him on her Knees and told him how one of his Ancestors turned the Water into Long Island Sound and that it was his Duty to guard the Family Name and not speak to People who worked by the Day.

So F. Lawrence would stand at the Window and make Faces at Jimmy outside. Whereupon Jimmy would double-dare him to come into the street, but F. Lawrence remembered about the Family Name and refused to associate with any low-born Characters. But when he went out to take his Dancing Lesson, Jimmy would chase him a few Blocks and call him Names that were almost as bad as F. Lawrence's.

Jimmy had started out with No Pull or Prestige. He had nothing to carry him through except his Character. And now, at the age of 12, he was the Unwashed King of the State-Makers, the Main Blotz and the acknowledged Boss.

As a Boy, his entire Wardrobe stood him about 50 cents. Now, his Jewels alone secured up \$100 and his Clothes had

about the haughty Magnate, who once reviled the ragged Urchin, came with his Hat in his Hand and began to Crawl as soon as he struck the Front Door.

Here was a Grand Opening for Jimmy. He had the Chance of his Life to hand out a Hunk of Retribution by saying: "When I was a penniless Lad you mocked my Poverty. Now I am Well-Off and Powerful and you come to Square yourself. Go!"

Jimmy did nothing of the Sort. Large Natures, such as his, are not capable of a Petty Revenge. He was Magnanimous. He seized F. Lawrence by the Undressed Kid and led him to the Back-Room.

As soon as he became assured that the Tax-Payers were not going to get the Nub End of the Deal, he agreed to deliver the Goods.

Then he made some Inquiries about the Corporation and it seemed to be such a fair and reasonable Proposition that he took many shares of Stock.

Today he is one of the Directors, and sits at the same Mahogany Table with F. Lawrence, showing what a Poor Boy may accomplish in this Country if he leaves Liquor alone and does not waste his Time.

MORAL: If shy on the Family Name, pay some Attention to the Pull.

THE ARENA OF SPORTS

Game of Hockey Long Recognized As the Canadian National Game.

Duluth Has Eight Hockey Teams at Present—Jim Jeffries and "Philadelphia Jack" O'Brien Have Never Experienced a Knockout.

The game of hockey, which is making such strides toward popularity in Duluth this winter, although comparatively a new game in this section of the country, has long been recognized as the Canadian national game, and takes the place of football in the Dominion to the North. The Canadian youth learns how to handle a hockey stick almost as soon as he learns to walk, and for the first fifteen or twenty years of his life all of his spare time during the winter months is spent in playing hockey or talking hockey. The final games in the big leagues partake as much of the nature of society events as do the big battles of the gridiron in America. The galleries of the big covered rinks are jammed with the wealth and fashion of the city, and although the attendance is of necessity smaller than at the American football contests, the excitement and enthusiasm reach, if possible, a higher pitch. The swift scurry of the ice and the loud bang of the hard puck against the boards, which produces a goal, seems to raise the blood of the Canadian to a fever heat.

The scene at these contests is one not easily forgotten. The broad sheet of ice, clear and hard, and glistening under the brilliant lights, as brightly as a mirror, the players in their brilliantly colored sweaters and snappy white trousers, the gleam of the skates, the crashing of the sticks, and above all, the sea of faces peering over the railings of the balconies, will remain in the mind of the onlooker as long as his blood courses in his veins.

The fascination of the game grows on the players and the onlookers. No one who has ever played the game can keep his pulse from beating faster and his heart from leaping with enthusiasm, as he sees the great old game being played. The movement is so rapid, the cut on the nerves and muscles of the players so constant, and the action from scrimmage work so marked, that the game is unexcelled from a spectator's as well as from a player's point of view. Hockey is no game for children or weaklings. The requirements for a good player include a steady nerve, a clear eye, coolness and quickness of judgment and the staying powers of a locomotive.

The present highly scientific game has developed from the old game of shinty, where the instruments of torture were a hunk of birch bark, a crook on the end, and a round wooden ball. The scene of conflict was a small lake or a river, and the distance of half a mile long could be procured, and the best player was the man who could hit the ball the most accurately, who could "lay out" the most opposing players. The game of today is played in a covered rink, about 20 feet by 35, surrounded with four foot boards or "rushings." The old-fashioned club has given place to a modern hockey stick, made of rock elm and perfectly balanced. The rubber puck, shaped like a disc, has taken the place of the ball, and the players are limited to seven. The hitting of the ball from one end of the ice to the other, by a set of off-side rules much similar to those of football.

The forward line of the modern hockey team takes its position in a straight line across the ice, and the combination work of the back line, which is a revelation of what team practice may accomplish.

Duluth has at present eight teams, the West Duluths, Fairmounts, Norths, Pacifics, Shamrocks, Imperials, Zeniths, Black Diamonds and Centrals. Several contests are scheduled between the different city teams, and trips to Houston have been arranged for two of the Zeniths, and the Centrals.

The players hope to arouse enough interest in the game in Duluth by the close of this season to warrant the erection of a suitable rink, exclusively devoted to hockey before next winter arrives. Such a move would be a game which has been long neglected by Duluth athletes.

Caspar Whitney's selection of an All-American football team confirms the suspicion that he has lived too long in New York to be interested in the people of the United States of America.

"Kid" McCoy led a masquerade ball at Columbus, Ohio, the other night. He was disguised as a pugilist.

There are few boxers in the business today who have never experienced a knockout. Jim Jeffries and "Philadelphia Jack" O'Brien are two of the most prominent who have escaped going down and out, although Jeff lost a decision to Jack Munroe, and O'Brien was beaten—gave up to Young Peter Jackson some years ago on the coast. Jim Corbett, Bob Fitzsimmons, Tom Shar-

key, Kid McCoy, Joe Walcott, Tommy Ryan, Young Corbett and Harry Forbes can all tell you how it feels to be knocked out, for they have all experienced that peculiar sensation some time or other. Here is a list of the noted boxers who have been knocked out:

Bob Fitzsimmons—By Jim Jeffries, at Coney Island, June 9, 1899, in 11 rounds. At San Francisco in 8 rounds.

Jim Corbett—By Jim Jeffries, at Coney Island, April 11, 1900, in 23 rounds. By Bob Fitzsimmons, at Carson City, March 17, 1907, in 14 rounds.

Pom. Sharkey—By Gus Ruhlin, at Coney Island, June 26, 1900, in 15 rounds. By Bob Fitzsimmons, at Coney Island, Aug. 24, 1900, in 2 rounds. By Gus Ruhlin, in London, England, June 25, 1902, in 11 rounds.

John L. Sullivan—By Jim Corbett, at New Orleans, Sept. 7, 1892, in 21 rounds.

Kid McCoy—By Tom Sharkey, at New York, Jan. 10, 1909, in 1 round. By Jim Corbett, at New York, Aug. 30, 1909, in 2 rounds.

Tommy Ryan—By Kid McCoy, at Syracuse, N. Y., 1896, in 15 rounds.

Joe Walcott—By Kid Carter, at San Francisco, Oct. 12, 1901, in 7 rounds.

Joe Gang—By George McFadden, at New York City, April 11, 1899.

Ferry McGovern—By Young Corbett, at Hartford, Conn., Nov. 28, 1901, in 2 rounds.

Young Corbett—By Kid Broad, at Dundee, March 22, 1902, in 4 rounds.

Harry Forbes—By Terry McGovern, at Brooklyn, Oct. 1, 1898, in 15 rounds. By Terry McGovern, at New York City, Dec. 22, 1899. By Oscar Gardner, at Chicago, in 1 round.

THE FOOD THAT DOES GOOD

A medicine food that attacks microbes and drives out disease

The only vitalized Emulsion of Cod Liver Oil on the market. For weak, thin, dissimulative, pale-faced people, and for those who suffer from chronic skin disease and weakness of lungs, chest or throat.

Ozomulsion is a scientific food, prepared under aseptic conditions in a modern laboratory under supervision of skilled physicians.

A Large Sample Bottle Free will be sent by us to any address on request, so that invalids in every walk of life can test the food and see what Ozomulsion will do for them. Send us your name and complete address, mentioning this paper, and the large sample free bottle will be sent to you by mail, prepaid. Address:

The Ozomulsion Co.

100 De Peyster Street, New York.

tain freshman in Sage came out and

handed out such an attitude for the

Courtney stroke that the coach could

not find the least fault, Colson began

to feel a genuine interest in the suc-

cess of the young woman's efforts.

The girl in question was Miss Edna

McNary, who carried Cornell with her

class of 1900. During her sophomore

and junior years Miss McNary was

the captain of the Cornell crew, and

that time Mr. Colson would not permit

any other coach to interfere. As a re-

sult of her efforts, the Cornell crew

before the great Poughkeepsie race last

July all of the crew men who were

on the boat, and the boat did not ap-

pear at all jealous.

Now, however, the girls no longer

have to make such a sacrifice, owing

to the generosity of Charles Francis,

the great Cornell oarsman, fine quar-

terly a member of the Cornell crew, who

lives in the Cornell house, near the

lake, in Fall creek gorge, near the

university, and here the girls practice

every afternoon, having six o'clock

shells, eggs, etc., which have been

given them by Mr. Courtney, or which

they have purchased themselves.

The lake is secluded and an ideal site

for the purpose. The girls practice is

usually strict, immediately after

Christmas the captain issues the call

for candidates, and usually over fifty

girls respond. The captain has been

fitting up in the gymnasium and the

captain, assisted by Mr. Courtney and

Mr. Courtney, select the crew. In-

struct the new candidates in the essen-

tials of the Courtney stroke. Those

who do not grasp the principles of the

famous stroke are weeded out, and by

spring only a dozen candidates remain.

The winter training is continued until

two crews are selected.

The Jeffries-Fitzsimmons combined

show has made all kinds of noise since

it landed at Butte, Mont. From that

time it has been a sensation almost every-

where. The news that has come from

the old man's camp is that he has been

little hearing on heavyweight affairs.

It has served to pave the way for the

old man's hearing, and the case will

probably not injure the gate receipts

when they reach Chicago and other

other ring appearances.

Reports that Fitzsimmons has

whipped his manager, Clark Ball, and

that he has been a victim of the Cor-

nell's variety eight from their fellows.

A woman's crew at Cornell university

was established about seven years ago,

when an ambitious set of girls used to

trudge from the dormitory on the lake

to the lake, a distance of a mile and a

half, every afternoon in order to spend

an hour rowing.

Mr. Courtney willingly let them use

a shell and soon began to assist a

coach for the "goods."

It was about this time when Freddie

Colson, who afterward was killed, was

employed as the coxswain who piloted

the Ithaca combination through four

victories and twice in succession

against Yale and Harvard, first began

to attract the attention of the veteran

Cornell coach, Freddie Colson, and he

can up the scales at ninety pounds.

While basket ball, tennis and other

sports struggle for girls receive their

just share of popularity among the wo-

men of Duluth, the game of hockey

interest in aquatic sports predominates,

and the six women who are picked by the

captain and coach to form the team

win each year receive even more

attention from the 350 women stu-

dents than for the members of Cor-

nell's variety eight from their fellows.

have been finished. O. D. Kinney is president, E. Z. Griggs, vice president, and H. E. Brainerd, secretary. E. W. Peet is assistant cashier.

The question of dividing our local school district, No. 22, which takes in Virginia and Eveleveth, came up before the county commissioners Tuesday and was laid on the table, which is as good as a frost. This movement was started by the Eveleveth end of the district for the purpose of giving Virginia the short end of the proposed new district and taking in our principal mining properties, while the Eveleveth end would include two of the richest iron mines on the range, the Fayal and Adams. They see very plainly that a new and costly high school building is the best extension for the mine for our end of the district, and that one high school is at the district end, except at present. Of course, our people went up in the air when they heard of the plan and decided to fight them to a finish, and as the outlook is not overly bright to get the county commission to sanction any such move, it is doubtful if the Eveleveth end will bring the matter before the board again. If they do, it will receive a harder knock than it did at the recent session, and from a source that are not expecting it from.

E. W. Vallet, who has been in the Lincoln mine, left here a week ago Wednesday for a short visit at his former home at Ishpeming, Mich. He was at the depot New Year's day and escorted up the street by a large crowd of friends. One of the party, a young lady, daughter of the mine, was being turned around on the train as the train was being turned around on the horses was hit by a snowball, which was thrown by one of a large number of boys who were playing on the street. The horses gave a start and the driver, who was driving "uphill," the occupants, and a runaway was in progress. The team was stopped, and the animals crashed through a plate glass front of a clothing store and were shot. The runaway cost the party \$200 or more, but Mr. Vallet says he and the driver were out of that affair alive as he was out of Duluth last fall when he was shot by the Duluth-helming football team.

Miss Nettie Landwehr, of Milton, N. D., has returned to the city after an absence of two years. She has been in training at a hospital, and is now a nurse and expects to remain in the city.

James S. Ray, the Duluth safe man, called on many friends at the city part of this week. Mr. Ray has worked up a splendid business for himself in this district.

Miss Nellie Woolfson, of Chisholm, visited with friends at the city. She is a member of the church at Chisholm.

A merry bunch of Eagles of this city, Mountain Iron and Eveleveth, took in the "chairs" of the Superior jolly Monday night. The party was a success.

Miss Lucy Davis is visiting with Mrs. Peter Wring at Hibbing this week. She has been visiting at the home of Mr. and Mrs. J. Moberg during the holidays.

E. E. Burley and family have returned from a trip to Mr. Lillio's restaurant in St. Paul.

Newton Rogers purchased one of the vacant cottages at the Aurora mine recently, and the first part of the week succeeded in getting the house moved from the mine to his place on Maple Street. It is a two-story structure and is a fine residence.

Residence houses are at a premium. So is land room. The city is in a position to build a house at a short notice. The city is in a position to build a house at a short notice.

Mr. and Mrs. E. W. Coons, Miss Debra Thulin and "Gee" Lytle, who have been visiting at their old home at Crystal Falls, Mich., where they will visit for about three weeks.

Miss M. Dumanan is assisting Postmistress Debra Thulin at the office during the absence of Miss Thulin.

Mr. E. Moberg, who was at Minneapolis this week attending the twenty-third annual convention of the Custom Cutters of America.

Miss Susan Pratt has returned to Carlton college at Northfield.

Mesaba.

Mesaba, Jan. 10.—(Special to The Herald.)—J. Lovett was in town on business last week.

Mrs. Kessick and children from Biwabik are now visiting Mrs. Hesel here before they depart for Indiana, where they intend going very soon.

August Anderson went to Virginia Wednesday morning.

W. Munroe went to Duluth Saturday evening and returned Sunday morning. Thomas Tracy made a short trip to Duluth.

Otto Rosvall was in city for New Year's. John Carlson was in town from Ely this week.

Charles Sanders spent New Year's in Ely.

The mail is now continually increasing on account of all the camps around here. Zeos Lorrain and Ashland, is now visiting A. F. McFar here.

James Hayes, from Tower, is now in town.

A car of logs jumped the track here Monday, landing in the ditch. A few of the Duluth & Iron Range employees were here getting work.

G. H. Dyer, of Kaukauna, was in the city on business Monday.

A booming baby girl arrived at the home of Mr. and Mrs. F. H. Hines on a short business trip Tuesday.

Miss L. Shon gave a party to a number of her young friends Tuesday night, and all were very pleasantly.

H. H. Hallenbeck, of Dorchester, Wis., was in town on business Monday.

D. D. Sullivan, one of Ironwood's oldest residents, died suddenly Friday morning of paralysis of the heart. The deceased was 70 years of age and leaves a wife and five children to mourn his death.

News was received from Ashland of the death of D. Rein, well known in Ironwood as a farmer.

Cass Lake.

Cass Lake, Jan. 10.—(Special to The Herald.)—E. H. Phelps returned from a visit to Duluth and Kaukauna Wednesday, where he visited relatives for a few weeks.

Clarence Kinney and wife moved to Ely, where Clarence is working in the lumber camps this winter.

Edwin S. Wilcox, of Thief River Falls, and A. J. Moberg, of Iron River, were in town on business Monday.

Charles Kinney and wife moved to Ely, where Clarence is working in the lumber camps this winter.

Edwin S. Wilcox, of Thief River Falls, and A. J. Moberg, of Iron River, were in town on business Monday.

Charles Kinney and wife moved to Ely, where Clarence is working in the lumber camps this winter.

"One thorn of experience is worth a whole wilderness of warning."

—James Russell Lowell

An aphorism to be studied by those who, despite all warnings, persist in buying silverware without assuring themselves of its quality.

GORHAM

is a name which in itself is an assurance of the very highest quality and that it is Gorham the trade-mark will testify.

All responsible keep it

ly profitable and H. W. T. McKown, who entered into his duties as county treasurer for the Duluth-helming football team.

Mr. Omdahl, near Farris, died early this week and was buried at the village cemetery this week.

Mr. Henry Taylor, of Grand Rapids, is seriously sick. The last report says he is considerably better.

Mr. Smith returned from Duluth on Thursday where he was on business.

Great satisfaction is felt here at the prospect of J. E. Nelson as assistant superintendent of the Great Northern railway in the northern district. Jim is very popular among the railway men and the citizens, and his removal to Grand Forks was lamented by the local Masons, of which he was a very acceptable member.

Dr. J. W. Indian agent, received the pay roll of the Indian police and paid them for the month of December.

T. F. Hughes and wife, of Benidell, are in town for a few days.

C. M. Olson entered into work this week on his contract for Scanton-Gibson company in getting out coal pits and pits. Thirty men are at work near Black Lake.

There was a lively time at Walker for the county printing, and it was left with the auditor.

Ironwood.

Ironwood, Jan. 10.—(Special to The Herald.)—W. R. Hopkins, of Iron River, was in town visiting friends Tuesday.

Mr. E. Kelly died at the home of his brother, William Kelly, of Jesseville, Minn., on Monday. He was 70 years of age and leaves one brother to mourn his death.

The funeral occurred Wednesday afternoon from the M. E. church. Rev. W. C. Clemm officiating.

Michael Hanley, the 6-year-old son of Mr. and Mrs. M. Hanley, of Aurora, died Saturday of pneumonia. The funeral occurred Monday from St. Ambrose church, Rev. Becker officiating.

Edward Hunt returned home Monday from St. James, where he had been on a short visit with relatives.

Miss L. Brown left for Marquette Monday afternoon, where she will resume her studies at the normal school.

One leg cut off by the street car, while on his way home from work on Wednesday night. It is thought that on account of the heavy fall of snow the man could not see by the motorist until it was too late to stop the car.

Mr. and Mrs. J. H. Hines, of Iron River, were in town on business Monday.

A. J. Moberg, of Iron River, was in the city visiting friends Wednesday.

News was received from Ashland of the death of D. Rein, well known in Ironwood as a farmer.

Biwabik.

Biwabik, Jan. 10.—(Special to The Herald.)—An Austrian miner was hurt at the Duluth mine Saturday morning, while some blasting was being done. He was taken to the hospital, where he is now recovering.

It was found that he was not hurt very seriously, but it would be some time before he would be able to get up again.

James Carmichael and daughter left their home at Hibbing, after an extended visit here with relatives.

Mr. and Mrs. J. H. Hines, of Iron River, were in town on business Monday.

News was received from Ashland of the death of D. Rein, well known in Ironwood as a farmer.

at Waldo Monday, after a few days' visit here, the guest of Mrs. Charles Verrill.

Mr. Berry and brother Harvey, are visiting at their old home at Arkansas. A party of young folks drove out to the mine Thursday evening. The young people presented him with a rooster. The evening was pleasantly spent in playing games and singing. A big lunch was served at ten o'clock.

Miss Carrie and Ruth Woodfill, of two Harbors, spent a few days in town with friends.

Joseph Selwood left Tuesday for Hibbing, where he has accepted a position as bookkeeper at the Agnew mine. He expects to return here in the spring. He took his old position as bookkeeper for the Hale mine.

Miss Mabel and Mayme Enright were down to two Harbors for a few days, visiting among friends. They are thinking of accepting a position there in the near future.

The snow of the early part of the week was the cause of considerable trouble to the Duluth & Iron Range railroad, and also to the loggers. The flanger was kept in the woods for several days. The loggers were engaged shoveling snow. The snow in the woods, however, is so deep that logging work will be somewhat delayed.

Miss Mabel Trevena returned to McKinley, Minn., after a short visit here, after spending her vacation here with her parents.

Mr. and Mrs. J. H. Hines, of Iron River, were in town on business Monday.

Accurate Treatment Of Men's Diseases

The longest established, most successful and reliable specialist in diseases of men, as medical diplomas, licenses and newspaper records will show.

"WEAKNESS"

That disorder commonly known as "weakness," has for years and generations baffled the efforts of physicians, yet to this very day a majority of doctors are attempting to overcome it by methods that have been in constant use and that have constantly failed for half a century. They do the system with powerful stimulants and tonics calculated to restore nervous forces or strength that is not and never has been lacking, with a result that the functions are temporarily excited to the positive detriment of the patient. Weakness, we will call it such for convenience just now, is only a symptom resulting from a chronically swollen and inflamed prostate gland, and is curable by local treatment only. Either early dissection or some improperly treated contracted disease is responsible for the inflammation in most instances, though accidental injury, strain, etc., may produce the same result. I have permanently cured thousands of cases of premature, nervous, and other diseases, with the absolute accuracy of my understanding and treatment of the disorder. In years I have not met with a single failure, and I have never known of a case where I have not cured the disease. I have treated over 600 cases of contracted disorders and have effected an absolutely thorough and safe cure in each instance. There have been no relapses or undesirable developments whatever and my patients have been cured in less time than other and less thorough forms of treatment require in producing even doubtful results.

My guarantee to cure varicocele in one week, or I will refund the money. No cutting or ligature, or caustic. No other physician employs a method, and so thorough is my work that there is no relapse. I have cured many cases of varicocele which have been long afflicted with varicocele will never realize the injury they have caused the feet, the energy and buoyancy of spirits that a complete cure will bring.

ORDER TO EXAMINE ACCOUNTS, ETC.—State of Minnesota, County of St. Louis ss.—In Probate Court, Special Term, January 5, 1903.

In the Matter of the Estate of John Arndt, Deceased.
 On reading and filing the petition of J. R. Simpson, administrator of the will and executor of the estate of John Arndt, deceased, representing among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining, settling and allowing the final account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is ordered, That said account be examined, and petition heard by this court, on the second day of February, A. D. 1903, at 10 o'clock a. m., at the probate office in the court house in the city of Duluth, in said county.

And it is further ordered, That notice thereof be given to all persons interested, by publishing a copy of this order once in each week for three successive weeks prior to said day of hearing, in the Duluth Evening Herald, a newspaper printed and published at said city of Duluth, in said county.

Dated at Duluth, Minnesota, this 9th day of January, 1903.

By the Court, J. D. MIDDLESCOTT, Judge of Probate.
 (Seal Probate Court St. Louis County, Minn.)

COAL DEALERS MUST TELL WHY COAL IS NOT MARKETING

Hundreds of Tons Are Stored Outside of Chicago.

Train Crews Instructed to Hold It There Indefinitely.

Special Grand Jury Hears Rumors of Startling Nature.

Chicago, Jan. 12.—The special grand jury which has been called to investigate the conditions responsible for the coal famine, continued today to hear evidence which the attorney general and states attorney have secured against the coal operators and big dealers. Twenty-five coal men, some of the heads of wholesale firms and others chiefs in the councils of corporations operating mines, presented themselves at the criminal court building in answer to summonses to tell what they may know of the "ring," which the Illinois Manufacturers' association charges, is responsible for fuel conditions.

It is the intention of the grand jury that none but coal men shall be examined, and under Mr. Denen's direction they are being asked to explain just what are the aims and objects of the Illinois Coal Operators' association and why coal cars stored on railroad tracks just outside the city limits are not being ordered into the city and marketed. It is said that the investigators have discovered trains of coal cars, sidetracked and placarded with instructions to freight crews to hold the contents indefinitely, and that hundreds of tons of coal have been taken from the cars and heaped up along the tracks.

Attorney General Hamlin declared that the investigation would not be confined to Chicago, but would reach out so as to take up the conditions throughout the state.

Washington, Jan. 12.—Senator Stewart (Nev.), who is conducting the coal investigation before the committee of the District of Columbia, today introduced a resolution providing the committee shall be authorized to send for persons and papers, administer oaths and compel the attendance of witnesses. Owing to the expense involved, the resolution had to go to committee on contingent expenses of the senate. The object of the resolution was to secure the attendance of officers of coal roads and coal companies, and to secure testimony from dealers in the city, who have refused to answer questions. Senator Stewart intends to secure an early report from the committee, and to pass the resolution today if possible.

KILLED BY JUMPING.

Disastrous Fire In St. Louis Lodging House.

St. Louis, Jan. 12.—Fire broke out in a negro lodging house in West fine street early today, and Mrs. Helen Brown and her daughter Eugene, were killed by jumping from an upper floor. Johnnie Johnson was badly burned by jumping. The other lodgers escaped, saving only their night clothes.

POSTMASTERS

Named By President and Sent to Senate.

Washington, Jan. 12.—The president today sent the following nominations to the senate: Postmasters: Michigan—Lafayette C. Hall, Plymouth; Robert F. Ferris, Burr Oak; James K. Train, Elmore; California—John Gregory Rocklin, Iowa—Charles Burgess, Cresco; Henry T. Swoje, Clearfield; Henry Arrive, Elkhart; J. K. Matthews, Mediapolis; Henry C. Hill, Milton, North Dakota—Ole Rolland, Bitterroot, Wisconsin—George Smith, Eau Claire; Frank E. Wilcox, South Superior.

KANSAS BREEDERS

Are Holding Three Days' Meeting at Topeka.

Topeka, Jan. 12.—The thirty-first annual gathering of the Kansas Improved Stock Breeders' association, is in session here, with a large attendance for a three days' meeting. The stockmen's meeting ends Wednesday evening, so that the members may be free to attend the three days' meeting of the thirty-second annual session of the state board of agriculture immediately following. Governor Bailey, Dr. Henry Wallace, of Iowa; A. C. Hollaway, of Chicago; L. H. Kerrick, Illinois; Secretary of Agriculture James Wilson, and Dr. B. T. Galloway, of Washington, will be among the speakers.

IMPORTANT DECISIONS.

Topeka, Jan. 12.—Judge Hazen, in the district court today, decided that the Bible could be read in the public schools of Kansas and that Sunday theaters could be held in Topeka without molestation. Both cases were vigorously contested.

KILLED BY COAL.

Williamsport, Pa., Jan. 12.—Hillard Frost and Ira Green were crushed to death while digging coal near Hiram, Clinton county. The two men went into a small private mine to dig for the use of their families when a roof caved in, killing them.

AMES' MOTION DENIED.

Minneapolis, Jan. 12.—Special to the Herald.—Judge Brooks today denied the motion for a new trial in the case of former Superintendent of Police Frederick W. Ames, convicted of bribery. Appeal will now be taken to the supreme court.

BARON SPECK VON STERNBERG, WHO WILL SUCCEED AMBASSADOR VON HOLLEBEN, AND HIS AMERICAN WIFE.

It is expected that the temporary retirement of Baron von Holleben as ambassador to the United States from Germany will give way to a permanent retirement and that Baron Speck von Sternberg, who has been made charge d'affaires at Washington, will succeed him as ambassador. Baron's wife is an American girl. Before her marriage in 1900 she was Miss Lillian May Langham of Louisville.

HEAVY LOSSES BY FIRE

Half a Million Goes Up In Smoke In New York, While Chicago Has a Sixty Thousand Dollar Fire.

New York, Jan. 12.—An early fire completely destroyed the eight-story building at Allen and East Houston streets, which was occupied by Fayerweather & Ladew, manufacturers of leather belting. The loss will exceed half a million dollars.

The firm had 1600 employees who will temporarily be out of employment. Large quantities of oil and grease were stored in the building and these made the fire which was caused by a gas explosion. One of them nearly caught a squad of firemen with sheets of flame, and as a result the fire department was delayed. The occupants of all nearby tenement houses were driven out. A portion of one of the walls fell on the second avenue elevated structure and crashed a streetcar. A battalion of fifteen men working on the elevated road just got out of the way in time to save their lives. The origin of the fire has not been ascertained.

PANIC AMONG ROOMERS

Patrons of the Minnesota House at St. Paul Had Narrow Escapes From Suffocation at an Early Morning Fire.

St. Paul, Jan. 12.—(Special to The Herald.)—Fire at the Minnesota home, a lodging house on Rosale street, near Sixth, caused a panic among the lodgers at 3 o'clock this morning, and damaged the building to the extent of \$500. A number of roomers were overcome by the smoke, and had to be carried from the place. The fire started from an overheated stove in the office about 4 o'clock this morning and had made much headway when discovered. John Kessler, a coachman, lost \$250, but it was recovered by the salvage corps. Edward Brodard was arrested by Officer Nightengale, charged with stealing clothes from the hotel. He denied the charge in the police court this morning and the case was continued.

A fire at the residence of Joseph Friedman, 125 East Eighth street, at an early hour this morning, did damage to the amount of \$250. The family managed to escape from the building in their night clothes.

WAS PRINCESS HYPNOTIZED?

New York, Jan. 12.—The most lurid sensational reports are now current in the Saxon capital, says a Herald dispatch from Dresden, regarding the Princess Louise, and the query, "Is the princess under hypnotic influence?" is being propounded in professional and journalistic circles.

The Dresden Zeitung prints a statement to the effect that M. Girou exerted a suggestive influence upon the impressionable crown princess.

NOSALARY FOR THIRTY YEARS

New York, Jan. 12.—Rev. Dr. H. I. Hoffman, who for thirty years has not accepted a penny of salary in the various churches where he has labored, has announced his resignation as pastor of the Reformed Episcopal Church of Our Redeemer, says a Philadelphia dispatch

PILING UP EVIDENCE

To Show That Majority of Miners Were Satisfied.

Wage Statements of D. & H. Accepted By Workers.

Price of Coal Was Raised at End of the Strike.

Philadelphia, Jan. 12.—Brig. Gen. Wilson again presided at the day's session of the anthracite coal strike commission. Chairman Gray still being confined to his home by illness. Abel Culver, of New York, comptroller of the Delaware & Hudson company, who was on the stand when the commission adjourned Saturday, was again called upon to testify today. Mr. Culver said that the wage statements handed in on Saturday are final, and that the miners' representatives have agreed that they are a fair presentation of the case.

Gen. Wilson hoped that the representatives of other companies would be able to arrive at some understanding with the miners in the presentation of a statement as to Delaware & Hudson company had done. Mr. Culver was cross-examined by C. S. Darrow for the miners. George Anderson, of Scranton, a clerk in the coal department of the Delaware & Hudson company, was the next witness. He submitted a statement showing that 2388 of the 12,238 employees have been in the employ of the company from ten to sixty days. He told of the working of the relief fund, and said that since the strike the miners had lost 110 days at twenty-eight different collieries, thus reducing the production of coal by the company 23,561 tons. In reply to a question by the miners' counsel, the witness said he got his information about the last time from the foremen of the mines.

Mr. Darrow asked witness if the company raised the price of coal 50 cents after the strike ended, and he replied

(Continued on Page 3.)

BRIGHTER FOR IRELAND

Tenants Are Full of Hope That Permanent Peace For the Agrarians May Soon Be Brought About.

New York, Jan. 12.—The most notable event that has occurred in Ireland for several generations has been the agreement on the land question by representatives of landlords and tenants, according to a dispatch to the Tribune from London. Extreme land owners who at the outset did their utmost to make the Dublin agreement a failure, are now willing to go half way toward a compromise. The tenants are more than willing to give up an enormous amount of land in return for permanent peace in agrarian Ireland. Chief Secretary Wyndham is anxious to make the most of the opportunity, and it is believed, indeed, that Premier Balfour and the majority of the cabinet agree with the king that a great effort should now be made to settle the whole question. What is feared is that the treasury may face the situation in a haggling spirit. The tenants are now full of expectation and are looking forward to obtaining holdings on the terms laid down in the report, but if the treasury fails to give the necessary financial assistance, the whole scheme will most assuredly collapse.

PROOF LIES IN MUSKET

Ownership of a Big Estate In Pennsylvania Depends on Possession of an Old Revolutionary Relic.

New York, Jan. 12.—Members of the State Bar of New York, including Mayor Franklin P. Stoy, have been interested in finding the possessor of a certain revolutionary musket, ownership of which may carry with it the title to a big estate in Troy, N. Y. It is said, several million dollars, says an authentic city, N. Y. dispatch. A letter received by Mayor Stoy probably settles the question of ownership of the gun. Isaac Stoy of Sherwood, Mich., stating that he is its possessor.

Seventy years ago the property in question was leased to John Stoy, the father of Isaac.

At that time it was found, that inserted in the grant to the original lease, was a clause which provided that any dispute by the descendants of the property was to be settled by the possession of a revolutionary musket, which was minutely described and spoken of as having been carried by one of the original Stoy family to the battle of Yorktown. The musket was to be passed to the nearest heirs of the Stoy family, and to be absolute proof of ownership.

The hunt for the gun shows that a few years ago it came into Isaac's possession. Mayor Stoy has informed him of the circumstances under which the big bequest is to be made, and backed by the remainder of the Stoy family, Isaac Stoy will make a fight for the estate.

MISSIONARIES ARE SAFE

London, Jan. 12.—Letters received in London from English and American missionaries at Fez dated Dec. 30, say there was little anxiety at that time for the safety of foreigners, even in the event of the pretender entering Fez. The pretender, the missionaries say, has too much wisdom to slay the foreigners and will simply convert them out of his territory. He is described as a strong man and exerts his authority wisely. Jews at Fez have received letters from friends.

Messengers have been sent to Mequines to bring to Fez two American missionaries who are there.

PARDON ACTION DEFERRED

St. Paul, Jan. 12.—(Special to The Herald.)—No action can be taken at the meeting of the state pardon board this afternoon on the application of Cole Younger, nor for the desired commutations of sentences of Charles E. Henderson, of Duluth, and Ole O. Nelson, of Atkin, men sentenced to be hanged for murder, who want the penalty changed to life imprisonment. All

EXTREME COLD WEATHER CAUSES SEVERAL DEATHS

PECULIAR CONTEST

Over Will of Late Millionaire Gibson of Cincinnati.

Copy of Document Made From Stenographic Notes Presented.

Original Will Has Never Been Seen Since Death.

Cincinnati, Jan. 12.—A peculiar contest began here in the probate court today when the widow of the late millionaire, John McCormick Gibson, of this city, who died at Asheville, N. C., a few months ago, presented her private copy of his will made from stenographic notes alleged to have been preserved by Attorney Wells of Asheville. The original will, it is asserted, has never been found since the death of Mr. Gibson. It bequeathed his entire estate to his widow, to whom he was married a few hours before his death. His legal heirs, his mother and a brother, contest the proceeding. The will, and a legal argument is in progress on the question whether a will of this description is valid or not. Mrs. Gibson, the widow, was Miss Cecelia Wolf, of Providence, R. I. She was called by a telegram to Asheville when Mr. Gibson was critically ill and was married on her arrival. He died the next day. Mr. Gibson's first wife was one of the victims of the Windsor hotel fire in New York.

Great Suffering In Families of the Poor.

Shortage of Fuel Adds to Their Discomfort.

Detroit, Jan. 12.—Following on the heels of the most severe snow storm of the season yesterday, came the coldest night of the winter in this city. At 7:30 this morning, the thermometer registered 5 below zero. The zero temperature was general all over the lower peninsula below Alpena, with the exception of a section close to the shore of Lake Michigan near Grand Haven.

Hundreds of people who live in Windsor, Ont., just across the river, and who are employed in this city, did not get to their work until nearly noon. The snow of yesterday froze into the ice in the river and packed it into an almost impenetrable mass and the ferries across the river had been able to make only four trips up to 9:30 o'clock. The car ferries had even more trouble, plowing through the ice with their trains. Both the ferries Lansdowne and Great Western spent the night in the river bucking the ice with passenger trains aboard. The Canadian Pacific train from Toronto, due here at 2:15 a. m., spent the night on the car ferry fast in the river and did not arrive here until 8:30 this morning. The international trains on the Wabash road were an average of ten hours late owing to the ice in the river and the Michigan Central and Grand Trunk also suffered much delay.

St. Paul, Jan. 12.—(Special to The Herald.)—One degree below zero was the warmest temperature reported in this city Sunday and last night it went down to 7 below. Moorhead, Minn., reports a minimum of 18 below. Full reports from the state have not yet been received, but the weather man from the reports received—looks for slightly warmer weather tomorrow. Fuel is scarce and, although there is not yet an actual famine, there is much suffering.

La Crosse, Wis., Jan. 12.—It was 8 below zero here this morning with a cutting wind blowing from the cold felt more than at any time this season. The mercury fell lower only once before this winter, 10 below in December.

Chicago, Jan. 12.—Two degrees below zero was the official temperature for Chicago at 8 a. m. today, accompanied by a brisk northwest wind. Much suffering among the poor, who have with difficulty endured the weather since the coal famine became acute, has been reported, and a number of deaths are said to have been due directly to the cold. Steps have already been taken by the mayor to provide a fund for the relief of suffering among the destitute.

The temperature, which was 6 below at midnight, began soon to moderate, until, as was reported directly to the mayor, it was 2 below when registered. Much delay to suburban and interurban transportation lines was occasioned by the sudden intense cold, and a number of minor accidents, owing to the heavy fall of snow, were reported.

List of dead from the cold: FRANK LEWIS, 40 years old, badly frozen, died in a chair in a saloon. R. ROSE, walked streets all night and died soon after entering warm room of a lodging house. Like Shepherd G. POOL, Manila, Iowa, cook on

bituminous coal, but it was not as heavy as coal. A pleasant odor came from it. A seafaring acquaintance told him he had found ambergris and that it was very valuable. He returned to the beach where he found several pieces of the mass to be hard and heavy. Experts say the pieces are genuine ambergris and worth a large sum of money. He said what he thought was a lump of

TWO CENTS.

COAL DEALERS MUST TELL WHY COAL IS NOT MARKETING

Hundreds of Tons Are Stored Outside of Chicago.

Train Crews Instructed to Hold It There Indefinitely.

Special Grand Jury Hears Rumors of Startling Nature.

Chicago, Jan. 12.—The special grand jury which has been called to investigate the conditions responsible for the coal famine, continued today to hear evidence which the attorney general and states attorneys have secured against the coal operators and big dealers. Twenty-five coal men, some the heads of wholesale firms and others chiefs in the councils of corporations operating mines, presented themselves at the criminal court building in answer to summonses to tell what they may know of the "ring," which the Illinois Manufacturers' association charges, is responsible for fuel conditions.

It is the intention of the grand jury that none but coal men shall be examined, and under Mr. Deen's direction they are being asked to explain just what are the aims and objects of the Illinois Coal Operators' association and why coal cars stored on railroad tracks just outside the city limits are not being ordered into the city and marketed. It is said that the investigators have discovered trains of coal cars, side-tracked and placarded with instructions to freight crews to hold the consignments indefinitely, and that hundreds of tons of coal have been taken from the cars and heaped up along the tracks.

Attorney General Hamlin declared that the investigation would not be confined to Chicago, but would reach out so as to take up the conditions throughout the state.

Washington, Jan. 12.—Senator Stewart (Nev.), who is conducting the coal investigation before the committee of the Senate, today introduced a resolution providing the committee shall be authorized to send for persons and papers, administer oaths and compel the attendance of witnesses. Owing to the expense involved, the resolution had to go to committee on contingent expenses of the senate. The object of the resolution was to secure the attendance of coal operators and coal companies, and to secure testimony from dealers in the city, who have refused to answer questions. Senator Stewart intends to secure an early report from the committee, and to pass the resolution today if possible.

KILLED BY JUMPING.

Disastrous Fire In St. Louis Lodging House.

St. Louis, Jan. 12.—A fire broke out in a negro lodging house in West Pine street early today, and Mrs. Helen Brown and her daughter Eugene, were killed by jumping from an upper floor. Jennie Johnson was badly burned by jumping. The other lodgers escaped, saving only their night clothes.

POSTMASTERS

Named By President and Sent to Senate.

Washington, Jan. 12.—The president today sent the following nominations to the senate:

Postmasters: Michigan—Lafayette C. Hall, Plymouth; Robert F. Ferris, Burr Oak; James K. Train, Edmore; Iowa—John Gregory, Rocklin; Iowa—Charles Burgess, Cresco; Henry T. Savage, Clearfork; Illinois—J. H. Platt; J. K. Matthews, Mendota; Henry C. Hill, Milton; North Dakota—Ole Rolland, Rattelle; Wisconsin—George Smith, Eau Claire; Frank E. Wilcox, South Superior.

KANSAS BREEDERS

Are Holding Three Days' Meeting at Topeka.

Topeka, Jan. 12.—The thirty-first annual gathering of the Kansas Improvement Breeders' association is in session here, with a large attendance for a three days' meeting. The stockmen's meeting ends Wednesday evening, so that the members may be free to attend the three days' meeting of the thirty-second annual session of the state board of agriculture immediately following. Governor Bailey, Dr. Henry Waller, of Iowa; A. C. Hollis, of Chicago; J. H. Kernick, Illinois; Secretary of Agriculture James Wilson, and Dr. B. T. Galloway, of Washington, will be among the speakers.

IMPORTANT DECISIONS.

Topeka, Jan. 12.—Judge Hazen, in the district court today, decided that the "Rube" could be read in the public schools of Kansas and that Sunday theaters could be held in Topeka without objection. Both cases were vigorously contested.

KILLED BY COAL.

Williamport, Pa., Jan. 12.—Hillard Peck and Ira Green were crushed to death while digging coal near Blanton, Clinton county. The two men went into a small private mine to dig coal for use of their families when a roof caved in, killing them.

AMER. MOTION DENIED.

Minneapolis, Jan. 12.—(Special to The Herald.) Judge Brooks today denied the motion for a new trial in the case of former Superintendent of Police Frederick Ames, convicted of bribery. Appeal will now be taken to the supreme court.

BARON SPECK VON STERNBERG, WHO WILL SUCCEED AMBASSADOR VON HOLLEBEN, AND HIS AMERICAN WIFE.

It is expected that the temporary retirement of Baron von Holleben as ambassador to the United States from Germany will give way to a permanent retirement and that Baron Speck von Sternberg, who has been made charge d'affaires at Washington, will succeed him as ambassador. The baron's wife is an American girl. Before her marriage in 1900 she was Miss Lillian May Langham of Louisville.

HEAVY LOSSES BY FIRE

Half a Million Goes Up In Smoke In New York, While Chicago Has a Sixty Thousand Dollar Fire.

New York, Jan. 12.—An early fire completely destroyed the eight-story building at 100 West 10th street, which was occupied by Payerweather & Ladlow, manufacturers of leather belting. The loss will exceed half a million dollars.

The firm had 100 employees who will temporarily be out of employment. Large quantities of oil and grease were stored in the building and these made the fire fiercely hot and caused two explosions, one of them nearly caught a squad of firemen with sheets of flame, and as a result of other, a water tower of the fire department was destroyed. The occupants of the building fled in confusion, and a thickly populated tenement house was driven out. A portion of one of the walls fell on the second avenue elevated structure and crashed a girdle. A battalion of firemen working on the elevated road just got out of the way in time to save their loss. The origin of the fire has not been ascertained.

PANIC AMONG ROOMERS

Patrons of the Minnesota House at St. Paul Had Narrow Escapes From Suffocation at an Early Morning Fire.

St. Paul, Jan. 12.—(Special to The Herald.)—Fire at the Minnesota house, a lodging house on Rosale street, near Sixth, caused a panic among the lodgers at 3 o'clock this morning, and damaged the building to the extent of \$500. A number of roomers were overcome by the smoke and had to be carried from the place. The fire started from an overheated stove in the office about 4 o'clock this morning and had made much headway when discovered. John Kessler, boarder, lost \$250, but it was recovered by the salvage corps. Edward Broadard was arrested by Officer Nightengale, charged with stealing clothes from the hotel. He denied the charge in the police court this morning and the case was continued.

A fire at the residence of Joseph Friedman, 125 East Eighth street, at an early hour this morning, did damage to the amount of \$200. The family managed to escape from the building in their night clothes.

WAS PRINCESS HYPNOTIZED?

New York, Jan. 12.—The most lurid sensational reports are now current in the Saxon capital, says a Herald dispatch from Dresden, regarding the Princess Louise, and the query, "Is the princess under hypnotic influence?" is being propounded in professional and journalistic circles.

The Dresden Zeitung prints a statement to the effect that M. Giron exerted a suggestive influence upon the impressionable crown princess.

NOSALARYFOR THIRTY YEARS

New York, Jan. 12.—Rev. Dr. H. I. Hoffman, who for thirty years has not accepted a penny of salary in the various churches where he has labored, has announced his resignation as pastor of the Reformed Episcopal Church of Our Redeemer, says a Philadelphia dispatch.

PILING UP EVIDENCE

To Show That Majority of Miners Were Satisfied.

Wage Statements of D. & H. Accepted By Workers.

Price of Coal Was Raised at End of the Strike.

Philadelphia, Jan. 12.—Brig. Gen. Wilson again presided at the day's session of the anthracite coal strike commission, Chairman Gray still being confined to his home by illness.

Abel Culver, of New York, comptroller of the Delaware & Hudson company, who was on the stand when the commission adjourned Saturday, was again called upon to testify today. Mr. Culver said that the wage statements handed in on Saturday are final, and that the miners' representatives have agreed that they are a fair presentation of the case.

Gen. Wilson hoped that the representatives of other companies would be able to arrive at some understanding with the miners in the presentation of a statement as the Delaware & Hudson company had done.

Mr. Culver was cross-examined by C. S. Darrow for the miners. George Anderson, of Scranton, a clerk in the coal department of the Delaware & Hudson company, was the next witness. He submitted a statement showing that 2388 of the 2538 employees have been in the employ of the company from ten to sixty years. He told of the working of the relief fund, and said that since the strike the miners had lost 110 days at twenty-eight different collieries, thus reducing the production of coal by the company 92,531 tons. In reply to a question by the miners' counsel, the witness said he got his information about the last time from the foremen of the mines.

Mr. Darrow asked witness if the company raised the price of coal 50 cents after the strike ended, and he replied:

(Continued on Page 3.)

BRIGHTER FOR IRELAND

Tenants Are Full of Hope That Permanent Peace For the Agrarians May Soon Be Brought About.

New York, Jan. 12.—The most notable event that has occurred in Ireland for several generations has been the agreement on the land question by representatives of landlords and tenants, according to a dispatch to the Tribune from London. Extreme land owners from the Dublin mansion house conference futile now see that the representatives of the tenants are not so willing to go half way in an endeavor to bring about permanent peace in agrarian Ireland. Chief Secretary Wyndham is anxious to make the most of the opportunity, and it is believed, indeed, that Premier Balfour and the majority of the cabinet agree with the king that a great effort should be made to settle the whole question. What is feared is that the treasury may face the situation in a hazy spirit. The tenants are now full of expectation and are looking forward to obtaining holdings on the basis of the report, but it is said that the treasury fails to give the necessary financial assistance, the whole scheme will most assuredly collapse.

PROOF LIES IN MUSKET

Ownership of a Big Estate in Pennsylvania Depends on Possession of an Old Revolutionary Relic.

New York, Jan. 12.—Members of the State senate from English and Scotch families including Mayor Franklin P. Stoy, have been interested in finding the possessor of a certain revolutionary musket, owned by the family of Stoy, which it is the inheritance of an estate in Troy, Pa. worth it is said, several million dollars, as the holder of the musket is the heir of the holder of the land and to be absolute proof of ownership. The hunt for the gun shows that a few years ago it came into Isaac's possession. Mayor Stoy has informed him of the circumstances under which the relic is to be made, and backed by the remainder of the Stoy family, Isaac Stoy will make a fight for the estate.

MISSIONARIES ARE SAFE

London, Jan. 12.—Letters received in London from English and American missionaries at Fez dated Dec. 30, say there was little anxiety at that time for the safety of foreigners, even in the event of the pretender entering Fez. The pretender, the missionaries say has too much wisdom to play the foreigners and will simply cut them out of his territory. He is described as a strong man and exerts his will wisely. Jews at Fez have received letters from friends being propounded in professional and journalistic circles.

The Dresden Zeitung prints a statement to the effect that M. Giron exerted a suggestive influence upon the impressionable crown princess.

PARDON ACTION DEFERRED

St. Paul, Jan. 12.—(Special to The Herald.)—No action can be taken at the meeting of the state pardon board this afternoon on the application of Cole Younger, nor for the desired commutations of sentences of Charles E. L. Henderson, of Duluth, and Ole O. Nelson, of Atkin, men sentenced to be hanged for murder, who want the penalty changed to life imprisonment. All

EXTREME COLD WEATHER CAUSES SEVERAL DEATHS

PECULIAR CONTEST

Over Will of Late Millionaire Gibson of Cincinnati.

Copy of Document Made From Stenographic Notes Presented.

Original Will Has Never Been Seen Since Death.

Cincinnati, Jan. 12.—A peculiar contest began here in the probate court today when the widow of the late millionaire, John McCormick Gibson, of this city, who died at Asheville, N. C., a few months ago, presented her prolate a copy of his will made from stenographic notes alleged to have been preserved by Attorney Wells of Asheville. The original will, it is asserted, has never been found since the death of Mr. Gibson. It was alleged that his estate to his widow, to whom he was married a few hours before his death. His legal heirs, his mother and a brother, contest the prolation of the will, and a legal argument is in progress on the question whether a will of this description is valid or not. Mrs. Gibson, the widow, was Miss Cecelia Wolf, of Providence, R. I. She was called by a telegram to Asheville when Mr. Gibson was critically ill and was married on her arrival. He died the next day. Mr. Gibson's first wife was one of the victims of the Windsor hotel fire in New York.

Great Suffering In Families of the Poor.

Shortage of Fuel Adds to Their Discomfort.

Detroit, Jan. 12.—Following on the heels of the most severe snow storm of the season yesterday, came the coldest night of the winter in this city. At 7:30 this morning, the thermometer registered 5 below zero. The zero temperature was general all over the lower peninsula below Alpena, with the exception of a section close to the shore of Lake Michigan near Grand Haven.

Hundreds of people who live in Windsor, Ont., just across the river, and who are employed in this city, did not get to their work until nearly noon. The snow of yesterday froze into the ice in the river and packed it into an almost impenetrable mass and the ferries across the river had been able to make only four trips up to 9:30 o'clock.

The car ferries had even more trouble, plowing through the ice with their trains. Both the ferries Lansdowne and Great Western spent the night in the river bucking the ice with passenger trains aboard. The Canadian Pacific train from Toronto, due here at 2:15 a. m., spent the night on the ferry fast in the river and did not arrive here until 8:30 this morning. The international trains on the Wabash road were an average of ten hours late owing to the ice in the river and the Michigan Central and Grand Trunk also suffered much delay.

St. Paul, Jan. 12.—(Special to The Herald.)—Once again below zero was the warmest temperature reported in this city Sunday and last night it went down to 7 below. Moorhead, Minn., reports a minimum of 18 below. Full reports from the state have not yet been received, but the weather man from the reports received—looks for slightly warmer weather tomorrow. Fuel is scarce and although there is not yet an actual famine, there is much suffering.

St. Louis, Jan. 12.—An intensely cold wave prevails here. At 3 a. m. the thermometer registered 3 above, but by 8:30 o'clock the bright sunshine and raised the mercury to 10 above. Two inches of snow has brought out sleighs.

Louisville, Ky., Jan. 12.—The official temperature at 7 a. m. was 3 degrees above zero, the coldest of the winter.

Omaha, Jan. 12.—At 7 a. m. 3 below was registered at the weather bureau, with indications for little more than the cold snap before tomorrow. The extreme cold covers Nebraska, West Iowa and South Dakota. At Valentine, Neb., the mercury went to 9 degrees below zero.

Des Moines, Jan. 12.—Extreme cold has prevailed throughout Iowa for thirty hours. The temperature ranging from zero to 6 below, accompanied by considerable wind. It was 3 below zero here this morning.

Hard coal cannot be obtained and the soft coal supply is exhausted in many places, resulting in much suffering.

Indianapolis, Jan. 12.—At 7 o'clock this morning the thermometer here was 7 below. The indications are for rising temperature.

Columbus, Ohio, Jan. 12.—The blizzard of Sunday was followed by intense cold, the temperature here being 3 below. The wind is from thirty to forty miles an hour over the state, causing much suffering.

The ground is well covered with snow. Wheat will not suffer. It is said that the fruit trees will not be harmed. The minimum temperature is expected tonight. Five or 6 below zero is a predicted. The weather is clear over the state.

RAISING OF BLOCKADE

Allied Powers Are Negotiating Between Themselves to That End—All That Is Needed Is a Guarantee of Payment of Claims.

Rome, Jan. 12.—Negotiations between the co-operating powers relative to raising the blockade of the Venezuelan coast are proceeding, the main point being the question of guarantees for the payment of claims should the warships be withdrawn. The Italian foreign office recognizes the correctness of the contention in Secretary Hay's last note, that a continuance of the blockade will only further impoverish Venezuela and make the settlement of the claims more difficult and is desirous of meeting the suggestion of the United States. At the same time it cannot act without an agreement with Germany and Great Britain. As the quickest solution the suggestion is again mooted whether the United States might not again be asked to guarantee the payment of the sums awarded, now that the situation has so completely changed.

FOUND CHUNK OF AMBERGRIS

New York, Jan. 12.—William Shepherd, a carpenter of Lynn, while dredging for stray pieces of coal along the water front is reported in a press dispatch from Boston to have come across a lump of ambergris valued at nearly \$50. While at work with a long-handled rake Shepherd espied what he thought was a lump of

bituminous coal, but it was not as heavy as coal. A pleasant odor came from it. A seafaring acquaintance told him he had found ambergris, and that it was very valuable. Shepherd returned to the beach, where he found several pieces of the mass that he had thrown away. Experts say the pieces are genuine ambergris and check with a long-handled rake Shepherd espied what he thought was a lump of

CASTRO'S REPLY IS PUZZLING

Berlin, Jan. 12.—The foreign office here is somewhat puzzled by Castro's last note. He avoids specific acceptance of the powers' suppositions and seemingly leaves the basis for a settlement as indefinite as in the previous dispatch. He generally refers to arbitration. The president's reply has not yet advanced the matter at all.

COOKING!

Free Lectures on Practical Cooking, By
Mrs. T. B. Wheelock,
 OF ST. PAUL.

At ARMORY

Commencing Wednesday Afternoon, at 2:30, and
 Afterwards Every Morning at 10 and After-
 noons at 2:30, Until January 24.

Mrs. Wheelock, the well known cooking teacher, spent last winter at the Boston Cooking School, Boston, Mass., in order to obtain the newest ideas. She will give a series of Free Cooking Lessons to the ladies of Duluth. All are cordially invited to attend, but are requested not to bring children.

Bring spoon, pencil and tab of paper.

CANADA BORROWS

In Idea From the Boers
 In Regard to Its
 Militia.

Force May Be Reorgan-
 ized on the Com-
 mando System.

Montreal and Ottawa In
 Grasp of Coal
 Conspiracy.

Ottawa, Ont., Jan. 12.—Canadian commandos seem likely to be definitely adopted as part of the fighting machine. The minister of militia and defense is engaged, it is understood, in drafting his proposed amendments to the militia bill, practically reorganizing the defensive forces of the country, and it is well known his attention has been directed to the commandos question.

It is believed the minister is prepared to favorably consider a modified application of the principles of the Boer organization.

To Capt. E. W. H. Morrison, of the Second field battery, who gained his distinguished service record by repeated periods of dashing gallantry and cool daring on the field, and who is the originator of the suggestion that the commando system be seriously looked into.

Capt. Morrison's suggestion is that in the country districts there should be an organization similar to the Boer commando, identified as far as possible with the municipal organization of the counties and townships. Each township and county should be expected to enroll and parade at least one day in the year, probably Dominion day. If a quota of mounted men, under their own leaders, who should, as far as possible, be the leading public men of the district. The men should be furnished each with a rifle and bandolier by the government, and each township should be expected to furnish their own horses and saddles. Each farm, according to acreage, should be expected to furnish one or more horsemen at each muster, or forfeit a small sum.

The scheme is received, so far as can be ascertained by inquiry among military officers here, with what may be termed almost unqualified satisfaction. The minister is committed in any case to the raising of a military reserve in Canada which will give the country a fighting force of 100,000 men.

Chicago's example in regard to the doling of the coal rime is stirring up all Canada. The alleged coal scarcity has been worked to the utmost extreme in nearly all the larger cities, causing incredible suffering and loss. In Montreal recently the alleged shortage was exploded by the accidental discovery of 20,000 tons stored on the wharves. This having been announced by the newspapers there, the dealers are now claiming such a shortage stringency that they cannot deliver it to the people.

In Ottawa the allegation has been that coal could not be had and dealers have been going through the force of doing it out in small quantities at high prices or forcing the people to buy soft coal, of which the ring laid in some thousands of tons before the strike was settled.

By these and similar devices the prices have been kept up so far, but it has now been proved that at the time the dealers were playing this game they had in stock fully 8000 tons of American anthracite, besides large quantities of Welsh and Nova Scotia coal. The feeling is growing that the whole business needs to be investigated and exposed.

A notable railway project that will interest Americans, especially intending tourists, is one of which parliamentary notice has been given by the Canadian Atlantic Railway company. It is for power to build a line from Whitney to Sault Ste. Marie, and establish hotels and restaurants in connection with this it is stated here that the extension will secure considerable business from the Clergue line, which now goes entirely to the Canadian Pacific railway during the winter, and that Mr. Clergue is behind the proposition, which will connect the Canada Atlantic directly with the Western trade and bring the road in closer touch with the Canadian Northern system.

Four hundred miles of government telegraph through the Yukon wilderness are to be laid on the surface of the ground in an insulated cable, to take the place of the poles and wires, which in that delightful region are sometimes buried twenty feet beneath ice and snow.

TEAMSTERS MAY STRIKE.

Proposition of Owners Is
 Rejected By Union.

St. Louis, Jan. 12.—The local branch of the Teamsters National union today rejected the proposition of a new wage scale which was submitted by a committee representing the team owners of the city and decided to go on strike unless their demands were granted. The strike may be ordered any day.

The walkout will affect transfer, drayage, warehouse and wholesale companies, as well as teaming companies and individual team owners. It is estimated that over 2000 men will quit work.

The team owners made the teamsters included, among other things, an increased wage scale and a rearrangement of the hours of work.

The sick made well; the weak made strong; the old made young. The elixir of life that performs wonderful cures that seem like miracles. It's free if it fails.

KANSAS GOVERNOR
 Inaugurated In the Presence
 of Large Assembly.

Topeka, Jan. 12.—The inaugural ceremony of Governor-elect W. L. Bailey and other new state officers took place at the Auditorium today, beginning promptly at 12 o'clock. Governor-elect W. L. Bailey, as retiring executive, made a brief speech, followed by the inaugural address of the new governor, W. A. Johnston, who today became chief justice by reason of seniority, administered the oath of office to the new officers, and witnessed the ceremony. This evening a public reception will be given at the state house to the incoming and outgoing officials.

A Surprised Surprise.
 A very unpleasant surprise party was given in police court today morning. It was on Oliver Surprise, and got up in a sort of impromptu way by the police and other onlookers.

In memory of the occasion Mr. Surprise was presented with a certificate entitling him to work for the county for sixty days without compensation. The address of presentation was made by Judge Windom, and the surprised Surprise responded in a few well-chosen and appropriate words.

In Fine Condition.
 The Duluth Firemen's Relief association is in a splendid financial condition, according to the annual report issued today. The cash in all funds at the beginning of the year was \$3,316.23, as compared with \$4,413.50 on Jan. 1, 1902.

This fund is for the relief of sick or injured firemen or for the benefit of their families in case of death.

NEW YORK AMERICAN
 Proposes to Build a Twenty-
 Story Building.

New York, Jan. 12.—Representatives of the New York American and Journal are looking for a block of land facing the Grand circle at fifty-ninth street, and bounded by the other Broadway sides of the Eighth, ninth, tenth and eleventh streets. A twenty-story building is planned on the site, and the American and Journal will move into it as soon as it is completed. The building will be the largest in the city, and will be a landmark in the city.

The building will be a landmark in the city, and will be a landmark in the city. The building will be a landmark in the city, and will be a landmark in the city.

The building will be a landmark in the city, and will be a landmark in the city. The building will be a landmark in the city, and will be a landmark in the city.

SUSPECT IS CAUGHT

William Jackson Arrested
 For the Mountain
 Iron Murder.

Marshal McLaughlin, of
 Virginia, Catches Him
 At Cloquet.

His Description Answers
 That Given of the
 Murderer.

A man supposed to be the murderer of Abraham Abrahamson was brought to this city and lodged in jail late this afternoon.

Marshal McLaughlin, of Virginia, captured him near Cloquet, and two men that saw him sleeping with Abrahamson the night before the murder are positive as to their identification.

The alleged murderer is supposed to be William Jackson, though he has given several other names since his arrest.

Marshal McLaughlin heard that he might be found in Cloquet and went there in search of him. The officer was unable to locate him and was boarding a Great Northern train to come here when the suspect got off and stepped almost into his arms.

They asked for lodging for the night, and Abrahamson took Jackson into his bunk with him rather than see him sleep on the floor all night.

The next morning Jackson and a fellow woodsman named Lake started to work on the lumber camp. The two strangers followed the woodsman to hold up their hands. Jackson covered the woodsman with a revolver and shot him down, dying almost instantly. Lake ran all the way to Cloquet Iron.

From Lake and other men that saw Jackson in the woods before the murder a very good description was secured. The man brought here this afternoon answers to the description in every particular. He is about 28 years of age, is a fair complexion, wears a mustache of about one month's growth, is five feet six inches tall, weighs 160 lbs., and is a very good description was secured.

READY TO CONCEDE

Northern Pacific Would
 Settle Twentieth Ave-
 nue Case.

Willing To Open Freight
 Station At West
 End.

West End Man Says That
 Will Not Be Ac-
 cepted.

The Northern Pacific Railway company is seeking to effect a settlement of the Twentieth avenue station case, with the state warehouse and railroad commission. Definite information of this move reached this city within the last few days. It is learned that the railway company has offered to open and maintain a freight station for receiving and shipping freight, at Twentieth avenue west, while it leaves the passenger service to be reserved for them.

The re-opening of a freight station at Twentieth avenue west, while it leaves the passenger service to be reserved for them, is not yet known. The case is now in the supreme court and a hearing has been noted for Feb. 5.

Silberstein & Bondy Company. January Clearance Sale Of Black and Colored Dress Goods.

A good time to buy for future needs.
 All winter goods, all short lengths, all staple lines on which we are overstocked, placed on sale at from
 1/4 to 1/2 off regular prices.

The well known high grade of our dress goods, coupled with the recognized fact that our sales are always reliable, should make this the dress goods event of the year.

Women's, misses' and children's coats, suits and skirts at half.
 Choice of any trimmed or untrimmed hat in stock at half.

AT WEST DULUTH

Work to Go Forward Re-
 gardless of the North-
 ern Pacific.

May Be a Month Before
 the Bridge Material
 Arrives.

Temporary Hole Under
 the Tracks to Be
 Made.

Work on the Jewell street subway is in full swing again. City Engineer Patton has requested the contractor to push the work as fast as possible.

Contractor McDonnell says that suits him, so he has increased his force of men and has opened up a hole under the Northern Pacific tracks without waiting for that company to build a bridge.

It is understood now that the heavy timbers for the bridge are lost in the Western freight blockade caused by the washouts near the Pacific coast.

It may be a month or two before the material arrives in Duluth and the city officers agreed with the West End business men that the subway work should not be delayed any longer.

With the temporary hole punched through under the Northern Pacific tracks it is possible to lay a temporary track for street carrying purposes, and Contractor McDonnell is now working on the last fill.

With the exception of the Northern Pacific bridge, the subway will be finished in a few weeks now, and it is said that the street railway company can lay its tracks and be ready to operate cars just as soon as the Northern Pacific bridge is built.

This will be good news to the West End merchants, who have suffered a rather serious loss of trade by the temporary change of West Duluth cars from the Superior street line.

City Engineer Patton says that from now on not a minute of time will be lost in getting the subway finished and the street cars back on the old line.

Calumet Schoolhouse Is Burned During the Severe Blizzard.

Calumet—Fire originating in the furnace room destroyed the Centennial Heights school house. The firemen were badly handicapped and worked in the fiercest blizzard this year. The loss on the building is \$8000. Insurance, Continental, \$2000. Queen, \$2500. There were many individual losses of books and other property by teachers and children.

Menominee—Lester, the 11-month-old baby boy of Mrs. Mamie McGuire, of Menominee, had the unpleasant experience the other day of being set upon a hot stove. Mrs. McGuire was visiting with some neighbors in a room in which a number of children were playing. One of the neighbor's boys, thinking that the stove was not hot, picked the child up and set it down on the top. The child began to scream,

and before it could be removed it was badly burned. It will recover.

Mrs. Fred Perry, of Salt Lake City, Utah, formerly Miss Mabel Eady, and a sister of Mrs. Fred Baker, both at one time residents of Menominee, is to benefit by the bestowal of an estate worth several million dollars. Her husband, a lawyer, has received \$1,000,000 as his share of an estate left by a bachelor uncle at Grand Rapids, Mich. Mr. and Mrs. Perry have bought one of the most handsome homes in Salt Lake City.

Arthur Hughes, a woodsman employed by Morgan & Co. at Foster City, is undergoing treatment at St. Joseph's hospital for the rehabilitation of his countenance, his face having been sorely disfigured as the result of his ignorance of the potency of a certain horse liniment, with which he recently attempted to relieve an acute attack of neuralgia. Hughes was at work when first seized with the neuralgic attack, and so excruciating did the pain become that he claims that he was nearly driven to desperation. Noticing the bottle of horse liniment near by, he succeeded in convincing himself that what is good for the horse might also apply to man, and forthwith anointed the afflicted section of his face with the newly-found panacea. Instantly the burning sensation which was far worse than the original neuralgic pains. The

strong liniment left a blister on every place it touched, and, as a result, one side of Hughes' face was left devoid of skin and the sensitive flesh was exposed. Fearing that a cold and other complications might set in and possibly result in gangrene, Hughes decided to go to St. Joseph's hospital, where he is rapidly growing new skin over the burned portion of his face. His condition will probably permit of his return to work within the next fortnight.

Escanaba—The case of E. D. Hall against John Christie, proprietor of the Ludington hotel, Escanaba, the responsibility of a landlord toward his guest, which was tried in Justice Glaser's court some weeks ago and quashed on the process, has been settled, judgment being rendered by the justice in favor of Hall in the sum of \$27. It is likely the case will be appealed to the circuit court.

A Card.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory, or money refunded.

R. C. Sweeney, William A. Abbott.

METHODS ARE LAX

So Says Grand Jury of the Health Department.

Charges Poor Precautions Against Spreading Contagious Diseases.

Also Sharply Criticises the Board of Public Works.

The grand jury closed its labors Saturday evening and was discharged by the court. It found a large number of indictments which are not yet made public for the reason that the persons indicted are not yet in custody.

The jury also criticised two departments of the city government, the health department and board of public works. The criticism of the health office relates to the care of contagious diseases and the resolution adopted by the jury is as follows:

"In the matter of the investigations as to the board of health we find that the health officers are very lax in the matter of taking proper precaution after visiting contagious cases.

"We find it is customary with them to ride in public conveyances and mingle with the public generally, and we recommend that more care be exercised by them in this matter.

"The investigation of health department methods was prompted by a complaint made to the county attorney by the health officer against A. A. Forbes for violation of the health laws as to quarantine.

"The criticism of the board of public works was embodied in the following finding:

"In the matter of the investigation as to the board of public works, particularly as to the working of the prisoners as far as can be learned, the grand jury of public works has not given this matter proper attention.

"We find that two guards are employed and paid \$5 per month each, according to the testimony given, the actual results of the work done by the prisoners does not amount to one-tenth the amount paid to the guards, and we recommend the board of public works to take steps at once to have the prisoners do other matters coming under their supervision, which are not properly looked after.

"The jury also presented this finding: 'We find that the investigation of the county jail is well managed in good sanitary condition, food is satisfactory to the inmates, and the nature of the work is well occupied.'

THREE RINKS.

Dozen Curlers Go to Bonsel at the Sault.

Three rinks will represent Duluth at the annual bonspiel of the Northwestern Curling association at Sault Ste. Marie, Mich., which will open this evening. They are as follows:

G. H. Spencer, lead; Thomas Gibson, second; A. H. Smith, third; R. J. MacLeannan, skip.

T. F. McGilvray, lead; F. A. Brewer, second; James Chisland, third; Ron Smith, skip.

W. Richardson, lead; A. W. Frick, second; E. N. Bradley, third; C. A. Duncan, skip.

Three games were played Saturday evening. Of most interest was the game between the Duluth rink and the Sault rink. The Duluth rink was defeated for the first time this year.

MacLeannan by the decisive score of 14 to 4. The Sault rink was skipped by Elmer Whyte. The scores were as follows:

Tuckett—E. C. McLeannan, C. P. Grady, Jr., M. A. McLeannan, E. T. Johnson, A. H. Day, C. F. Griffin, Alex. MacLeannan, Skip—4.

MacLeannan—S. H. Jones, R. W. Hargreaves, A. H. Smith, W. D. Newcombe, G. F. MacKenzie, Roy Hoople, Skip—2.

Talish Davis, Rev. A. C. Manson, A. Payne, E. Forsyth, Rev. A. Milne, Charles West, Skip—15.

M'MILLIN

Sends His Last Message to the Tennessee Legislature.

Nashville, Tenn., Jan. 12.—Governor McMillin's address from office this morning after an incumbency of four years, and his last message was presented to the general assembly today. On the subject of trusts Governor McMillin says: "Our people have no prejudices that would cause them to use the enactment of laws discouraging the use of capital, however large the amount, for industrial development. Against this there can be no complaint but combination to crush competition, restrict production and thereby enhance the prices of necessities are prejudicial and demand the wisest legislation. The message declares that to congress must be left the application of those remedies against trusts which exist by reason of a protective tariff, but that there are on the state statutes strenuous laws against trusts, for the efficient enforcement of which a fund should be set aside to be used by the governor or attorney general, or both, acting conjointly.

He defends his action in refusing to call an extra session of the legislature to deal with the contemplated railroad merger upon the ground that the exigencies of the case were not imperative.

An appropriation for an exhibition at the Louisiana purchase exposition is strongly urged.

OVERDUE STEAMER ARRIVES. Yokohama, Jan. 12.—The American steamer *Platades*, Capt. Purinton, which sailed from Seattle Dec. 4, arrived here yesterday. She was about 15 days overdue.

RAILWAY

Reform in England Is Strongly Urged By Mr. Hanbury.

New York, Jan. 12.—The agitation in favor of railway reform in this country, says the Tribune's London correspondent, has received a great impetus from a speech made by Mr. Hanbury, president of the board of agriculture, and a member of the cabinet at a conference of farmers at Leicester, in which he said it was a matter of regret that the British railway companies were composed of men of business and less of ornamental directors, so that the railways might be managed in a more businesslike way. British railway dividends for the half year ending Dec. 31, are expected to be up well in comparison with the previous distribution. But, taking a wider view of the finances of the railways of this country, every year for the last decade has seen capital increase and dividends decrease. The proportion of working expenses to total gross receipts has systematically increased in the same period, while on the other hand the proportion of net receipts to capital decreased. Passenger traffic is steadily becoming less profitable, and the companies are having to face an enormous capital expenditure in the near future, as the reforms which must accompany any re-organization of the roads' traffic will involve a heavy outlay.

The crown heads of every nation, the rich men, poor men and misers all join in paying tribute to DeWitt's Little Early Riders.

They cure Constipation, Biliousness, Torpid Liver, Malaria and all other liver troubles. Ask Wirth.

MRS. W. H. HOMEWARD FOUND. San Francisco, Jan. 12.—Madam Wu, wife of Wu Ting Fang, late Chinese minister to the United States, has arrived here from the east, accompanied by C. H. Chang, secretary of the legation in Washington and a maid servant. She will sail for China on the steamer *Coria* this week.

KARLES JOIN PRETENDER. Madrid, Jan. 12.—A dispatch from Madrid today announces that all the Karles tribes of the Taza region have joined the pretender. The sultan's troops, however, are not yet in the region.

SOLOMON'S

Temple to Be Reproduced at the St. Louis Exposition.

St. Louis, Jan. 12.—It is stated that a reproduction of King Solomon's temple on a large scale will be one of the attractions at the Louisiana purchase exposition, the acceptance of the concessions now being practically assured.

The Oriental Exposition company, which has financed the project, is made up mainly of New York capitalists who have become associated to execute the plans of Prof. J. W. Ketchner, who has spent more than ten years studying and traveling in the interests of the display, which was to have been originally produced in New York.

Working models, paintings and designs, which the promoters say represent an outlay of \$200,000, have been loaned by members of the exposition management. From these models the temple will be reproduced as a counterpart of the famous original. The estimated cost is nearly \$200,000.

Takes the burn out; heals the wound; cures the pain. Dr. Thomas' Eucalyptic Oil, the household remedy.

BACHELOR'S WIFE'S BILLS.

Brooklyn Doctor Victim of Another Fake Marriage. New York, Jan. 12.—Dr. John J. Doolling, a physician of Brooklyn, has asked the police to hunt for a man who married a woman under the doctor's name and thereby caused the latter much trouble. Dr. Doolling is a bachelor. He has been puzzled of late by the receipt of bills for board, lawyer's fees and other accounts, run up by "Mrs. John J. Doolling" and charged to Dr. Doolling.

The doctor received a letter last September from the lady in a boarding house in Hoboken informing him that if he did not pay for his "wife's" board there she would be put out of the house. Later the doctor received a bill from a Hoboken lawyer for \$5 for a consultation had with him by "Mrs. Doolling." Two weeks ago another bill for board for the mysterious "Mrs. Doolling" came to the doctor. The situation became still more interesting when the doctor received a visit from "Mrs. Doolling" herself. "Are you Dr. John J. Doolling?" she asked.

"Well, then, you are not my husband, the Dr. Doolling whom I married," said the woman.

The visitor then told the doctor that she married a man in Jersey City who called himself Dr. John J. Doolling of Brooklyn, and he left her. After hearing the woman's story Dr. Doolling placed the case in the hands of the police.

NEW TREATY

With Russia Is Needed to Hold American Trade.

New York, Jan. 12.—Now that the United States supreme court has decided that Russia does pay a bounty on exported sugar, says the St. Petersburg correspondent of the Herald, there is no probability of Russia's removing the countervailing duty on American machinery, agricultural implements, etc.

Dealers in bicycles and resin have lost all of their trade in those lines and are now looking forward to the appearance of the new ambassador, Mr. McCormick, and hoping that a way out of the difficulty can be found.

It is understood that the Russian authorities are not averse to such action.

Unconscious from crowd. During a sudden and terrible attack of group of little girl was unconscious from strangulation, says A. L. Stafford, postmaster, Chester, Mich. One Minute Cough Cure reduced the swelling and inflammation, and the child was shortly the child was resting easy and speedily recovered. It cured all throat and lung troubles. Max Wirth.

ROCKEFELLER

Planning Great Improvements Around Sleepy Hollow Brook.

New York, Jan. 12.—John D. Rockefeller, in purchasing nearly all the land in Pocantico Hills, East View and Hawthorne, for a series of parks, is planning a chain of artificial lakes to be formed by the historic Sleepy Hollow brook, which runs through his large estate near Tarrytown, N. Y. Several waterfalls have been constructed along the brook. Mr. Rockefeller intends to spend more than \$200,000 on this work. Five miles of private boulevards through his parks are now being laid out, while Butternut hill, which he recently bought, will be lighted by hundreds of electric lights. Work will be started immediately on one of the largest electric plants in the country on his Pocantico Hill estate.

On the summit of the hill it is proposed to erect an observatory tower fifty feet high so that an unobstructed view of the Hudson river and Long Island sound for miles can be had.

Another improvement planned by Mr. Rockefeller is the construction of a grand piazza on the brow of Kykuit hill, near where he will build his new \$500,000 mansion during the coming spring, and several large conservatories.

COL. MORRISON VERY ILL. Chicago, Jan. 12.—Col. William Morrison, former interstate commerce commissioner, is lying critically ill at his home at Waterloo, Ill., says a dispatch to the Record-Herald. A consultation has been held, Dr. Bryson, of St. Louis, being called in. It was decided that an operation was necessary, but the extreme age of the colonel, he being in his seventieth year, renders this precarious.

PASSENGERS ON CELTIC. London, Jan. 12.—The steamer *Celtic* which is to sail from Liverpool Jan. 14, for New York, will have among her passengers the duke and duchess of Manchester, the earl and countess of Carrington and George Westinghouse.

Omega Oil

Rheumatism

The Proper Treatment

We advise sufferers from Rheumatism to eat no sweet or fatty foods. Leave spices and coffee alone. Eat sparingly of meat but once a day—never pork. Fresh vegetables are always in order. Drink plenty of pure water and milk. Keep the bowels regularly open. Keep the feet warm and dry, and avoid wet clothing.

At bedtime bathe the affected parts freely with Omega Oil. Then dip a towel in hot water, wring it out, wrap it over the Oil and thus "steam it in." The hot towel opens the pores and drives the Oil in better. When the towel cools, remove it, dry the parts and put on more Omega Oil. Then cover the parts with a cloth to hold the Oil in its place throughout the night. In the morning wash the parts in warm water, wipe thoroughly dry, and briskly rub in some more of the Oil. A thorough, persistent treatment of this kind will come pretty near curing any case of Rheumatism that is curable.

I have suffered with the rheumatism for seven years and tried most every remedy, but none gave me relief. A friend told me of Omega Oil and I bought it, and after using one bottle I found great relief. I continued to use it, and seven bottles have made me nearly well. M. SANDERS, 6 South St., Morristown, N. J.

Omega Oil is good for everything a liniment ought to be good for.

INTERNAL COMMERCE

Domestic Trade Movements During Month of November.

The Course of Trade Remains on a High Level.

Is Equal to Earlier Months of the Past Year.

From The Herald Washington Bureau.

Washington, Jan. 12.—(Special to The Herald).—Domestic trade movements for the month of November, as reported by the treasury bureau of statistics, show that the course of trade has, with certain exceptions, maintained itself on the high level which has characterized it during the earlier months of the past year. Receipts of hogs at Chicago, Kansas City, Omaha, St. Louis and St. Joseph furnish possibly the most notable exceptions. For the 11 months ending with November 1902, 14,661,244 head of hogs were received at the above markets, as compared with 12,700,000 head for 11 months of 1901, and 12,631,416 head for the same period of 1900. The opposite tendency has been apparent in the case of cattle and sheep. The total receipts of all kinds, including horses and mules, were, for the first 11 months of 1902, 25,484,677 head, compared with 31,021,051 head to the end of November 1901, and 28,533,414 head for 11 months of 1900. Receipts of wheat at different ports, compared to December 1, 1902, amounted to 18,251,555 bushels, compared with 18,388,816 bushels for the corresponding period of 1901, showing a gain of 114,553 bushels for the current season. The provision movement from Chicago and Chicago points is somewhat larger than for the first 11 months of 1901, the average weekly movement being 2,500 tons this year, as compared with 2,322 tons per week for 1901, flour and grain shipments were, of course, very much lighter. Reports from the southwest show a general growth in the volume of trade.

Humors

They take possession of the body, and are Lords of Misrule. They are attended by pimples, boils, the itching letter, salt rheum, and other cutaneous eruptions; by feelings of weakness, languor, general debility and what not. They cause more suffering than anything else.

Health, Strength, Peace and Pleasure require their expulsion, and this is most effectively effected, according to thousands of grateful testimonials, by

Hood's Sarsaparilla

Which radically and permanently drives them out and builds up the whole system.

At Little Rock, for instance, 2,573,490 bushels of corn had been received in the first 11 months of 1902, compared with 1,745,610 bushels in a like period of 1901. Arrivals of general merchandise in 1902 for the same period were 228 carloads, compared with 228 carloads in 1901. Cotton receipts have been much larger, but a marked decrease was reported in the quantity of wheat received. At Lake ports, during the month of November, 1902, 3,537,300 net tons of freight were reported among arrivals from domestic sources, compared with 3,482,438 tons for November 1901. For the 11 months ending with November, 1902, the season's shipment of grain and livestock from the Great Lakes amounted to 14,509,277 net tons of freight, in contrast with 13,811,236 net tons for the same period of 1901. The season's shipment of iron ore reached a total of 20,335,483 gross tons as compared with 19,210,000 tons for the same period of 1901. The coal trade on the lakes totaled 3,900,000 net tons as compared with 3,450,000 net tons for the same period of 1901. The registered tonnage for eleven months ending with November, 1902, shows arrivals of 77,488 vessels, with a total of 71,422,317 registered tons, and clearances of 77,380 vessels, registered tonnage, 71,422,317 net tons.

The South Sea Marine canals report a total freight movement east and west aggregating 35,064,251 tons, compared with 27,317,811 last season, and 25,203,828 tons in 1900. The Tortugas Lake ship canals handled an aggregate tonnage of 2,371,128 tons during the season. At the four ports of Boston, New York, Philadelphia and Baltimore, the receipts of grain and flour (reduced to bushels) amounted to 25,707,476 bushels for eleven months of 1902, compared with 20,277,485 bushels for the same period of 1901. At Philadelphia, the receipts for the eleven months ending with November, 1902, amounted to 10,109,000 bushels, compared with 12,127,552 bushels for the corresponding period of 1901. At Baltimore, the receipts for the same period of 1902, amounted to 1,128,144 bushels, compared with 1,128,144 bushels for the same period of 1901. The receipts of coal at Boston to the end of November 1902, were 3,894,285 tons, compared with 4,350,424 tons in eleven months of 1901.

The coal shipping companies reporting from the four chief seaboard markets for the ten months ending with October, show 12,847,300 tons entering into the coastwise trade over the docks at New York, Philadelphia, Baltimore and Newport News. Of these, New York's shipments were 7,688,180 tons; Philadelphia's, 2,026,100 tons; Baltimore's, 1,577,711 tons; and Newport News', 1,055,429 tons. The total receipts of coal at Boston to the end of November 1902, were 3,894,285 tons, compared with 4,350,424 tons in eleven months of 1901.

In Southern territory the net overland cotton movement to November, 1902, was 300,949 bales, compared with 291,565 bales for the like period of 1901. In the distribution of supply, the export trade for 81 days of the cotton season has somewhat declined, and the domestic cotton-picking has increased. At Memphis, the leading interior market in the cotton belt, receipts to Nov. 29, 1902, were 44,937 bales, compared with 37,845 bales last season to the same date. At New Orleans, receipts for seven months ending with November, 1902, were 1,128,144 bales, compared with 1,128,144 bales in seven months of 1901.

At Little Rock, for instance, 2,573,490 bushels of corn had been received in the first 11 months of 1902, compared with 1,745,610 bushels in a like period of 1901. Arrivals of general merchandise in 1902 for the same period were 228 carloads, compared with 228 carloads in 1901. Cotton receipts have been much larger, but a marked decrease was reported in the quantity of wheat received. At Lake ports, during the month of November, 1902, 3,537,300 net tons of freight were reported among arrivals from domestic sources, compared with 3,482,438 tons for November 1901. For the 11 months ending with November, 1902, the season's shipment of grain and livestock from the Great Lakes amounted to 14,509,277 net tons of freight, in contrast with 13,811,236 net tons for the same period of 1901. The season's shipment of iron ore reached a total of 20,335,483 gross tons as compared with 19,210,000 tons for the same period of 1901. The coal trade on the lakes totaled 3,900,000 net tons as compared with 3,450,000 net tons for the same period of 1901. The registered tonnage for eleven months ending with November, 1902, shows arrivals of 77,488 vessels, with a total of 71,422,317 registered tons, and clearances of 77,380 vessels, registered tonnage, 71,422,317 net tons.

LIVE STOCK
Men Gather at Kansas City In Great Numbers.

Kansas City, Jan. 12.—Delegations from all directions arrived today to attend the sixth annual convention of the National Livestock association, which will be called to order tomorrow by President John W. Springer. Hundreds of others are coming for the annual gatherings of the National Wool Growers' association, the National and American Association of Railroad Livestock Agents, which also meets in this city this week. There are 1700 accredited delegates to the stock convention, and it is believed the majority of these will have arrived when the first session is opened. President Springer, R. W. Martin, executive committee member from Wisconsin; L. F. Lee, secretary of the New Mexico sheep sanitary board; William Theis, acting national committee member from Texas, and J. W. Seeman, of Denver, were among the first arrivals.

Most of the Denver contingent, which has chartered cars on three roads, is expected before nightfall, and a big delegation from Oregon, which is coming to make a fight for the 1904 convention, will likely come in during the day. Secretary Martin, who has been here since Nov. 19, spent the day making arrangements for the convention, and the various local committees which have the vast plans for entertainment of the visitors in hand. Besides the three conventions already mentioned, the National Association of Retail Grocers and General Merchants also will hold its national gathering here, commencing tomorrow, and the hotel facilities will be taxed to their capacity.

WORMS
If your child is restless at night, grinds its teeth, wets the bed, is constipated, craves indigestible foodstuffs, fretful and peevish, you can be sure it has worms. **Kickapoo Worm Killer** will expel them and restore the child's health. These tablets are pleasant to take and won't harm the most delicate child. 25c box at drug stores or by mail from KICKAPOO INDIAN MEDICINE CO., New Haven, Ct.

EXPLOIT THE WEST

Great Northern to Send Lecturer Through Middle States.

Freight Officials Disturbed Over the Car Famine.

Pullman Company May Compel Deposits on Reservations.

The Great Northern railroad has adopted a unique method for exploiting the advantages of Minnesota, North Dakota and the coast states in the employing of a lecturer to go through Illinois, Indiana and other Eastern and Southern states lecturing on the great field for agriculturists in the Northwest.

George C. Crose, a former speaker of the North Dakota house of representatives, and a man familiar with the Northwest, has been engaged and will start this week on a tour through the middle states. The lectures will be free and will be delivered in small towns of about 400 or 500 inhabitants, and an advance man will precede him, billing the event and properly advertising it.

Stereoscopic views of Minneapolis, St. Paul, Duluth and the territory surrounding and farms all through the Northwest will be used to illustrate the lectures, and the advantages of the territory on the line of the Great Northern will be shown to the best advantage. Mr. Crose will be on the platform at March 1, and endeavor to cover as much territory as possible by that time, when the homesteaders' excursions begin. The railroad company believes in this way the young farmers of the East and middle states will be induced to come West, where they can get cheap homes, and where they will have chances equal to those their fathers had in the middle states.

CAR FAMINE IS SERIOUS.
Railway Men Believe Orders Cannot Be Caught Up With.

Western railroad officials at Chicago are studying the present congested state of freight traffic and the car famine with a view to determining some method of relieving the condition. The scarcity of cars has been felt in Duluth for some time, and just at present is a serious hindrance to this city's commerce. The car famine in cars enough to take care of business which has been piling up since the snows and cold weather began, when transportation facilities were somewhat reduced.

The railroad men at Chicago say they do not look forward to any permanent relief for a long time, as they have been aware that the present car and engine builders are unable to keep up with the increasing trade and millage of the roads all over the country. Increase of trackage, straightening of routes and the construction of new lines carried on in the Northwest to an extent not realized by those unconnected with the railroad business, and even this effort to facilitate traffic and rapid delivery, the roads are unable to secure enough cars to make the problem an easy one to solve.

MAY ASK DEPOSITS.
Pullman Company Wants Protection Against Travelers.

The Pullman company and several railroads are behind a movement to change the system of sleeping car berth and drawing room reservations so that there will be some protection for the carrier company. At present it is possible to secure a reservation, and then abandon it at the last moment. In many cases the whole accommodation of a train, there are some who cannot be taken care of, and the companies lose that business. It is seldom that all the reservations are called for, while if they are not, the whole accommodation of a train, there are some who cannot be taken care of, and the companies lose that business. It is seldom that all the reservations are called for, while if they are not, the whole accommodation of a train, there are some who cannot be taken care of, and the companies lose that business.

MAKES A CHANGE.
Freight Inspector Pratt Goes to Wisconsin Central.

Another change has been made in the office force of General Agent M. J. Bryan for the Wisconsin Central railroad at this place, and through it E. J. Koors, who has been with the Wisconsin Central since Jan. 1, as contracting agent, will return to the Wisconsin Central, where he was employed up to the first of the year.

Mr. Bryan announced that George E. Pratt, who has been the freight inspector of the Western Railway Weighting association, will assume the position of contracting agent for the Wisconsin Central at once. Mr. Pratt is an old time railroad man, and has been employed in the work for about twenty years. He has been in Duluth for half that time, at least, and is familiar with the trade in the city and the Eastern states.

Mr. Bryan also been notified by the general offices that a position of secretary to the general agent at Duluth has been created, and the position of Miss Lucy Dalcour to the position. The changes go into effect today. Bryan left last night for St. Paul and Minneapolis, and will go from there to Winnipeg and the Lower Canadian territory and to North Dakota. He will be gone about a week on the trip which is made periodically in the interests of the road.

PANTON & WHITE COMPANY

THE BIG GLASS BLOCK STORE WHERE QUALITY IS PARAMOUNT

Second white sale week.

living relative. For nineteen years he was not known to send or receive a letter. These facts developed at the request of the coroner. The coroner has the certificates of deposit in his custody and will await the claims of relatives. If no relatives appear the property will revert to the state.

Legislators Are Offended.

Members of the state legislatures in all the Western states have been greatly surprised and offended over the fact that the railroads have issued their passes over the roads with a time limit which expires with the end of the session. The limited passes have been issued in every state west along the Northern Pacific route, and when the legislators found the limit was general for all legislative passes, some of them returned them. President Melton, of the Northern Pacific, when asked about the innovation, said he knew nothing about it; that his clerk had the matter in charge and that he gave the little attention.

THE DAKOTAS.

State May Get Wealth of Black Hills Man.

SOUTH DAKOTA.
Lead—Michael Butler, who was killed by a falling tree near the Homestead pump station on Spearfish river during the terrific gale early in the week, was possessed of property valued at from \$10,000 to \$12,000, besides having a considerable sum of money in various banks, for which he had certificates of deposit at the time of his death. He is not known to have a

SELLING LUMBER

Head of Lakes Market
Is Already Fairly
Active.

Nearly All the Manufac-
turers Are Selling
Some.

Large Amount to Be
Shipped the Coming
Season.

Lumber sales aggregating several million feet have been made during the past week and the head of the lakes market is reported fairly active for so early a period in the year. There are but few, if any, manufacturers here that are not selling whenever they have the opportunity. Some of the sellers have been keeping out of the market up to the present time, and there are some who are still letting go their production with reluctance, looking forward to stiffer prices. There is no reason for the manufacturers to complain of current prices, however, for compared with the opening of the season of last year there has been an advance in fact prices in most grades are slightly in advance of fall prices.

There is little talk thus far this season about lake lumber carrying rates the coming season. Shippers are looking forward expectantly to the annual meeting of the Lake Carriers' association, which will be held in Detroit, Mich., Jan. 21.

There have been rumors current that the Lake Carriers' association may fail as an organization the coming season, there being some members in it dissatisfied with the conditions imposed. Lumber tonnage on Lake Superior next season is quite likely to be heavier than during any preceding year, in spite of the larger cut that will remain here or will be shipped to the West and Southwest. At the opening of the season of navigation there will be very close to 1,000,000 feet of last year's cut on the docks here to be moved forward. In addition to that stock there will be the winter cut of several of the harbor mills, less the amount forwarded by rail during the winter.

The indications are that lake shipments will begin with a rush next spring and there will be continued activity until the accumulations of the winter are cleared away. There will be a large amount of lumber ready for eastern delivery as soon as the boats are able to get up here in the spring.

Five of the Duluth mills are running day and night, these are the plants of Alger, Smith & Co., St. Louis Lumber company, Scott-Griff company, Hubbard & Vincent, Red Lumber company. None of the other mills have started up, but there are some contracts still to be had. The monthly cut of the mills now in motion is estimated at 200,000,000 feet.

It is understood that W. H. Gilbert, of Ashland, is back of a deal which means that his stock of logs will be cut the coming season at the Jones mill. If this is true the mill will be assured of a heavy cut for some time to come. Mr. Gilbert has been gradually increasing his operations at the head of the lake, while he has been sawing less lumber at Ashland.

The Ingersoll Paper company, who less than two years ago started up its new paper and pulp mill at Grand Rapids, Minn., is creating a challenge mill with a capacity of 100,000 daily. The mill will be running next month.

About 1,000 cords of lumber is being cut daily by a portable mill for the new mill of O'Brien & Cook, at Virginia. The foundations for the new mill are in and the framework is going up. The mill is expected to be in operation by

AN OBJECT LESSON In a Restaurant.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of hearty, vigorous old men at the tables; men whose ages run from 60 to 80 years; many of them bald, and all perhaps gray, but none of them feeble or senile?

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something. If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled health foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the dead broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavor to live upon bran crackers.

There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are rank poisons, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity any wholesome food will be promptly digested; if the stomach does not do so, and certain foods cause distress, one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty, because they supply just what every weak stomach lacks, pepsin, hydrochloric acid, bile and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels, and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus gives a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets, knowing them to be perfectly safe to use at any time, and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, they are a safeguard for years have planned their faith in Stuart's Tablets.

All druggists sell them at 50 cents for full sized packages, and any druggist from Maine to California, if his opinion were asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

March 15. The mill will be operated by Plummer & Ash.

A new sawmill is to be erected on the north shore, at the mouth of the Nipigon river, to cut 1,500,000 feet of timber that A. G. Seaman, of Port Arthur, will log for the Nipigon railway company. The Johnson-Westworth mill at Cloquet has started up on its winter cut. The upper mill of the Northern Lumber company has been operating for three weeks.

MORE TIME.

Zenith Hockey Team
Postpones Game With
Houghton.

The game between the Zenith hockey team and the Portage Lake seven, of Houghton, Mich., which was to have been played in Houghton this week, has been postponed until February. The Duluth players decided that they were not in proper condition to meet the fast Michigan team and wrote postponing the game.

In the meantime games will be arranged with the other city teams, and it is expected that the Centrals will be met this week. A good practice was held Saturday evening. Several good men have been developed and when the time for the Houghton game arrives the Michigan men will find that they have worthy opponents. H. Veller has been elected captain of the team.

The Centrals, the other team which will play the Houghton seven, are also holding regular practices, and a game with the Zeniths would doubtless attract a large crowd of interested spectators.

Soo and Return \$10.00.

Account the bonspiel at Sault Ste. Marie, Jan. 12 to 14, the Duluth, South Shore & Atlantic railway will make a rate of \$10 for the round trip. Tickets will be on sale Jan. 10 to 14 inclusive, and will be good for return until Jan. 19. Secure your sleeping car accommodation early. City ticket office, 426 Spaulding Hotel block.

THE NEWSIES

Will Be at the Metropolitan
Theater Tues-
day Evening.

Tomorrow night will be a red letter one at the Metropolitan, when over 300 Herald newsies will attend the performance of "Linwood," given by Ferris' comedians. The play is a military drama, laid in the times of the civil war, and abounds with thrilling and exciting situations, and is said to be one of the best plays of its kind ever written. It will be a great treat to the public to see this bunch of newsies enjoying the show, and will be well worth any one's time attending the performance. The famous Ferguson Bros. will introduce for the newsies their celebrated "Yellow Kid" act, while the other specialty artists will also have specially arranged acts. The cast as it will appear in "Linwood" is as follows:

Victor Blanchard G. A. Forbes
Dudley Middleton George J. Elmore
Edwin Carlie Will White
Eugene Elmer Harry W. Langdon
Uncle Joe C. Ferguson
Capt. Rensen William Lang
Settling Warren Grosman
O'Brien James McManey
Lucie Carlie Miss Isabelle Fletcher
Miss Carlie Miss Isabelle Garland
Kate Wilmarth Miss Marie Harcourt

Act I—Carlie's homestead, near Lexington, Ky.
Act II—Library Carlie's homestead.
Act III—Scene 1—Camp of Tenth Kentucky Infantry. Scene 2—Library Carlie's homestead.
Act IV—Same as Scene 2, Act III.

SPECIALTIES
Between acts, and entirely foreign to the play will be introduced the following high-class vaudeville features under the direction of Professor Frank, musical director.

After Act I—The Ferguson Bros. and Harry Payne in illustrated songs.
After Act II—William A. Long.
After Act III—Dillon & Garland.

The boys from the West Duluth and West End branches will all appear in plenty of time to reach The Herald office by 7:30 p. m., where they will form in line with the up-town boys, receive their instructions and tickets from A. C. Pearson, The Herald's herald.

The line of march will be up Second avenue west to Superior street, then west to the Metropolitan Opera house, where there will certainly be "something doing" when the boys arrive.

DEATH CALLS.

Mrs. Joseph Sellwood
Passes Away After
Few Weeks Illness.

Mrs. Joseph Sellwood died early Sunday morning at her home, 192 East Superior street.

She was one of Duluth's most prominent women in church and charitable work. She has been ill but a few weeks, but from the beginning of her sickness, the physicians and nurses had but little hope of her recovery, although she might possibly survive for some time.

Saturday evening her condition became critical and she passed away about 7:30 p. m. Sunday morning.

Mrs. Sellwood is survived by her husband, Capt. Joseph Sellwood, and by three daughters and one son, Mrs. John P. Morrow, Mrs. L. W. Leithhead, Miss LaRue Sellwood and Richard M. Sellwood.

The deceased has lived in this city for the past fifteen years. She was born in Michigan and was married to Capt. Sellwood at Ontonagon, Mich., in 1870, and for many years prior to coming to Duluth, she lived in that city.

The funeral service will be held in the Sellwood home at 2 o'clock Tuesday afternoon. Dr. S. P. Long, pastor of the First Methodist church, of which Mrs. Sellwood has been an active member during her long residence in this city, will conduct the service.

The pall bearers will be: G. G. Hart, T. T. Brown, F. T. Brown, J. A. MacFarlane, G. A. St. Clair and Dr. C. L. Codding.

The interment will be at Forest Hill cemetery.

FAMILIES MUST PAY For Past Funerals or Bury Their Dead.

New York, Jan. 12.—The Hudson County Undertakers' association, embracing 426 members, has prepared a bill of 426 families in and about Jersey City, no member of which may be buried until they pay for funerals previously conducted and not settled for.

This bill has been sent to each party to the association, and with it a warning that they must bury any member of the families named without first collecting the outstanding debts, he won't be liable to fine and expulsion from the association.

Anheuser-Busch

The World's Leading Brewery

1,109,315 Barrels of Beer

83,790,300 Bottles of Budweiser

"King of Bottled Beers"

Sold in 1902

This vastly exceeds any other American brewery and is a greater output than that of the combined breweries of Pilsen, Bohemia, or the three largest breweries in Germany.

The phenomenal success of the Anheuser-Busch Brewing Association, by far the youngest of the large brewing plants of this country, is attributable to the use of the very best materials, the most modern methods of production and the courteous treatment of customers and the general public.

WRONGLY INFORMED

So Says Health Officer
Robinson of Grand
Jury.

Strict Precautions Taken
Against Spreading
of Contagion.

Employees Undergo Hard-
ships In Adhering
to Rules.

Spreading of contagious disease charged against the health authorities by the grand jury is denied by members of the health board.

The grand jury declared that it was customary for the health office employees to ride in public conveyances and mingle with the public generally, after visiting a case of contagious disease.

The employees admit that they do these things—but not until after they have complied with the strict regulations of the state board of health and

the stricter regulations of the local board in regard to changing clothing, disinfecting and bathing.

After visiting a case of contagious disease, employees of the department are forbidden to ride in a street car until they have changed their clothing and disinfected themselves. Frequently they have to wait for a long time before they can get back to the office when they stumble in on a contagious case unexpectedly.

Health Commissioner Robinson was summoned to the West End last week. He did not know he was going to see a contagious disease, and consequently did not take his horse and buggy, as he invariably does when summoned on a case of contagion.

It was one of the coldest nights of the winter, but he walked back twenty blocks to reach the disinfecting plant and change his clothing.

On a similar trip not long ago one of the deputy inspectors was quite badly frozen.

The assistant physician, through a misunderstanding, did not know that the Forbes case at Woodland was a contagious disease case until he got out there.

He says he did not expose himself to this case on that trip and rode back to the city on the rear platform of a street car, rather than walk in four miles on an extremely cold day.

All other visits to this case were made in Dr. Robinson's rig, and the inspectors and others say that they complied strictly with all the rules and regulations of the state board of health, as well as the extra precautions recommended by Health Commissioner Robinson.

Speaking of the case of the grand jury, Dr. Robinson said:

"It was a surprise to me. We take every precaution against the spread of contagious disease. Not one of our men is allowed to go into a quarantined house without having on a robe, cap and old clothes. After coming in contact with contagious disease we do not

ride in public conveyances or mingle with the public until we have changed clothing, disinfected ourselves and bathed.

"I have all due respect for the grand jury and for the county attorney, but I do not know where they got their information on which to base the charge that their report contains for our department. They did not get it from me, though I was before the jury giving testimony in another matter. They did not even ask me about the points over which they in their report find so much fault."

Edward P. Towne, of the board of health, takes the same view as Commissioner Robinson, and others connected with the department say that there must have been some misunderstanding.

NECESSITY Of Supporting President's Anti-Trust Plans Is Urged.

Washington, Jan. 12.—"Get together and support the president," is the slogan of the house leaders in regard to trust legislation. They are convinced that the president represents the great demand of the American people on this question, and that congress will be condemned as failing to do its duty if it fritters away the session in bickerings over less important measures and fails to pass legislation to strengthen the hands of the department of justice in its battle with the trusts.

The sub-committee of the house judiciary committee had already agreed upon a trust bill when Chairman Jenkins on Thursday introduced the bill drawn by Attorney General Knox. The sub-com-

mittee has now taken up those bills for consideration with the intention of reporting to the full committee next week.

The fact that the new bills introduced by Mr. Jenkins are more comprehensive than the administration bills, and that they simplify the situation, as the Republic of the attorney general and pass his bills. Many legislators can accept the judgment of the attorney general and pass his bills.

The house leaders take the position that something must be done, and that the department of justice, which has been considering the trust question for a year with important suits in court, should know better what kind of legislation is needed than the members of congress.

They also have considerable respect for public opinion. The people now know that there is an administration trust bill before congress. They will want to know why that bill has not been considered if it should not be.

The senate committee on judiciary is also showing commendable attention to trust bills, and today took up the Hoar bill. That committee has before it the Cullom bill, the Nelson bill and the Hoar bill, and it will also have the administration bills. Senator Hoar is disposed to keep his committee at work on the various bills before it until something is worked out to be reported to the senate.

A LUNATIC. Man Who Fired at Royal Procession Is In- sane.

Madrid, Jan. 12.—Fello, the man who fired a pistol at the carriage in the royal procession in which the duke of Sotomayor, the grand chamberlain, was supposed to be riding, was examined again Sunday. His bearing during the questioning confirmed the previous reports that he is suffering from mania. A careful official inquiry has shown that Fello is not connected with anarchists. It was first reported that Fello had attempted to assassinate King Alfonso. His majesty has re-

ceived a host of royal and other congratulations upon his escape.

A dynamite bomb, which was sent here by rail in a box from Barcelona, has been found at the railroad station. All attempts to discover the consignee of the box have been fruitless. The bomb reached here the day before the funeral of Senor Sagasta and is supposed to have been for use during the passage of the funeral cortege.

When Fello fired at the carriage of the duke of Sotomayor yesterday, the queen mother and the infant were very much alarmed. The king was very cool, however, and inquired if anyone had been hurt. After being informed to the contrary, he chatted with the civil governor, who walked alongside the royal carriage giving the details of the shooting. Upon arriving at the palace the king immediately repaired to a balcony to watch the excited populace. The queen, in the meanwhile, was so upset that physicians had to be called.

Fello's pistol was an old, double-barreled weapon. It now transpires that Fello was confined for nearly one year in a lunatic asylum at Buenos Ayres. Since he returned to Spain, last June, he has lived chiefly in Madrid, vainly seeking employment, often changing his abode and always attracting notice by his reticence and gloomy aspect. He pestered people in high positions for protection and wrote to this end even to King Alfonso and other sovereigns. He was several times employed as a servant in aristocratic houses, but was always dismissed as crazy.

Fello alleges that the Argentine government robbed him of hundreds of pounds and imprisoned him when he instituted suit to recover the money.

Madrid, Jan. 12.—Fello is shown by letters found upon him to have a wife and two children living in Buenos Ayres, Argentina. The Spanish government has telegraphed there for information regarding Fello's antecedents.

The police are searching for an anarchist named Pieroni, who was recently expelled from Argentina and went to Barcelona, where all trace of him was lost.

Some years ago Mr. Adee, assistant secretary of state, who is hard of hearing and who has an impediment in

NINETEEN BILLS
ARE INTRODUCEDIn Legislature and Some
Are Important.One Would Wipe Out the
Bucket Shops.

(From a Staff Correspondent.)

St. Paul, Jan. 13.—(Special to The Herald.)—Both house and senate got down to real work this morning, though they are still working in by degrees, and neither body sat long. Eight bills came into the senate and eleven into the house, and there were some rather important ones, particularly in the senate.

In the senate a concurrent resolution, introduced by Senator Wilson against the duty on coal, characterized it as being without justification. It passed unanimously.

Senator Jensen introduced a bill prohibiting the maintenance of bucket shops, and providing a penalty. The bill would do away with all transactions of a speculative nature not based on actual board of trade or stock exchange transactions, and would require every commission man to furnish every customer with a full statement of every transaction, showing the names of all the parties to the deal. The penalty for keeping a bucket shop is imprisonment for not more than one year, for a second offense—and a continuance of operations constitutes a second offense—the penalty is thirty to ninety days for an individual, and the forfeiture of the charter of corporations thus engaged.

Senator Peterson introduced a bill providing that at the election of 1904, the voters shall be permitted to pass upon the question of holding a convention to revise the state constitution.

Senator Wilson introduced a bill re-

pealing the corrupt practices act. Senator Alley introduced a bill amending the primary election law, none of the changes being those proposed in the governor's message. The changes are not radical. One permits the withdrawal of candidates, providing they pull out more than thirty days prior to the primary election. An important change is on the declaration of party affiliation by the voter. The present law requires the voter to state that he supports the party he proposed to vote with at the last election and that he intends to do so at the coming election. Senator Alley's amendment simply requires the voter to declare his intention to vote the ticket of the party which he asks for at the coming election. A minor change is that in election districts outside of cities of 6000 or over the polls shall be open from 9 a. m. to 5 p. m., while in communities of 6000 and over they shall be open from 6 to 9 p. m.

Senator Wilson introduced a bill legalizing school bonds voted for under chapter 284 of the laws of 1893 as amended. The strenuous Jacobson, made a bid for that gentleman's mantle. He wanted to reconsider the vote by which the report of the rules committee, increasing the number of house positions, was adopted. He was interrupted at the caucus at

(Continued on Page 4.)

ALL GOT GOOD PLACES

The St. Louis County Delegation Is Well Taken
Care of In the House and
Senate Committees.

(From a Staff Correspondent.)

St. Paul, Jan. 13.—(Special to The Herald.)—The Duluth delegation secured good committee assignments in both house and senate, as The Herald has prophesied. All of the nine members are well supplied with chairmanships and positions. Not all got chairmanships, but there are some important ones among those that fell to the lot of the Duluth men. The house appointments were announced as follows:

In the senate all three senators get chairmanships. Senator Hawkins gets the chairmanship of the committee on railroads. Senator Laybourn heads the committee on insurance, and Senator Pugh is the chief of the committee on mines and minerals. In addition they get places as follows: Senator Hawkins—Enrollment, game and fish laws, public buildings, public lands, rules, taxes and tax laws.

Laybourn—Claims, elections, finance, forestry and fire protection, logs and lumber, municipal corporations, mines and minerals, taxes and tax laws.

Hugh—Elections, grain and warehouse, municipal corporations, military affairs, normal school, railroads, rules.

In the house Dr. Graham heads the important committee on state normal schools, before which Duluth will have matters of interest this winter. Capt. Lewis is chairman of the committee on public buildings, Capt. Randall heads the soldiers' home committee. Mr. Hugo leads the grain and warehouse committee, and Dr. Budd is chairman of the mines and minerals committee. In addition the representatives were supplied as follows: Downing—Crimes and punishments, grain and warehouse, insurance, mines and minerals. Graham—Corporations, hos-

pitals for insane, hospitals for defectives, insurance, public accounts and expenditures, public buildings, Lewis—Claims, state normal schools, Hugo—Elections, insurance, public lands, railroads, taxes and tax laws, Budd—Forest, game and fish, public lands, railroads, taxes and tax laws, Budd—Forestry, game and fish, public health and dairy and food products, roads, bridges and navigable streams.

THE HOUSE COMMITTEES.

This morning were as follows: Agriculture—H. W. Lighty, Wohlbuter, Peterson, Laybourn, Jensen, Hansen, Stone, Simon, Swenson, J. D. Schroeder, Carlson, McCoy, Bondy, Wichman, Han-

Appropriations—Tiege, Opdahl, Downing, Peterson, Laybourn, Jensen, Hansen, Stone, Simon, Swenson, J. D. Schroeder, Carlson, McCoy, Bondy, Wichman, Han-

Blanks and banking—G. R. Smith, Clinton, Peterson, Laybourn, Jensen, Hansen, Stone, Simon, Swenson, J. D. Schroeder, Carlson, McCoy, Bondy, Wichman, Han-

Blanks and banking—G. R. Smith, Clinton, Peterson, Laybourn, Jensen, Hansen, Stone, Simon, Swenson, J. D. Schroeder, Carlson, McCoy, Bondy, Wichman, Han-

RETAIL GROCERS MEET

The Annual Convention of National Association
Opens at Kansas City With Many
Present From Minnesota.

Kansas City, Jan. 13.—Grocers are here from all parts of the country to attend the sixth annual convention of the National Association of Retail Grocers, which opened a three days' meeting in Warwick hall today. About 250 of the 300 delegates had arrived when the first session was called to order this morning. One of the largest delegations was from Minnesota. All the national officers are here and, according to President J. E. Williams, of South Bend, Ind., important work will be done. National Secretary Charles Pfeiffer, of St. Louis, said:

"We want to take such definite action that the passage of a national pure food law will be assured. We

also wish to amend the interstate commerce law, which discriminates against the small merchant. Legislation is also desired to prevent wholesale grocers from selling directly to consumers."

Two fights are looked for, one on the proposition to change the name of the association, with a view to making its scope broader, and another on the next convention place. San Francisco, Buffalo, Washington, Atlanta, Dallas and Little Rock are competing for honor.

The first session was taken up principally in routine work and closed with an address by William Gray, of Brooklyn, on "The Evils of the Department Store."

In the afternoon, the annual reports of the various officers were presented, and an address by Paul Findlay, Madison, Wis., was on the program.

A REBATE OF THE DUTY ON ALL COAL
TO BE ALLOWED FOR TWELVE MONTHS

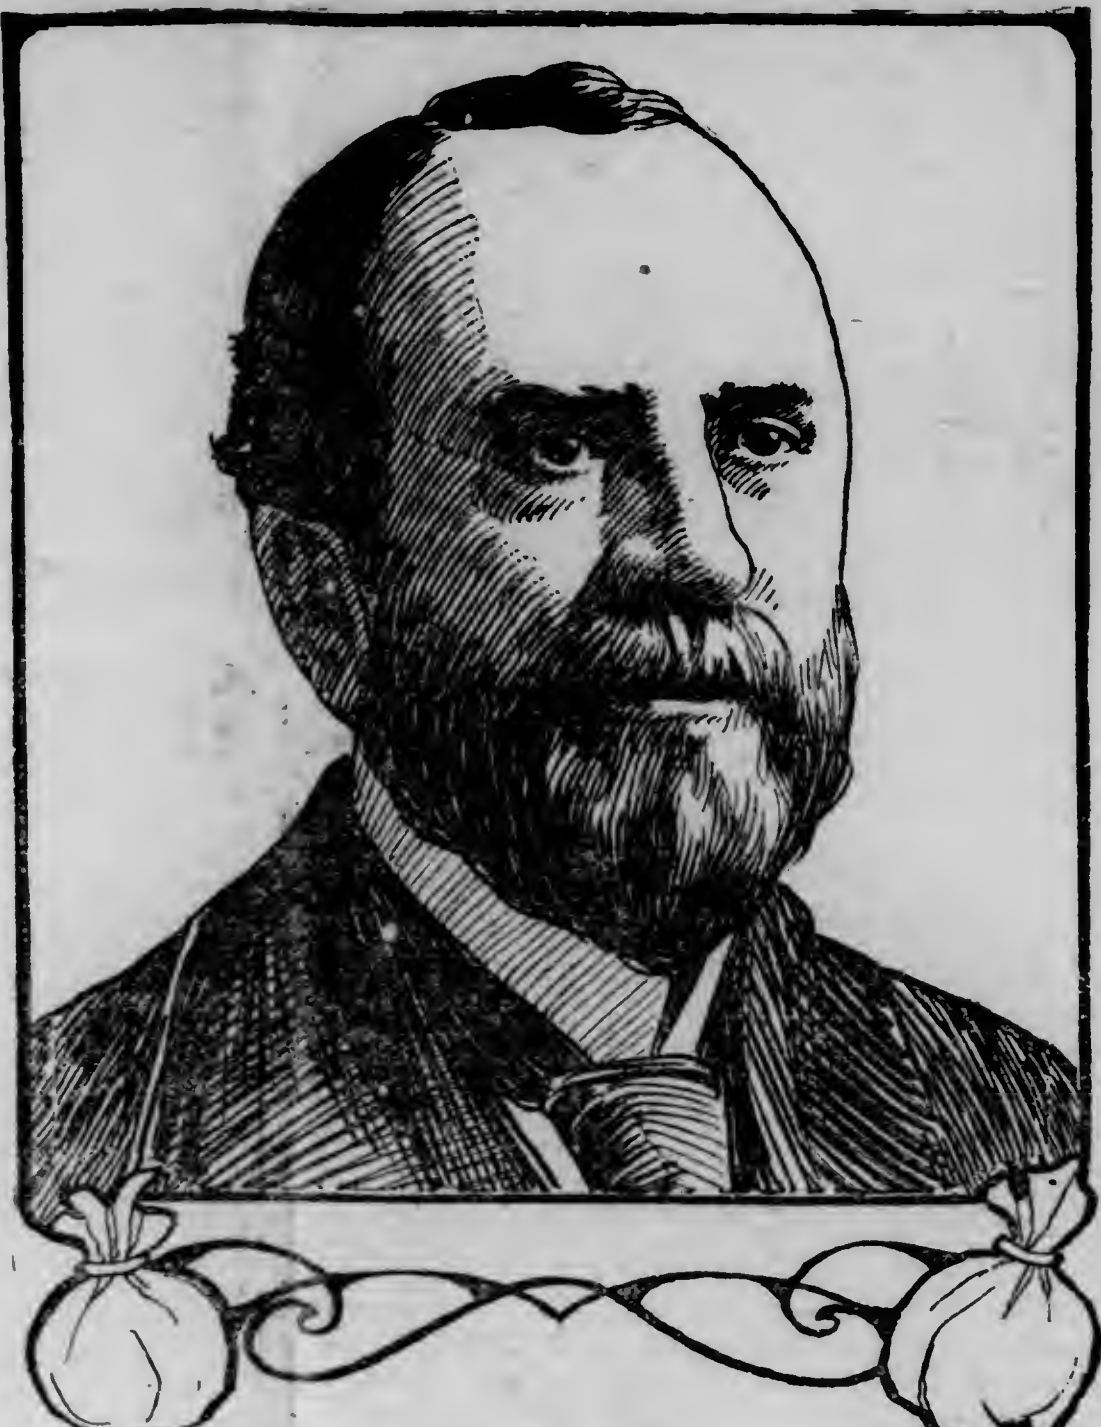

NEW YORK MAY GET HOSPITAL

Phipps Million Dollar Hos-
pital May Be Lo-
cated There.Pennsylvania Must Re-
peal Objectionable Law
or Lose Building.No Efforts Yet Made to
Find Site In Phila-
delphia.

New York, Jan. 13.—If the Pennsylvania legislature refuses to repeal the act of 1893, which prohibits the erection of new hospital buildings in the built up sections of the city of the state, Philadelphia will be substituted for Philadelphia as a location for the home of the new tuberculosis hospital for which Henry W. Phipps has provided more than \$1,000,000, says a Philadelphia dispatch to the Herald.

No site for the temporary home of the hospital has yet been secured, and no efforts will be put forth to purchase property for use as a permanent site until the legislature passes upon the repealing act.

Henry Phipps, who has given \$1,000,000 to found and endow a great institute for the study, treatment and prevention of the great scourge, tuberculosis, in Philadelphia, is a former director of the United States Steel corporation and a former partner in the Carnegie steel company. He is said to be worth \$100,000,000. For a fortnight Mr. Phipps has been the guest of Gen. Lord Kitchener at the Delhi (India) durbars.

HENRY PHIPPS, WHO HAS GIVEN \$1,000,000 TO FIGHT CONSUMPTION.

PRUSSIAN

Diet Reopened, Von Bue-
low Reading Speech
From Throne.

Berlin, Jan. 13.—The Prussian diet was reopened today. The chancellor, Count Von Buelow, read the speech from the throne. No mention was made of foreign matters nor of the canal bill. The speech took a gloomy view of the finances of Prussia. It said that the accounts for 1901 closed with a deficit of \$2,375,000, and added that it was not anticipated that the accounts for 1902 would be approximately the same. The accounts for 1901 closed with a deficit of \$2,375,000, and added that it was not anticipated that the accounts for 1902 would be approximately the same.

Measures to improve the administration of the railroads and the postal service were announced. The state railroad system also was prepared.

PORT HURON FOOLED

By Clever Girl With a Button
Hook.

Port Huron, Mich., Jan. 13.—Lizzie Briggs, a 12-year-old "spirit medium," has been exposed as a fraud, after having mystified the doctors, lawyers, pastors and other leading citizens of Port Huron.

Her father, Solomon Briggs, is accused of using the child as a medium in order to influence his aged mother.

It appears that Solomon Briggs, Jr., who has been married three times and is 40 years old, became fearful that his mother, Mrs. Mary Briggs, who is just 60, would reject toward his stepfather, T. F. Briggs, and refuse to go ahead with the divorce proceedings she began against him. As the mother is possessed of considerable real estate, the son did not fancy her receiving Briggs back to the residence.

Not being able to convince her that Briggs should not come back, Solomon decided to work the spirit act upon his old mother, and do it, too, through his daughter, his only child, a child of his second wife, from whom he is separated and who is now in California. He coached the child to produce the rappings that have been heard and that have caused citizens to shake their heads and go away mystified.

When the scheme was exposed it was discovered that the little girl had produced the rappings by which she spelled out messages and answered questions, with an ordinary button hook, with which she had tapped the wall or side of her bed. Her seances were always held at her bedside.

"FLATIRON" BUILDING

In New York Damages Its
Neighbors.

New York, Jan. 13.—The giant "Flatiron" building at Twenty-third street and Broadway, so called from its wedge shape, is proving costly to the occupants of stores on its Fifth avenue end and closed with high winds coming out of the north.

FUTURE OF BASEBALL

Depends Largely on Action of the National League
Next Monday on the Proposed
Peace Proposition.

Cincinnati, Jan. 13.—The Times-Star today says: The eyes of baseball enthusiasts of America will again be turned toward Cincinnati next Monday, when the National league is scheduled to meet here for the purpose of ratifying the peace arrangement. Judging from telegraphic reports the National league is equally divided on the peace proposition. Four clubs can be counted upon as favorable to the ratification of the peace arrangement, which was entered into last week by the committees representing the rival leagues. The stand of New York, Brooklyn, Boston and Philadelphia is now of great concern. The owners of these clubs have openly expressed their disapproval of the concessions in the way of players which have been made to the American league. While the expressions of dissatisfaction from Messrs. Brush, Hanlon and Rogers, of the National league, of the agreement entered into by the American and National league peace committees, apparently more satisfactory. The secretary hopes to return to Washington tomorrow. Superintendent Brownson will take him for a drive this afternoon.

DIVISION OF INSURANCE

Supreme Court Renders An Important Decision Ap-
plying In Case Where Blanket and Specific
Policies Cover the Loss.

New Haven, Conn., Jan. 13.—The supreme judicial court has sent down an important decision defining the manner in which fire insurance companies should be prorated when the insurance is covered partly by blanket and partly by specific policies and the loss is partial. The decision covers a point not hitherto determined, and is of unusual interest to lawyers and insurance men. The decision is made in the case of Adam Schanzle vs. Lancashire and thirty-three other insurance companies. Schanzle is a technical plaintiff. His brewery was burned. It was insured by these thirty-four companies for \$60,000. Thirty-one companies had blanket policies and three specific policies, the latter amounting to \$600. The total loss was about \$42,000. The specific policies covered the same property as the blanket policies, but the sums were distributed to separate items, such as stock, machinery and buildings.

AUDIENCE OVERCOME BY GAS

Chicago, Jan. 13.—A special to the Tribune from St. Marys, W. Va., says: Nearly the entire gallery audience at the Auditorium theater, as well as the members of the company on the stage, were overcome by the fumes of natural gas here last night during a performance. Two of the actresses are at the hotel, with only slight chances of recovery. Many of the spectators in the balcony and gallery were overcome as they sat in their seats, and had to be carried outside, where they soon recovered. The theater is heated and lighted by natural gas and an overflow of unconsumed gas caused the trouble.

BREKIDGERS ARRIVE.

New York, Jan. 13.—Among the passengers who arrived by the steamer Kaiserin Maria Theresa from Bremen, Southampton and Cherbourg today were Admiral Lord Charles Beresford and Otto von Etzel, military attaché of the German embassy at Washington.

TANGIBLE
EVIDENCESecured By Chicago Grand
Jury of Coal Agree-
ments.Were Made By Mining
Companies to Pool
Outputs.Schemes of Dealers Re-
garding the Delivery
of Coal.

Chicago, Jan. 13.—The most tangible evidence secured by the special grand jury in the coal shortage inquiry up to the present time is that which relates to an alleged agreement drawn in March last year, and which is said to govern a dozen mine operators in the Clinton (Ind.) district, with Walter S. Bogle and the Crescent Coal and Mining company as the Chicago factors. It is charged in the evidence presented that Mr. Bogle appears as president of one of the Indiana companies, making an agreement with himself as president of the Crescent Coal and Mining company. It is said that these mines were compelled to pool their output, to be disposed of by the Chicago factors. In getting at the facts, the jury today called before it Max Elshberg, of the Washburn Valley Coal company, and recalled Charles W. Gilmore and Norman S. Birkland, officers of the Crescent company, who were before the jury for a time yesterday.

A number of railroad men were also on hand when the jury began its work today, representing the Burlington, Washburn, Illinois Central, Monon and Michigan Central, and were called in as fast as their testimony could be heard. W. H. Abrams, of the Building Managers' association, was also a witness, and is said to have given valuable information concerning the maintenance of a room by the coal dealers' association, where secret conferences were held at regular intervals prior to the starting of the present investigation. He also declared that his association had found that dealers delayed delivery of coal in good weather, and then pleaded that they were unable to deliver in rough weather, thus compelling the coal dealers to deliver their entire stock of coal on hand.

CONDITION OF MOODY.

Washington, Jan. 13.—Admiral Beresford, who was injured in a runaway yesterday, is considered satisfactory. The secretary hopes to return to Washington tomorrow. Superintendent Brownson will take him for a drive this afternoon.

St. Paul, Jan. 13.—(Special to The Herald.)—Henry W. Shadle, general Northwestern agent of the Adams Coal company, through whom much of the eastern fuel reaches the Northwest, when told by the Associated Press representative of the action of the ways and means committee of the national house of representatives, said he did not believe there would be much benefit directly to the Northwest from such action. "The East," he explained, "will be directly benefited by the importation of coal from Europe and from Nova Scotia. This might release some coal in Indiana, Illinois and west, but the shortage in the east of Chicago is so great that haulage of coal will be absorbed. People just now seem to be willing to pay 67 cents extra charge if they can obtain coal. However, I do not doubt that there will be some relief to the East by means of the foreign coal. The Northwest, however, Canada coal already comes across the line to a considerable extent into Minnesota, and there will but little direct relief come to Minnesota and the Dakotas."

CONVICTS RECAPTURED

Three Bad Men Escaped From Stockade and Get
Away on a Locomotive—They Were Re-
taken After Desperate Fight.

Bay Minette, Ala., Jan. 13.—Frank Edwards, a member of the Miller-Duncan gang of safe blowers of Birmingham, Clint Mobley, and a negro convict, Gilbert Allen, escaped from the Hand Lumber company's stockade at Delleville, today, and were not captured until Mobley had been fatally wounded. The convicts secured pistols and succeeded in overpowering a guard, after which they made a rush for a locomotive which was standing on a switch nearby, and with Mobley at the throttle succeeded in escaping to the woods at the end of the switch. They were immediately pursued, however, and after a fierce fight in which Mobley was severely and probably fatally wounded they were captured. Over a hundred shots were exchanged between convicts and their captors.

HAUL DOWN THE FLAG

President Schurman Says That Work of United
States Is Done In Philippines and People
Should Be Given Independence.

Columbia, Mo., Jan. 13.—In a speech before the students of Missouri university, Dr. Jacob G. Schurman, president of Cornell university and member of the Philippine commission, said the Philippines should be given their independence.

"Haul down the flag," he said, "whenever its work is done. There are but three ways to dispose of the islands; hold them as subjects, admit them as states, or give them their independence. The first course will result in continual warfare, the second course is not practicable, the third course is the only one practicable and sensible. Some say 'haul down the flag,' but the work of the flag is finished and it should be hauled down."

ALL COAL THIEVES GO FREE

Toledo, O., Jan. 13.—The workhouse board has issued an order setting at liberty all prisoners held for stealing coal from the railroad yards and tracks. The order includes directions to the su-

Bill Reported With En-
dorsement of Judic-
iary Committee.Refused Absolutely to
Continue It For
Longer Period.Motion Putting Coal on
Free List Voted
Down.

Washington, Jan. 13.—The ways and means committee of the house decided to report a bill providing for a rebate—equal to the duty now imposed—on all kinds of coal coming from all countries for a period of one year. This bill is a substitute for one introduced by Representative Hill (Conn.), which provided for a rebate until June next. It is expected the bill will be called up in the house at once. The bill adopted provides:

"That the secretary of the treasury be and he is hereby authorized and required to make full rebates of duties imposed by law on all coal of every form and description imported into the United States from foreign countries for the period of one year from and after the passage of this act."

Representative Richardson (Tenn.) proposed an amendment striking out the words "for a period of one year," which was voted down. He then proposed an amendment placing all coal on the free list, which was likewise voted down. The final vote on the adoption of the bill was unanimous.

The committee reported the bill but will not call it up in the house for consideration today, as originally contemplated, the decision having been reached to bring it up under a rule tomorrow.

St. Paul, Jan. 13.—(Special to The Herald.)—Henry W. Shadle, general Northwestern agent of the Adams Coal company, through whom much of the eastern fuel reaches the Northwest, when told by the Associated Press representative of the action of the ways and means committee of the national house of representatives, said he did not believe there would be much benefit directly to the Northwest from such action. "The East," he explained, "will be directly benefited by the importation of coal from Europe and from Nova Scotia. This might release some coal in Indiana, Illinois and west, but the shortage in the east of Chicago is so great that haulage of coal will be absorbed. People just now seem to be willing to pay 67 cents extra charge if they can obtain coal. However, I do not doubt that there will be some relief to the East by means of the foreign coal. The Northwest, however, Canada coal already comes across the line to a considerable extent into Minnesota, and there will but little direct relief come to Minnesota and the Dakotas."

ARE YOUR KIDNEYS WEAK?

Thousands Have Kidney Trouble and Never Suspect It.

To Prove What the Great Kidney Remedy, Swamp-Root, Will Do for YOU, Every Reader of The Herald, May Have a Sample Bottle Sent Absolutely Free By Mail.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

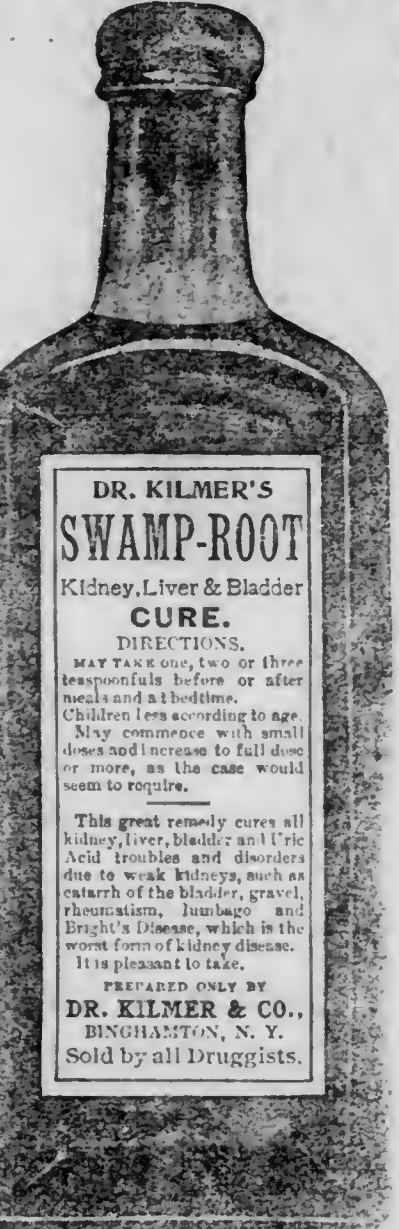

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering with fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; makes your head ache and back ache, causes indigestion, stomach and liver trouble, you get a yellow, yellow complexion, makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to nature, for Swamp-Root is the most perfect healer and a gentle aid to the kidneys that is known to medical science.

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney ailments, they recognize in it the greatest and most successful remedy for kidney, liver and bladder troubles.

If you are already convinced that Swamp-Root is what you need, you can purchase the Editorial Note—You may have a sample bottle of Swamp-Root, sent absolutely free by mail, also a book telling all about Swamp-Root, and containing many of the thousands upon thousands of testimonial letters received from men and women who owe their good health, in fact their very lives, to the great curative properties of Swamp-Root. In writing to Dr. Kilmer & Co., Rivington, N. Y., be sure to say you read this generous offer in The Duluth Daily Herald.

Swamp-Root is pleasant to take, regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Rivington, N. Y., on every bottle.

MR. BAER EXPLAINS

Difficulties of the Coal Situation to Mayor Low.

Roads Are Doing All Possible to Relieve Conditions.

Great Difficulty In Keeping Down Price of Coal.

New York, Jan. 12.—Mayor Low and representatives of the coal carrying roads held a conference today to discuss the coal situation in the five boroughs of Greater New York. The railroad presidents present were George F. Baer, of the Reading; F. D. Underwood, of the Erie; Fowler, of the Ontario and Western, and Thomas, of the Lehigh Valley. John D. Markle represented the independent operators. President Baer read a statement describing the position of the roads. He maintained that the roads were doing all possible to relieve the situation. The situation was full of difficulties, and the failure of miners to work during the holidays had

reduced the output and the price had been unduly advanced by the smaller companies and individual operators. Consulting, Mr. Baer said: "The difficulty in keeping down the price of anthracite coal is that the coal of many of the operators is sold at the highest price that can be obtained in the market. In the present time of security they have sold their coal at prices from \$2 to \$3 per ton higher than that at which the Reading Coal and Iron company and the Lehigh and Wilkesbarre Coal company sell their coal."

"The price at which coal is sold by the operators to the larger companies is based on the f. o. b. market price, New York harbor. Some of the operators who have made these contracts have complained that they did not get as high prices for their coal as the operators who have contracts and sold their coal themselves. They pointed to the fact that many of the operators have sold their coal at \$3 or \$10 per ton, whereas the circular price of the larger companies f. o. b. New York is only \$5 per ton. Litigation was threatened. The coal companies having these contracts were compelled to face this contingency. Should the courts decide that \$5, the price at which we sold the coal purchased from the individual operators, was not the market price, but that the market price was the highest price at which coal was sold in New York, then there was a possibility of our having to pay from \$3 to \$4 per ton more for this coal than we received."

"In justice to our stockholders we could not assume any such risk, and no fair-minded man could ask us to do it. We made the best compromise we could, which was practically a suspension until April of these difficult acts. The effect has been, in the case of the Reading Coal and Iron company, to reduce about 100,000 tons per month and a like quantity in the case of the Lehigh and Wilkesbarre Coal company. Mr. Baer said his companies would continue to sell at \$5 a ton. They could not ship all their coal to New York, because Baltimore, Washington and New England had equal claims."

Advertising in The Herald is no experiment. Results follow every announcement.

MYSTERY UNFOLDS

Cause of Typographical Hysterics and Red Ink Turn Up.

First Presbyterian Church Episode Not So Baffling.

Discharged Janitor Making Things Lively For New Incumbent.

A small bottle of fiercely pulsing, violently palpitating, seething, sizzling mystery is about to be uncorked. (Soft music and fourteen different lines of typographical hysterics all emitting red ink.)

The custodian of the First Presbyterian church carelessly permitted the pedestal of his intellect to collide with a club promoted by a mysterious unknown.

This did not happen in the paleontological period, either. It was last Sunday morning, "when the empty church was desolate in the cold gray dawn and as silent as the grave," (quoted from the News Tribune.)

After the collision the custodian ran as he never ran before to police headquarters. The cleverest detectives were completely baffled.

"Standing motionless in utter darkness was a human being, waiting for the approach of the janitor—a weapon was poised in his hand."—News Tribune.

The murderous assailant did not even leave his card or telephone number.

The entire police force was preoccupied with brain fatigue and one of the plain clothes men was so wrought up in his efforts to get a clue that he has been seeing scarlet streptococcus lancidans in his dreams.

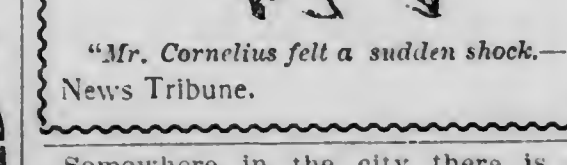

This morning as two detectives sat in headquarters holding hands, talking of the case, and watching the crimson, red gold and azure hues of the break of day, commit petty larceny—(steal through the windows)—the clue that solved the mystery suddenly burst upon them.

It was a half buried paragraph on the second page of the News Tribune. It read as follows:

"Five hours later (meaning exactly 300 minutes after the custodian ran as he never ran before) the organ pealed forth an anthem, while the church was filled with worshippers."

To the average person this contains no clue at all, but to the detectives it was everything.

They suddenly remembered that near the spot where the assault was committed they had picked up a pair of mittens, belonging to an ex-janitor that desired his place back and was seeking to discourage the man that succeeded him.

"Mr. Cornelius felt a sudden shock."—News Tribune.

Somewhere in the city there is a man—a carpenter by trade and a janitor by profession, with his right eye discolored, who awaits—what?—An invitation from the board of trustees to resume his old duties as church custodian.

Alvah Cornelius, the custodian assaulted, will continue to hold the job and in the future will be accompanied by a gun when he goes into the church.

The authorities will also know where to look for the guilty person the next time the water is drained out of the First Presbyterian church boilers, as it has on several occasions since the ex-janitor has tried to get his old job back.

Soo and Return \$10.00. Account the bonspiel at Sault Ste. Marie, Jan. 12 to 17, the Duluth, South Shore & Atlantic railway will make a rate of \$10 for the round trip. Tickets will be on sale Jan. 10 to 14 inclusive, and will be good for return until Jan. 19. Secure your sleeping car accommodation early.

Kansas City and Return \$19.85. Jan. 11 and 12, the Northern Pacific railway will sell tickets to Kansas City and return, account National Live Stock meeting, for \$19.85 for round trip. Tickets good returning until Jan. 18, except by depositing with joint agent and paying 50 cents. Limit will be extended up to and including Jan. 21. For tickets and full information call at city office, 332 West Superior street, or Union depot.

ANOTHER CHAPTER

Hitherto Unknown Episode In Henderson's Life Comes Out.

Brought Cuban Child to This Country and Adopted Her.

She Writes Gov. Van Sant Urging Clemency For Him.

Charles E. Henderson, the Duluth colored man, sentenced for the murder of his common law wife, was represented before the board of pardons yesterday by Attorney Alexander Marshall, of Duluth, who pleaded for him on the ground of previous good record and excusable excitement on the night of the murder.

County Attorney J. M. Johnston was present to oppose the pardon, but the hearing was placed on the calendar for further discussion at the next session of the board, and opposite voices were not heard.

St. Paul Dispatch says: "Henderson has a good record as a prisoner in Cuba during the Spanish war and has shown a kindly nature by bringing home a little child from Cuba and educating it. The child is now old enough to write and send several pleading letters to Gov. Van Sant, begging for the mitigation of her benefactor's sentence."

The prisoner himself has sent in a neatly written mass of manuscript, consisting partly of a metrical plea for consideration and partly of a detailed story of the troubles which led to the murder. Of the rhyming plea the following is a sample stanza:

"The history of our blighted past Is known best of all by me; A vision of happiness, but alas! It is dead to me and she.

"Then, while I yet have time to live I shall not shrink from duty. Advice to them that I baby will give Beattitudes of beauty."

Henderson's story, in effect, is that another man enticed away his common law wife, and in his insane jealousy he killed her while in slumber."

The story of the discovery by Henderson of the little Cuban girl is but another interesting chapter in his life history, which has cropped out only since the letters have been received by Governor Van Sant from the little girl.

When Henderson was questioned at the county jail this morning by a Herald representative as to who the Cuban protegee was and where he found her, remarking that the matter was only one of several other things that had thus far been kept from the public as to his past history, and one of those things which would go to show that he has a tender and sympathetic heart. He finally said:

"The little Cuban girl referred to was the daughter of Col. Emmanuele Roja de Narango, of the Cuban army, who was friendly to the American troops, and who acted as their guide in the Western provinces of Santiago de Cuba. Her father was a well-educated and brave Cuban, but the Spanish watched her and she was finally ambushed and shot. The latest son of her father, a lad about 14 years, became a orphan when the Spaniards, and his mother, while attempting to cross the Spanish lines to go to him during his sickness, had her shot in the chest. Even then she escaped, but has since died of her injuries."

"Through their father's death and mother's injury, four children were left destitute and helpless in the hands of the Spaniards. My mother, Mrs. Roja de Narango, the oldest daughter, then but 10 years of age, came to the United States quite recently, and she was thrown into a filthy prison the Spaniards believing that her mother could be brought out of hiding by this means. The rest of the children were sent to one of the prison contrabando camps."

"After Santiago Col. Narango's daughter was found in the filthy cell a prey to disease and vermin. When I saw her my heart was touched, and I swore then that I would rescue her and send her back to her own country to teach others the way of God."

"For years after I brought her to this country, I kept sending money back to her destitute family."

"Little Ma-Salinas Roja de Narango was 10 years old when she came to America. She is now 15 years old. I taught her to read and write, and she could find time even after my work, would talk to her in Spanish that she might not forget her native tongue."

"At last I placed her in a highly respected family in Chicago, where she has since been living and attending school regularly."

Better Than a Pastor. A piece of flannel dampened with Chamberlain's Pain Balm and bound on the affected parts is better than a plaster for a lame back and for pains in the side or chest. Pain Balm has no superior as a liniment for the relief of deep-seated, muscular and rheumatic pains. For sale by Joyce's drug store.

PLANNING BIG SHOW

Big Midsummer Fair Is the Scheme Now Outlined.

Proposed at the Meeting of the Agricultural Association.

Thomas E. Hill Presents the Proposition In Detail.

A vigorous effort is being made this afternoon to provide Duluth with an exhibition and midsummer fair that will become a big feature in Northern Minnesota, and perhaps adjoining states, within a few years.

The annual meeting and election of officers of the St. Louis County Agricultural association was held in the Spalding hotel last night at 8 o'clock.

It is likely that President D. E. Stevens and Secretary S. E. Peachey will retire from their offices because of private business pressure. The movement is for an entire reorganization of the association and the pursuit of larger work. The report of the treasurer showed the association even with the world, and the president's and secretary's reports were encouraging.

Thomas E. Hill outlined his suggestions at the meeting for a systematic operation of the business of the fair, and recommended many radical changes, and offered a prospectus for

one of the most successful enterprises of its kind in this part of the country. He is of the belief that Duluth can produce a festival in August which will be equal to the state fair at St. Paul, and it will be a great thing for the city.

A board of nine directors will be chosen this afternoon, who will be given charge of the plan for arrangement, and for the assigning of work to the general directorship of the enterprise. The business men of the city will be consulted, and it will be their duty to see that the fair is started the work of making that fair at once, and have it all completed by the date set for opening.

From inquiries made it was learned that the St. Louis County Agricultural association seldom commences its arrangements for the annual fair until rather late in the season; that there were no salaries paid for the routine accounting and work; little for advertising; and hardly more for inducements to exhibitors or for communication with possible exhibitors. The result was a fair that sometimes was profitable and sometimes not. It was said that when the rains of the equinoctial period, the time the fair is generally held, caused a tidal wave that swept the patronage of the fair from the face of the earth, premiums were not paid.

The new idea is to get money first and not depend upon the gate receipts for money with which to pay all bills and premiums. The plan submitted is a rational one and feasible. It will require work to make up the fund, but that work will advertise the fair in an extensive manner.

To secure \$5000 it is proposed by Mr. Hill to issue 1000 certificates of membership to the organization, and with each certificate tender twenty five-cent tickets. It may be possible, he believes, to sell twice that number, and if that is done, the city can have one of the most attractive exhibitions in the state. The idea is to give the subscribers to the fund something for their money and to make the inducement doubly strong the something will be comprised of \$10 worth of admission tickets, transferable, and a certificate of membership, which will permit the holder to participate in the government of the association next year.

This plan will enable 20,000 tickets to be given out before the show starts, and it is the intention to cause the wholesalers and jobbers to take large quantities of the tickets to send to their customers and outsiders generally. With what admissions are paid at the fair it is expected that the fair will make money. Economy may be practiced, because it will give plenty of

time to do the detailed work in, and results seem certain.

The proposed date of the fair is about Aug. 15. The work should commence at once toward advertising and systematizing work to secure exhibitors, tourists, exhibitors and horsemen.

The manufacturers of the Northwest should be visited by an agent of the association, and he should also visit agriculturists and horticulturists and dairymen institutions. A mineral exhibit representing St. Louis county is advised, and also an exhibit of taxidermy, showing the animals, birds and fish native to St. Louis county.

For features a ship launching, life saving crew drills and any marine display that would attract landmen. Another suggestion is for night entertainments at the fair grounds with electric and pyrotechnical displays, and big extra features for every day in the week, with some entertainment down town, to be given free.

Eventually such a fair would become a large and important exhibition in the Northwest. It is thought, and the outline will be submitted to the business men after the meeting.

The suggestions were placed before the meeting of the association, but at a late hour this afternoon no action was taken, as discussion occupied a great deal of time.

Combination and Education.

Detroit Transcript: Tidings of good cheer for Chicago university. The Standard Oil company is closing in on the Beaumont properties and on the great lakefronted wells in California with a view of securing absolute control of the oil output of the country. This means further gifts of frankincense and myrrh, but by the oil kings at the cradle of the higher education.

And Wireless Communication.

MANAGER IS HERE

Daniel Davies In Charge of Section Thirty Development.

Says Clergue Interests Have Nothing to Do With It.

Drilling Contract Has Been Let to Cole & McDonald.

Under the direction of Daniel Davies, formerly with J. J. Hill in the Great Northern's office in St. Paul, but latterly with the Virginia Iron Coal and Coke company, of Bristol, Va., explorations have been commenced on the noted section 30. The new manager says the recently formed Section 30 company has unlimited capital, but who is behind it he refuses to state.

Mr. Davies has made one trip to the property since he came here last Thursday, and will leave again tomorrow to go over it again. Cole & McDonald, providing they begin drilling operations by Jan. 20, and machines are being placed on the ground now. Test-pitting has been going on since Jan. 1.

The company known as the Section Thirty company was organized by Daniel Davies, the treasurer and Dwight E. Woodbridge is the secretary. The names of the officers are not made public. The company holds options on the property which run for one year, and within that time will make all explorations.

This will be the third attempt at explorations on the noted property since the litigation regarding its ownership began in 1887. The real estate of the Minnesota Iron company, when it supposed it owned it, and of A. M. Miller, he supposed it owned it, are absolutely unobtainable. From the test pits made by Miller and his men, but no more than an indication is shown by that.

The bulk of the work will commence about April 1, said Mr. Davies at his office in the Provision building this afternoon. "From then on the work will go rapidly, and we shall have a relation to the future of section 30 or any other property the company takes in hand."

"I am aware that section 30 has been the subject of a great deal of comment, and there is much curiosity to know who is backing the new concern financially. This information I am not at present at liberty to give, but I can say that it will be no trouble in regard to the financial future of section 30 or any other property the company takes in hand."

"Because of my association with Dwight Daniel Davies, the treasurer and Dwight E. Woodbridge is the secretary. The names of the officers are not made public. The company holds options on the property which run for one year, and within that time will make all explorations."

to be the vehicle for the consolidation of the anthracite coal interests of Pennsylvania. The application for a charter is made under a law passed by the legislature of 1901. The nominal capital of the corporation is \$1000.

NOT THE MAN.

Man Suspected of Abrahamson's Murder Has Good Alibi.

The man brought down from Virginia yesterday, charged with the Abrahamson murder, may be released from custody.

This afternoon Sheriff Butchart has been investigating the story he tells of being in West Superior at the time the murder was committed near Mountain Iron.

Up to a late hour this afternoon nothing had been discovered tending to disprove this story of alibi. Mr. Lake, the friend of Abrahamson, who was with him at the time he was shot, does not identify the man under arrest as William Jackson, the murderer.

Mr. Lake admits that he has many points of feature in common with the murderer, but his manner and facial expression are very different.

Mr. Lake saw the murderer in the headquarters camp of the Lumber company the night before the murder, and was within a few feet of and facing him, when he shot Abrahamson down.

Sheriff Butchart decided not to take steps to release the suspect until he has had his West Superior alibi story looked up, but it is likely that the man will soon be free.

Mr. Lake says the murderer in the headquarters camp of the Lumber company the night before the murder, and was within a few feet of and facing him, when he shot Abrahamson down.

TOOK GAS.

Winnie Mercer, American Team Pitcher, Ends His Existence.

San Francisco, Jan. 12.—Winnie D. Mercer, a pitcher of the American baseball team, registered at the Occidental hotel last night and was found asphyxiated in his room this morning. Mercer was registered under the name of George May, and gave his residence as Philadelphia. The watchman of the hotel in making his rounds detected the odor of gas coming from Mercer's room and failing to receive a response to his knocking broke down the door. And in his night clothes and lying in the bed with his coat and vest covering his head, Mercer was found. From the gas jet in the center of the room was suspended a rubber tube, and the end of this Mercer had placed in his mouth after turning the gas full on. What caused Mercer to end his life is not known.

Mercer's identity was established by papers found among his effects, one of which read: "Tell Mr. Van Horn, of the Langham hotel, that Winnie Mercer has taken his life."

Mercer was a sufferer from pulmonary troubles and as the disease refused to yield to treatment he became despondent. Mercer left a statement of his financial accounts, showing that he did not owe a cent in the world.

Mercer was very popular with his fellow players on the All-American team and while his dependent condition was known to his intimates there was never a suspicion among them that Mercer would commit suicide.

TELEGRAPHERS

Will Ask Railroad Companies to Increase Salaries.

RAILROADS.

New Position on the Burlington---Immense Equipment Order.

C. H. Benedict, of New York, has been appointed to a newly-created position on the Burlington road at Chicago as general agent of Oriental traffic for the company. This is part of the plan of James J. Hill to foster and increase the movement of freight over the Great Northern and Northern Pacific roads and steamship lines to the Orient. Mr. Benedict has been in the importing business in New York for many years. He expects to travel through this country visiting manufacturers and producers in the interest of increased foreign trade, and he will manage a bureau of publicity and education in connection with the subject. Two mammoth steamers of Mr. Hill's will be put into commission soon to ply between Tacoma and Seattle and the Orient, and in the meantime every effort will be made to secure tonnage for the company's general agent for Oriental traffic will probably cause other similar positions to be created on transcontinental lines.

HAVE NEW PLAN.

Longer Trains and Less Speed to Save Wages.

The managers of the Western railroads have hit upon a plan of retrenchment which, it is said, will probably be adopted, much to the chagrin and surprise to the trainmen, who are asking for increased wages. The plan is to run between St. Paul and Chicago and between other Western points, longer trains, five or six passenger and freight engines, and the cost of transportation and also the net income of the railroads. Besides the other regulations, it is proposed to reduce the speed of the trains to 20 per cent, so they can be handled readily.

Immense Equipment Order.

The management of the Rock Island road has given within the past few days, what is probably the largest single order for locomotives ever made in this country. The order is for 225 passenger and freight engines, and the cost will be in the neighborhood of \$4,000,000. The great expenditure for power machines has been made necessary by the immense increase of traffic of all kinds. The Rock Island has within the past year, developed from an extremely conservative railroad in the matter of advertising to one of the most extensive advertisers in the country, and the money spent advertising one train alone would stagger a man of ordinary business capacity.

San Diego, Cal., Jan. 12.—The jury in the Tingley-Times libel suit has found for Mrs. Tingley in the sum of \$500.

STILLWELL ACCEPTS CALL. St. Paul, Jan. 12.—(Special to The Herald.)—Rev. Herbert F. Stillwell, pastor of the First Baptist church, has declined to accept the call of the Baptist church of Cleveland, Ohio, and leaves for his new field of labor on Feb. 23.

PENSION FOR MRS. SIGEL. Washington, Jan. 12.—The house committee on invalid pensions has favorably reported a bill granting a pension of \$100 a month to the widow of Gen. Franz Sigel. Mrs. Sigel is now 67 years old.

Advertising is the only salesman you can employ that will keep everlastingly at it all the time.

NO BAD LAWS

In New Jersey to Protect Trusts, Says Governor.

Trenton, N. J., Jan. 12.—The first session of the 127th legislature of New Jersey was called to order at 9 o'clock this afternoon. The two houses organized by selecting the officers that had previously been agreed upon at the legislative caucus. Governor Murphy's message was read to both houses. He said in part:

There has been much discussion of late on the subject of trusts, and New Jersey has been called upon to take action. The reason of the large number of corporations organized under our laws, is the fact that the corporation laws of the state of New Jersey are especially liberal, and that corporations organized under their laws are exempt from the payment of taxes. This is not so. Corporations that want to do a dishonest business have a hard time of it under the New Jersey laws. Corporations that desire to conduct their business as honest men conduct theirs, are protected as fully and completely as is any individual in the state, but not more. As a matter of fact there are few, if any, real trusts, and the number of corporations is not large. Corporations of all kinds, especially if engaged in manufacturing, are not exempt from the payment of taxes. It will appear that this demand is most unreasonable, and that the corporation laws of the state are not as liberal as they are. We will restrict the earning capacity of the corporation, and we will restrict the power of the corporation to do business in the state. We will not average full time without serious loss of money to everybody. The third demand involves not merely the question of payment by weight, but payment for each ton of 2500 pounds as it comes from the mine. This is impracticable.

SUCCEEDS OGDEN REED. New York, Jan. 12.—Prof. Joseph John Thompson, D. Sc., F. R. S., 1858, a well known English scientist, has been appointed head of the department of physics by the trustees of Columbia university to succeed the late Ogdén Nicholas Reed. For the past decade, says Prof. Thompson, he has been Cavendish professor of experimental physics at Cambridge university, England.

DREW GUN ON CHIEF

Youthful Forger Flashes
Revolver on Chief
Troyer.

Young Man Quickly Dis-
armed and Placed
Under Arrest.

With Him Were Two
Others---All Under
Twenty Years.

A boy forger tried to shoot Chief Troyer last night.

The chief had two of a "gang" cornered in Abelson's clothing store at 114 West Superior street.

Suddenly one of them sprang toward the door and might easily have escaped, but he wheeled around and leveling a revolver at the chief, nervously pressed his finger against the trigger guard instead of the trigger.

Chief Troyer sprang at him and got possession of the gun almost before the forger could change his finger from the guard to the trigger.

The boy was only easily years old, tall for his age, says his name is Lawrence Walsh and his home is in St. Paul.

He, Eddie Blair and George Blair, the latter Minneapolis boys, were endeavoring to pass forged City National bank and First National bank checks, aggregating \$116.92.

The two Blair brothers are 17 and 19 years old respectively. All three of the boys are supposed to have come from Minneapolis yesterday and during the day collected counter checks from the First National and new City banks.

They selected the name of C. J. Petruschke, of West Duluth, as being a business man too far away from the uptown district to be reached on foot, and started out to cash in the worthless paper.

They went into Rathbun's grocery store on East Superior street about 7 o'clock in the evening. James D. McGhie, one of the clerks, saw that it was bad paper the young man was offering him and refused to cash it.

After the boys raised the questions as to whether the press should be unrestricted, and whether the general public can be relied on to determine whether the matter published is palatable and healthful.

Mr. Tomlinson held that the problem of all newspapers has been to determine whether they shall publish journals for the people and enjoy the right of free speech, or cater to the unthinking masses and possibly enjoy greater prosperity.

Mr. Tomlinson said he believed the masses are entitled to their paper, to the ragtime music, and that he was hopeful that some will weary of their literary sensations and cheap songs and turn to better literature, truthful news record and better music.

He remarked that the encouraging feature of the press is the personnel of the editorial departments, which has greatly improved during the last decade. The large newspapers, he said, now require their staffs to be educated men.

Mr. Tomlinson referred to his early days in newspaper work, when intemperance was common in editorial departments, and was regarded as an evidence of genius, and compared conditions with the present, when intemperate men cannot be found holding responsible positions on the daily press.

News-papers, he said, are half a century old and as the crimes of half a dozen are more startling, and are calculated to arrest attention to a great degree than the virtues of a thousand, it is to the crimes that a great deal of attention is paid by the newspapers.

Mr. Tomlinson also treated of the legal restrictions placed on a paper, and in closing said:

"An honorable newspaper must therefore rest upon the honor, intelligence and integrity of its staff, and the man who scours the streets for news

Chief Troyer, but merely took the gun out to hand to the officer. He does not explain why he had to run toward the door--away from the chief--to hand him the weapon.

The boys say that the forged checks were given them by an unknown man.

AGENT AT SEATTLE.
John Promberger, formerly of Duluth, Gets Appointment.

John Promberger, formerly of Duluth, is now at Seattle and has just been appointed general agent for the North Pacific territory for the Minneapolis & St. Louis railroad. The Seattle Times says of the appointment:

"John Promberger, a railroad man of varied and extensive experience, has been appointed general agent of the Minneapolis & St. Louis railroad for the North Pacific district, with headquarters in Seattle. The appointment was made by W. M. Hopkins, general freight agent of the road, who is in this city for the purpose of establishing a Seattle office and headquarters."

Mr. Promberger, in the course of his railroad experience, has been connected with the Blue Line & Michigan railroad in Milwaukee and Chicago; the Northern Steamship company, in Minneapolis; the Duluth, South Shore & Atlantic, in Superior; the Nickel Plate & Lackawanna, in Duluth, and with the Canadian Pacific railroad at Port William, where he held the position of terminal superintendent, with control of all freight matters, elevators and coal docks of the company; later he was appointed confidential agent over the entire Canadian Pacific system for Vice President M. D. Nicol. For the last two years Mr. Promberger has been in the Pacific coast engaged in the promotion of mining and industrial enterprises.

His acquaintance among railroad and business men, and is thoroughly familiar with the conditions with which he will have to deal in his new office."

THE PRESS.
Unity Club Hears Discussion By Messrs. Tomlinson and Mahon.

At the Unity club meeting last evening "The Province of the Press" was the topic of interesting papers by G. A. Tomlinson and Henry S. Mahon, and of animated discussion that followed the reading of the papers.

Mr. Tomlinson, whose familiarity with the subject was gained through actual experience some years ago in Michigan, said that the newspaper has become almost a necessity to mankind, and to a great many of the people throughout the country the newspaper furnishes about the only literature de-manded by the community. He raised the questions as to whether the press should be unrestricted, and whether the general public can be relied on to determine whether the matter published is palatable and healthful.

Mr. Tomlinson held that the problem of all newspapers has been to determine whether they shall publish journals for the people and enjoy the right of free speech, or cater to the unthinking masses and possibly enjoy greater prosperity.

Mr. Tomlinson said he believed the masses are entitled to their paper, to the ragtime music, and that he was hopeful that some will weary of their literary sensations and cheap songs and turn to better literature, truthful news record and better music.

He remarked that the encouraging feature of the press is the personnel of the editorial departments, which has greatly improved during the last decade. The large newspapers, he said, now require their staffs to be educated men.

Mr. Tomlinson referred to his early days in newspaper work, when intemperance was common in editorial departments, and was regarded as an evidence of genius, and compared conditions with the present, when intemperate men cannot be found holding responsible positions on the daily press.

News-papers, he said, are half a century old and as the crimes of half a dozen are more startling, and are calculated to arrest attention to a great degree than the virtues of a thousand, it is to the crimes that a great deal of attention is paid by the newspapers.

Mr. Tomlinson also treated of the legal restrictions placed on a paper, and in closing said:

"An honorable newspaper must therefore rest upon the honor, intelligence and integrity of its staff, and the man who scours the streets for news

is, finally, the man who makes the press utter truth or falsehood. "Many times the reporter, either because his own mental processes are abortive, or because he is over-zealous, will trifle with facts and the truth, but I should like to be a little personal, in conclusion, and inquire of the business and professional man here to-night, whether in their intercourse with the newspaper man, they always treat him with absolute candor and fairness."

Henry S. Mahon treated the press as a necessity for the communication of intelligence in society, the development of society being caused by the adoption of systems. The newspapers distribute and perpetuate news of events. He held that the character of the daily press is not to produce and discuss the periodical press at some length. Mr. Mahon specialized the French press, and declared that the monthly press occupies middle ground, pointing out some of its faults.

The daily press he believed to be the chief concern of the masses, for the reason that it reaches the greater number of people, and is usually fitted for distribution. He also touched upon the circulating system of large newspapers, the accounts are vague, and came from a newspaper reading public. Mr. Mahon said the press reaches masses, and that it is a dangerous and habitual readers of newspapers; that skepticism and contempt for learning is prevalent in the masses, and that the nature of the matter furnished by the papers is of a low order, and the length of the doubtful value of the opinions of the cultured.

Harry White took part in the discussion which followed the reading of the papers.

NO DANGER
Of Any International Complications In the Morocco Affair.

New York, Jan. 12.—While the Morocco affair is more serious, so far as the suitors are concerned, it is not so serious as the Tribune's London correspondent cables, there is no apparent danger of international complications.

The accounts are vague, and came from a newspaper reading public. Mr. Mahon said the press reaches masses, and that it is a dangerous and habitual readers of newspapers; that skepticism and contempt for learning is prevalent in the masses, and that the nature of the matter furnished by the papers is of a low order, and the length of the doubtful value of the opinions of the cultured.

Harry White took part in the discussion which followed the reading of the papers.

THE PRESS.
Unity Club Hears Discussion By Messrs. Tomlinson and Mahon.

At the Unity club meeting last evening "The Province of the Press" was the topic of interesting papers by G. A. Tomlinson and Henry S. Mahon, and of animated discussion that followed the reading of the papers.

Mr. Tomlinson, whose familiarity with the subject was gained through actual experience some years ago in Michigan, said that the newspaper has become almost a necessity to mankind, and to a great many of the people throughout the country the newspaper furnishes about the only literature de-manded by the community. He raised the questions as to whether the press should be unrestricted, and whether the general public can be relied on to determine whether the matter published is palatable and healthful.

Mr. Tomlinson held that the problem of all newspapers has been to determine whether they shall publish journals for the people and enjoy the right of free speech, or cater to the unthinking masses and possibly enjoy greater prosperity.

Mr. Tomlinson said he believed the masses are entitled to their paper, to the ragtime music, and that he was hopeful that some will weary of their literary sensations and cheap songs and turn to better literature, truthful news record and better music.

He remarked that the encouraging feature of the press is the personnel of the editorial departments, which has greatly improved during the last decade. The large newspapers, he said, now require their staffs to be educated men.

Mr. Tomlinson referred to his early days in newspaper work, when intemperance was common in editorial departments, and was regarded as an evidence of genius, and compared conditions with the present, when intemperate men cannot be found holding responsible positions on the daily press.

News-papers, he said, are half a century old and as the crimes of half a dozen are more startling, and are calculated to arrest attention to a great degree than the virtues of a thousand, it is to the crimes that a great deal of attention is paid by the newspapers.

Mr. Tomlinson also treated of the legal restrictions placed on a paper, and in closing said:

"An honorable newspaper must therefore rest upon the honor, intelligence and integrity of its staff, and the man who scours the streets for news

THE BOARD EXPLAINS

Addresses Council In
Answer to Grand
Jury's Report.

Intimates That the Jury
Was Not Well In-
formed.

Railroad Street Extension
Gets Dampener From
City.

The council last night considered grand jury criticisms. Received Railroad street reports. Received car-line extension. Received street sprinkling kick.

The grand jury got a rather diplomatic punch under the ribs last night. The board of public works landed the jab in the following terms:

Gentlemen--In view of the reference to the management of the city, contained in the recent report of the grand jury, the board of public works, on the features of the subject to which attention has been called. It is needless to say the institution of the rock pile, by means of which the city has been enabled to secure a certain degree of life at the county jail less attractive than the county jail, is a disgrace to the control of the county officials over the prisoners.

The care of county prisoners is not among the prescribed duties of the board of public works, and it is not the duty of the board to have the grand jury to conduct which do not appear to be exact. When any other city or county department desires to use the chain gang, it must be obtained from the county commissioners, and as to determining what prisoners shall work or not work, neither this board nor the guards appointed by this board have anything to say.

Henry S. Mahon treated the press as a necessity for the communication of intelligence in society, the development of society being caused by the adoption of systems. The newspapers distribute and perpetuate news of events. He held that the character of the daily press is not to produce and discuss the periodical press at some length. Mr. Mahon specialized the French press, and declared that the monthly press occupies middle ground, pointing out some of its faults.

The daily press he believed to be the chief concern of the masses, for the reason that it reaches the greater number of people, and is usually fitted for distribution. He also touched upon the circulating system of large newspapers, the accounts are vague, and came from a newspaper reading public. Mr. Mahon said the press reaches masses, and that it is a dangerous and habitual readers of newspapers; that skepticism and contempt for learning is prevalent in the masses, and that the nature of the matter furnished by the papers is of a low order, and the length of the doubtful value of the opinions of the cultured.

Harry White took part in the discussion which followed the reading of the papers.

NO DANGER
Of Any International Complications In the Morocco Affair.

New York, Jan. 12.—While the Morocco affair is more serious, so far as the suitors are concerned, it is not so serious as the Tribune's London correspondent cables, there is no apparent danger of international complications.

Harry White took part in the discussion which followed the reading of the papers.

THE PRESS.
Unity Club Hears Discussion By Messrs. Tomlinson and Mahon.

At the Unity club meeting last evening "The Province of the Press" was the topic of interesting papers by G. A. Tomlinson and Henry S. Mahon, and of animated discussion that followed the reading of the papers.

Mr. Tomlinson, whose familiarity with the subject was gained through actual experience some years ago in Michigan, said that the newspaper has become almost a necessity to mankind, and to a great many of the people throughout the country the newspaper furnishes about the only literature de-manded by the community. He raised the questions as to whether the press should be unrestricted, and whether the general public can be relied on to determine whether the matter published is palatable and healthful.

Mr. Tomlinson held that the problem of all newspapers has been to determine whether they shall publish journals for the people and enjoy the right of free speech, or cater to the unthinking masses and possibly enjoy greater prosperity.

Mr. Tomlinson said he believed the masses are entitled to their paper, to the ragtime music, and that he was hopeful that some will weary of their literary sensations and cheap songs and turn to better literature, truthful news record and better music.

He remarked that the encouraging feature of the press is the personnel of the editorial departments, which has greatly improved during the last decade. The large newspapers, he said, now require their staffs to be educated men.

Mr. Tomlinson referred to his early days in newspaper work, when intemperance was common in editorial departments, and was regarded as an evidence of genius, and compared conditions with the present, when intemperate men cannot be found holding responsible positions on the daily press.

News-papers, he said, are half a century old and as the crimes of half a dozen are more startling, and are calculated to arrest attention to a great degree than the virtues of a thousand, it is to the crimes that a great deal of attention is paid by the newspapers.

Mr. Tomlinson also treated of the legal restrictions placed on a paper, and in closing said:

"An honorable newspaper must therefore rest upon the honor, intelligence and integrity of its staff, and the man who scours the streets for news

which would cost \$75,000, it would be necessary to have a petition of 25 per cent of the property owners, owning 25 per cent of the property, to be assessed. The matter will be given further consideration by Aldermen Schaefer, Fletcher and Neft, but just at present it looks extremely bad for the railroad street extension.

The council instructed the city attorney to prepare an amendment to the present state laws, giving cities of over 50,000 inhabitants the right to pass an ordinance designating the city sidewalks shall be kept free from snow and ice, and giving the cities authority to clean the sidewalks and assess the cost against the property. If the owners do not clean walks within a certain length of time.

Under the present law villages of about 300 inhabitants have full power to keep the sidewalks clear of snow by assessing the cost of the work against the property owners, but cities where such a provision is mostly needed are without the power to compel snow removal, except by arresting offending property owners, and in that way non-resident owners would escape.

Mr. Mitchell has prepared an amendment to the law, and it will be presented to the Duluth legislative delegation within a few days.

Alderman Swenson introduced a resolution requesting the street railway company to extend its street railway system to Fairmount park when the Grand avenue extension is made.

Alderman Mannheim exclaimed: "Request it? Why not order it in. I am not in favor of getting the street railway to the street railway company."

Alderman Cullum said he would advise referring the matter to a committee for investigation, and if the extension should be found necessary, he would be in favor of ordering the line extended.

Alderman Kern replied that if the extension was not necessary, Mr. Swenson would not have proposed it. It was a good plan to have the street railway officials meet the council for a general conference on all street railway improvements, but this suggestion was lost sight of temporarily and the Swenson resolution referred to Alderman Cullum. Schaefer and Fletcher were for investigation.

Edward Devaney presented a claim of \$20 for alleged damages to a driving horse by a fall through a West Michigan street manhole last October.

THE STAGE

The Killies made a great hit in Duluth. Both matinee and evening audiences were large, the latter especially so, for the Lyceum was filled from pit to dome. Enthusiasm was high, but it was the music of old Scotland, the Highland fling and other Scottish dances, the Scottish songs, the bagpipes, etc., which stirred the audience rather than the excellence of the rendition of the various numbers.

The hand is a fine organization musically, and it selects its numbers with a view to popularity. It is, however, lowering its standard musically. Its singing chorus is fine and is used effectively. This was specially noticeable in the Irish selection "Erin."

The Highland fling was danced at the evening concert by Master Eugene Lockhart, and was received with unbounded enthusiasm. The sailors' hornpipe, by David Ferguson, was no less popular, and when Mr. Ferguson responded with the sword dance, the hearts of the Scots were filled to overflowing. J. Couper, lockhart, the possessor of a fine tenor voice, sang several pleasing numbers.

The night song, "Andon, rendered solos on the bagpipes and they caught the favor of the Scots no less certainly than did the songs and dances.

At the conclusion of the program the Killies choir, consisting of the band members arose and sang "America" and "God bye the King." The choir was not a score of people in the audience either after or before the evening concert. It is a pity that it was the proper thing to rise also during the singing of the national anthems.

"Lord Strathmore" with Virginia Drew Trecoast heading the cast, will be the attraction at the Lyceum this evening and tomorrow evening, and a splendid scenic and dramatic production is promised. The play is founded on Othello, and is said to contain much pathos and relief comedy. There are five acts. The management is said to have surrounded the star with a fine cast.

A well-filled house greeted the third evening of the Morris comedians at the Metropolitan opera house last evening. The company played "Lanwood," a beautiful war-time story of the Kentucky border, full of love and fighting, with appealing and amusing features. The jester are all well taken. "Lanwood" will be repeated this evening and Wednesday afternoon and evening. The specialties introduced this week are of a very pleasing nature.

THE DAKOTAS.

Minister Married on License Secured In Another County.

Sioux Falls.—The marriage in this city of Rev. W. J. Cleveland, formerly of Madison, but now resident missionary of the Episcopal church at Pine Ridge Indian agency, and Miss Minnie Reade, has brought out a discussion as to the legality of the ceremony, which was performed by Right Rev. W. H. Hare. The question was raised because the marriage license was not secured in this county, having been issued in one county is good in another, and the question now arises as to whether the oversight of the bridegroom and the officiating clergyman will make the solemnization necessary. Some attorneys maintain that the marriage was legal beyond any doubt. It is, however, thought likely that rather than have any question about it, the clergyman and his bride will be remarried.

Chief of Police Martin has received a telegram from Coroner C. A. Osterland, of Brainerd, Minn., stating that a man named John Welsh died at that place. Welsh evidently was supposed to have come from Sioux Falls, as Chief Martin was requested to notify his relatives. The chief conducted an inquiry, but could find no relatives.

Huron.—A telegram from Yankton announces the death at the hospital of Attorney R. H. Alpin, of this city. Mr. Alpin's mind became affected about two years ago. He served two terms as state's attorney for this county, and one term as state senator. He was a native of Wisconsin and graduated from Lawrence university at Appleton. He came to Huron in 1883, and three years later married Miss Minnie Brown, who survives him.

Yankton.—Coroner H. F. Livingston was summoned to Utica, where an unknown man had been found dead on the track, cut to pieces by a passing train. The Scotch Little Temple association has elected directors as follows: H. E. Eernan, William Ed-

Facts About Piano Prices

Nothing is easier than to advertise \$600.00 Pianos for \$300.00, or \$300.00 Pianos for \$150.00, but the question is, are such statements true, or are they intended to mislead the public?

We believe that the price of a piano is the smallest amount it can be sold for and pay the dealer a legitimate profit for the handling. Starting with this definition of the term price, the argument would be as follows and would lead to obvious conclusions.

For instance, if a dealer advertises a Piano, "Price \$600.00, for this special sale \$300.00," there are two constructions to be placed on his statement. *Firstly*—If he has been selling that kind of Piano for \$600.00, and that is really his price, how can he sell it for \$300.00, thus sacrificing \$300.00, unless he has been making unheard of profits and can really afford to sell the instrument for \$300.00 instead of \$600.00.

Secondly—If he has not been selling those Pianos regularly for \$600.00, but at about \$300.00, then his advertisement is false and intended to mislead the public.

The same applies to any Piano advertised or offered at half price.

More Facts

Pianos in this store are marked in plain figures at all times at their correct selling price. They never have been or never will be sold at half price because the prices are legitimate to begin with, but we say boldly that our regular prices much lower than the so-called half prices of most Piano dealers in Duluth.

The following is only a partial list of the many bargains offered.

Used Mahogany Upright Piano \$125
\$8.00 cash and \$5.00 a month.

Large Upright.....\$158
\$8.00 cash and \$6.00 a month.

Large Mahogany Upright.....\$175
\$10.00 cash and \$6.00 a month.

Mahogany Upright.....\$185
Used four months, good as new, \$10.00 cash and \$6.00 a month.

Oak Upright.....\$185
A fine instrument, \$15.00 cash and \$7.00 a month.

\$400 Mahogany Upright.....\$290
One of the oldest and best makes, \$20.00 cash and \$10.00 a month.

\$325 Upright, Oak.....\$265
Easy Terms.

Notice.

Should you contemplate buying a Piano on monthly payments it is well for you to know that this is the only Piano store in Duluth that buys all instruments out and out for cash, and that retains customers' contracts in its own possession and endorses each payment on the back thereof. In buying from dealers who do not hold contracts in their own possession, it is embarrassing for customers to find their money in the hands of the manufacturer, the bank or the notes lender.

munds, W. S. Stockwell, H. Loonan, V. Snyder, Louis Chladek and J. J. Nissen. These re-elected the old officers for the ensuing year.

Centerville.—C. N. Madsen was appointed city attorney, and will commence at once to revise the city ordinances. The council has granted a twenty-year franchise to the Rural Telephone company of Centerville.

The Odd Fellows' lodge installed the following officers: Henry Vicks, N. G. F. M. Putham, V. G. V. C. W. Cass, secretary; Frank Williams, treasurer.

Flandreau.—Occupying a cell is a man who gives his name as William Ester Holdup, who is charged with attempting to rob a Colman saloon keeper named Anderson. Another stranger, who was supposed to be a partner of Holdup, was chased by citizens, but he succeeded in escaping.

Summit.—Joseph Handel was struck by a westbound passenger train on the Milwaukee road and instantly killed. He had started to walk on the railroad track to Wausau. He was facing a building storm and did not hear the approaching train.

Pierre.—J. T. Lang, who came here from Sioux Falls last fall and started a second-hand store, has been declared insane and will be taken to Yankton. An attack of typhoid fever is accountable for his condition.

Charles Stokes, a negro, was found Saturday in a claim shanty on the range so badly frozen that both his feet had to be amputated. He was coming in from a ranch where he was at work and broke.

NORTH DAKOTA.
Fargo.—A Bemidji man found his wife here and effected a reconciliation. During absence three weeks ago she left home and entered a joint at Blackduck, from where she came to Fargo and continued the same life. She was tired of the experience and gladly accepted her husband's offer of forgiveness.

Fargo school officials have adopted a method of promoting the children in the middle of the year, which provides for those who are able to be advanced a grade, and also makes a place for the pupils that have become of school age since the beginning of the term. Frequently it makes a difference of a year in the completion of the graded course, and has been found to work satisfactorily.

Gayville.—James Clark met with a painful accident while grinding corn. The machine became clogged with shucks, and he attempted to remove them and lost part of one finger and had another crushed to a pulp.

Mission Hill.—Fire destroyed the general store and stock of McPeck & Co. Loss about \$20,000. Insurance, \$5000. Origin of fire unknown.

FIRST MOVE MADE IN CONGRESS FOR UNITED STATES TO TAKE POSSESSION OF COAL MINES AND COAL HAULING ROADS

HARD COAL DUTY REPEAL IS URGED

The Minnesota Legislature Goes on Record.

Changes In House Committees Are Made.

(From a Staff Correspondent.)

St. Paul, Jan. 14.—(Special to The Herald.)—The legislature has passed itself on record against the coal duty. The concurrent resolution against the tariff on hard coal that passed the senate yesterday was concurred in this morning by the house without debate and without opposition. The resolution declares the duty to be unjustified, and calls upon the Minnesota representatives in the national legislature to repeal it at once.

Speaker Babcock announced several committee changes, as follows: Nelson replaces Mark on the educational committee, Nelson replaces Benson on the public accounts and expenditures committee, Nelson replaces Erickson on the public land committee, Nelson replaces Stone on the public health committee, Hinton replaces Nolan on the state prison committee, Rooker replaces Shove on the state training school committee, R. T. Lewis was added to commerce committee, Hickey was added to judiciary committee.

The commission that is revising the statutes presented a lengthy report showing what had been done. It also showed that it will be impossible to complete the work within the time fixed by the law creating the commission, and that the money has run out, so that it is up to the legislature to place some more at the disposal of the commission. When it was created \$15,000 was appropriated and \$15,000 was placed at the disposal of the commission. That is now exhausted, and the commission, while it does not say so in so many words, would like to have the legislature release the rest of the appropriation. The house passed a resolution to that effect, and the bill should be referred to a joint committee, consisting of eleven house members and seven senators, and Speaker Babcock

appointed the following: Tighe, Sinclair, Hinton, Dorsey, Hickey, Stevenson, Hawley, Cole, Rider, Bardwell and W. A. Nolan.

Speaker Babcock announced the appointment of six pages, a stenographer and three clerks, but none of the Duluth place seekers was in the list. Mr. Bardwell introduced a bill for the submission of tax amendments to the constitution to the voters at the next general election. The bill included the same amendments that were voted on last November and failed of passage. The author of the bill stated that he introduced them simply to get the matter before the house, and to furnish a basis for drafting such proposed amendments as the house might see fit. The same bill has been already introduced in the senate by Senator Wilson.

Eleven were introduced in the house, mostly amendments to old laws, and mostly of a local nature. A bill by Mr. Deegan provides that cities, towns and villages shall pay the expenses incurred in handling contagious diseases, and that the counties shall reimburse them to the extent of one-half of the amounts. A tax levy not to exceed one mill is provided for by the bill for the purpose of caring for contagious diseases.

Mr. Lohren introduced a bill repealing the wolf bounty law altogether, except in so far as it permits counties to pay rewards for killing wolves out of their own funds. Mr. Lemke introduced a bill making the reward for catching horse thieves \$200 instead of \$50. Mr. Dorsey introduced a bill allowing the Ancient Order of United Workmen to incorporate as other similar societies may now do.

The house adjourned to tomorrow morning at 10 o'clock.

In the senate two more amendments to the primary election law were proposed.

(Continued on Page 10.)

FIGHTS IN PROSPECT

In the Legislature Over Bucket Shops and Local Option—Bill to Repeal the Corrupt Practices Act.

(From a Staff Correspondent.)

St. Paul, Jan. 14.—(Special to The Herald.)—The anti-bucket shop bill, introduced in the senate yesterday by Senator Gjersten of Hennepin county, injects a new possibility of interest into the legislative situation, and one that has not heretofore been discussed to any extent. There are a number of matters likely to come up which are sure to breed lively fights, such as the local option bill—a biennial figure—and the gross earnings and expected measures. These were expected and had been discussed, but the local anti-bucket shop bill is a new figure in the arena. Its author has laid a great deal of attention to the subject, and he says that he has given the preparation of the bill very careful consideration and that he believes that it will stick, and that if properly enforced it will answer its purpose. Senator Wilson, who is the attorney of the Minneapolis chamber of commerce, has given the bill his study and has expressed his belief that it will have the effect of closing up the bucket shops.

But it is not supposed for a moment that any of the bills are likely to lay down and let the bill go through by default. The business is a pretty good one, it is said, and a vigorous fight

against the bill may be expected confidently. Duluth has not been much interested in this matter as had Minneapolis, where a fight against bucket shops has been waged by the chamber of commerce—which corresponds, of course, to the Duluth board of trade. There being any actual transfer of the commodity ostensibly dealt in; those where deals are made to close when the quotations reach a certain figure, and those where deals are made without any bona fide transaction on a legitimate board of trade exchange. The conduct of such enterprises is made a crime, and a punishment provided, as stated in yesterday's dispatch.

Another interesting senate bill is that by Senator Wilson of Hennepin county, repealing the corrupt practices act. The corrupt practices act is a very noble measure, and one of the best of its kind in the list of all corruptions in elections, and to that end it is well devised. But it is probably the most ridiculous feature of the bill is the provision for the repeal of the act on the statute books of Minnesota. The law was enacted in 1895. There have been four general elections since, not to mention a host of city and special elections, and there has not been one conviction under the law, and

(Continued on Page 8.)

OBJECTIONS TO TREATY

Additional Protests on Various Grounds Are Made to Committee Considering the Reciprocal Treaty With Cuba.

Washington, Jan. 14.—The senate committee on foreign relations today agreed to recommend the adoption of an amendment to the Cuban reciprocity treaty, providing that the 20 per cent in the tariff on Cuban sugar shall not be further reduced by any preferential rate given to another country. This action was taken at the instance of the beet sugar men.

Today's meeting also served to develop objections to other general tariff amendments to the provisions relating to tobacco and cattle, and Senators Bacon and Bailey, both Democratic members of the committee, indicated opposition to the treaty on other grounds. Senator Bailey took positive ground against the policy of securing reciprocal relations with other countries by means of treaties.

He said that such a course is unconstitutional and that it is an interference with the authority vested in the house of representatives, to originate all tariff legislation.

The amendment agreed upon is in the shape of a proviso attached to the eighth article of the treaty, and is as follows: "Provided, that while this convention is in force, being a treaty, being a product of the soil of the republic of Cuba, shall be exported from said republic to the United States at a greater reduction of duty than 20 per cent below the rates prescribed by the tariff act of July 24, 1897." The committee voted down a motion made by Senator Bacon to strike out article 8 of the treaty exempting American tobacco from preferential rates given by Cuban-American articles.

THE JURY TO INDICT

Sufficient Evidence Has Been Found Against Coal Dealers.

At Least Three Combinations Deemed Guilty of Conspiracy.

Criminal Prosecutions to Follow Report of Jury.

Chicago, Jan. 14.—Conspiracy indictments against members of at least three hard and soft coal combinations doing business in Illinois and Indiana, are expected as the result of the labors of the special grand jury in the fuel famine inquiry. It is considered possible that these indictments will include witnesses who have appeared before the investigating body. This, it is asserted, can and probably will be done through corroborative evidence secured, tending to prove guilt brought to the attention of the jury by the witnesses. The jury were advised today, it is believed, in what instances the evidence is deemed strong enough to convict, and true bills may be found late today or tomorrow. Assistant State's Attorney Albert C. Barnes, who is the chief prosecutor in criminal cases, has been called in to aid in designating the men against whom sufficient evidence has been secured, and his advent is taken to mean that criminal prosecutions are a certainty.

SOME RELIEF

For West In Removal of Duty on Coal.

St. Paul, Jan. 14.—(Special to The Herald.)—President James J. Hill of the Great Northern railroad, when asked by the Associated Press representative for an opinion as to the prospect of relief from fuel famine by the importation of Canadian coal, if the proposed bill passed congress, said: "With duties on Canadian coal abolished, a large amount of Nova Scotia and Cape Breton coal will reach New England and will relieve the pressure on Pennsylvania and West Virginia coal. There is no Canadian coal nearer St. Paul and Minneapolis than 1100 or 1200 miles, which is quite as far as the West Virginia mines."

CROSS BILL

Filed By Pennsylvania Company Against Western Union.

Pittsburg, Jan. 14.—A new phase of the legal battle between the Western Union telegraph company and the Pennsylvania Railroad company developed today when the latter filed in the United States circuit court against the Western Union. The cross bill alleges that a partnership was entered into between the plaintiff and defendant in 1898, and that the defendant, by its acts, has violated the contract and agreements between the plaintiff and defendant, and that the plaintiff is entitled to damages and the return of the property constituting the lines of telegraph which are the subject matter of this litigation.

The court is further asked to declare that the Western Union company has no right or authority to occupy any portion of the property of the plaintiff under acts of congress. The cross bill also grants a perpetual injunction restraining the defendant from interfering with the plaintiff after the 2nd day of June, 1902, in removing the property from all of the lines of the defendant company if necessary.

The Pennsylvania company also filed an answer and demurrer in the previous case, asking that the portion of the agreement that no other company or individual be permitted to build or operate a telegraph line over the Pennsylvania railroad company be declared void and illegal because it was intended to create a monopoly in the telegraph business.

ENTRANCE OF UNION

Among Miners Caused Great Amount of Trouble.

Strike Commission So Informed By the Erie Representative.

Relations With the Men Were Cordial Before That Time.

Philadelphia, Jan. 14.—There was no time lost by the coal strike commission today in getting down to work. When the session opened counsel for the Erie company, which operates the collieries of the Hillside Coal and Iron company and the Pennsylvania Coal company, continued the presentation of its case. Capt. W. A. May, general superintendent of the coal department of the company, who was on the stand yesterday, continued his story of the conditions in and about the company's collieries. Mr. May said he was always willing to meet grievance committees of his own men, or any one man. Where there was a real grievance it was always adjusted.

Bishop Spalding asked the witness if the men do not feel timid about making complaints, and the witness replied that the men possibly have been timid. The instructions to the bases, he said, were that foremen must listen to the men and that complaints will not count against the men.

The superintendent said the company has no blacklist and he never heard of one being in existence in the coal region. There was no objection to the men in its employ organizing for the purpose of making complaints, but it did object to the union, as now organized, because it brought between the men and the company, and limited the earning capacity of the employees.

Capo produced a notice issued by the union miners, which stated that any man placing more than three inches of topping on the mine cars would be fined \$5 by the union for the first offense, and \$10 for the second offense.

Between the strike of 1900 and the late strike there was an average of one petty strike a month at the company's collieries.

Referring to the discipline of the men, the witness said a miner fairly refused to obey the orders of a foreman and that the latter did not dismiss him because he was afraid of the union would tie up the colliery by striking for the reinstatement of the man.

Commissioner Clark wanted to know if the action of the foreman in not dismissing the offender did not affect the discipline of the men and the witness said it undoubtedly did.

Captain May said the employment of coal and iron workers was limited by the time of strikes. Deputy sheriffs sympathized with the strikers and the sheriff was unreliable. Counsel asked about the docking and weighing system and the witness said that he did not think the miners deserving of a better plan, but he had changed his mind since.

Witness said he was personally acquainted with President Mitchell, but he would object to meeting him as the agent for the Western Union telegraph company, because it would bring in an outside interest in the business. He said the agreement without the interference of an agent. Witness said in reply to Commissioner Clark that in case the men and the company failed to agree he thought an arbitrator would be called in. A recess was taken until 2:15 p. m.

PRUSSIAN BUDGET DEFICIT.

Berlin, Jan. 14.—The Prussian budget estimates for 1903 show a deficit of \$13,175,000, which will be covered by a new loan. The revenue is estimated at \$69,561,482, the ordinary expenditure at \$62,902,408 and the extraordinary expenditures at \$39,634,074.

PLATT RENOMINATED. Hartford, Conn., Jan. 14.—In a caucus lasting only three minutes, Senator Orville H. Platt was unanimously renominated today by the Republican members of the general assembly for another term in the United States senate.

COAL MINES AND RAILROADS MAY BE RUN BY GOVERNMENT

ACTION AT DETROIT

A Restraining Injunction Against Coal Exchange Is Asked.

Violation of the Anti-Trust Law Is Charged.

Information Filed With Court By the Prosecuting Attorney.

Detroit, Jan. 14.—After much investigation for a number of days Prosecuting Attorney Hunt today filed an information in the Wayne circuit court against the Detroit Coal exchange, an organization of thirty local coal dealers, charging violation of the state anti-trust law of 1899 and asking an injunction. In the information, Prosecutor Hunt quotes Section 5 of the constitution of the exchange, which declares that members shall not sell coal under the minimum price fixed by the exchange. Prosecutor Hunt declares that this is in violation of the anti-trust law of 1899 and asks for an injunction to restrain the exchange and its members from maintaining the exchange at any other combination. Judge Hosmer will hear arguments on the injunction Jan. 26.

WEST VIRGINIA

Governor's Message Shows Treasury In Fine Condition.

Charleston, W. Va., Jan. 14.—The biennial message of Governor White to the legislature of West Virginia was submitted today. The cash balance in the state treasury was the largest in many years. Governor White attributed this to the "Dawson" corporation law. The state treasury was the largest in many years. Governor White attributed this to the "Dawson" corporation law. The state treasury was the largest in many years. Governor White attributed this to the "Dawson" corporation law.

CANADA TO COMPETE

For British Trade In Structural Iron Work.

New York, Jan. 14.—It is understood that the Canadian high commissioner, which point to the entrance of the British iron trade, according to the correspondence in London of the Tribune. The Dominion Iron & Steel company has decided to go into the manufacture of structural iron work on an immense scale. A thoroughly up-to-date plant is being built down and has ample capital at its back for development. British iron manufacturers are apparently not alarmed by the rumors of a Canadian invasion, but the recent cutting of prices is imminent.

DEAD HAND IDENTIFIED.

South McAlester, I. T., Jan. 14.—The body of a man who was killed in the fight with United States deputy marshals at Spiro, after being buried in the cemetery of Samuel Morley, for whose capture \$200 reward was outstanding. Morley has murdered three men before his last battle.

MANY NARROW ESCAPES

Fire In Infirmary at Pensacola, Fla., Caused Great Danger to the Patients—All But One Succeeded In Getting Out.

Pensacola, Fla., Jan. 14.—Fire early today totally destroyed Bryan's large three-story infirmary on the corner of Bayler and Dardin streets. One of the patients, named Blockton, was burned to death. Citizens aided the firemen in rescuing the patients. Many narrow escapes were made and all the patients were compelled to leave the building in their night clothes. As a result of the exposure several patients had relapses. All the patients were removed to St. Anthony's hospital, where they were given prompt attention.

Nothing was saved from the building and the loss is total. The building was owned by Dr. R. Y. Bryan.

COMPANY TRIED FOR MURDER

New York, Jan. 14.—The New York Central Railroad company is on trial in the Herkimer county court, says a Times dispatch from Utica, N. Y., charged with murder in the second degree. The railroad round house in Herkimer was the scene of a terrific explosion in August, 1902. Five men were killed. It transpired that the railroad

company had stored high explosives in the building, contrary to law and village ordinances. The company was indicted for violating the penal code and for murder, second degree. The railroad's attorneys moved to dismiss the indictment, but the court denied the motion and evidence as to the contents of the building, and the explosion is being heard.

Resolution For Investigation of Powers.

House Passes Bill Rebatting Duty on Coal.

Washington, Jan. 14.—The chairman of the judiciary committee of the house today introduced the following resolution: Resolved, that the committee on the judiciary be and is hereby directed to investigate and report to this house with all convenient speed the opinion of that committee as to the power of congress to declare that a necessary has arisen for taking possession of all coal, coal beds and coal mines in the United States and all lines of transportation, agencies, instruments and vehicles of commerce necessary for the transportation of coal, and that if in the opinion of that committee the power exists and a necessity for the exercise of such power has arisen, that the committee forthwith report to this house a bill declaring the necessity, providing fully and in detail the occasions, modes, conditions and agencies for said appropriation that will fully and completely exhaust the power of congress in that regard.

Washington, Jan. 14.—The large attendance of members in the house and visitors in the galleries today was an evidence of the general interest in the proceedings which were to take place on this bill providing for the rebate of the duties on foreign coal for a period of one year. After the preliminary business, Mr. Grosvenor, from the committee on rules, presented a resolution supplemental to that adopted yesterday directing the committee on merchant marine and fisheries to investigate the coal situation. The resolution authorized subcommittees of the committee to take testimony. It was adopted.

Mr. Dalzell (Pa.), from the committee on rules, then presented the special rule for the consideration of the coal rebate bill. It provided for the immediate consideration of the bill, with provision for one hour's debate, at the end of which time the previous question should be considered as ordered without intervening business. Two minutes' debate was allowed on the rule. Mr. Dalzell, after revealing the platform of the pending duty on coal, said that although the pending bill needed no defense, he did not

believe it would relieve existing conditions. "I do not believe," said he, "that anything now can stop the greed and avarice of the corporate who are taking advantage of the already expressed people, but it will satisfy a public sentiment and show the disposition of congress to do everything in its power to relieve the situation."

Mr. Mondell (Wyo.), said the bill would injuriously affect the coal industry of his state and of the Northwest generally by permitting competition, and in view of the stated belief of Mr. Dalzell that the bill will give no relief, he asked if the committee would not consider the question of reducing the period of its operation to six months. Mr. Dalzell said the proposition had been considered, but because of the impossibility of forecasting the future of the coal trade it had not been adopted.

Mr. Richardson (Tenn.), called attention to the fact that the rule provided all possibility of amendment, and he protested against such a course in such a crisis. Proceeding, Mr. Richardson said that when the stress of emergency came there was, perforce, a recourse to Democratic doctrine.

Mr. Williams (Miss.), who followed Mr. Richardson, contended that the removal of duties must result in reducing the price of coal. In concluding the debate on the rule, Mr. Dalzell declared that the hypothesis of the other side was supported by remarks of Mr. Richardson. The opposition side was simply playing politics. "The Democratic 'perfidy and dishonesty' has been shown on this coal bill." A rising vote upon the adoption of the rule resulted, yeas 138; nays 110; a party vote with the exception of Mr. Perkins (Iowa, N. Y.), and Mr. Gaines (Iowa, W. Va.), who voted with the Democrats. A roll call was demanded and the roll was adopted 141 to 113. Messrs Perkins and Gaines voting with the Democrats. Mr. Dalzell said that neither he nor any of his colleagues was opposed to the bill. Mr. Payne (N. Y.), in support of the bill, contended that the coal rebate agency which made its passage advisable. He did not believe its enactment would result in the importation of cheap coal, or in much reduction in its price.

INSPECT STOCK YARDS

Live Stock Men Visit Yards and Packing Houses and Get Ready For Grand Ball In Their Honor.

Kansas City, Jan. 14.—But one session of the National Live Stock association's annual convention was held today.

After considering resolutions presented yesterday, and listening to several speeches on various topics, the delegates spent the afternoon inspecting the stock yards and visiting the packing houses. Tonight a grand ball and reception will be given at convention hall, for which elaborate preparations have been made. Ex-Governor David R. Francis, president of the Louisiana purchase exposition, who was to have

read an address before the convention today, notified President Springer that he would be unable to be present because of pressing duties in connection with the fair.

Denver was added to the list of cities that desire to entertain the convention next year. The biggest effort to secure the next convention is being made by the Portland, Ore. delegation, which apparently is in the lead for the honor. The program today included the following papers: "Gleanings in Our Financial System Which Would Benefit Stockmen," by S. R. Flynn, Illinois, and "Our New Markets for Live Stock," by Hon. George F. Thompson, Washington, D. C.

THOUSANDS PLAYED EUCHRE

New York, Jan. 14.—The largest crowd of euchre players ever assembled at one sitting, it is declared, gathered last night in the Fourteenth regiment armory, Brooklyn, where 500 persons played the game. There were 150 tables. These were arranged in sections so that

there was forty players in each section. A band of music was assigned to every twenty sections. The dozen bands played in uniform under direction of one leader. The party was given by the students of St. Francis college of Brooklyn. Ten thousand dollars, it is estimated, was realized.

BANK BILLS FOR LEGGINGS

New York, Jan. 14.—Joseph Gotsch, who is serving a sentence in the jail at White Plains, N. Y., for stealing coal, was found by the warden to have strapped around his legs, over \$220 in bills. Asked why he

did not buy coal with his money he said the dealers refused to sell to him and so he stole, and that, as he did not believe in hard work and had to carry the money, he thought he might as well use it to protect himself from freezing.

MEN IDLE FOR WANT OF COAL

La Crosse, Jan. 14.—The Novelty Wood works has laid off its large force on account of being able to get coal, and the La Crosse rubber mills, employing several hundred hands, is to shut down tomorrow if coal is not forthcoming. Several manufacturers called on the rail-

roads for help, but the reply was that they had none so much for their own use. Families are doubling up in the tenement houses, and the streets and yards are filled daily with children begging for coal. Local dealers are filling only small orders.

STABBED SEVENTEEN TIMES

Chicago, Jan. 14.—The dead body of a man apparently an Italian, was found last night in Jackson Park. The man had been stabbed to death with knives, there being seventeen cuts in the body. One of the hands was clenched and badly cut as though the man had attempted to grasp the knife used against him and it had

been drawn through his hand. Beneath the body was found a revolver fully loaded, but bearing no evidence of having been recently discharged. There were no papers or other identifying marks on the body. No attempt had been made at robbery as a small sum of money had been left undisturbed. The man was well dressed and was not a laborer.

La Grecque corsets

Are still making constant increase in popularity. The Greek model of feminine form, embodied in these corsets, gives them a grace attained by no others. Cost no more.

ALREADY AT WORK

Scheme For Midsummer Exposition Is Being Rushed.

Thomas E. Hill Is Secretary of Agricultural Association.

Form of the Certificate of Membership Is Prepared.

Secretary Thomas E. Hill of the Northern Minnesota and St. Louis Agricultural, Mechanical and Industrial Fair association, which was organized yesterday afternoon at the Spaulding hotel, has begun work for the August exposition.

Tonight!

Music at West Duluth Covered Rink.

Grand masquerade next Friday night. Prizes. Admission, Gents 25c. Ladies 15c.

Mr. Hill has drawn up the form of the certificates of membership, and will send them to the printer today. He expects to have the certificates and tickets ready for distribution by Monday or Tuesday of next week.

"First we must find out what the funds of the association will amount to," said Mr. Hill, "and to do this the sale of tickets must be begun and prosecuted at once. When once the fund is completed we will know how much we can spend, and then we will ascertain what will be the most profitable things to spend it for. I will devote my whole time to the work, and between now and the time the certificate sale has advanced far enough to give us an idea of what returns will be made I will have the program for the actual work, preparatory to holding the fair, laid out."

The form of the certificates is as follows:

Price of Certificate, \$5.
Season of 1903.
Admission to Fair.
Only by Ticket of Admission.
This Certificate Constitutes Membership in the Northern Minnesota & St. Louis County Agricultural, Mechanical and Industrial Association at Duluth, Minn., and Entitles the Person to Continued Membership Hereafter Upon Renewal at the Annual Meeting of the Association, held on the First Tuesday in January.
E. D. Stevens, President.
Sidney Penney, Treasurer.
T. E. Hill, Secretary.

The election of officers at the meeting yesterday resulted in D. E. Stevens' reelection as president and the choosing of S. W. Clark as vice president. T. E. Hill as secretary and Sidney E. Penney as treasurer. The board of directors was selected as follows: D. E. Stevens, S. E. Penney, C. P. Craig, Ray T. Lewis, J. D. Allen, Thomas E. Hill, S. W. Clark, John Jensvold, John Christie, J. A. Scott and Simon Clark. The meeting was the annual gathering of the St. Louis County Agricultural and Industrial Association, and after the report of the secretary and officers, which showed that there is a healthy and active association dissolved, and the new one was formed on broader lines and with the determination of ultimate making the Duluth exposition one of the big shows of the year in the Northwest.

The question of raising money is solved now, and the work of applying the suggestion of Mr. Hill begins at once. In the minds of the officers and directors of the association there will be little difficulty in raising enough to make a great showing this summer.

"We expect that societies, lodges and churches will take this up for their own benefit," said Mr. Hill today. "Under the plan any society may secure the twenty 50-cent tickets, or as many lots of them as they wish, and dispose of them to members at 50 cents, which is the price, and thereby aid their own treasury, as well as doing something for the progress of Duluth. The tickets with the certificate will cost but \$5 and the price of the tickets is \$10, so that will be an inducement."

"Work on the gathering of exhibits and interesting persons who can make exhibits will begin at once. One of the features will be an Indian village, with Indian families from both reservations. All this will develop and we will have one of the most interesting fairs in the Northwest."

Free to All. Ladies of Duluth and vicinity, you will find your friends this and next week at the Armory, attending the cooking school, 10:30 a. m. and 2:30 p. m. each day. Attend tomorrow to convince yourself.

THREE KILLED IN COLLISION. Beaumont, Texas, Jan. 14.—In a collision between two Southern Pacific freight trains at Sour Lake, Texas, this morning, Fireman J. A. Huddleston and two unknown men supposed to be tramps, were killed. Conductor Daniels is missing. Several trainmen were injured and seven cars were burned.

On every box. A Woman in Red. Never take another instead.

ELECTRO SILICON

When a dealer says another "it's just as good" remember that's "shop talk" which means greater profit for him but loss for you. Its unlike all others, it's best. "SILICON," 30 CHURCH STREET, NEW YORK.

TO THE JURY.

Shea Case Against Cloquet Lumber Company Submitted.

The case of William Shea against the Cloquet Lumber company went to the jury this afternoon, the entire morning session of the court being given up to argument by the defense and in argument by the plaintiff. The case was carried up to the United States supreme court, where it is still pending.

The case of the present time two big suits in United States supreme court with reference to the Cedar Island Lake lands. The case which the settlers instituted to determine their action which was carried up to the United States supreme court, was carried up to the United States supreme court, where it is still pending.

The settlers are asking to enjoin the defendants, government surveyors, from resurveying the disputed lands on the ground that the necessary lines that would have to be run would cause the destruction of a large quantity of valuable timber. The case will represent the plaintiffs, and the United States attorney general will defend the action for the government.

GOES FREE.

Paul Davis Not Indicted For Robbing Peerless Saloon.

Paul Davis, who was arrested on the charge of robbing the Peerless saloon Dec. 17, was not indicted by the grand jury. It being held that the evidence against him was very slight and not sufficient to secure a conviction. Davis has not yet been given his freedom within the next few days. No action was taken by the grand jury with reference to the purported confession written by Chief Troyer from Hibbing by some man who claimed he did not wish to see Davis punished for a crime he did not commit. All the evidence against Davis was the fact that he had two pieces of Canadian money on his person when arrested, and the bartender of the Peerless saloon testified that there was some Canadian money in the amount stolen.

PETITIONS.

County Board Asked to Allow Two Men Permanent Jobs.

A petition is being circulated by the friends of G. W. Thatcher and John Wesenberg, deputy sheriffs, asking that they be permanently retained in the sheriff's office. The petition will be presented to the county board. At the last session of the county commissioners the appointments of the two men as deputies were confirmed, but it was stipulated that they should serve only when directed by the sheriff. Their compensation to be \$3 per day, the county board holding that in a session their compensation were not needed. It is claimed that fifty signatures were obtained to the petition yesterday, including the names of nearly all the prominent business men.

The crowned heads of every nation. The rich men, poor men and misers. All join in paying tribute to DeWitt's Little Early Risers. They cure Constipation, Biliousness, Torpid Liver, Malaria and all other liver troubles. Max Wirth.

MINING LEASES.

Several Assignments of State Leases Are Filed.

Several state mineral land leases with assignments were filed with the register of deeds this morning. Three of the leases ran to Allyn F. Harvey. One dated April 24, 1902, gave him mineral rights in the northwest quarter of section 36-58-21; the second dated June 2, 1902, leased the northwest quarter of section 36-58-20, and the third lease was dated May 2, 1902, and covered the south one-half of the northwest quarter of section 36-58-18.

Another state lease ran to A. M. Miller, John G. Brown and Alfred Merritt to mineral lands in the southeast quarter of the southwest quarter and the southwest quarter of the southeast quarter of section 6-58-17. The lease was dated June 13, 1900. Assignment of the Miller-Brown-Merritt lease to Alfred Merritt, under the date of Jan. 17, 1902, was filed, also assignment of the same lease by Alfred Merritt to A. F. Harvey, May 15, 1902, for \$1000, and reassignment by Mr. Harvey to Corrigan, McKinney & Co., under the date of June 1, 1902.

Local forecast for twenty-four hours ending at 6 p. m. (local time), Thursday, January 15: Partly cloudy with possibly snow flurries and light southerly winds. Fresh and brisk westerly winds. H. W. RICHARDS, Local Forecast Official.

Chicago, Jan. 14.—(Wireless): Partly cloudy tonight and Thursday with possibly snow flurries and light southerly winds. Fresh and brisk westerly winds. H. W. RICHARDS, Local Forecast Official.

It is stated that a German psychologist, who has been devoting himself to the study of the waste of mental power in memorizing, has come to the conclusion that it is uneconomical of effort to divide a poem into sections for memorizing. He claims that 25 per cent of effort is wasted by this method as compared with repeating the poem as a whole until it is committed to memory. This authority, Max I. Isen, tested three methods on a class of thirty boys. He read through one poem and then had the boys write what they could remember, repeating the process five times. Another poem he read through five times and then had the boys write what they could remember, repeating the process five times. He holds that the result proved that the conventional method of repeating the poem five times, and that the last part is apt not to be so well learned. But this conclusion is open to doubt, because it leaves out of consideration a very easy and practical method which is adopted by many people who have much memorizing to do, and which consists of taking the poem in "interlinking" sections, say first and last four lines, then the third to the sixth, then the fifth to the eighth, etc., so as always to have a bond between the parts. A critic of Herr Isen's claims thinks it is odd that German thoroughness should overlook the most scientific of all methods.

It is well known that the administration is strongly in favor of reducing the present duties on Philippine products from 75 per cent of the duty tariff, at which they stand now, to 25 per cent. A study of the figures of the export trade of the islands, however, does not show the real necessity of such action. Seventy-five per cent of everything that is raised in the Philippines now enters the United States free of duty, the most important items being copra and hemp. The only other importations of any account are tobacco and sugar, and very little of either of these articles reaches the United States. It is stated at the war department that the entire collections from duties on Philippine goods received at our ports amount to only \$16,000 or \$17,000 a year. Secretary Root characterizes them as "practically nothing." What little revenue is derived in this fashion comes from tobacco and sugar. This merely goes to show that the great bulk of the trade of the islands is in goods that are already admitted free, and that to cut down the existing duties will have little effect until the sugar and tobacco industries have expanded enormously. Last year the total export trade of the Philippines with the United States was \$7,000,000. The item of hemp alone took up \$7,200,000 of this sum, leaving something like \$100,000 to represent the value of the sugar and other dutiable imports. The total export of sugar from the Philippines last year was \$10,000,000 pounds, valued at \$2,700,000. Of this quan-

ty, 11,500,000 pounds went to the United States, representing a value of \$2,830,000. China and Japan got the bulk of the crop. The value of tobacco and cigars exported to the United States last year was trifling, as, in fact, was the aggregate of all exports of this commodity. Practically the only good that would come from reducing the duty to 25 per cent would be the moral effect of further evidence on the part of the United States to deal liberally with the people of the archipelago. As long as the difference is so slight, why not give them free trade. The Philippines are as much entitled to it as the Porto Ricans, and the proper thing to do would be to put them on the same basis.

HE SHOULD RESIGN.

The Duluth delegation in the state legislature has adopted a resolution requesting Governor Van Sant to appoint J. L. Washburn, of this city, as a member of the state normal school board. In view of the fact that Professor W. F. Phelps has removed to St. Paul and consequently Duluth has no resident director now. What action the governor will take on this request is not known, but the friends of the Duluth school are hopeful that he will find some way to accede to the request, because of the necessity of having a member of the board here.

The chief, and probably the only obstacle to Mr. Washburn's appointment is the fact that Professor Phelps' appointment is credited to Duluth. It is not customary to have two members of the normal board from the same place. The difficulty would be quickly removed if Professor Phelps would tender his resignation. So far he has shown no inclination to take this course, which is the proper one for him to pursue. It is a resident of Duluth, it was entirely proper for him to retain his place on the board, but his removal to another city has changed the situation altogether. Having been named as a representative of Duluth on the board, he should not hesitate to resign now and permit the appointment of a resident of this city in his stead. This would be an excellent solution of the problem which now confronts the governor. It is impossible for Professor Phelps to be as useful a member of the normal board now as when he resided here and was supposed to be looking after the interests of the Duluth school, and no one can appreciate this fact more than the professor himself.

MORE CORBINISM.

Gen. Corbin principally and Secretary Root incidentally are dumbfounded over a display of independence on the part of some second lieutenants in the army who are not satisfied with the ratings accorded them by the scheme of the adjutant general in the reorganization of the army caused by the appointment of a large number of volunteers. The trouble was brought about by the arrangement of the annual list of first and second lieutenants, made necessary by the addition of a large number of new lieutenants. When it came to giving them ratings on the army register the question arose as to whether the men should be listed according to length of service or according to the date of the acceptance of commission. It was realized that whatever course might be adopted would compromise the bound to ensue. Secretary Root considered the question in all its phases, under the advice of Corbin, and he decided as he thought the law indicated, announcing that the rating should be made according to the date of acceptance of commissions. He believed, also, that this would benefit the greatest number of young officers. The plan was made up on this basis and sent by the president to the senate for confirmation.

The lieutenants who had been shoved down the list by the adoption of the secretary's plan immediately set up a protest, and their friends in the senate held up the confirmations. Then the malcontents got together, raised a fund, employed a firm of Philadelphia lawyers to look after their interests in Washington, and set out on a legislative campaign. They had a bill framed and introduced, which proposed to overturn the secretary's arrangement of first and second lieutenants, and to grade them as they should be. This bill was championed by Representative Bankhead of Alabama, whose son is among those who are dissatisfied with the department's scheme. No headway has been made in the senate, where the nominations are still pending. Things came to a climax when mandamus proceedings were introduced in the name of two lieutenants, calling on Secretary Root to show why he should not disregard the lineal list he had made and adopt the one drafted in the interests of the dissatisfied ones.

Gen. Corbin once lost a few numbers on the list by some such arbitrary arrangement as this, and seems to think that everyone else should accept the arrangement without protest. But Corbin had no influence at the time, which is an entirely different case with some of these young men who are affected, and things may turn out differently. Court-martials are threatened for the young men and, of course, they are liable to get them and suffer thereby. But this continual agitation against the lordly methods of Corbin and his kind will sooner or later cause a revolution in that department, and many a deserving officer will then get his due.

MARRIAGE AND DIVORCE.

Not only in this country but in many others are the questions of marriage and divorce being closely studied with a view of improving the present conditions, especially those of women. A new civil code has been prepared for Switzerland, with the object of bettering present conditions, and having the statutes apply uniformly throughout the different cantons. According to an article by Maxime Leroy, who writes

in the Revue de Paris, and which is translated by Public Opinion, the code is a model indication of the best possible regulation of marriage and divorce, of the rights of women and children. The formalism of marriage is reduced, and woman is given her full civil capacity. In the new code the legal matrimonial age is 20 years. The only prohibitions of marriage are between relatives in direct line, between inter-married in direct line, and between a person adopting and a person adopted, as long as the adoption lasts. The code gives the woman full civil capacity and the right to exercise a trade or profession, and to dispose as she pleases of the fruits of her work. The wife also has the right to plead in a court of law. All of the possessions of the wife and husband form a common collective fund from the time of the marriage. To the husband is given the right of management, but merely a limited management, as he is forbidden without the consent of the wife to dispose of any part of the wife's portion which she has not conveyed to him. Further, the wife has the right at any time to demand of the husband sureties as a guarantee of the protection of her portion of the fund.

With reference to the question of divorce, the new code gives full effect to the intentions of the parties. Insanity is a cause for divorce, as in the eyes of the new code the insane are to all intents and purposes dead, but the tribunal may order suitable pecuniary measures to be taken for the protection of the insane person. Divorce is also granted where there is evidently a radical impossibility for the two parties to live together; to these causes are added the customary ones of adultery, excesses, ill-treatment, injuries, criminal condemnations, abandonment, and attempts to injure the honor of either one of the parties to the marriage. The rights of the children of a father have been respected, no more than his rights as a husband. The power of the father was formerly limitless. The paternal authority under the new code is exercised by the father "as head of the family, and by the mother in the sphere of her legal privileges," and of the provisions with reference to the choice of a profession, education, religion and punishment specifically express the duality of this power. The child, at 16 years of age, has the right to freely choose its profession and to fix the conditions of its own life.

There are some things in the code that would hardly do in this country, but there are also features that could well be adopted in a federal law of the United States.

Some of the Boston papers have been denouncing the white people of Indiana, Miss, because they refused to let a negro woman act as postmistress. Now there is a big row in Boston because the president has appointed a negro graduate of the Harvard law school as an assistant district attorney at Boston. His ability is not denied, and the objection raised is solely on the ground of his color. It must make the South smile.

It was sometimes claimed by Republican agitators and orators that tariff rates were placed so high in order to render reciprocity possible. The Republican national convention also placed a reciprocity plan in its platform, and there is no reciprocity, and little prospect of any from the present congress. Perhaps the next congress will be more responsive to the popular demand and more ready to redeem the platform promises.

Circuit Judge Hough, of Missouri, thinks that in some cases a wife is as bad as a blow. "To a sensitive woman, refined and intensely sympathetic," said Judge Hough in the course of an opinion on a divorce case, "harsh words from a husband may be a keener punishment than the infliction of an actual blow." It ought not to be necessary to argue this, but some men need the hint.

Senator Dolliver, who believes in "the Iowa idea" that the tariff is not sacred and should be revised, gave the high-tariff senators quite a shaking-up yesterday. Mr. Dolliver is a fighter and the representatives of protected interests and combinations are likely to get a new severe shock in the near future.

A Turkish censor objected to the title of Dr. Henry van Dyke's "The Story of the Other Wise Man," so this well-known little story passes in the Turkish empire under the title of "The Wise Man Behind." The trouble with the original designation was, said the censor, that it was not true, since there is no wise man besides Mohammed.

Mr. Kipling's "Shameless Hun"—innocent creature who never harmed England—must take his place along with the "muddled oak" and "fanned oak" and "the bear who looks like a man." It is lucky for Mr. K. that he is not likely to meet these eminent persons on a dark night, says the Springfield Republican.

The Atlantic City minister who asks the blushing bride only to "honor, love and cherish" makes it unnecessary for her to save her conscience by saying "do, honor, love and cherish" and "I do," says the Springfield Republican.

The Berlin Society for the Prevention of Cruelty to Animals wants the people to eat horses in order to save them from possible abuse. Probably it will soon demand that cat meat be placed on the bill of fare.

Some one has predicted that Senator Hoar's anti-trust bill will be killed in the house. But does this prophet really believe that it will even get through the senate?

Mr. Carnegie is said to have given away \$200,000 in 1902. It is a suspicion that he is now richer than he was a year ago.

A New York man who smoked 100 cigars a day shot himself this week. Of course the cigars are blamed for the tragedy.

All the legislatures are taking raps at the trusts, but nothing has been done to cause any anxiety to the combines.

Professor Wilgus, of Michigan, says that John D. Rockefeller lies. But there will be no duel.

Will the new German ambassador be familiarly known as "Speck"?

HOTEL GOSSIP

There was a rather embarrassing situation last evening for a young man who belongs to the family of one of the wealthy lumber kings in Minnesota. He walked into the Spaulding hotel just at dinner time, registered and the clerk who assigned him to a room said with the proper deference, "You may go up to dinner now, if you wish."

The young man wore a sheepskin coat, about the length of a sack coat, a fur cap and heavy, hobnailed shoes. He had a heavy growth of beard and looked exactly what he was, a cruiser, who had been up in the woods exploring for a fortnight and was just coming back.

He stepped into the elevator and was held off the lift while thinking of something else, perhaps his sweetheart, or haply his home and parents.

At any rate, he evidently was not thinking, and when one of the help went around to the left hall he naturally followed along. The dining room proper of the Spaulding hotel is in the hall to the right, while at the end of the hall on the left is what is known as "help's hall."

This institution is utilized by hungry wife to dispose of any part of the wife's portion which she has not conveyed to him. Further, the wife has the right at any time to demand of the husband sureties as a guarantee of the protection of her portion of the fund.

That was the situation when the young man walked across the end of the left-hand hall, and wandering about, found "Maggie."

"What are you looking for?" asked the young man.

"All right, I guess I can let you in," said the proprietor of the eating room. Now afterwards Miss Maggie said she thought he was a new employee of the house and was looking for his dinner.

She also granted where there is evidently a radical impossibility for the two parties to live together; to these causes are added the customary ones of adultery, excesses, ill-treatment, injuries, criminal condemnations, abandonment, and attempts to injure the honor of either one of the parties to the marriage.

THE STAGE

"Strathmore," presented at the Lyceum last evening by a company headed by Virginia Drew Treseott, has little to recommend it other than the character of the play or the person of the star chosen to play the heroine.

The play is dramatized from Gail's novel and is a most unwholesome and revolting story of a woman who, for the sake of a man, sacrifices her honor and then attempts to revenge upon the man who has wronged her.

The play is a most unwholesome and revolting story of a woman who, for the sake of a man, sacrifices her honor and then attempts to revenge upon the man who has wronged her.

which Daniel Sully is to present at the Lyceum Saturday night and night is said to have the same delightful atmosphere as "The Harbor" and "The Old Homestead" but in development and treatment resembles neither of these plays. Quite methods are employed, and it is a play of character and dialogue rather than of plot; but the interest, which begins at the rise of the curtain on the first act and continues until the end.

THE DAKOTAS.

Peter Conway of Lead Accused of Kidnaping Children.

Lead—Peter Conway is being sought by officers, who have a warrant, issued at the instance of his wife, charging him with kidnaping their two children, the elder a boy of 3 and the other a girl of 8.

For some time Conway has had the custody of the children and ordering the husband to pay her \$2 a month and recently he instituted suit for divorce. The wife was resisted and the decree was denied, the court awarding Mrs. Conway the custody of the children and ordering the husband to pay her \$2 a month and recently he instituted suit for divorce.

yet. The hay prices are going soaring here, the market being about \$12 a ton in the city. Hay can be bought in the stack on the prairie at about \$5, but the hauling is expensive, and the price is kept up.

NORTH DAKOTA. Fargo—Preparations are being made to take up the Rooney case in the criminal court. Rooney is the man arrested by two Sweet boys of White Earth, Minn., at the time their other was murdered. He was caught red-handed, and the two accomplices in the attempted head-up escape. Several arrests were made, but all but Rooney were proven in each case. Rooney now denies firing the fatal shot. Insists that while he was struggling with Harold Sweet one of his companions fired into his back. Rooney's capture at the time leaves no doubt as to his guilt, but there may be some difficulty in proving that he acted as a co-conspirator in the murder.

Mrs. Mary D. Wilson died suddenly of heart failure at the home of her son, Maj. I. H. Wilson. She was in her 80th year.

Lillian-Severt Severson, a farmer, was stricken with paralysis several days ago and there seems no hope of his recovery.

The acetylene lights were turned on here at 8 o'clock last night. They were put in as fast as possible, and in a few days all the buildings that are piped will be supplied.

Grand Forks—Robert Armstrong, an aged resident of Emerson, while trying to dislodge Apostle Reed Smoot to resign the head with a knife by a negro, who was fighting with several white men and who mistook

RECORD OF YEAR

Births In City of Duluth In 1902 Numbered 1214.

Of the Number 689 Were Boys and 525 Girls.

Number of Death 762-- The Figures In Detail.

One thousand two hundred and fourteen babies were born in Duluth during 1902.

This is just 77 more than were born during the year of 1901.

The boy babies numbered 689, which was an increase of 103 over the previous year.

The girl babies of 1902 were more numerous than those of last year. Five hundred and twenty-five is the record for 1902, while during the previous year the girls scored a grand total of 521.

The births for 1902 exceeded the deaths by 452, but out of the total of 1214 babies, 121 did not live.

The tabulated statement of births by months for the entire year is as follows:

	Male.	Female.	Total.
January.....	71	29	110
February.....	55	54	109
March.....	69	46	115
April.....	49	42	91
May.....	51	49	100
June.....	49	40	89
July.....	42	35	77
August.....	74	45	119
September.....	62	44	106
October.....	55	45	100
November.....	47	35	82
December.....	55	52	107

Grand total..... 689 525 1214

There were 37 more deaths in Duluth during 1902 than in 1901.

The total for last year was 762 and the year before 725. It is estimated that the city's population has increased 500 during the year, so that the slight increase in deaths counts for but little.

The total number of males that died is 433 as compared with 329 females.

Four hundred and forty-three were unmarried, 261 married, 53 widowed, 1 divorced, and the social condition of 14 could not be ascertained.

One hundred and fifty-two deaths were babies under one year of age;

75 were of children between one and five years old; 20 were of children between five and ten years of age; 43 were between ten and twenty years of age; 219 were of persons between twenty and forty years of age; 136 were between forty and sixty; 82 were between sixty and eighty; and 34 were over eighty years of age.

Two hundred and forty-six of those that died were born in Duluth; 109 were born in other parts of the United States and 361 were foreign born.

The nativity of 25 was not ascertained.

The yearly death report by months is as follows:

	Male.	Female.	Total.
January.....	50	45	95
February.....	45	35	80
March.....	51	46	97
April.....	45	35	80
May.....	45	35	80
June.....	45	35	80
July.....	45	35	80
August.....	45	35	80
September.....	45	35	80
October.....	45	35	80
November.....	45	35	80
December.....	45	35	80

Grand total..... 762

EDUCATIONAL WORK.

Young Women's Christian Association Will Begin It.

The educational committee of the Young Women's Christian association is making active preparations for opening that department at once. Although the present quarters are crowded, work is being done for very successful work. Some prominent teachers have offered their services, and plans for the coming year are being made in English, geography and German. These will meet principally in the evening. The impossible of the elementary branches will be free to all members of the association, while those

DRUNKARDS CURED SECRETLY

A Home Cure Which Any Lady Can Give Secretly That Will Positively Stop Drinking.

TRIAL PACKAGE MAILED FREE.

An odorless and tasteless remedy when put in the drunkard's coffee or food will destroy all desire for drink. This remedy

is so simple that anyone can use it, and the drunkard need never know why he quit drinking intoxicating liquors.

It is a physical impossibility for anyone to drink intoxicating liquors and take this medicine.

If anyone desires to try this marvelous remedy, Dr. J. W. Haines, 115 Glen building, Cincinnati, Ohio, will gladly send a free trial package that they may see how easily it can be used and how positive its effect is.

In the higher subjects will have a small fee attached. Membership in the association is open to any young woman in the city. Applications being left at the association rooms and the number and the nature of these will determine the class to be formed. It is therefore necessary that those desiring to enter the educational department should call upon the secretary at once, since it is desired to form the classes next week.

HANDSOME.

Furniture Equipment of Steel Offices Is Very Fine.

The furniture for the departments of the United States Steel corporation, which is new and elaborate, is nearly all in the new quarters of the company in the Wolvin building.

The furnishing of the accounting rooms on the third floor is probably the most unique and expensive of any office outfitting in Minnesota. Every bit of furniture, excepting the chairs is made of steel. The tables, desks, seats and filing cases and book racks are of japanned steel.

The work to be done in this department is the accounting for the Oliver Iron Mining company, the Minnesota Iron company and its subsidiary Steamship company. The furniture makes the big accounting room as near fireproof as it is possible at the present day. The furniture is estimated to have cost between \$10,000 and \$15,000 for this department alone.

Heavy oak desks and railings and other furniture are being put in all through the building, and they make a fine display. Everything is plain, but elegant and rich in appearance. The furnishing of the building is said to have cost more than \$50,000.

TO RED WING.

Seima Magnuson to Be Sent to the State School.

Rather than stay in Duluth after suffering the disgrace of an arrest, Seima Magnuson will go to the state training school at Red Wing.

She was taken into custody last Saturday. The case was heard in the blue room, before Judge Campbell, this morning.

Mrs. Anna Magnuson, of Nineteenth avenue west, mother of the girl, appeared in court and there learned that she was to be sent to the state school.

Capt. Resche Scores Fifty In the Revolver Practice.

Cold weather has driven the policemen indoors for their regular weekly revolver practice.

They have a fine range in the basement of the Armory building, and about 250 men are out on the lake shore range. The scores out of a possible "fifty" yesterday were:

Sergeant Fritz, 41; Detective Terry, 33; Detective Schulte, 43; Patrolman Steele, 41; Detective Irvine, 33; Patrolman Foster, 48; Chief Trooper, 41; Patrolman Gear, 33; Capt. Resche, 50; Patrolman Suss, 33; Mounted Officer Barber, 46; Jailer Robert Johnson, 45.

Mrs. Sellwood's Funeral.

The funeral of the late Mrs. Joseph Sellwood was held yesterday afternoon from the family residence on East Superior street.

Many that knew her in life rendered tribute to her memory in person and through appropriate floral offerings.

The funeral sermon was delivered by Dr. S. P. Long, pastor of the First Methodist church, of which Mrs. Sellwood has been one of the most prominent members for the past fifteen years.

The interment was in Forest Hill cemetery. The pall bearers were: G. G. Hartley, J. F. McLaren, A. R. Macfarlane, Dr. C. L. Oeding, G. A. St. Clair and W. T. Bailey.

Opens a Studio.

Gustava Flaten, who recently returned from an extended course of study in Europe, has opened a studio at East First street for the teaching of the violin, theory and harmony.

Two Large Transfers.

Two deeds of Duluth and St. Louis county realty were filed with the register of deeds yesterday afternoon.

One of the deeds, aggregating \$60,000, Luther Mendenhall transferred to D. A. Duncan, C. A. Duncan and F. A. Duncan an undivided half interest in lot 2 West Superior street. First division, on which is located the Hanning block, for a consideration of \$25,000.

John P. Hoeman and Frank L. Enell transferred title to the Pittsburgh Township and Development company of the south one-half of the southeast quarter of section 7-10-17 for \$25,000.

HEWITT STILL LINGERS.

New York, Jan. 14.—The doctors attending Abram S. Hewitt report today that the patient passed the night in comfort with no obvious loss of strength, but with no gain.

BOWEN AT WASHINGTON.

Washington, Jan. 14.—Notification of the arrival at Kingston, Jamaica, of the Dolphin, with United States Minister and Mrs. Bowen aboard, reached the state and navy departments today.

TO REBATE THE DUTY

House Coal Bill Passed Promptly By the Senate.

Coal May Be Imported Free For Twelve Months.

Senator Tillman Makes Strenuous Speech on Coal Question.

Washington, Jan. 14.—The senate took up the coal duty bill and passed it as soon as it was received from the house.

A committee amendment was adopted by the senate adding a section to prevent the imposition of a duty on anthracite coal after the expiration of the time provided for in the bill, granting a rebate on all coal.

Washington, Jan. 14.—Soon after the senate today Mr. Hoar (Mass.), introduced a concurrent resolution calling upon the president to inform the senate what government is existing in the island of Guam and through what executive department the power of such government are now exercised and administered, as well as the number of troops in said island and also by what authority Manila, the Philippine chief, is being detained at Guam.

Mr. Hoar's request, the resolution went over until tomorrow.

The vet resolution regarding the removal of the duty on anthracite coal was then considered.

Mr. Hoar, in his notice of yesterday, addressed the senate. He said that Mr. Hoar, since the anthracite came up, has become more strenuous and had expressed more feeling than he had before.

He thought him capable of the energy of the venerable and brilliant senator from Missouri. Mr. Tillman said, had put a spur to the lagging horses in the house of representatives and in the senate.

STRENGTH

Twenty-five years ago in acquainting jewelers with the strength of the J. B. Boss Stiffened Gold Watch Case, an enterprising salesman used the method here shown. J. B. Boss Cases are still the strongest cases made. As good as solid gold in appearance. Better than gold in wearing quality. Less than solid gold in cost. In a

J. B. BOSS

Stiffened Gold Watch Case

there is a layer of very hard composition between an inside and outside layer of solid gold reducing the cost of the case, and adding greatly to its strength. J. B. Boss Cases are guaranteed to wear for 25 years; are recognized as the standard, and sold as such by all jewelers. Write us for a booklet.

The Keystone Watch Case Company, Philadelphia.

By This Mark You Know Them

FIGHTS IN PROSPECT

(Continued from page 1.)

not even any proceeding seeking a conviction. That does not mean that there has been no corruption in elections. There is nobody in Minnesota so unsophisticated as to draw that conclusion. The only possible conclusion is that there has been corruption, just as much as there was before the law had its being, and that the law is utterly failed to reach it. The law is, therefore, utterly ineffective and foolish. Yet the law has not been without its effect. The sole and only result of it has been that most candidates for office they should file statements of expenses and swear to them. They have done this, though probably nothing very serious would have happened to them if they had failed to do so.

Curiously enough, there has not been an instance where the sworn statements of the candidates have been above the limit allowed by the law. Nor does this mean that candidates have confined their expenditure to the legal limit. It simply means that the candidates have refrained themselves. That is the one effect and the one result of the corrupt practices law. It induces and compels perjury. Very likely some such reasons as these accounted Gen. Wilson in introducing this bill repealing it.

The old constitutional convention plan has been sprung again, this time in the senate by Senator Peterson, of Moorhead. It will probably have a more respectful hearing this time than it did last winter, when "Sherman" Smith's bill of a similar nature died of inattention at the close of the special session. The failure of all of the constitutional amendments proposed since that election will probably get it a good hearing, if nothing else. It has been pretty clearly shown that under the present deal when it requires a majority of the voters voting at the election to pass a law, and when a large proportion of the voters do not vote at all, that it is impossible to change the constitution. The plan discussed a good deal this summer of having the amendments printed on separate ballots, has been taken up, and a bill introduced. It was recommended by the governor, and will probably pass. It will probably have with it one difficulty—that of a failure on the part of the voters to notice the amendments provision.

The amendments were printed at the top of the ballots, and it is very doubtful if many voters missed seeing them. The main trouble about getting an amendment passed is that too many voters do not know what it means or do not care, and so through carelessness or ignorance, fail to vote at all. That trouble cannot be removed by the separate ballot plan, though this may gain a few votes. If the separate ballot plan fails, the only way to change the constitution is to have special elections for constitutional amendments, or a constitutional convention. Sentiment very likely turned pretty strongly before long toward the convention plan, as it is considered that the constitution will need quite a bit of overhauling, more

than can be done even if a few amendments here and there can be passed. These are but patches.

The Duluth delegation is just about as tickled over its treatment by Lieutenant Governor Jones and Speaker Babcock as a lot of boys with a new knife, a new horse or a bicycle. Every one of them is pleased, and with reason. Duluth and St. Louis county are interested very deeply in the important matter of mining, and the committees of mines and minerals in both houses are presided over by Duluth men—Senator Pugh in the senate and Dr. Budd, of Two Harbors, in the house. Duluth wants money for its normal school, and behold, the chairman of the normal school committee of the house wants the amiable visage of Dr. Graham, of West Duluth. St. Louis county is interested in railroads, too, having a couple all of its own as well as parts of a lot of others, and the head of the railroad committee is Senator Hawkins.

Dr. Graham has the distinction of being the only member of the house committee not a lawyer. Being a physician, he was very properly made a member of the sub-committee on curative and special legislation. This was done at a meeting of the judiciary committee after the morning house session yesterday.

One feature of Senator Alley's proposed amendment to the primary election law that will meet with considerable discussion is that which takes out the old requirement that a voter must have voted his party ticket at the last election and must declare his intention to do so at the approaching election. Under the old deal, if a man changed his politics between elections—and some have been known to do it quicker than that—he could not vote at the primaries. That is, the spirit of the law said he could not, though the letter of the law was sometimes faint enough to permit parties who had not changed at all to vote the primary ticket of the other party. If Senator Alley's amendment went through, no man need say what ticket he voted last time, only what ticket he proposed to vote this time.

Senator Wilson's memorial against the tariff on hard coal, introduced into the senate yesterday, struck a popular chord, just now when all the newspapers and all the people are talking about the scarcity of coal and the greed of the coal barons, and it went through without a dissenting vote.

STILLMAN H. BINGHAM.

TROUBLE IN BOSTON

Over Appointment of a Colored Man.

Boston, Jan. 14.—The appointment of William H. Lewis to be an assistant United States district attorney at Boston, when announced here, caused a storm of protest and disapproval among officeholders in the federal building. Mr. Lewis is a negro, a graduate of Harvard college and law school, and was the crack center of the Harvard football team for two years. The objection to his selection is based only on his color. His ability is admitted.

SENATE RESENTS

President's Attempts to Make It Take Some Action.

He Is Anxious to See Reciprocity Treaties Ratified.

Private Interests of More Importance Than Platform Promises.

Chicago, Jan. 14.—William E. Curtis, in a Washington special to the Record Herald, says: No president has ever taken such an active interest in legislative affairs as Theodore Roosevelt. Some of the older senators are beginning to become irritated because of his persistency and impetuosity, as they term it.

He believes that the senate should enact certain legislation and he doesn't hesitate to say so, which is considered by many senators an infringement of the relations which should exist between the co-ordinate bodies of the government. They do not deny that the president has a right to advise and consult with the senate concerning legislation because he is required to share in the responsibility. The constitution makes his approval necessary before an act of congress can become effective. But what they complain of is his continual pressure upon them to do this and that and the other thing when they realize as well as he does what the country needs and have quite as clear a conception of their official duty.

The president talks as frankly about legislation as he does on every other subject, and is exceedingly anxious that congress shall not adjourn without adopting the statutes of the United States certain bills which have already passed the house and are now piled up on the calendar or in the hands of the senate. Every one of these bills has been repeatedly before congress, and in its platforms at several of the national conventions the Republican party has pledged itself to adopt such measures.

The Cuban reciprocity treaty is, of course, the most important. There are several other reciprocity treaties which the president is anxious to see ratified, and he constantly reminds the Republican senators of their obligations to ratify them. They know, as well as he that the Republican platform pledges their party to the reciprocity policy, but the private interests of their constituents are considered of greater importance. As has been stated again and again lately, he threatens to call an extra session unless the pledges of the Republican party to the people at the last election are fulfilled by the enactment of a rigid anti-trust law, and, as you are aware, he has already furnished, through the attorney general, plenty of material therefor. But I repeat what I have said several times, that there is not the slightest probability of the passage of any new legislation to restrict or regulate the trusts unless it be an appropriation of money and the authority to appoint special attorneys to conduct prosecutions under the present law.

The president is most anxious to break up the freight rebate practice and believes that it can be done without further legislation although he would prefer the passage of the bill which the congressional committee the other day. He believes that the sugar trust, the beef trust, the coal trust, the flour trust, the Standard Oil company, the oil trust, and the other trusts, are enjoying advantages over their competitors by secret arrangements with the transportation companies and that if this trust could be broken up like the old form of railroad pooling by appeal to the courts

HAVE YOU TRIED IT?

The Food That Does Good

Here is a food for invalids and for those with weak life functions, which by its action on the blood, will help your body to throw off disease. For over a decade

OZOMULSION

(a scientifically medicated emulsion of pure Norwegian Cod Liver Oil with Hypophosphites and Guaiacol) has been prescribed by the physicians of Greater New York and all other large cities in their daily practice.

They have used it with marked success in all cases of Weak Lungs, Colds, Coughs, Catarrh, Consumption and Throat Troubles; for Scrofula, Eczema, Pimples, Boils, Abscesses and all skin affections. In fact, for all disorders caused by Mal Nutrition or the weakness of a body that is improperly or poorly fed.

As a result, Ozomulsion has to-day a larger sale than any other emulsion of Cod Liver Oil, and is carried in stock by every druggist in the United States.

But still it may be that you have never tried it. So we have decided to make it possible for all to give it a test. We will therefore send

A Large Sample Bottle Free

to any address on request, so that invalids in every walk of life can test it for themselves and see what Ozomulsion will do for them. Send us your name and complete address, and the large sample free bottle will at once be sent to you by mail. Address—

THE OZOMULSION CO., 100 De Peyster St., New York

the pledges of the Republican leaders to the people at the last election will be carried out.

In his opinion, this can be done under existing statutes, but it would be much easier to do so if the president would restrict the power of the cabinet, and with Vice Governor Luke B. Wright, who has been in this country for two months, to become justice of the United States supreme court. President Roosevelt indicated to Governor Taft in a letter dispatched to the Philippines, that he would have the appointment to the supreme bench if he was the president's purpose to name him.

TO REMAIN.

Taft to Continue as Governor of Philippines Indefinitely.

Washington, Jan. 14.—After mature deliberation it has been decided by the president that Judge Taft shall remain in the Philippines as civil governor.

The decision was reached only after the president had discussed the Philippine question thoroughly with Secretary Root and the members of his cabinet, and with Vice Governor Luke B. Wright, who has been in this country for two months, to become justice of the United States supreme court. President Roosevelt indicated to Governor Taft in a letter dispatched to the Philippines, that he would have the appointment to the supreme bench if he was the president's purpose to name him.

VICTORY

Over Bolivian Rebels Gained By Company Led By Capitalist.

La Paz, Bolivia, Dec. 10.—(Correspondence of the Associated Press).—News was received here Dec. 4 from Santa Cruz, capital of the department of Santa Cruz, eastern Bolivia, that Nicholas Suarez, the sub-commissioner of the territory of Madre de Dios, had, at the head of a Bolivian volunteer force, raised and captured by himself a decisive victory over Oct. 10 over the rebels at a point called Bahia. This news was brought to Santa Cruz by the Beni-Santa Cruz Post, and it has now been confirmed by a messenger sent direct from Riberia to this city. The latest report says that fifty-eight Brazilians were killed in their trenches, and that the Bolivian loss was only two killed. This is evidently an exaggerated account of the result of the fighting, but at the same time there is apparently no doubt that the Bolivian forces struck a decisive blow at the revolution in the upper part of the Acre river. The capitulation of Col. Rojas with his entire force of Bolivians four days after this victory is explained by the fact that Empress, the scene of Rojas' surrender, is at least six days' journey lower down the Acre river and it may be assumed that Suarez had no knowledge of Rojas' difficulties and that Rojas had no idea of the victory or even the proximity of the forces commanded by Suarez.

Nicholas Suarez is one of the principal capitalists and largest rubber estate owners in the upper Acre and river Ortoni districts.

EDDY IS ROBBED.

His Valuables and His Sunday Dinner Taken.

Washington, Jan. 14.—Saturday night sneak thieves went through Representative Eddy's home in this city, securing many articles of value, including quite a sum in cash. They filled a large market basket with cash, and when the family arose Sunday morning there was nothing in the house to eat except one stale loaf of bread. The Sunday dinner, including meats, vegetables, etc., all the coffee, tea, sugar and other things in the pantry were removed, and before breakfast could be secured Mr. Eddy had lost out on his morning rooster. The thieves also went through the sleeping

rooms. From Mr. Eddy's trousers they carried out \$20 in cash. His watch which he carried to another room, but did not take with him, was also carried off. The thieves took 2 cents and a postage stamp, was taken. Miss Carson, of Glenwood, Minn., Mrs. Eddy's niece, was sleeping in the house, but her room was not entered, which was very fortunate, as she had about \$30 cash in her trunk.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. Sold by all Druggists. Testimonials free.

Hall's Family Pills are the best.

MONTANA JUDGE

May Be Impeached By the State Legislature.

Helena, Mont., Jan. 14.—It may be stated upon the highest authority that impeachment proceedings against District Judge E. W. Harney, of Butte, will be instituted at an early date. His removal from office is the subject of the legislature in the near future. Harney, it will be remembered, rendered the original decision in the celebrated Mullan Healy mining case, involving several million dollars, and which has probably had more attention than any other case tried by him.

Harney's decision in favor of Healy resulted in putting before his court sensational affidavits purporting to show he had been unduly influenced by Ada N. Mullan, the wife of the late Senator Mullan, and also charged that the judge and Mrs. Brackett were guilty of gross immorality. These charges, it is understood, will be the basis for the impeachment proceedings against Harney.

Harney has not been idle, and is vigorously prosecuting a disbarment case against A. J. Shores, leading counsel for the Amalgamated Copper company, on the ground that he tried to bribe him to decide a case against Healy.

A son of Senator W. A. Clark will also be arrested upon his return from a sick bed in California, on the same charge, and the end is not yet.

ROHRER IS FOUND.

Missing Medical Student Is at Atlantic, Iowa.

Goshen, Ind., Jan. 14.—Norman Rohrer, son of ex-Trustee Rohrer, of Clinton township, this county, who mysteriously disappeared Feb. 2, 1902, while attending the Detroit Medical college, has been located at Atlantic, Iowa. His brother received a letter from him yesterday. He says he has written home often, but no letters were ever received. His mother has been nearly prostrated, as he was supposed to be dead. An exhaustive search had been made for him. Rohrer says 11 hours caused him to leave the hotel and that he contracted to go on the train for a ranch, and had called on Western states. He says his health is now improved, and he expects to return to Detroit and to complete his medical course.

Ayer's Hair Vigor

Stops falling hair. Makes hair grow. Restores color. Cures dandruff.

J. C. Ayer & Co., Lowell, Mass.

The Ins and Outs of Soda Crackers

Soda crackers fresh from the oven are good—delicious

—if exposed to the air they quickly lose that goodness—much of it in a few minutes—most of it in an hour—all of it in a day.

—That's why the common kind, the paper-bag kind, have lost their flavor before you get them.

—In **Uneeda Biscuit** there's a difference—a big difference

because they are packed at the oven door in the famous In-er-seal Package—

the package with red and white seal—an invention for preserving the goodness of biscuit;

an airtight and germ proof covering which holds within

the oven-fresh flavor of **Uneeda Biscuit**;

—and keeps without the undesirable flavors of all other things

—that's one reason why millions buy **Uneeda Biscuit**.

Another reason is the price—

BRIEF TELEGRAMS.

Fire at Detroit, Jan. 14.—Tuesday, destroyed the buildings containing the stores of W. H. Schlusbaum, shoes; W. T. Demmon, hardware and T. S. Connors, groceries.

The loss will exceed \$30,000.

Tuesday morning the seven-year-old son of Attorney Albert Hayne of Brazil, Ind., got hold of a rifle belonging to his older brother and in some manner discharged it.

The bullet entered the heart of his three-year-old sister, who was standing near, and killed her instantly.

A man who refused to disclose his identity called on the city chamberlain in New York Tuesday and handed him five \$100 bills. The stranger said he had been troubled mentally for some time over a financial indebtedness to the city. The money was credited to the "conscience fund."

On complaint of Mrs. Katherine Tingler, E. W. Schmidt of Los Angeles was arrested. Schmidt is charged with extortion, the complaint being based on a letter which Schmidt is alleged to have written asking Mrs. Tingler how much she would give for the suppression of certain evidence concerning her past history.

The Washington correspondent of the Cleveland Leader telegraphs that paper as follows: The place on the supreme court bench that was tendered to and declined by Gov. Taft of the Philippine Islands has been offered to William R. Day of Canton, O., and it is understood that Mr. Day will accept the appointment.

Mr. Day is now a United States circuit judge of the sixth district.

Because his 19-year-old wife would not give up her position as a hairdresser, Lewis, of Chicago, who was arrested last night, fired two bullets into her shoulder. He then shot himself in the breast and nearly killed her.

The woman probably will shave.

Mrs. Maggie Riley, of Bramwell, W. Va., is alleged to have promised to pay her son, Hiram, and Otto Eller, a sum of \$10,000 to kill her.

Clark, the men, it is claimed went to the Clark woman's home and killed her. Riley and his young son, together with Riley's mother, were arrested and held in jail made by the murder.

Jealousy is said to have caused the tragedy.

FLATLY CONTRADICTS

The Assertions Made By John D. Rockefeller.

Ann Arbor, Mich., Jan. 14.—Prof. H. L. Wilgus, of the University of Michigan law department, in speaking before the Y. M. C. A. on "Trusts" last night flatly contradicted an assertion which he said had been made by John D. Rockefeller.

Prof. Wilgus cited the Standard Oil company as an example of the so-called trusts.

LOOK OUT FOR CATARRH

When the cold wave flag is up it means the beginning of winter in earnest: keen, cutting winds, rain, sleet, snow and slush. It takes just such weather to produce and develop Catarrh and bring out all its humiliating and disgusting symptoms. The slight cold becomes a stubborn and protracted one, while the discharges from the nose are most offensive and sickening. As the inflammation extends further up into the head and the delicate mechanism of the ear is attacked, there is a continual buzzing and ringing in the ears, and frequently the hearing is partially or totally lost. Headaches are almost constant, with sometimes acute pains in the eyes, and the nose becomes so plugged up that the patient must breathe through the mouth while the filthy secretions are forced back into the throat, requiring almost continual hawking and spitting to dislodge them. At certain stages of the disease, the odor of the breath becomes fearfully offensive, to the great mortification and embarrassment of the sufferers and disgust of all who come near them. Little by little the foul matter finds its way into the Stomach, ruining the digestion, and a most miserable form of dyspepsia or Catarrh of the Stomach is the inevitable consequence. The blood becomes contaminated by the foul secretions and unhealthy matter, and these are distributed through the body, and Catarrh is then a deep-seated, dangerous constitutional or systemic case, and its effect upon the general health and vitality is soon apparent—appetite and strength are gone and the disease frequently settles in some vital organ and terminates in Bronchitis or dread Consumption.

While sprays, washes and the many other local remedies so diligently used give temporary relief, chronic Catarrh sufferers know that they possess no curative properties and fail to reach the true source of the trouble and all the benefits received from such treatment are swept away by the first breath of winter.

To cure Catarrh permanently, the blood must be purified and the system cleansed of the accumulated poisons, and for this purpose nothing equals S. S. S. It reaches cases in this way that seem almost hopeless and beyond the reach of medicine. S. S. S. not only purges the blood of the effete matter and catarrhal secretions, but at the same time invigorates and builds up the entire system, and as rich pure blood begins to circulate through the body, the inflamed membranes and other parts of the system affected by the Catarrh, begin to heal, the mucous discharges gradually grow less and finally cease, and all the disagreeable and disgusting symptoms of Catarrh disappear. S. S. S. tones up the Stomach and stimulates all the vital organs and keeps the blood in such a state of

SSS

healthfulness that one is not so susceptible to cold or so liable to contract Catarrh even when exposed to bad weather. Cold wave flags cause no anxiety to those whose systems are nourished and strengthened by rich pure blood. S. S. S. is a purely vegetable remedy and can be taken with perfect safety by old and young or persons of delicate constitution. Write us about your case and our physicians will advise without charge.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

RAILS SPREAD

Causing Fatal Wreck on Burlington Near Alton, Ill.

St. Louis, Mo., Jan. 12.—The St. Paul passenger train on the Chicago, Burlington & Quincy railroad, died here at 2:30 p. m., and running 50 miles an hour, was wrecked last evening by spreading rails, four miles north of Alton, Ill., killing the engineer and injuring four trainmen. The engine was overturned, the baggage, mail, express and passenger cars, four in all, were thrown on their sides and the Pullman sleeper and remaining coach left the rails. No passengers were injured beyond minor bruises.

ENGINEER FRANK HORN, Beardstown, Ill.; Mail Clerk G. L. Mitchell, Rock Island, Ill.; Engineer, Mitchell, Rock Island, Ill.; Baggage Master, Charles Pollard, Rock Island, Ill.; Conductor, A. H. Pollard, Rock Island, Ill.

The train jumped and escaped. Conductor Pollard, despite his hurt at 2:30 p. m., saved "I am surprised and delighted at the change from the letter my case in one day from the use of Dr. Agnew's Catarrh Powder. It worked like magic—there is no excuse for a person suffering with this remedy within reach. Sold by State with, 15 West Superior street."

A wheat, corn and rye flour so milled and blended as to be best for mankind is

Falcon Self-Rising Pancake Flour

Particularly a breakfast pancake flour, but quite as good for muffins, gems, waffles, and the like. Easily prepared because self-rising, requiring neither yeast nor baking powder. Here is an all the year round quicky prepared

Muffin Recipe

Two cups of Shannon & Mott Company's Falcon Self-Rising Pancake Flour, one cup milk, one heaping tablespoonful butter, one tablespoonful sugar, mix the ingredients thoroughly before adding the pancake flour. If richer muffins are wanted, add more eggs. Use no salt, yeast or baking powder.

Falcon Pancake Flour at the Best Grocers'

THE IDEA OF ROOT

Is to Provide Republic With New and Better Army.

Complete Military Education For All Officers Is Proposed.

Each Is to Be Thoroughly Fitted For His Grade.

Manchester, Va., March 6, 1901.

Gentlemen:—I wrote you some time ago, an account of my sufferings with an awful case of Catarrh. I had the symptoms that accompany this disease, such as mucus dropping in the throat, a constant desire to hawk and spit, feeling of dryness in the throat, cough and spitting upon rising in the morning, scabs forming in the nose, which required much effort to blow out, sometimes causing the nose to bleed and leaving me with a sick headache. I had thus suffered for five years.

As soon as I heard from you, I commenced to take the S. S. S. as you advised, and after I had taken three large bottles, I noticed a change for the better. Thus encouraged, I continued to take it and in a short while was entirely cured.

Very truly,
JUDSON A. BELLAM.

Main and Vine Sts., Richmond, Va.

It reaches cases in this way that seem almost hopeless and beyond the reach of medicine. S. S. S. not only purges the blood of the effete matter and catarrhal secretions, but at the same time invigorates and builds up the entire system, and as rich pure blood begins to circulate through the body, the inflamed membranes and other parts of the system affected by the Catarrh, begin to heal, the mucous discharges gradually grow less and finally cease, and all the disagreeable and disgusting symptoms of Catarrh disappear. S. S. S. tones up the Stomach and stimulates all the vital organs and keeps the blood in such a state of

Washington, Jan. 14.—On Jan. 22 the corner stone of the army war college at Washington barracks, near this city, will be laid. It marks one of the last steps in the creation of a system of education for officers, which is one of the most important parts of the present secret plan of Mr. Root, the chief of the military school system, in the creation of a new and better army. The army war college will be the highest school of a number which have been created by the present secretary and will give to young officers a course of instruction which, when completed, will qualify them to compete on the same plane with the officers of the advanced schools of the world. The system of schools was found to be an absolute necessity after the close of the Spanish war. Congress had authorized an increase of the army from 25,000 to 100,000 men. This provision was taken advantage of by the appointment of the requisite number of officers and the enlistment of the maximum of men. Since then the army has been gradually reduced, but the number of officers has not. The object of this is apparent. The secretary of war has a skilled corps of officers, so that whenever it is necessary to create an army of 100,000 men again, there will be authority in law, the officers to command them will be at hand.

Many of the officers for the new army were taken from civil life or from the national guard organizations of the various states. They did not possess the educational qualifications of men who have had the West Point training. Of the 2,000 officers of the army, only 275 have passed the West Point examination. The others have come, 444 from the ranks, 512 from civil life, and 616 from the volunteers who were accepted for the prosecution of the war with Spain, and our military operations in the Philippines. While these men have been given the advantages of work in the field, they do not possess systematic education. They command the army, but they are not officers. The first and second lieutenants. As the secretary of war points out, in the nature of the order of the day, it will be some time before the army will be able to give the young officer opportunities of practically applying the principles of the schools and colleges created by Mr. Root have been supplied with the actual training of the army, and a sufficient number of men are always at hand with the theories and principles of the military art, and in the field, they can be quickly and efficiently employed. The cardinal idea in the system has been to equip the men with the knowledge of the art of war, and to give them the opportunity of applying it in the field. The cardinal idea in the system has been to equip the men with the knowledge of the art of war, and to give them the opportunity of applying it in the field. The cardinal idea in the system has been to equip the men with the knowledge of the art of war, and to give them the opportunity of applying it in the field.

THE SECRET OF LONG LIFE. Consists in keeping all the main organs of the body in healthy, regular action, and in quickly destroying diseases, germs, Electric Bitters regulate Stomach, Liver and Kidneys, purify the blood, and give a splendid appetite. They work wonders in curing Kidney Troubles, Female Complaints, Nervous Diseases, Constipation, Dyspepsia, and Malaria. Vigor, health and strength always follow their use. Only 50c, guaranteed by W. A. Abbott, druggist.

A SHOOTING AFFRAY. St. Louis, Mo., Jan. 11.—At Morchouse, Mo., James and Theophilus Hill created a disturbance and the United States marshal and two deputies were called in to restore order. Theophilus Hill shot and instantly killed Marshal Vance, while James Hill fatally cut Deputy Marshal Taylor. The Hill boys started to leave the house when Taylor shot and wounded them, but they succeeded in making their escape.

When Mr. Root set about his task of creating the new educational system for officers, he thought he discovered the beginning of what he wanted in the lycæums where boys were educated at the various army posts and which, by the way, found a beginning at Jefferson Barracks, near St. Louis, as long ago as 1823. That beginning was made by Gen. Leavenworth, an officer of rare ability, for whom the great post in Kansas has been named, a post at which one of the most important schools under the present system has been created. It was found that too often they took on the command of the post at which they were held. If he was a man who lacked energy or high military training, himself the lycæum was found to be valueless. Too often the lycæum became a meeting-place at which officers appeared to listen to some easy or abstract discussion of things military and sometimes not military, as suited the will and convenience of the commandant. Mr. Root found that he would have to originate an entire new system. He created officers' schools at posts. General orders were issued that the instruction they offered should be taken by every officer of the line of less than ten years' service as commissioned officers, and all of ninety school days between Nov. 1 and April 30, at which at least two hours per day should be devoted to the study of the military art. The necessary for proper preparation was prescribed. So that the work of the officers would be faithful and results assured, the general orders required that at the close of each school term a list of competent officers, whose rank was senior to those who had taken the instruction should examine all student-officers and certify to their efficiency. This was the primary grade of the military school system

AN OBJECT LESSON

In a Restaurant.

A physician puts the query: Have you never noticed in any large restaurant at lunch or dinner time the large number of men whose ages run from 60 to 80 years; many of them bald, and all perhaps gray, but none of them feeble or senile?

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an object lesson which means something.

If you will notice what these hearty old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through menus card of new fancied health foods; on the contrary they seem to prefer a juicy roast of beef, a properly turned loin of mutton, and even the deadly broiled lobster is not altogether ignored.

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavor to live on bran crackers.

There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are poisons, but these cadaverous, sickly looking individuals are a walking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity, any wholesome food will be promptly digested; if the stomach does not do so, and certain food poisons are introduced, the food will remove all difficulty, because they supply just what every weak stomach lacks, namely, hydrochloric acid, diastase and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon the food eaten, digesting it thoroughly and thus giving a much needed rest and giving an appetite for the next meal.

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets, knowing them to be perfectly safe to use at any time, and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the traveling public for years have pinned their faith to Stuart's Tablets.

Each tablet is sold in 50 cents for full sized packages, and any druggist from Maine to California, if his name is asked, will say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach trouble.

which has been created. The system includes: Officers' post schools for elementary instruction in theory and practice. Special service schools. A general service and staff college at Fort Leavenworth, Kan.

A college for the most advanced instruction, located at Washington Barracks, near this city. The special service schools include: An artillery school at Fort Monroe, Va.; engineers' schools of application, Washington, back in D. C.; schools of submarine defense, Fort Totten, New York; school of application for cavalry and field artillery at Fort Riley, Ar.; army medical school at the national capital.

For each of these schools a definite system of instruction has been devised with the ultimate aim of preparing and training officers to command men in time of war. The instruction is constantly cautioned not to allow theory to displace practical application. Every officer is expected to fit himself thoroughly for the responsible duties of his grade. To bring this about, the schools are held in order to afford ample opportunities for each officer to familiarize himself with post and company administration in actual practice, the duties of quartermaster, commissary of subsistence and ordnance, and the duties of the various departments with a view of sending them for further instruction to the general service and staff college at Fort Leavenworth.

The garrison has been fixed at four companies of engineers, four troops of cavalry, three batteries of field artillery, twelve companies of infantry, and a signal corps detachment, and such officers and instructors as may be required. With these detachments the student-officers are given facilities for the practical application of theory. Officers who distinguished themselves at the general service and staff college by their marked proficiency are designated for instruction at the war college at the national capital. No officer will be sent to any of the schools or serve on any of the boards in connection with them more than four years. Neither will officers be permitted to pass from one school to another in their regular line of advancement until they have had an interval of two years of service with troops in the field. This provision is to guard against "student" or "desk" officers, rather than men qualified to command and subsist in actual field operations.

This perfect school system for officers having been developed within the last two or three years at most is little understood or appreciated by the public at large. It has been built up without blare of trumpet and with surprisingly little special aid by congress. It has grown to its present position of service with troops in the field. This provision is to guard against "student" or "desk" officers, rather than men qualified to command and subsist in actual field operations.

It is the desire and ambition of Mr. Root, the present secretary of war, to see thoroughly established a new and better army. He seeks this through the system of military education for officers, just outlined; through the militia bill; through the general staff bill, and through a more modern, efficient and comprehensive system in the conduct of administration.

This accomplished, he will immediately retire from the position of secretary of war. He will have left an indelible stamp on the military system of the United States such as has been left by none of his many great predecessors. Some of his guiding principles are: Create a maximum of efficiency at a minimum expense. Prepare for war in time of peace. Create a maximum of efficiency at a minimum expense. Prepare for war in time of peace. Create a maximum of efficiency at a minimum expense. Prepare for war in time of peace.

Unconsciously from group. During a sudden and terrible attack of group or little girl was unconscious. Dr. J. C. Root, Chas. Mich. One Minute Cough Remedy cured swelling and inflammation, cut the mucus and shortly the child was cured. Cough and lung troubles. Max Wurth, druggist.

Chief of Staff, State Medical Institute. Most blessed promise. This new discovery restores all men who suffer with any form of sexual weakness, resulting from excessive indulgence in sexual excesses, premature loss of strength and memory, weak back, varicose or emaciated parts. It gives the warmth, strength and development just where it is needed, and cures at once all the ills of the system. A simple and reliable remedy for all cases of sexual weakness, resulting from excessive indulgence in sexual excesses, premature loss of strength and memory, weak back, varicose or emaciated parts.
